Freedom of Information/
Privacy Office

Mr. John Young
CRYPTOME
251 West 89th Street
Suite 6E
New York, New York 10024

Dear Mr. Young:

Reference your Freedom of Information Act (FOIA) request dated March 29, 2001, for a variety of Army intelligence investigative dossiers; and our letter to you dated April 20, 2001, informing you that we were unable to meet the 20-day statutory time limit due to the volume of your request.

We have conducted checks of the automated Defense Clearance and Investigations Index and a search of the Investigative Records Repository to determine the existence of the Army intelligence investigative files you requested.

The enclosed records responsive to your request for "Czechoslovakia Intelligence Services, Sources, ZF400204W" were located. We have completed a mandatory declassification review in accordance with Executive Order 12958. As a result of this review, information has been sanitized and 149 pages of records are denied in their entirety as the information is currently and properly classified SECRET and/or CONFIDENTIAL according to Sections 1.3(a)(2), 1.3(a)(3), 3.4(b)(1) and 3.4(b)(6) of EO 12958. This information is exempt from the public disclosure provisions of the FOIA pursuant to Title 5 U.S. Code 552 (b)(1). It is not possible to reasonably segregate meaningful portions of the withheld pages for release. A brief explanation of the applicable sections follows:

Section 1.3(a)(2) of EO 12958 provides that information shall be classified SECRET if its unauthorized disclosure reasonably could be expected to cause serious damage to the national security.

Section 1.3(a)(3) of EO 12958 provides that information shall be classified CONFIDENTIAL if its unauthorized disclosure reasonably could be expected to cause damage to the national security.

Section 3.4(b)(1) of EO 12958 provides that classified information more than 25 years old is exempt from automatic declassification if it would reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States.

Section 3.4(b)(6) of EO 12958 provides that classified information more than 25 years old is exempt from automatic declassification if it would reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States.

We have sanitized information from these records to protect the personal privacy rights of individuals and the names of operational personnel. This information is exempt from the mandatory public disclosure provisions of the FOIA pursuant to Title 5 U.S. Code 552 (b)(7)(C). Of the 149 pages being withheld in their entirety under (b)(1), 78 of those pages also contain information exempted under (b)(7)(C).

Additionally, we have sanitized information from the records to protect the identity of confidential sources and sensitive intelligence investigative methodologies. This information is exempt from public disclosure pursuant to Title 5 U.S. Code 552 (b)(7)(D) and (b)(7)(E). The significant and legitimate governmental purpose to be served by withholding is that a viable and effective intelligence investigative capability is dependent upon protection of confidential sources and sensitive investigative methods. Of the 149 pages being withheld in their entirety under (b)(1), all of those pages also contain information exempted under (b)(7)(D).

The withholding of information by this office is a partial denial of your request. This denial is made on behalf of Major General Keith B. Alexander, the Commanding General, U.S. Army Intelligence and Security Command, who is the Initial Denial Authority for Army intelligence investigative and security records under the FOIA. You may appeal this determination to the Secretary of the Army. If you wish to file an appeal, you should forward it to this office. Your appeal must be postmarked no later than 60 calendar days from the date of this letter. After the 60-day period, the case may be considered closed; however, such closure does not preclude you from filing litigation in the courts.

During the processing of your request, documents were disclosed that originated with other government agencies. This office has no authority to release these documents; therefore, they have been referred, along with your request, for appropriate action and direct reply to you.

In addition, we are coordinating with other government agencies concerning the releasability of their information contained in the Army-originated records. We will inform you as to the releasability of the information upon completion of our coordination.

The amount of \$7,569.85 for the professional review, the reproduction of the first one hundred pages and the reproduction of the withheld pages has been waived. The reproduction cost of \$388.20 remains due and should be forwarded to this office in the form of a postal money order or certified check made payable to the Treasurer of the United States.

The remaining portions of your request are being addressed by separate correspondence.

If you have any questions concerning this action, feel free to contact Mrs. Holden at (301) 677-5488. Please refer to case #664F-01.

Sincerely,

for Gregory A. Eggleston

SUMMARY OF INFORMATION

1. (C)(U) On 23 August 1972, a Source, who has provided reliable information in the past, reported the following: In July 1972, Source was informed by a former acquaintance, [REDACTED] a Belgian citizen who owned the [REDACTED]

[REDACTED] that in June 1972 he had been approached by [REDACTED] a possible operative of the CIS. (B-3)

2. (C) On 9 May 1973, in response to request by this headquarters, an official Source, who has provided reliable information in the past, reported the following: In 1968, [REDACTED] first met a male, who introduced himself as [REDACTED] German citizen, employed by the firm [REDACTED] (NFI). At that time, both [REDACTED] and [REDACTED] were residing and working in the Belgian Congo. [REDACTED] attempted to recruit [REDACTED] to obtain technical and political information for him. Although [REDACTED] made two or three attempts to recruit [REDACTED] [REDACTED] refused each time. [REDACTED] had no further contact with [REDACTED] until June 1972, when [REDACTED] recognized [REDACTED] as a frequent patron of his business establishment [REDACTED] in Brussels, Belgium. [REDACTED] did not recognize [REDACTED] or, at least, pretended not to recognize him. [REDACTED] had purchased items on two or three occasions costing a total of approximately 20,000 Belgian francs (\$445.00). Since [REDACTED] had made no sign of recognition, [REDACTED] specifically asked [REDACTED] of his diplomatic status, explaining that if he could prove that he was not a permanent resident of Belgium, he could save 20% on the purchased items. At that time, [REDACTED] identified himself as [REDACTED] Czechoslovakian diplomat, and displayed his diplomatic card (C.I.E.) (NFI). [REDACTED] ordered [REDACTED] for which he paid 6000 Belgian francs (\$135.00). [REDACTED] attempted to receive permission from [REDACTED] to deliver the [REDACTED] to [REDACTED] residence; however, [REDACTED] declined the offer. [REDACTED] never returned to pick up the [REDACTED] and [REDACTED] has not seen [REDACTED] since. On 11 July 1972, [REDACTED] reportedly departed Belgium and returned to Czechoslovakia. 2. ~~(S)~~ Introduction

Source's first encounter with the Czech Security Police was [REDACTED] when he was visited at his home by two uniformed members of the Czech Police (Verejna Bezpecnost-VB). They were accompanied by a civilian for questioning at the district police headquarters (Okresni Sprava Verejne Bezpecnosti) OSTRAVA/VITKOVICE. At the police station Source was charged with assault, which he had committed a week prior to his arrest.

[REDACTED] Source pleaded guilty and was required to pay a fine of 150 Czech Crowns. After this incident Source learned that the civilian who arrested him was [REDACTED] the Chief of the State Security Section (Oddeleni Statni Bezpecnosti) at the District Police Hq OSTRAVA/VITKOVICE, Pohranicni Ulisti Street). Source was again picked up by [REDACTED] at his home and brought to his office for questioning. [REDACTED] was again wearing civilian clothes and was accompanied by two uniformed members of the Czech Police (VB). This time [REDACTED] identified himself to Source as an official of the State Security Police by means of a small metal badge (See Fig 1), which he displayed briefly before the arrest and verbally told Source: "State Security (Statni Bezpecnost) Come with us. [REDACTED] name.)". At the police station OSTRAVA/VITKOVICE Source was taken upstairs to a room on the 3d floor where he was interrogated by [REDACTED]. At this time Source was charged with participation in anti-Soviet activities during the Soviet intervention in CSSR in 1968. He was severely beaten by [REDACTED] and two policemen during the interrogation which lasted from 1700 hours until 0300 hours. Source denied all charges and was finally released to go home. [REDACTED] the third time Source personally encountered [REDACTED] he was stopped while driving his car in OSTRAVA late in the evening. There was a roadblock manned by several uniformed members of the Czech Police (VB). At the roadblock all vehicles were stopped and their occupants checked for identification papers and drivers' licences. [REDACTED] was wearing civilian clothes and supervising the inspection. He identified himself again to Source with his State Security Police badge (same as Figure). After this incident Source observed [REDACTED] on several occasions in OSTRAVA/VITKOVICE driving a red motorcycle JAVA 350 with police plates "B-13---". On all occasions [REDACTED] was wearing civilian clothes. The last time Source saw [REDACTED] was in [REDACTED] when he sold his car and was changing the vehicle's title at the District Police Hq OSTRAVA/VITKOVICE.

3. ~~(S)~~ Organization and Activity

Source could not provide details on the organization or activity of the Czech Security Service. Neither did he in 1969, 1970, 1971, or 1972 observe any signs reading "State Security Police-Statni Tajna Bezpecnost-STB) displayed on building or office rooms at the police headquarters in OSTRAVA/VITKOVICE. When questioned on the meaning of the term STB he stated that it meant "State Security Police however he was not sure whether it was an

(b) (7) (C)
On 15 December 1972, Source 22310233, a usually reliable confidential informant, furnished the following information concerning the recent visit to Panama made by [REDACTED] (b) (7) (C)

[REDACTED] arrived in Panama from Paris on 21 October 1972. He departed Panama on 3 November 1972 and traveled to Costa Rica (CR), El Salvador (ES) and Guatemala. He returned to Panama on 30 November and departed for Czechoslovakia on 5 December 1972. [REDACTED] stated reason for the trip was to check on [REDACTED] business already established in Panama and CR and to attempt to establish business contacts in ES and/or Guatemala. [REDACTED] stated that the business in Panama was doing well, that Farmazona, S.A., the Panamanian firm handling Czech merchandise, presently nets \$5000 monthly from [REDACTED] and its subsidiary, [REDACTED]. He stated that he had been unsuccessful in ES and Guatemala and felt that the timing was bad. [REDACTED] said that he had tried to tell his superiors that it was too near Christmas for this type of deal but they insisted that he try.

While in CR, [REDACTED] attended a social function given by the Czech Consul. [REDACTED] stated that, with the exception of the US and British, all the diplomatic community was present. He said that he had a long conversation with the Soviet Ambassador who was very interested in [REDACTED] travels and knowledge of Latin America. He said the conversation was finally ended when a Costa Rican official claimed the Ambassador's attention.

(b) (7) (C)
[REDACTED] stated that his son, [REDACTED] who has been stationed in Venezuela had recently "stepped on someone's toes" and for this [REDACTED] as well as the son, is in disfavor with the Czech government. [REDACTED] said that this would definitely be his last trip outside Czechoslovakia and that he had only been allowed to make this one because there was not anyone else they could send. He appeared very disaffected with the Czech government but stated that while many things displeased him, he was basically satisfied with the system since it offered security and this was all he now needed.

██████████ said that his other son, ██████████ who is a musician presently in Gdyna, Poland, would be traveling to Canada in January 1973. This trip would be in the nature of a cultural tour set up by the Czech organization CEDOK. ██████████ did not say exactly where or when this would be. He said that this son was not well trusted by the Czech government and that he could never take his wife with him out of the country. He said that the wife had to remain in Czechoslovakia as a sort of hostage and that this had not been true with either him or the other son.

AGENT'S NOTES: Reference is made to SOI's, prepared by this office, dated 21 October 1971 and 23 June 1972, subject as above. ██████████ was identified as an intelligence officer assigned to the Czech Mission in Caracas, Venezuela. ██████████ is the name used by both father and son and any differences used to clarify identification are unknown.

Information obtained from Source contained in this report was acquired by cross-examination. Source apparently had no intention of disclosing his association with the Czech STB to USI, because during the PIR stage of interrogation, Source answered in the negative all intelligence service data in the SS Special Annex. The PIR was made on 25 Sep 72.

2. (u) Benefits from Association with the STB

Source apparently profited from his contacts with the STB [redacted]
born 1919 in [redacted]

[redacted] Source denied ever having any STB missions, but he cultivated a regular relationship by meeting [redacted]
[redacted] or sometimes in other places in
TEPLICE. Source did not want to name. [redacted] by trade,

and became a career man due to his Communist Party membership and activity. He even attended the Political Academy in PRAGUE from 1964 to 1968. He was a veteran staff member of the TEPLICE STB HQ, located in the SNB police building, Vrchlickeho, until 1969. He then was transferred to USTI nad Labem, assuming the post of the Regional STB chief [REDACTED] directing the work of numerous STB County HQS. Prior to his latest assignment, he was specialized in the handling of industrial or any sabotage affairs in the county of TEPLICE.

The spouse (fnu) of [REDACTED] works in the passport department of the TEPLICE police HQ. [REDACTED]

[REDACTED] Regular Czech tourists had to wait several months until their background investigation was completed. In addition, normal Czech citizens, with no Communist Party ties, cannot simply travel as individual tourists to Western countries since the 1971 purge. [REDACTED]

Source's relations with the STB also explain his travel permit, which was promptly approved by the TEPLICE Military District Administration (OVS-Okresni Vojenska Sprava). [REDACTED]

[REDACTED] He received permission to travel in Aug 72. At first, Source was unable to explain this favor, but later on he admitted to the interrogator that because he was a protege of the [REDACTED] they probably fixed all his permits to travel to the West. Source, of course, did not know why he was so well treated, and he still denies that he received any missions to be carried out in W. Europe.

3. (b) Irregularities during Source's Basic Mil Svce

It is a basic CPA rule that the Czech signal corps inducts into service those who come from related trades, like electricians and electronic mechanics, who are easier to train as signal specialists than other people. [REDACTED]

[REDACTED] According to Source's statements, he was a soldier of good conduct, was knowledgeable, and performed monitoring duties in sensitive mil areas. [REDACTED]

[REDACTED] Both parties are under the roof organization "National Front" (Narodni Fronta). This explanation is more than doubtful. Promotions are based on the performance of the soldiers during their first year of service and after their training as specialists. Source was a good specialist, and having had no rank may indicate that he had other functions not indicated in his curriculum vitae. He had a close relationship with the STB [REDACTED] and possibly, he got Source into the signal intelligence service, though he was an "outsider"

as [REDACTED] but could have been a future willing tool of [REDACTED]. Source stated that he did monitoring, but it seems possible he was trained for other long-range signal intelligence missions which could be used at a later date after settling in FRG. This could be established by a more hostile interrogation. His unit was directly subordinate to the 5th Department of the Ministry of National Defense, and this department performs CI work, mainly directed towards the US Army in Europe and FRG.

It was also discovered that Source had been screened by his unit CI officers, who wore civilian attire during the initial interview. They became aware that Source had relatives in [REDACTED] and he was still permitted to serve with the most sensitive signal intelligence unit of the CPA. Source was unable to explain this.

5. ~~(S)~~ Escape Motives of Source

Source indicated in the PIR stage that his escape motives were poor living conditions and the lack of a chance further advancement in his professional career. On the other hand, he admitted that he lived in abundance, resigned from his civilian technician's job while in the military, exercising his freedom to do so (which is a doubtful statement), because the official labor employment agencies are in control of the vacancies in CSSR. After military service, he decided to work in the [REDACTED]

He was a functionary in the local trade union organization (ROH= Revolucni Odborove Hnutí), and was not bothered by any political purges. His reasons for escape seemed to be very vague, and the interrogator came

to the conclusion that Source might be a long-term "Sleeper", who possesses excellent and qualified knowledge of military signal intelligence as well as experience in monitoring FRG Army and US communication networks.

COMMENTS

(u)
~~(S)~~ Source

Source is intelligent, very alert, and highly eloquent. He was reluctant to discuss operational matters, and he demonstrated an uncooperative attitude in concealing his contacts to the Czech STB organs or staff members by not answering the intelligence service data positively during the PIR stage of interrogation. His knowledge of other subjects is routine and it is felt that Source is a security risk and should be interrogated by CI personnel.

radius than those radios used by the police. He often took this radio transmitter, which was approximately 25x20x10 centimeters in size, with a microphone in his automobile and would be gone for hours at a time. This was especially true at night. It was generally assumed in the neighborhood that [redacted] worked for the Czech Intelligence Services. Approximately one (1) year ago four (4) or five (5) military rifles and several rounds of ammunition were observed on the rear seat of his car. It was assumed that [redacted] had several contacts in the Federal Republic of Germany, since cars with West German license plates were observed parked at his house.

2. (S/NPD) Information on [redacted] First Name Unknown:

a. [redacted] was born in approximately 1917 and resided in OSTROV, Csl. Army, number unknown. He was small, heavy set, had gray hair and wore glasses. He often visited [redacted] the last time on 31 March 1972.

b. [redacted] was believed to be a contact person working for [redacted]. He drove a light-blue Ford sedan with unknown license number. It was believed the license number started with the letters "ESB."

3. (S/NPD) Information on [redacted] He was a resident of CHOMUTOV-OVCARNA (5010N-1240E/UR3360). He visited [redacted] the brother of the illegal border crosser, at his home in [redacted] in 1970 or 1971. [redacted] had been good friends in the past with [redacted] but they were not related. The unusual aspect of this visit was that [redacted] was allowed to take his whole family out of Czechoslovakia with him on his visit to West Germany. Normally this was not allowed.

4. (S/NPD) Information on [redacted] First Name Unknown: [redacted] who was a confirmed communist resettled to West Germany in 1968. Previous to this he had lived in OSTROV. [redacted] managed a milk products store in West Germany. His wife also worked there as a saleswoman. There had been advance knowledge of [redacted] resettlement to West Germany. This was very unusual. [redacted] has returned to visit OSTROV several times after resettling. He also visited [redacted]

5. (S/NPD) Unidentified Resident of OSTROV: An unidentified Czech citizen, who lived in the corner house on the Csl. Army and Sokolovska streets. A Soviet Officer regularly paid him a visit. The officer always arrived in a truck with a driver. The visit normally lasted three (3) hours. This Czech citizen allegedly was a secretary in the Czech Communist Party and was engaged in intelligence activities for the Soviets. He was approximately 40 years old, wore glasses and combed his hair to the rear. He had four (4) children from five (5) to 12 years of age. It was not known whether he had contacts with West Germany or whether he had already visited West Germany.

a. AA listed in para 1b and e above are used for sending normal messages in Secret Writing (SW) with cover letters.

(C) The information contained in this report pertains to contacts that Source, [REDACTED] had with the Czech State Security Service STB. Source had been of interest to the STB since she took up residence with her husband in Czechoslovakia, particularly after she moved [REDACTED]. Some of the contacts were in connection with travel or attempted travel of Source to West Germany. These contacts eventually led to a recruitment attempt [REDACTED]. Source was contacted by the chief of the STB office in [REDACTED] [REDACTED] who in this capacity was also the final authority to approve or disapprove her travel requests to West Germany. [REDACTED] was also interested in the husband of Source and wanted to know what he did during the years 1949 to 1955 when he lived outside of Czechoslovakia - something that Source knew little about herself. [REDACTED] established contact with the husband of Source after she had left Czechoslovakia on [REDACTED] - supposedly to visit West Germany - and it became apparent that she had no intention of returning.

b. Background Information on Husband of Source

2. STB Contacts in PRAGUE

Source had 6 contacts with the STB in PRAGUE. The first contact was at her home (). The agent gave his name and showed his credentials but Source did not remember this. He was about 28 years old at the time, 180 cm tall, slender, blond, and polite. He spoke German fluently. The same agent came to her home again in (), and met her "accidentally" 4 times in the streets when she was shopping in the (). He came to her home once more shortly thereafter, but only her husband was at home and he threw the agent out. In these contacts, the conversation was limited to polite small talk and the agent did not question her. Source heard from a friend that the agent was keeping Germans living in PRAGUE under surveillance. While residing in PRAGUE, Source made numerous attempts to obtain a Czech passport to visit West Germany, the first one (). Every application she made was disapproved without stating a reason. A visit to the office of () was without avail. An office secretary of the Czech leader told her to change her verbal complaint to a written one, which Source did not do.

3. STB Contacts in KOUNICE

a. Initial Contact

Source was contacted by the STB soon after she moved (). The initial contact took place at her home. The agent introduced himself as () and showed his credentials, which had his signature, written as () at the lower right corner. Source believed to remember that the credential was an approximately 8 x 8 cm white card carried in a transparent plastic cover. A passport-type photo of the agent was at the upper left corner.

There was a capital "V" followed by other lettering at the upper right corner, and SPIONAZNI POLICIE in capital letters in the center of the card. Source learned later that [REDACTED] was the real name of the agent, that he was the chief of the STB Office in NYMBURK County, and that he was born and lived in PODEBRADY (5009N-1507E) (WR0955). The first meeting was not more than a get-acquainted contact, but [REDACTED] did tell Source that it had been brought to his attention that the husband of Source had thrown the PRAGUE agent out of his home. [REDACTED] spoke to Source only in Czech, but she believed that he has at least some knowledge of German.

b. Subsequent Contacts

After the initial contact and until Source was able to travel to West Germany for the first time, [REDACTED] contacted Source about every 2 months. The meetings were brief, and all of them took place in the evening at the home of Source. [REDACTED] always managed to come when the husband of Source was not at home.

[REDACTED] He stated that they were completely in the dark concerning his activities in West Germany. Source told him that she knew nothing about this herself, but it was obvious to her that [REDACTED] did not believe her. Otherwise he kept asking why she had come to Czechoslovakia and how she liked it in the country. Source replied that her husband had wanted to return and that she was satisfied. When he came to her home, [REDACTED] always left his car with his driver at a distance and walked the rest. He always came with a driver and Source never saw [REDACTED] himself drive. He used different cars, all of them inconspicuous dark civilian vehicles with the "NB" (for NYMBURK County) on the license plate. The car he used mostly and which Source remembered was a black SKODA [REDACTED]

c. Travel Attempts

After moving to KOUNICE, Source continued her frequent efforts to obtain permission to visit West Germany. She had no success during the first few years, not even with visits to the offices of Czech leaders. [REDACTED] she was promised a written reply to her complaint at the office of [REDACTED]. The reply never came. [REDACTED] she was even able to get a few words in with [REDACTED] during one of his "meet-the-people" sessions. In a group meeting, Source told [REDACTED] about her lack of success in obtaining permission to travel. She told him that she had come to Czechoslovakia voluntarily and that she liked the country. [REDACTED] answered that she had talked differently before.

d. Issuance of Passport and First Visit to West Germany

[REDACTED] eventually revealed to Source why she had been denied a passport and permission to visit West Germany for such a long time. Her files contained the entry that she had made the remark [REDACTED] repeatedly in public. Source told the interrogator that she had indeed made this remark. At a later date, [REDACTED] told her that a German woman had reported her.

Source was finally issued a passport in [REDACTED] and with it received permission to visit West Germany. Her husband, who had applied for a passport to visit East Germany, received his at the same time.

After she returned, she was invited by [REDACTED] to come to his office in NYMBURK. He asked her how she had liked West Germany and where she had been. He again questioned her about the activity of her husband in West Germany. He further wanted to know if her husband had not given her a letter to take to West Germany or instructed her to visit someone. Source answered truthfully to the negative to both questions. The questions about the letter and visit [REDACTED] repeated before and after all subsequent visits Source made to West Germany. Source always gave him the same negative answer. [REDACTED] did not ask Source questions of a military nature in connection with this or her later visits to West Germany. [REDACTED] then continued to contact Source at her home under the same circumstances as before.

e. Second Visit to West Germany

Source made her second visit to West Germany in [REDACTED]. Her husband also made a travel application but it was disapproved. Before she left, [REDACTED] gave her a "mission". [REDACTED] He asked her not to write down the name. When she returned to Czechoslovakia, Source told [REDACTED] that she had forgotten the name of the woman.

f. Change in Frequency of Contacts

[REDACTED] did not contact Source for about 4 months during the Czech "spring" in the [REDACTED] and for about 2 months after the invasion of the country on 21 August 1968. In the summer [REDACTED] he had begun to see Source more often, about twice each month, a habit he resumed in [REDACTED]. He also became friendly and less official [REDACTED].

[REDACTED] where he met Source occasionally. To meet her there, he contacted her by telephone at her place of work. He impressed on Source not to mention to anyone who he was, because he was not known in KOLIN.

g. Third Visit to West Germany and Recruitment Attempt

[REDACTED] Source and her husband applied for a visitors visa to West Germany for the summer. The application of Source was approved, the one of her husband disapproved without reason [REDACTED]. Source went to the office of [REDACTED]. She complained that the application of her husband had been turned down again. She reminded him that she had been to West Germany twice already, and returned on both occasions. [REDACTED] said he knew that, but reminded her that her husband had not been with her then. [REDACTED]

[REDACTED] Both of them were required to sign the document; they did not receive a copy. [REDACTED] called Source by telephone at her place of work and asked her to go to [REDACTED] and wait in front of it. She would soon be met by a [REDACTED] driving a car with a KO (for KOLIN County) license plate. She was to enter the car quickly, because [REDACTED] was from KOLIN and known in the neighborhood and they should not be seen in public together. Source did as instructed, and [REDACTED] (which she later learned was his real name) drove her to NYMBURK, where they went to the office of [REDACTED]. In a short meeting, [REDACTED] acted only as witness. He did not talk once.

Source did not inform her husband about this or other "missions" assigned to her for fear that he would become angry. Source and her husband traveled to West Germany

He asked Source if she had been contacted by the "secret service" in West Germany. She replied that she had not, but it appeared to her that [redacted] did not believe her. He then asked her if her husband knew English and French. She replied her husband might have some knowledge of the languages, but that she did not know how well he spoke them.

He asked Source not to write down the number and under no circumstances to give it to anyone.

h. Meeting at STR [redacted]

The rest of the evening was social, Source was treated to wine, coffee and snacks.

1. Departure of Source from Czechoslovakia

Czechoslovakia tightened travel to the West. Under the new policy, only one visit per year to parents was allowed. Source wanted to leave Czechoslovakia for good, but planned to make it appear as if she were only going on a visit. It was impossible for her husband to leave.

[redacted] told her it was necessary for them to go to FRAGM to get the money, and said he would pick her up at home. [redacted] Source agreed.

Source talked it over with her husband and opinion of her husband, who advised her not to go through with the deal [redacted]

This was a common occurrence, and Source believed that the officials accepted it as a reason.

4. STB Contact of Husband of Source

After processing through refugee channels, Source settled in the middle of [REDACTED]. She had started to communicate with her husband by mail and telephone. From missing letters, it became obvious that their mail was being censored. Source, who should have returned to Czechoslovakia [REDACTED] wrote a letter intended to be seen by [REDACTED] a few days earlier. She explained that she was not returning to Czechoslovakia [REDACTED] saw the letter at his office [REDACTED]. He insisted that Source come back to Czechoslovakia, but he suggested to her husband that in case she had decided to remain in West Germany for a while on her own free will, she should write to the Czech Trade Mission in FRANKFURT/MAIN and request an extension of her visitor visa. They might grant a one-year extension. [REDACTED]

When [REDACTED] saw this letter, he told the husband to inform Source that she should apply for permanent resettlement to West Germany at the Czech Trade Mission, otherwise he (the husband) would not be allowed to leave the country. The husband had applied for an exit visa [REDACTED] but had been turned down. [REDACTED] tried to have the decision changed several times, but had been given to understand that he was wasting his time in no uncertain way. [REDACTED]

[REDACTED] had dropped all pretense of being a polished and charming individual; he had become brutal and threatening. In a letter dated [REDACTED] the husband wrote that he had been subjected to a horrible and long interrogation the day before. [REDACTED] had practically named him a spy. He was under constant police surveillance. He warned Source not to weaken and return to Czechoslovakia. She would be thrown into prison immediately. He also told her not to contact the Czech Trade Mission for anything.

5. Attempt of Husband to Leave Czechoslovakia

The husband of Source never had any illusions that he would be permitted to leave Czechoslovakia legally. He merely went through the motions of trying. [REDACTED] passport sect [REDACTED]

Out of this accidental meeting developed a regular correspondence in German between Source and [REDACTED] who invited Source to visit E Germany. Following this advice, Source submitted in Fall 1960 a travel request at the Travel Branch of the Czech Youth Political Organization (UV-OSM - Ustredni Vychor - Ceskoslovensky Svaz Mladzeze) (Central Committee of the Czech Communist Youth), PRAGUE, Jandrikova Ulice. At that time, this youth organization planned a 14-day trip [REDACTED] who should tour the coastal areas of E Germany in summer 1961.

1. [redacted] Source was notified in writing by the Travel Branch of the Czech Youth Organization that his trip to E Germany was cancelled. He received no explanation of this trip cancellation, and Source verbally complained at the travel branch in [redacted]. An unknown clerk was unable to furnish a satisfactory explanation to Source, and the clerk referred Source to the local administration of the Ministry of Interior (Ministerstvo Vnitra), PRAGUE, Bartolomejska Ulice. There, Source again made futile attempts to learn details about cancellation of his [redacted] trip to E Germany. An unknown administrator finally referred Source to the Ministry of Defense (Ministerstvo Obrany), because Source was [redacted] and latter ministry was supposed to be able to answer Source's complaint. The unknown administrator handed Source an address, telling him that there is a branch of the Czech Army General Staff (Generalni Stab Armady) which would accept Source's complaint.

Back at the military air base PRAGUE-Klecany, Source waited in vain for the interview with his commander. Three days later, still in [redacted] Source went on his way to the air base messhall, where [redacted] the regimental CE officer (Dustojnik VVR - Vojenske Kontra Rozvetky a Zpravodajstvi), joined Source and escorted him about 200 m up to the entrance of mentioned messhall. During this short walk, [redacted] notified Source that [redacted] security officer of the Air Base Aviation Service Bn (Letistni Prapor), PRAGUE-Klecany, PBN: 8148 (this airfield was deactivated in summer 62, and all units moved to the air base PRAGUE-

Kbely), would contact Source very soon to settle his personal problems.

[redacted] whom Source knew from various official meetings at the regiment, called Source at his flight office, and he made an appointment for the next Friday, 1700 hrs, to meet in front of the U/I Air Force Barracks, PRAGUE-Karlin, Ulice Krizikova (for exact location, see Figure 2).

When Source met [redacted] that Friday in [redacted] he guided Source into an office located in an unknown wing of the Karlin Air Force barracks compound, which also contains a central radio monitoring station for Western transmissions, as stated later on [redacted]. This compound also included the central flight control for all military aircraft, and according to hearsay from senior military pilots, also all military flights over CSSR territory are supposed to be planned there.

The office room was commonly furnished, and when Source entered it he observed an unknown Air Force Major, one Air Force Capt, another officer, and three U/I civilians. [redacted] introduced Source to this group of six persons who disclosed at the beginning of the initial interview a hostile and aggressive attitude. Source felt to be before a military court. The unknown Major opened the conversation with Source, and without a great preparation, the officer accused Source of escape plans owing to Source's pending divorce from his first wife [redacted].

(DOB: [redacted] POB: [redacted] and owing to his great interest to tour E Germany in [redacted]. The officers and civilian interrogators also revealed their knowledge of Source's efforts to learn the German language at a Prague Language School, and they knew of the entire correspondence with [redacted] whose letters they cited to Source. The people were also aware of Source's Western relatives, particularly of his [redacted] resident of [redacted] whom Source indicated in his Czech Army personnel questionnaire when he volunteered for his service. The [redacted] did not mention Source's [redacted] resident of [redacted] whose existence Source concealed in his questionnaires ever since.

The [redacted] urged Source to admit his escape plans via E Germany to W BERLIN, and the Major, who was the chief speaker, mentioned that American agents operate from W BERLIN, and that they are looking for flying personnel from East countries. The Major also cited that Eastern military pilots can be kidnapped during their sight-seeing tours in E BERLIN. The [redacted] sketched the duties of a Czech officer who should assist in defeating such Western and imperialistic agents, and when Source persistently denied having any escape plans, the group became friendlier. Alternately, the officers began to flatter Source with phrases like: "We need your type of personality for fighting Western spies" or "You can now prove your devotion to our socialistic country." When Source followed then the request to work for the Czech Army CI service, because he feared loss [redacted] the [redacted] accosted Source with "Comrade" (Soudruhu), and their hostile attitude turned into buoyancy.

The whole session took about two hours. Source was then released without great formalities, and [redacted] escorted Source out of the barracks compound. [redacted] departed alone to his unit, after instructing Source to wait for a call of his regimental CI officer, [redacted].

a. Informant Duties for [redacted]

It was early in [redacted] when [redacted] called Source, [redacted] requesting him to be at about 2100 hrs at the Castle of Klecany (Pt 3, Fig 3). It was their first meeting after Source's session at PRAGUE-Karlin.

After this meeting at dusk, [redacted] did not like meetings in his regimental office, or conversation on the air base at day time, Source followed the

the CI officer from the Klecany Castle to an operational room, located in an annex building of a villa on N outskirts of village of KLECANY, and S of the air base. (See Pt 1, Fig 3). The 3 x 2.5 x 3 m room was on the ground floor, and it contained only two chairs, a desk and a lamp. The key to this room was deposited in the office of an unknown dentist who had a treatment room on ground floor of the lonely villa, and his apartment on upper floor (s). Source heard from [redacted] that the owner of this villa was [redacted] (phonetic pronunciation), who worked as a physician at the Prague Public Health Office (OUNZ - Okresni Ustav Narodniho Zdravi), Klimentka Ulice, number unknown. This [redacted] was allegedly a strong supporter of the present Czech regime, and he knowingly made the annex building available for [redacted]

During this first meeting in [redacted] Source was told his future functions. [redacted] explained his ideas of how to utilize Source. [redacted] planned to furnish Source with money, and let Source act as a "Bite" [redacted] called it "Tyk", an abbreviation of "Tykadlo" - tentacle) for Western spies in entertainment establishments of PRAGUE. Source should wear his [redacted] uniform, patronize bars and night cafes where Westerners commute, and gradually build up information channels through Czech female entertainers, prostitutes and other girls who would seek Source's company and be inquisitive about Source's military career and duties. [redacted] planned in positive cases to furnish Source with false military information in order to keep contact with hostile agents in PRAGUE. This initial meeting with [redacted] lasted about one hour, and at the end of Source's indoctrination, Source was requested to write an obligation on a plain sheet of paper. This obligation was dictated in Czech by [redacted] and it contained the following essentials:

"Source agrees to work voluntarily for the Czech military CI service; he will never reveal any information acquired during his missions; and that he is willing to accept a cover name."

[redacted] left it up to Source's discretion to choose such a name, and Source decided for [redacted] (it is a colloquial name of [redacted]). He signed the obligation with [redacted] using quotation marks. (All his following reports were also signed with this name in quotation marks.)

The next four meetings were held at weekly intervals at the same operational room in the annex building of the villa at KLECANY. Prior to each meeting, [redacted] telephoned Source at his [redacted] requesting him to come at dusk at their mutual meeting place. None of these meetings lasted over one hour, and Source's duty was to supply written biographic information on his father, who is a veteran Communist and alleged informant of the State Security Service (STB - Statni Tajna Bezpecnost) in PRAGUE, as stated and confessed by father himself. Source also sketched father's political views and attitudes of [redacted] of his friend [redacted] presently working as an [redacted] in a Czech Research Institute for [redacted] Equipment; on [redacted] presently married to a [redacted] and residing at SCHAFFHAUSEN, Switzerland; on [redacted] whose brother manages an enterprise in LONDON, England; on Source's god-father [redacted] former industrial manager and factory owner, and father of [redacted] presently residing at WIESENFELD, Austria. [redacted] settled at WIESENFELD 10 years ago, now runs a restaurant there, [redacted]

Source also supplied biographic data on his father-in-law, and father of his second divorced wife [redacted] (DOB: 1908) resident of [redacted] and whose anti-Communist attitude was allegedly known to [redacted] is now [redacted]

Source completed these hand-written biographic reports by end of Aug 61, and was to commence with his practical work as a "Bite" in Sep 61. However, he claims to have convinced [redacted] about his incapability and clumsiness in handling delicate CI missions during his night life in PRAGUE. He also pointed out his physical stress to be exposed to it when performing his regular [redacted] at day time, and work as a spy catcher at night time.

[redacted] allegedly accepted Source's objections, and in lieu of these night duties, he ordered Source to spy [redacted] at the 50th

Aviation Liaison Regiment. Source started this activity in [redacted] and delivered short hand-written reports on various officers and EM almost every week, until [redacted] departure in [redacted]. During the final [redacted] meeting at KLECANY, [redacted] gave Source a three-digit telephone number of his office on the Klecany Air Base. Whenever Source completed a report, he called up this number, and [redacted] made an appointment with Source at the "Sverma" Bridge (Most Svermuv) in PRAGUE-City. From there, Source followed the Lt at a distance of 15 m until he reached a new operational apartment in PRAGUE, Hradebni Ulica, number unknown. (See Figure 4). This apartment looked like an office, and was on 4th or 5th floor of a multi-storied, pre WW II administration building. Source assumes that this building contains office only, because he did not observe any private apartments with door names. [redacted] had a key to one room, which was poorly furnished with a few chairs, a desk, a lamp, and a telephone (number unknown). The meetings took place here always at dusk, after Source's duty hours, at weekly intervals. There, Source prepared short, hand-written reports on political views and general attitudes of [redacted] whom Source met on his air base during the past week. [redacted] was mainly interested in opinions of the officers' corps at the Klecany air base concerning articles in the Czech Communist newspapers "Rude Pravo"; the officers' reaction on governmental policy; and their opinion on international politics. Source claims that he had supplied only very vague statements [redacted]. He claims he never supplied information on contemplated defections, anti-regime remarks, planned sabotage acts or on related inflammatory and rebellious cases.

Upon the request of [redacted] in Oct/Nov 61, Source was to supply information on [redacted] Air Force Capt and helicopter pilot of the 2nd Flight, which is equipped with helicopters MI-4. [redacted] was known to [redacted] as a close friend of the chief of Sabena (Belgian) Airways Company, which maintains a branch office at PRAGUE, Prikopy. The Czech CI suspected [redacted] of releasing air force information to the Sabena manager. Source claims to have reported his knowledge on [redacted] who voluntarily related information to Source about [redacted] contacts with the Sabena manager. These contacts were rather personal, and [redacted] never released any incriminating information to Source, who was his room-mate at that time. Source stated that he never investigated [redacted] relations to his Sabena friend, but collected only statements made by [redacted] himself. Source wrote these statements in form of short, hand-written reports, signed them with [redacted] and turned them over to [redacted]. These reports mainly contained places where [redacted] and his Sabena friend were seeking night entertainment.

In Dec 61, and Jan/Feb 62, Source's weekly reports dropped to occasional telephone calls made by Source to [redacted] office on the air base. Source claims that he, during this period, limited himself to general reports on EM who were complaining about bad food, and on some Junior officers, who made derogatory remarks about their superiors, [redacted] and [redacted], both flight commanders of the 50th Aviation Liaison Regt. These junior officers entitled their superiors "Oxen" (Voli).

In Apr 62, [redacted] stated to Source that he was to become a civilian CI official, and Source assumed that he was transferred to the Czech State Security Service (STB). After [redacted] discharge, Source met him once in [redacted] at the Military Housing Area, "Sidliste Pokrok" (Settlement Progress), PRAGUE-Klecany, where [redacted] still seemed to reside. At that time [redacted] wore civilian clothes, and he did not discuss any CI business with Source.

b. Informant Service for CI [redacted]

Prior to [redacted] departure, he telephoned Source at his flight office and ordered Source to meet him in front of the air base canteen "ARMA". It was a before noon, a regular working day in Apr 62. In front of the canteen, [redacted] introduced Source to [redacted] who succeeded [redacted] as regimental CI officer. [redacted] came from an u/i unit, and was not known by officers and EM of the 50th Aviation Liaison Regt, PRAGUE-Klecany. Later, [redacted] was promoted to Major; Source believes it was in Mar 63. He did not change the telephone number (which could not be recalled by Source) of his regimental office, but he ceased personal meetings with Source in operational apartments (Fig 3 and 4) used by [redacted].

[redacted] preferred to be called by Source while he was on duty. Source dialed a three-digit regimental number, and when [redacted] answered the call, he asked for an appointment in Major's office. Prior to entering Major's office, Source assured that no person loitered in the hallway, then Source surreptitiously visited the CI Major to supply him with short, hand-written reports on general political views and feelings of [redacted]. Source could not recall the names of persons he reported on, because these officers or EM were new in the unit, and their remarks were more insignificant than derogatory. Source stated that he supplied about 10 written reports at irregular two or three week intervals, and all these products were signed by his old cover name [redacted]. After the turn-in of his reports, Source held the opinion that [redacted] eventually has lost interest in Source's informer service, because the individual meetings in Major's office became rarer month by month.

In late Fall 62, Source's activity for [redacted] ceased almost abruptly, when [redacted]

[redacted] Source did not report this incident to the CI [redacted] though he was obliged to do so. However, [redacted] received knowledge of this incident apparently through another informant (Source estimated that every second or third member of the 50th Regiment was working as an informer for the base CI. In Nov 62, Source was reproached by [redacted] in his office for omitting reports [redacted]. Source came to the conclusion that [redacted] lost confidence in Source's loyalty, because he never tried to assign Source any missions between Nov 62 and Source's discharge on [redacted].

After this incident, Source himself attempted to get rid of his CI informant duties. In Dec 62 and Jan 63, Source followed an invitation of the Czech Air Force [redacted], who is also deputy of the Czech Ministry of Defense, [redacted]

On this occasion, [redacted] gave him a telephone number and his private address at PRAGUE, and he encouraged Source to see him when Source should be in trouble.

Source telephoned the General in Dec 62, asking for an interview. He met [redacted] at his home in [redacted]. The apartment building is lined with white tiles. It is opposite the State Saving Bank (Statni Sporitelna), near the trolley bus halt of line # 54.

It was in [redacted] when the 50th Aviation Liaison Regt underwent a reorganization, and it moved gradually from the outmoded air base of KLECANY to PRAGUE-Kbely. During that time, the Regt CO notified Source that his request for discharge was approved by the Air Force chief, [redacted], who ordered his discharge [redacted].

Shortly before this date, the regimental CI officer, [redacted], called Source into his office where he let Source sign another obligation, containing in general the following statements:

"The undersigned becomes aware of prosecution if violating the Czech CI security directives. He agrees to honorable laws of his professional discretion, and will never release any information about his past CI missions. The

2. (C) Source's Acquaintanceship with [REDACTED]

In the course of the three weeks, Source learned from [REDACTED] that he was born at the nearby farming community of NEDANOVCE, and built his home there in summer 1964. At that time, [REDACTED] resided with his 15 year younger wife [REDACTED] (her calling name, not first name, which is unknown) and his two sons (fnu) (3 and 5 years of age) in a small two-room apartment of third floor of a tenement block adjoining the E side of the swimming pool area. (See Figure 1, Location of [REDACTED] Apartment).

During their daily conversation, [REDACTED] reported voluntarily his biographic data to Source. [REDACTED] mentioned that he learned a commercial trade at the Bata-Shoe Concern, ZLIN (now GOTTWALDOV) prior to 1945. After WW II, [REDACTED] frequently made trips to unspecified foreign countries for the shoe concern. In 1948, after the Communists seized power, upon his return from a business trip, he was arrested at the airfield in PRAGUE for crimes unknown to him, as he stated to Source. After apprehension followed an imprisonment for about a year in an unknown prison without a trial or specification of his crimes. Then, [REDACTED] was transferred to the uranium mines at JACHYMOV, where he performed forced heavy labor, mining uranium ore until his discharge in 1955/56. Owing to a president's decree, [REDACTED] was allegedly rehabilitated. Source was unable to determine [REDACTED] guilt, as [REDACTED] himself portrayed his imprisonment and forced labor as a victim of political purges made among the Bata-personnel after the seizure of Communist power in CSSR.

In 1955/56, [REDACTED] returned to his native town and became swimming pool administrator and life guard at PARTIZANSKE. The swimming pool is a recreational facility of the Shoe factory "Zavody 29 Augusta" (former Bata-Concern), and [REDACTED] is salaried by subject plant.

[REDACTED] has many acquaintances among workers of the shoe factory, for whom he sells new shoes to private clientel under official prices. Source assumed that these products were stolen, and that [REDACTED] built his family house from profits made through his illegal shoe sales.

3. (C) First Contact with the Local STB-Official

[REDACTED] when one night at 0200 hours three policemen of the regular force (ORP - Sbor Narodni Bezpecnosti) and two U/I civilians knocked on the door of Source's room, demanding entry to check the ID booklet of Source. [REDACTED] During the check, one of the U/I civilians introduced himself as chief of the local STB Hqs; he mentioned a name, but Source forgot it. This STB-official wanted to know more about Source's presence at PARTIZANSKE, and invited Source to

his STB office the next day at 1400 hours. The STB-office is located on ground floor of the town administration building (ONV-Okresni Narodni Vybor), and its windows face the yard. The entrance to this building is from the main square in PARTIZANSKE. (See Figure 1) The front of the building is occupied by the SNB-local police precinct, and by a savings bank. The remaining floors of the pre-WW II building are occupied by the town administration.

Source appeared at the STB-office, and stayed there for about two hours. During this time, the STB official interrogated Source on his professional background and curriculum vitae. He also asked Source whether he previously worked for STB; when Source mentioned his informant activities for the military counter-intelligence service at his former unit, 50th Aviation Liaison Regt, PRAGUE-Klecany, from [redacted] to [redacted] (See special rpt on this subject, numbered 2218 0055 66, entitled: "Informant Activities for Czech Army CI Service") the official was very satisfied, and requested Source's help in general. The STB-official typed Source's statements on his personal background, and let Source sign his full name. Then he commenced questioning Source on [redacted]. He wanted to know everything on [redacted] activities since Source's arrival at PARTIZANSKE. Source replied that he had pure personal contacts to [redacted] and that they became good friends through sports. The STB official began to portray [redacted] as a former Western spy, ridiculing Source for his naive belief in [redacted] story glorifying his innocent imprisonment and hard labor in uranium mines until 1955/56. Contrary to this story, the STB-Official stated the [redacted] was allegedly recruited shortly after 1945 by a Western intelligence service (presumably US) while staying at MUNICH, Bavaria, W Germany. [redacted] allegedly travelled frequently to CSSR, carrying out missions for the Western intelligence service. However, [redacted] and a related gang were arrested in 1948 on espionage charges against CSSR.

After discharge [redacted] promised Czech authorities to marry, raise a family at his native residence, and in the future reject anti-Communist attitudes.

The STB-Official requested Source, after his brief introduction into the [redacted] case, to establish [redacted] bona fides, to try him out and to state whether [redacted] was still a potential spy against CSSR. The official justified his request with the hint that an U/I American tourist - a former Slovak from NEDANOVCE who had emigrated to the US in Jun 64 visited his native village, and also his friend [redacted]. The STB official was highly interested in [redacted] communications with this U/I American-Slovak, and whether [redacted] received American currency in large amounts.

Source agreed to provide the STB-official with the desired information. Source did not sign any formal obligation, except his curriculum vitae. No cover name was assigned to Source, who was requested by the official not to discuss this matter with [redacted]. The official gave Source his four-digit telephone number to call in case of emergency, then Source was released.

4. ~~(S)~~ Second Contact with the Local STB-Official

A week later, early in Aug 64, the U/I STB-official called [redacted] paging Source to the phone and ordering him to see the official the next morning at 0900 hours in his public office.

Upon Source's arrival, the official asked Source about his progress, and when Source excused his inactivity in the [redacted] case due to lack of time, the official pressed Source into immediate action, by designing the following trap for [redacted]. The official wanted Source to borrow [redacted]

[redacted] Then Source should invite [redacted] and his wife to Source's room [redacted] to make them drunk; and then to discuss the special [redacted] to be spread out on Source's bed. Source's task was to observe [redacted] reaction, his interest in these [redacted] and to recall what questions [redacted] asked after seeing these [redacted]. After these one-hour instructions, Source was released and requested to complete his mission within 14 days.

5. (S) Source's Working Method

When Source returned from his second meeting with the STB-official, he immediately informed [redacted] about the request. Source told him also about his first meeting, because they were friends for years. However, Source did not warn [redacted] though they were very friendly to each other. Source was willing to carry out the STB mission under all circumstances, because he feared retaliations, if he failed.

Following the plan of the STB-official, Source asked [redacted]

[redacted] vindictiveness is based on a 1962 incident when the STB in PRAGUE accused [redacted] of adultery and he had to quit his position with the VIP Wing of the Ministry of Interior (Letka Ministerstva Vnitra) after a 17-year service.

[redacted] Personnel in this wing needed high morals, and when [redacted] wife reported him to the STB for alleged adultery, the STB took immediate action and he lost his job.)

Source was not aware that [redacted] had warned [redacted] tipping him off about Source's STB mission. Source only wondered about [redacted] sudden reserved attitude toward him when the trio was swimming. A year later, [redacted] told Source the truth about Source's futile efforts in the [redacted] case.

When Source invited [redacted] the latter politely accepted for the coming weekend. Source prepared [redacted] that Saturday night in late Aug 64, and was waiting for [redacted] in Source's room at the [redacted]. Instead of [redacted], his wife [redacted] appeared in Source's room, telling Source that [redacted] preferred to have a drink at the beer bar of the community club, not in Source's room. Source then joined [redacted] his wife and [redacted] downstairs. After a few drinks, the party departed home. Source was unable to carry out his STB mission as requested.

6. (S) Last Meeting with the STB-Official

The second week after Source's last meeting with the STB-official early in Aug 64, Source visited the STB-official in his public office. Source reported there during regular office hours that he had no indications about [redacted] spying activities. Source reported that [redacted] behaved all the time very indifferently, was not inquisitive about Source's mission [redacted] and that Source was unable to supply any information on the American tourist who visited [redacted] at his native village,

The official typed this brief information, and let Source sign this statement. Then Source informed the official [redacted] for a new assignment. The official released Source in a friendly manner, and they never met again. Source claims to have never received any monetary compensation for his STB service, nor any other privileges. It was Source's only assignment for the local Czech STB.

During his two-year military service as a conscript of the Czech Air Force at the airfield RUZYNE, near PRAGUE, from 1958 to late 1959, he did not acquire any rank. Early in 1959 he was shot in his left or right leg, hospitalized at the Czech Army hospital, PRAGUE-Stresovice, until Feb 59, and was discharged for medical reasons in Oct 59. Source's acquaintance, ██████████ who served with ██████████ at the same installation and at the same time, told Source that ██████████ shot himself in the leg with a submachine gun in order to obtain an early discharge. ██████████ boasted to friends and acquaintances that he was shot during a search campaign for saboteurs at the airfield of RUZYNE.

4. (S)(U) Political Affiliations

██████████ is an active member of the Czech Communist Party (KSC) since 1957 or 1958. He is an ardent follower of the present regime in CSSR.

5. (S)(U) Professional Career

Prior to his active military service from 1958 to Oct 59, ██████████ worked as a security official in unidentified uranium mines of JACHYMOV, QSSR, and was responsible for anti-sabotage measures. In spite of his geological studies, he never worked in that field.

In 1960, ██████████ allegedly became member of an unidentified section of the Czech counter intelligence service in PRAGUE (Kontrarozvedka) for which he still works as a civilian official. No information on position, superior offices, type of missions, and communication channels. Source believes that ██████████ works under the Ministry of Interior in PRAGUE.

6. (S)(U) Character of ██████████

He is not an intellectual, but very clever; talkative. He has a tendency to exaggerate and overestimate his personality. He is becoming a drunkard.

7. (S)(U) Source's Contacts to ██████████

5 USC 552 (b) (1)

██████████ At that time, ██████████ family resided at ██████████ number not recalled. Source became acquainted with Subject during this ██████████ and he maintained loose contacts until Subject went to the Uranium Mines at JACHYMOV, in about 1957.

In Apr 59, Source met Subject in a Prague streetcar, and learned from him about his military service, and the story of his wounded leg. Subject married early in 1960, and he invited Source to visit him at Subject's new home, located in ██████████ number unknown. Source states that he had no intentions to maintain any friendly contacts with Subject, but when Subject called again, Source visited Subject's apartment in Nov 1960. Subject was home with his wife; they served drinks, and when Source inquired about Subject's present activities and type of employment, Subject admitted to Source that he works as a civilian official for Czech counter intelligence ("Kontrarozvedka"). Further identification was not given by Subject. During Source's visit, Subject received a telephone call; he picked up the receiver and just said "Go on", and he listened to the speaker, without introducing himself. The content of this telephone conversation is unknown to Source.

NO FOREIGN DISSEM

(REFERENCE DIAM 6B7) On 17 October 1964, Source 13,157 reported the following information regarding SUBJECT:

[REDACTED] born approximately 1925, Austrian citizen, permanent residence allegedly in Muerzzuschlag/Steiermark (nca), Austria, presently residing in Rheydt/Rheinland (LB2071), German Federal Republic (GFR), trade representative, is suspected of possibly being associated with the StB (Statni bezpecnost - Czechoslovakian State Security).

CARDED

On 29 August 1963, [REDACTED] was released from the Czechoslovakian (CSSR) Prison at Ilava (BV9831), CSSR, after serving five years of a six year sentence for smuggling.

According to [REDACTED] graduate engineer, residing in Leonding (nca), Upper Austria, who had also served in the prison at Ilava, SUBJECT was allowed to remain in the CSSR for some time after HIS release from prison. According to [REDACTED] this was an unusual occurrence, as prisoners are normally returned to their country of origin immediately after release. In SUBJECT's case HE should have been expelled expeditiously to Austria. However, after HIS release from prison, SUBJECT reportedly came into contact with an unidentified member of the Austrian consulate in Prague (VR6048), CSSR, and had also maintained contact with the StB.

[REDACTED] stated that [REDACTED] had stolen a drawing of an electrical power plant apparatus made by [REDACTED] while in prison, and for which he was to apply for a patent. According to [REDACTED] he gave the drawing to SUBJECT upon HIS release from prison in August 1963, with the understanding that HE would deliver it to [REDACTED] wife who was residing in Austria. [REDACTED] believes that [REDACTED] turned the drawing over to Czechoslovakian authorities. In any case, the drawing disappeared.

In April 1964, after his release from prison, [REDACTED] attempted to locate SUBJECT, who was reportedly residing in Muerzzuschlag. This attempt was unsuccessful, and [REDACTED] learned that SUBJECT was in East Germany at that time. [REDACTED] then turned the matter over to his lawyer, [REDACTED] in order to locate the drawing.

WARNING NOTICE - SECURITY INFORMATION AND METHODS INVOLVED

On 8 October 1964, SUBJECT, [REDACTED]

SUBJECT stated substantially as follows:

During a telephone conversation with HIS father on 19 September 1964, SUBJECT's father mentioned that he had received a letter from [REDACTED] and that [REDACTED] had fled the CSSR and was presently in France. SUBJECT later learned, during a visit with HIS father in West Berlin [REDACTED], that [REDACTED] had been on vacation in Yugoslavia where he had met a French citizen. This Frenchman had his family with him and capitalizing on the fact that [REDACTED] family and the French family were similar in composition, [REDACTED] used the Frenchman's passport to pass through the border controls out of Yugoslavia. Later, through some manner unknown to SUBJECT, the passport was returned to the Frenchman who was able to use it to come out himself. [REDACTED] thereafter journeyed to France, possibly Paris, and wrote to SUBJECT's father requesting money to be used to immigrate to the United States. SUBJECT's father sent [REDACTED] approximately 500.00 DM. SUBJECT could supply no further information. SUBJECT's father did not state what [REDACTED] present address is, and SUBJECT was unable to broach this question without appearing overly curious concerning this matter.

AGENT'S NOTES: [REDACTED]

[REDACTED] was later arrested by Czechoslovakian Intelligence and sentenced to eight (8) years in prison. It is not known if [REDACTED] employment by hostile intelligence was a determining factor in this arrest but there was never any indication that SUBJECT or HIS father were involved with [REDACTED] arrest.

RE: PERSONALITIES

NO FOREIGN DISSEM

██████████ noted that SUBJECT seemed very disturbed about something and contrary to HIS usual practice, SUBJECT left immediately upon completion of the transaction. ██████████ claims to have been arrested by the Czechs on the afternoon of the same day and maintains that SUBJECT knew of the warrant for ██████████ arrest which had been issued on 11 July 1961. Later while in prison, ██████████ claims to have met a ██████████ born ca. 1930, representative of the Schoeller Bleckmann firm, who supposedly had been arrested for attempting to smuggle a valuable painting across the border from the CSSR to Austria. ██████████ claimed to have been a close friend of SUBJECT and stated further that upon his arrest, ██████████ had been questioned at length by the STB regarding Austrian Embassy members in Prague with special reference to ██████████ born ██████████, former Austrian Consul in Prague. ██████████ allegedly claimed that the STB showed no interest in SUBJECT, whose name was never even brought up.

(Reference DIRM 6B7) On 18 May 1964, Source 13,157 provided the following information regarding SUBJECT:

[REDACTED] born [REDACTED] Austrian citizen, graduate engineer, manager of the former machine factory Storek in Linz (VP4750), Austria, was arrested in the CSSR on 12 July 1961 for economic espionage and was held in various prisons in the CSSR until 29 April 1964. Regarding HIS arrest, sentencing and sojourn in the CSSR, SUBJECT gave the following statement:

SUBJECT was employed as a manager for the Firm Storek, which was owned by HIS father-in-law, Ernst Gottwald, graduate engineer, who is allegedly still in prison. Until the end of World War II, this firm was located in Brno (WS3317), CSSR, and has since been re-located in Linz, Austria. SUBJECT took numerous trips to the CSSR, not so much for HIS firm, which has dealings with Stroy Import, Prague (VR6147), CSSR, but primarily as a representative for the Austrian Trade Delegation.

On the occasion of one such trip in 1957, SUBJECT visited Gottwald to determine from him where the construction plans for the firm Storek were placed when the plant was moved to Austria. At this time, Gottwald, who was employed at the Zdar Works, discussed details of his job with SUBJECT.

In 1959, when SUBJECT was at the Brno fair, in connection with the operations of Stroy Import, HE was approached by two men, who acted secretly and identified themselves as "CIC" agents. Each presented credentials of a CSSR ministry and stated that these served simply as cover. They spoke provocatively against the CSSR regime and attempted to induce [REDACTED] to make similar statements. During the interview, one of them suggested that HE meet another associate the next day, to obtain further instructions concerning their mutual work.

[REDACTED] decided to deceive the two alleged "CIC" agents and contacted one [REDACTED] a Czech, who at that time was working as a translator on the Austrian exhibition staff at the Brno fair. [REDACTED] caused the two to be arrested. SUBJECT also allegedly reported this matter to [REDACTED] representative of the Federal Domestic Industrial Affairs Section, Vienna (XF0040), Austria.

In September 1960, while on a business trip in the CSSR, [REDACTED] was taken to the SNB (Sbor Narodni Bezpecnosti - National Security Corps) station, where three employees of the STB were waiting for HIM. HE was told that paternity charges had been brought against HIM by a [REDACTED] cook at the Hotel Koruna, Topolcany (BU9182), CSSR, who was the mother of the child.

They further explained that if [REDACTED] were prepared to serve the CSSR, they would help HIM. If HE refused, they would inform the appropriate court in Linz. [REDACTED] claimed that it was impossible for HIM to have fathered the child, inasmuch as HE had not been in the CSSR since October 1960, and the child was 11 months old.

A few days later, [REDACTED] was visited by [REDACTED] the mother of HIS alleged child. She told HIM that she had borne an illegitimate child and that she had been invited by the STB (Statni Tajna Bezpecnosti - State Secret Police) to name the father of the child, which she refused to do. Thereupon, the STB representatives informed her that [REDACTED] would be named the father of the child and through her cooperation, she would be serving the Czech republic and the Czech people. She departed, after warning [REDACTED] not to tell the Czech authorities about her visit.

In July 1961, SUBJECT again revisited the CSSR in the course of a business transaction. On 11 July 1961, HE reported the blackmail attempt to the Trade Attache at the Austrian Embassy in Prague, but the attache treated the matter as a trifle and told SUBJECT not to take it seriously.

On 12 July 1961, SUBJECT was stopped and arrested approximately 20 kilometers outside of Prague on HIS way home to Linz. HE was brought to trial in the District Court of Brno on 22 November 1961 and sentenced to 11 years imprisonment for espionage, charged specifically with having visited Gottwald in 1957 for the purpose of learning state economic secrets. [REDACTED] recalled that in 1959, HE had told [REDACTED] an engineer, who professed to know Gottwald, about HIS visit and speculated that probably [REDACTED] had denounced HIM.

On 18 January 1962, in an appeal before the Supreme Court under the chairmanship of [REDACTED] President of the Senate, the verdict was reversed, as espionage had not been proved and the charge was reduced to exposure of economic intelligence. The sentence, at first set for seven years, was later reduced to three years. Since the Supreme Court determined that illegal steps had been responsible for the decision, HE was released on 28 April 1964.

[REDACTED] succeeded in smuggling photos of HIS court hearings across the border into Austria.

On 2 May 1964, Source 13,157 provided the following information concerning SUBJECT:

(b) (7) (C)

According to information provided by Agency A-II, ~~REDACTED~~ born ~~REDACTED~~ place of birth not indicated, an Austrian citizen, presently residing in Reichenthal, District of Urfahr (nea), Austria, was allegedly approached and propositioned by an individual assumed to be a Czechoslovakian intelligence agent.

~~REDACTED~~ had visited various localities in the CSSR on numerous occasions, having crossed the border from Austria into Czechoslovakia approximately 13 times between December 1963 and March 1964. On an unspecified date in January 1964, SUBJECT was present in a Gasthaus in Kaplice (VP6298), CSSR, when HE was accosted by a man who engaged HIM in conversation, and invited ~~REDACTED~~ to join him in a drink. During the course of their conversation which covered numerous general topics, SUBJECT's host mentioned that his name was ~~REDACTED~~. He added that an uncle of his, recently deceased and also named ~~REDACTED~~ had been a resident of Austria, and had held a leading position in the Sozialistische Partei Oesterreich (Austrian Socialist Party) (SPOe). As proof of his relationship, he showed SUBJECT a baptismal certificate which was in German, and which bore the name ~~REDACTED~~. As their conversation continued, ~~REDACTED~~ mentioned that he operated a Gasthaus in Kaplice, and invited SUBJECT to join him there. ~~REDACTED~~ accepted the offer, and followed ~~REDACTED~~ to the Gasthaus, which allegedly bore neither a sign nor other distinguishing markings, and was closed. As they entered, they were joined by two other men, neither of whom was identified. ~~REDACTED~~ served wine to all present, and declined to accept payment for his wares. Eventually, ~~REDACTED~~ stated to SUBJECT that he was interested in locating and establishing contact with an Austrian who resided in Bezirk (District) Freistadt, and who was employed as an accountant in a warehouse there. ~~REDACTED~~ claimed to be unable to recall this individual's address, and requested SUBJECT to locate him and bring him to Kaplice for a meeting. He gave ~~REDACTED~~ a slip of paper on which was noted the name of the individual and the address in Kaplice to which he should be brought. The purpose of the meeting was not revealed. ~~REDACTED~~ claimed to have destroyed the note bearing the name of the individual in whom ~~REDACTED~~ had expressed interest, and was allegedly unable to recall either the name or the address involved.

[REDACTED] was described by SUBJECT as being between 40 and 45 years of age, 5'7" tall, heavy-set, with brown hair and a round face.

[REDACTED] visits to the CSSR were made in HIS personal automobile, an Opel Rekord sedan, license [REDACTED]. HE habitually crossed the Austrian/Czechoslovakian border at Wullowitz, Austria. SUBJECT usually visited bars and dance halls at Oberhaid (VP5683), Unterhaid (VP5989), Kaplice, Budweis (nea), and Hohenfurt (nea), CSSR. On the occasion of HIS first visit, SUBJECT was requested by several Czechoslovakian civilians to supply them with various articles of Austrian manufacture, such as cigarette lighters, ball point pens, cigarettes, nylon stockings, etc. On succeeding visits to the CSSR, [REDACTED] brought stocks of these articles with HIM without reporting this fact to CSSR border and custom authorities. These were all sold to local CSSR civilians. SUBJECT was approached by an unidentified civilian in the main square of Budweis, and sold this individual 2 cigarette lighters and a pair of nylon hose. Subsequent to other meetings with this man, [REDACTED] was informed by passersby that the buyer was a member of the CIS. SUBJECT claims that the sole reason for HIS illegal traffic in smuggled goods was to finance HIS visits to bars and dance halls in the CSSR. On various occasions, HE used the proceeds of HIS sales to purchase Czechoslovakian leather gloves, and a used small caliber rifle.

On 5 March 1964, while attempting to enter the CSSR, SUBJECT was detained at the border, and was interrogated by CSSR border authorities. The interrogation was conducted by four men in civilian clothes, who required [REDACTED] to strip to HIS underwear, and then conducted a thorough body search. HIS automobile was also searched, and several small items which were in SUBJECT's possession were confiscated. During the questioning, the border authorities exhibited full and detailed knowledge of [REDACTED] activities, including the purchases and sales in which HE had participated. They were also aware of all of SUBJECT's activities to include the bars and restaurants HE had visited. As a final indication of the extent to which they were familiar with SUBJECT's movements, [REDACTED] was shown a series of photographs of HIS transactions with CSSR citizens. SUBJECT was handed a document prepared in the Czechoslovakian language, for HIS signature. HE claimed, however, to have refused to comply with the demand for signature. HE further claimed ignorance of the content of the document. SUBJECT was fined the Austrian equivalent of 100 Czechoslovakian Kronen, and was remanded to the custody of Austrian customs officials. No action was taken to deny HIM future entry to the CSSR.

[REDACTED] claimed that HE was also interrogated on the following points regarding Austrian acquaintances whose identity HE could not recall:

BARDED

Hostile Service: Czech Interior
Ministry (MV)

Target: US Intelligence

Summary

(b) (7) (C) (u)
(u) In July 1961, [REDACTED] a Sudeten German from Czechoslovakia, voluntarily reported to a US intelligence office in Nuernberg. He claimed that he had accepted MV recruitment in return for being granted permission to visit relatives in West Germany. In the initial interview, [REDACTED] stated he did not want to engage in espionage activity. Subsequently, however, because of alleged opposition to the Czech regime, he offered to work for US intelligence in Czechoslovakia. [REDACTED] statements aroused suspicion, but he was allowed to return to Czechoslovakia believing that US intelligence had accepted his story. In August 1963, [REDACTED] returned to Nuernberg complaining he had not been contacted by US intelligence. Further interrogation confirmed the previous findings of MV control. [REDACTED] immediately returned to Czechoslovakia.

EEI and Assignments

(b) (7) (C) (u)
(u) [REDACTED] purported MV mission was to obtain the names and addresses of former Czech citizens living in Nuernberg. His real assignment, however, was apparently to obtain employment with US intelligence under MV instructions.

Recruitment and Modus Operandi

(b) (7) (C) (u)
(u) [REDACTED] allegedly accepted MV recruitment as a condition to being given permission to visit relatives in West Germany. He denied having signed a commitment or having been trained or paid. He was to be contacted by the MV upon his return to Czechoslovakia. Initially, [REDACTED] stated that he did not desire to engage in espionage for fear of endangering himself and his family being held hostage in Czechoslovakia. Incongruously, however, because of alleged opposition to the Czech regime, he later stated he would work for US intelligence in Czechoslovakia. As a purported radio amateur in possession of his own equipment, [REDACTED] proposed to transmit radio messages from Czechoslovakia and requested a specific mission. He reluctantly consented to

polygraph examination, claiming that he had heart trouble. This was refuted by a medical check and may indicate he had received training on the polygraph in Czechoslovakia. Despite evidence that [REDACTED] was under MV control, he would not admit that he had a mission against US intelligence.

USAREUR Comment

(u)

(b) (7) (C)
(C) With the exception of alleged MV missions, the [REDACTED] operation is similar to the [REDACTED] case (Case Summary 1-62-13). [REDACTED] also returned to Nuernberg in August 1963 and despite indications that he had a counterintelligence mission, he refused to admit any MV control. The two cases are typical of MV activity involving exploitation of Sudeten Germans with relatives in West Germany. They also indicate MV concentration on counterintelligence targeting, particularly the penetration of US intelligence. Both [REDACTED] and [REDACTED] appeared to have had some knowledge of the polygraph, possibly as the result of MV training.

(u)
(C) In September 1963, [REDACTED] a Sudeten German living in Czechoslovakia, contacted US intelligence in Stuttgart. He stated he had been compelled to accept a MV recruitment to be able to visit his father in West Germany. His MV mission was to reconnoiter certain addresses in Stuttgart. Interrogation tended to substantiate [REDACTED] story, although he apparently withheld information on his MV recruitment and contacts.

EEI and Assignments

(u)
(C) The MV allegedly gave [REDACTED] two addresses in Stuttgart, that he was to locate and observe. He was to determine what offices or individuals were at the addresses. It was indicated that American firms or personnel were located there. [REDACTED] was, if possible, to identify occupants by checking mail drops. If the addresses were of public buildings, he was also to enter the foyers to make observations.

Recruitment and Modus Operandi

(u)
(C) [REDACTED] first visited his father in West Germany in 1961 and in May 1963 applied for documents for a second trip. In June 1963, he was summoned to the Ostrava passport office by a "State Security Service" (MV) representative and interviewed concerning the application. The MV representative questioned [REDACTED] as to whether he had been contacted by American or West German intelligence services during his previous visit. [REDACTED] also was asked about his father's employment and political beliefs, possible association with Western intelligence and whether the father might cooperate with the MV. [REDACTED] denied contact with Western intelligence and stated his father would not work with the MV.

(u)
(C) [REDACTED] accepted the MV recruitment offer because he believed he would not otherwise be permitted to travel to West Germany. However, the MV representative gave [REDACTED] an opportunity to reconsider whether he really desired to cooperate and agreed to meet him again. Their second

meeting occurred in July 1963 and [REDACTED] again agreed to carry out the mission. No written commitment, training or pay were involved, and the MV representative was to contact [REDACTED] for a report following [REDACTED] return to Czechoslovakia.

USAREUR Comment

(C) (u) The case is another example of MV exploitation of Sudeten Germans in Czechoslovakia who have relatives in West Germany. The [REDACTED] case is the third case of this type known to have been mounted from Ostrava alone since 1961. The opportunity given [REDACTED] to reconsider whether or not he really wished to cooperate with the MV was highly unusual, since the MV often employs coercion in recruitments. The reasons for MV interest in the addresses in Stuttgart have not been determined, but no American lived there as of September 1963. However, based on MV concentration on counterintelligence targeting, the questions asked [REDACTED] by the MV representative and the instructions given him concerning the mission, the MV apparently believed the addresses were associated with US intelligence activity.

Hostile Service: Czech Interior
Ministry (MV)

Target: US Intelligence

Summary

(b) (7) (C) (u) (C) In January 1962, [REDACTED] a Czech engineer, accepted MV recruitment as a condition to being granted a visa to move with his Russian wife to East Berlin. He arrived in East Berlin in March 1962, and in June 1962 was issued a pass for travel to West Berlin where he was assigned a series of operational missions. In May 1963, while in West Berlin, he met a former colleague from East Berlin who had recently defected. [REDACTED] informed the colleague that he also was planning to defect and the colleague placed him in contact with US intelligence. The MV directed [REDACTED] to exploit this contact, but his mission was revealed in further interrogation.

EEI and Assignments

(b) (7) (C) (u) (C) [REDACTED] initial MV assignment in June 1962 was to familiarize himself with West Berlin. In late 1962, he received missions to become acquainted with the Czech proprietor of a West Berlin restaurant. He was also to enroll at West Berlin Technical University and spot and assess German General Electric (AEG) personnel studying there. In December 1962, he twice surveilled a man whose picture he was shown by the MV, once observing the man meet a second man whose description the MV wanted to obtain. In early 1963, [REDACTED] was given general photographic and newspaper buying assignments in West Berlin. He accidentally met a former coworker who offered to introduce [REDACTED] to US intelligence. This development was reported to the MV and [REDACTED] was instructed to determine the name, rank and mission of any US intelligence personnel.

Recruitment and Modus Operandi

(b) (7) (C) (u) (C) [REDACTED] allegedly agreed to MV recruitment because he would not otherwise have been permitted to leave Czechoslovakia. He arrived in East Berlin in March 1962 and found cover employment with an electronics firm. In April 1962, he telephoned his MV handler in East Berlin and was instructed to learn German. In June 1962, he was given a sector pass and told to travel regularly to West Berlin. [REDACTED] was trained by his MV handler in East Berlin in January 1963 and again in May 1963 after contact with US intelligence

(b) (7) (C) had been established. The training included a briefing on US intelligence use of the polygraph, in which the handler attempted to reassure [REDACTED] by stating that other MV ("StB") agents had taken lie detector examinations without having been compromised. [REDACTED] used a camera in the operation, but it is not known whether or not this was furnished by the MV. So far as is known, he was paid only 20 West German marks.

USAREUR Comment

(b) (7) (C) (u) The [REDACTED] case closely resembles the recent case of [REDACTED] (see Case Summary 1-63-9). Both were sent to East Berlin from Prague as MV agents in 1962 and were handled from Prague by MV official [REDACTED] and in East Berlin by MV handler [REDACTED]. Both had cover employment in East Berlin and each was given a pass for travel to West Berlin. However, the two cases are also similar to many other MV operations mounted through East Berlin since at least 1954. Basic mission has usually been penetration of Western intelligence, particularly US intelligence. Training given [REDACTED] on the polygraph has also been reported in other MV cases.

Case Summary: 4-63-10

Case: [REDACTED] (u) Date(s) of Activity: August 1963

Date Neutralized: N/A

CARDED

Hostile Service: Czech Military
Intelligence (ZS)

Target: USAREUR Order of Battle

Summary

(b) (7) (C) (u) [REDACTED] a Sudeten German living in Czechoslovakia, twice refused ZS recruitment approaches, but was coerced into signing a commitment in June 1963. He received false orders for military service to cover a period when he received training. [REDACTED] was given false documents, paid and dispatched illegally over the Austrian border on a mission to West Germany in August 1963. His primary missions were to recruit his brother, a USAREUR employee in Kassel, and collect OB on US and NATO forces. He was also to spot and assess Sudeten Germans with relatives in Czechoslovakia and NATO officers. [REDACTED] reported his ZS mission to West German authorities upon arriving in Kassel on 21 August 1963.

EEI and Assignments

(b) (7) (C) (u) [REDACTED] primary mission was initially to recruit his brother and then, with his brother's assistance, collect OB on US forces in the Kassel and Rothwesten areas. EEI covered unit designations, weapons, location of radar sites, installation layouts, vehicle descriptions, POL points, alerts, names of unit commanders and personal data of officers. Specific targets were the Wittich Kaserne in Kassel, kasernes in Goettingen, an Honest John unit in Fritzlar or Frankenburg, an alleged underground atomic depot at Kassel-Altenbauna, military objects in the Habichtswald near Kassel, and a radar site at Wasserkuppe/Rhoen. [REDACTED] was also to locate bars in Kassel patronized by NATO officers and identify Sudeten Germans in Kassel who have relatives in Czechoslovakia.

Recruitment and Modus Operandi

(b) (7) (C) (u) [REDACTED] In January 1963 [REDACTED] received an official letter directing him to report to the Czech Army district office in Sokolov. He was met by ZS Major [REDACTED] who attempted to recruit him. [REDACTED] rejected this approach and another attempt in May 1963, but finally signed an obligation in June 1963 after threats against a relative were made. [REDACTED] and two assistants trained [REDACTED] for 16 days during which he received a per diem payment of 26 Czech crowns. His

absence from home and employment was covered by a false call-up for military service. Training included comprehensive orientation on West Germany with emphasis on public transportation and the police. Other subjects were Western intelligence and security services, recognition of NATO ranks, weapons, rockets, missiles and aircraft, and intelligence collection methods. Training was concluded by trial missions in Czechoslovakia.

(b) (7) (C) (u) [redacted] was issued a false West German passport containing his picture and was provided with cover stories for use if arrested in West Germany or Austria. He was also given cover addresses in Czechoslovakia for notifying the ZS of his safe arrival in Austria and in West Germany through brevity code postal communications. On 18 August 1963, [redacted] was dispatched illegally over the Czech-Austrian border to Kassel via Salzburg and Linz, Austria, and Nuernberg, West Germany. His instructions were to complete the mission expeditiously and to return to an Austrian border town where he would be met and guided back to Czechoslovakia on 25 August 1963. He was paid 800 West German marks and 500 Austrian schillings.

USAREUR Comment

(b) (7) (C) (u) The [redacted] case is the first known ZS hostile agent operation in West Germany in recent years. Previously, since 1958, the Czech Interior Ministry (MV) had been indicated in numerous cases to have added military intelligence collection to its established targets. The case is a typical example of CIS exploitation of Sudeten Germans, and [redacted] brother is one of many USAREUR employees with relatives in Czechoslovakia targeted by CIS. Austria often is used as a third country base and agent route in these operations. The careful planning and preparation demonstrated in the case is not unusual in CIS activity, and [redacted] potential probably was also enhanced by a recent three-year tour with a Czech Army special reconnaissance unit.

Summary

(b) (7) (C) (u) This report supplements Case Summary 1-63-9 published in March 1963. It concerns [REDACTED] possible CIS recruitment in 1958, rather than 1962 as previously reported, and his move from Czechoslovakia to Brazil, probably in July 1963.

EEI and Assignments

No change.

See comment.

USAREUR Comment

(b) (7) (C) (u) Following [REDACTED] repatriation to Czechoslovakia from Austria in December 1962, he maintained mail contact with his family in West Germany and was able to send them money, apparently supplied by CIS. In August 1963 it was learned [REDACTED] was then in Brazil, had 10,000 West German marks and was making preparations for his wife and children to join him. Details of his move from Czechoslovakia are unknown, but the resettlement was undoubtedly sponsored by the Czech government. Other CIS agents have been promised sanctuary in Czechoslovakia if they were detected, but this is the first known resettlement to Brazil. It is probably the result of [REDACTED] wife's refusal to join him in Czechoslovakia rather than an attempt to reestablish [REDACTED] as an agent.

(b) (7) (C) (u) Information has been obtained indicating [REDACTED] may have been recruited by the CIS as early as mid-1958. His former West German passport contains entries for eight trips to Berlin during the period July 1958 to December 1959 and one trip to East Germany in February 1960. During this time he was studying at Geneva (Switzerland) University under the GI Bill and employed nights as a teletype operator by an American import-export

Case Summary: 3-63-7

Case: [REDACTED]

Date(s) of Activity: January 1963

Date Neutralized: N/A

Hostile Service: Czech Intelligence
Service (CIS)

Target: US Intelligence

Summary

[REDACTED] a Sudeten German, had lived in West Germany since World War II and was employed by US Intelligence. In September 1960, he suddenly began receiving mail from his son who had remained in Czechoslovakia. In early 1961, the son wrote that he desired to visit [REDACTED] and needed information on [REDACTED] employment and personal history to complete passport and visa forms. [REDACTED] ignored the request and a short time later was visited by an alleged Czech trade representative who offered to arrange a safe meeting between [REDACTED] and his son at the Czech border. On 24 January 1963, a letter was delivered to [REDACTED] home urging him to travel covertly to Czechoslovakia. Later, the son wrote that he had been forced to write this letter.

EEI and Assignments

[REDACTED] was apparently of CIS interest owing to his employment with US Intelligence. However, the operation did not progress beyond the initial contacts, and no EEI were assigned.

Recruitment and Modus Operandi

Modus operandi involved the initiation of correspondence between the son and [REDACTED] and plans for the son to visit [REDACTED]. Because [REDACTED] did not encourage the visit, the alleged trade representative was sent to offer to arrange a safe meeting on the Czech border. After [REDACTED] had rejected this approach, the CIS eventually had the son write the letter urging [REDACTED] to visit Czechoslovakia. [REDACTED] was to go to Milan, Italy, and there take an air flight to Prague. A visa would be issued to him at the Prague airport. His expenses would be paid by a Czech official who wanted to talk with him.

USAREUR Comment

CIS preoccupation with internal security of Czechoslovakia, particularly with respect to Western intelligence operations, is well established. US Intelligence is a priority target, and the CIS seeks

to identify and recruit US intelligence personnel and to induce US Intelligence to employ CIS agents. [REDACTED] case was fairly typical. The modus operandi employed did not vary appreciably from that used in previous cases, involving exploitation of relatives, local contact by a CIS representative and the inducement of covert travel to Czechoslovakia. If [REDACTED] had visited Czechoslovakia, he would have undoubtedly been approached on the basis of threats against his relatives.

Summary

[REDACTED] fled Czechoslovakia in 1948, immigrated to the US in 1951 and served in the US Air Force from September 1951 to September 1955. From late 1955 to March 1960 he attended Geneva (Switzerland) University under the GI Bill, and afterwards returned to the US where he was naturalized in February 1962. In March 1962 [REDACTED] came to West Germany and was employed as a salesman by a US firm catering to US Forces clubs and messes. On 21 December 1962 he was arrested by Austrian police at Kitzbuehl, Austria, while recovering a buried parcel containing reports on US Forces. [REDACTED] claimed he was recruited by the CIS in Switzerland in April 1962 and had met a CIS handler in Kitzbuehl in August 1962. However, the CIS handler failed to appear for a second meeting in October 1962 and [REDACTED] at that time buried the material he was attempting to retrieve when arrested. [REDACTED] refused to be returned from Austria to West Germany or to US control without guarantees he would not be prosecuted, and on 25 January 1963 he was repatriated to Czechoslovakia through the Czech Legation in Vienna.

EEI and Assignments

(b) (7) (C)
[REDACTED] specific EEI and assignments were not reported, but his original mission was allegedly to provide information on US Forces. In August 1962 at Kitzbuehl he was instructed to photograph US installations, to collect military telephone directories and to perform spotting and assessing missions. Intelligence material found in [REDACTED] possession included telephone directories, military newspapers, photographs and written reports on US installations, missile sites, units, strength, depots, equipment, armament and maneuver activity. Specific areas covered were Dexheim, Kirchheimbolanden, Kreisgendorf, Weirhof, Germersheim, Mainz, Consenheim, Worms, Bad Kreuznach, Karlsruhe and Mannheim. [REDACTED] also had photographed an [8th Infantry Division] organizational chart and a [USAFE] installation map. He further spotted and assessed three USAREUR local wage rate employees and two other persons of Czech origin.

Recruitment and Modus Operandi

In 1956 and in April 1962 [REDACTED] went to the Czech Legation in Bern, Switzerland, in an attempt to obtain assistance for his father who was imprisoned in Czechoslovakia. Allegedly he was refused on the

first occasion, but in April 1962 an unidentified CIS recruiter offered to assist his father if [REDACTED] would accept a CIS mission. [REDACTED] agreed and another meeting was arranged for Kitzbuehl, Austria, in August 1962. In Kitzbuehl [REDACTED] delivered intelligence material to a second unidentified CIS handler and was assigned additional EEI. However, the CIS handler failed to appear for another meeting scheduled in Kitzbuehl on 20 October 1962. Rather than return the package of reports and document he had collected to West Germany, [REDACTED] buried it. On 21 December 1962, allegedly intending to destroy the parcel, he returned to Austria and was arrested. In fulfilling his CIS missions, [REDACTED] exploited his free access to US installations. Expensive photographic equipment in his possession may have been furnished by the CIS. No information is available on payments, training or communications.

USAREUR Comment

(b) (7) (C)
The [REDACTED] case is a typical illustration of continuing CIS efforts to recruit former citizens of Czechoslovakia, particularly those who still have relatives there. Reporting on [REDACTED] story is incomplete, but it is possible he was in contact with CIS as early as 1956. Other than poor photographic work, the material confiscated from [REDACTED] was of intelligence value and could indicate some experience in collection activity. Usual CIS operational techniques indicate [REDACTED] may have received some pay and training and also may have been given communications means other than personal meetings. The site near Kitzbuehl where [REDACTED] buried the parcel of intelligence material could have been a letter-drop that the CIS had not serviced because of heavy snow. Austria and Switzerland are usual CIS third country bases for operations in West Germany.

Case: [REDACTED]

Date Neutralized: 8 May 1962

Target: US and West German Forces

Hostile Service: Czech Intelligence
Service (CIS)

Summary

[REDACTED] lived in Czechoslovakian communities near the West German border from birth until 1946 when he came to West Germany. In 1951, purportedly to visit his previous residence, he attempted to enter Czechoslovakia illegally and was arrested by Czech authorities. Although he reportedly rejected a CIS approach made at this time, he was returned to West Germany after only several weeks detention. On 7 May 1962 [REDACTED] who was wanted by West German authorities as a habitual criminal, again attempted to enter Czechoslovakia, hoping to avoid prosecution. He was promptly arrested by Czech authorities, examined as a suspected Western intelligence agent, interrogated concerning US and West German forces and then approached to collect military information. [REDACTED] allegedly refused to provide information or to accept recruitment, and he was permitted to return to West Germany on 8 May 1962.

EEI and Assignments

CIS interrogators questioned [REDACTED] regarding US and West German military installations, units, armour and activity in the areas of Nuernberg, Straubing and Grafenwoehr. Later he was asked to return to West Germany and collect such information. [REDACTED] also was to have made periodic "inspection tours" in the Grafenwoehr training area, but no specific target was mentioned.

Recruitment and Modus Operandi

According to [REDACTED] he was not approached by the CIS until after he had refused to furnish military information to CIS interrogators in Cheb and Pilsen. The CIS proposed to furnish him a camera with which to photograph military targets and to pay him 400 West German marks for his first intelligence report. Later he would be paid according to the value of the information furnished. Communications apparently were to be maintained through border area contacts.

USAREUR Comment

[REDACTED] story of refusing CIS recruitment has not been accepted by West German authorities, and he is facing charges of treasonable relations

as well as criminal activity. It is possible [REDACTED] was first recruited in 1951 and that in May 1962 the CIS forced him to agree to fulfill his original obligation. CIS border area operations of the type involving [REDACTED] were common during the 1950's, but have been less frequently reported in recent years. These operations are usually of very low level nature, but the agent's familiarity with the border area environment increases the possibility of successful observation missions.

Case: [REDACTED] Date(s) of Activity: June 1962-

Hostile Service: Czech Interior
Ministry (MV) Target: USAREUR (Berlin Brigade)
Personnel

RECEIVED

Summary

[REDACTED] was recruited by the MV in Prague in October 1961 and then established as a resident agent with cover employment at the Czech "House of Culture" in East Berlin in June 1962. Among other functions, this establishment is a retail outlet for Czech luxury goods, serving Communist as well as Western shoppers. [REDACTED] general mission was to report on Westerners who visited the "House of Culture," and in November and December 1962 he reported on two Berlin Brigade officers who shopped there. The officers were being assessed for possible recruitment, but [REDACTED] defected before any firm approach plans were made.

EEI and Assignments

In October 1961 [REDACTED] original MV mission was to report on Westerners staying at the Prague hotel where he was then employed. Similarly in East Berlin his mission was to report on Westerners who visited the Czech House of Culture. Of the Berlin Brigade personnel who shopped at the Czech establishment and were reported to the MV by [REDACTED] two officers with Slavic antecedents were designated for further cultivation. [REDACTED] received MV instructions to concentrate on developing good relations with one of the officers and to consider the second officer as a possible future target. The MV directed [REDACTED] to visit the one officer in West Berlin, to invite the officer to visit the [REDACTED] home in East Berlin and to give the officer a Christmas gift. The operation was still in this developmental stage at the time of [REDACTED] defection.

Recruitment and Modus Operandi

Information concerning [REDACTED] MV recruitment, pay and possible training is not available. However, his assignment in East Berlin was indicated to have been carefully prepared inasmuch as he arrived there as an immigrant and his employment with the Czech House of Culture was intended obviously to bring him in contact with Western nationals. [REDACTED] was controlled by MV handlers stationed in East Berlin and in Prague. His last meeting with the Prague handler was in late December 1962 and his East Berlin handler in early January 1963. Although these handlers directed him to cultivate the Berlin Brigade officer, he was

not informed of the specific purpose of the contact. In compliance with MV instructions, [REDACTED] visited the officer in West Berlin on three occasions within four weeks, unsuccessfully invited the officer to visit him in East Berlin and gave the officer a Christmas gift. However, as was later substantiated, he made no particular effort to obtain information on the officer's background or military assignment and duties, and did not discuss political matters with him.

USAREUR Comment

(b) (7) (C)

Information in [REDACTED] case is obviously incomplete. However, the case is one of a series of hostile intelligence operations indicating the inherent problem of travel by USAREUR personnel to Communist controlled areas. The CIS is continually involved in such activity and the recruitment of USAREUR personnel is an established CIS priority target. The [REDACTED] case also resembles previous incidents wherein USAREUR personnel traveling in Czechoslovakia were befriended by Czechs with apparent MV connections who subsequently sent the USAREUR personnel gifts. [REDACTED] case further parallels a previous MV resident operation in East Berlin targeting US intelligence activity in Czechoslovakia directed from West Berlin. Although the MV is largely concerned with counterintelligence, it also collects military intelligence.

Case, [REDACTED]

Date(s) of Activity: September 1961-
April 1962

Hostile Service: Czech Interior
Ministry (MV)

Date Neutralized: N/A

Target: US Forces, Kaiserslautern

Summary

[REDACTED] a Czech resident, fled to West Germany in May 1949, was employed by USAREUR Labor Services until 1954 and then became a taxi driver in Kaiserslautern. In September 1961 [REDACTED] went to Vienna, Austria, for a reunion with his brother living in Czechoslovakia. In Vienna [REDACTED] brother stated he had arranged the reunion at MV direction, and introduced [REDACTED] to a MV handler. [REDACTED] was recruited, trained in communications and given military collection, counterintelligence and spotting and assessing missions against targets in the Kaiserslautern region. Following the Vienna meeting the MV communicated with [REDACTED] by brevity code mail and through letter drops, and he forwarded messages prepared in secret writing to a Prague cover address. In April 1962 MV handlers failed to appear at a meeting scheduled for Salzburg, Austria, and [REDACTED] subsequently severed contact.

EEI and Assignments

[REDACTED] initial MV assignments were to report on Czechs serving with USAREUR Labor Services, to spot and assess Czech emigres and German nationals, and to photograph and report on US Forces missile bases, units, kasernes, depots, air bases and other installations in the Kaiserslautern area. Further EEI pertained to US Forces vehicles, tanks and other equipment, and troop movements to include date, time, place, direction and destination of movements. Additionally, [REDACTED] was to locate US and other Western intelligence agencies and installations, identify personnel and agents and determine their activities. EEI received later concerned US Forces armament and equipment, movement of British and French forces and US Forces missile units and movement of these units. [REDACTED] also was to determine whether USAREUR Labor Services units had received special readiness orders, and he was to report on general public morale in regard to tensions over Berlin.

Recruitment and Modus Operandi

In June 1961 [REDACTED] received a letter from his brother who wrote that he had been awarded a paid vacation in Vienna and asked [REDACTED] to meet him there. In ensuing correspondence the brothers agreed to meet in Vienna during September 1961. At the meeting the brother stated that he had been obliged to cooperate with the MV in a plan to recruit [REDACTED]

and he introduced [REDACTED] to an MV handler. The MV handler was thoroughly familiar with [REDACTED] life history and promptly approached him on patriotic grounds and promise of good payment. [REDACTED] was given a security briefing and paid 400 West German marks and 1,000 Austrian schilling against receipt. He was provided secret writing carbon for preparing messages to be sent to a cover address in Prague. A special letter drop system employing code designations and kilometer stones along four highways leading out of Kaiserslautern was established. A clandestine meeting system using recognition signals and passwords was also arranged. Future meetings were scheduled in Salzburg, Austria, on the fourth Tuesday of every third month beginning in January 1962, and provisions also were made for emergency meetings. After September 1961, [REDACTED] and the MV maintained mail communications and in December 1961 [REDACTED] received instructions to check a letter drop on the Kaiser-slautern-Mainz highway. There he found 500 West German marks, secret writing carbon and additional EEI. In March 1962 [REDACTED] confirmed to the MV that he would attend a meeting in Salzburg in April 1962, but MV handlers failed to appear and contact was subsequently severed.

USAREUR Comment

(b) (7) (C)
The modus operandi used in [REDACTED] recruitment followed an established pattern employed in many MV operations against targets in West Germany, and again demonstrates MV exploitation of persons who have relatives in Czechoslovakia. Such approaches often occur in Austria which is a primary MV third country base, and both USAREUR personnel and employees among other persons in West Germany have been targeted.

[REDACTED] recruiter was identified as [REDACTED] who operated under cover of the Czech Consulate in Salzburg. Communications and payments in the [REDACTED] case were fairly standard, and the security of the letter drop system used was particularly good. The EEI in the case also illustrate the wide range of MV targeting in USAREUR areas.

In 1958 [REDACTED] an official of the Czech Foreign Trade Ministry in Prague, began traveling to Austria to reestablish contact with fellow officers of the former Austro-Hungarian Army. He concentrated on developing the friendship of an officer who became a member of the present Austrian Army. Eventually, in May 1961 in Vienna, [REDACTED] introduced the Austrian officer to [REDACTED] alias [REDACTED] an official of the Czech firm Strojexport in Prague. [REDACTED] offered the officer part-time employment to investigate Austrian firms with which Strojexport proposed to trade and to obtain economic data. In March 1962 following several meetings [REDACTED] gave the officer specific EEI with the story that the Czech desired to sell materiel to the Austrian Army and therefore needed information on procurement programs. In September 1962 [REDACTED] introduced the Austrian to [REDACTED] who became the Austrian's handler. On 30 October 1962 at his second meeting with the Austrian, [REDACTED] was arrested by Austrian police.

EEI and Assignments

EEI pertained primarily to Austrian Defense procurement. Specific requirements concerned the Austrian Army supply and procurement offices, the procurement programs for vehicles, mortars, artillery, munitions and other equipment. The Czechs wanted to obtain direct contact with procurement officers, and asked for the names and background of officers who might cooperate for money. The officer was required to obtain the Austrian Defense budgets for 1962 and 1963 and other Austrian Army documents and publications. Other EEI pertained to Austrian Army reorganization, border defense units, fortifications near the Czech and Hungarian borders, armored units, radar nets, alert systems and alert assembly areas. The officer was also to report on possible Austrian Army cooperation with NATO.

Recruitment and Modus Operandi

(b) (7) (C)
[REDACTED] was recruited by the MV using coercion in July 1962 in Kromeriz and signed an obligation. Even later when he criticized the security of the operation, he had to continue activity against his wishes. In July 1962 [REDACTED] was taken to Brno and informed he would replace [REDACTED] (called [REDACTED] as the handler of an agent in Austria, because [REDACTED] security was jeopardized by lengthy service abroad.

██████████ was to travel to Austria under cover of visits with relatives there. He was trained for five days at a safe house in Brno and also completed field exercises in the city and at the Czech border. Training covered Western armies, Austrian economy, politics and geography, illegal border crossing, security, cover stories, letter drop operations and clandestine meeting procedures. On 13 September 1962 after a briefing on the Austrian operation, ██████████ traveled to Vienna by rail and met ██████████ from whom he received additional instructions. On 15 September ██████████ countersurveilled ██████████ meeting with the Austrian officer and was introduced to him during the meeting. He then arranged to meet the Austrian on 30 October 1962, and afterwards visited the Austrian side of the Czech border in the area of his projected illegal crossing in October. In mid-October 1962 the MV covered ██████████ absence from home and work by having him receive false orders for military service. He then received additional instructions, was furnished Western made clothing, a false Austrian identity card and a brief case with a secret compartment. He was driven to the border to be taken across by Czech border guards on 29 October 1962. ██████████ had received 6,043 Austrian schillings from the MV, including 4,000 schillings for payment to the Austrian officer.

(b) (7) (C)

USAREUR Comment

The ██████████ case was fairly typical of MV operations and was carefully planned. However, the communications in the operation did not include the usual secret writing and letter drops. EEI were comprehensive and tend to support recent indications that the MV, essentially a civilian service, engages in military intelligence operations which were previously a responsibility of the Czech military intelligence service (ZS). It is doubtful that the ██████████ case will prevent continued MV use of Austria as a primary third country base for operations in West Germany.

to send him funds in April or May 1962 were precluded by his defection in March 1962. However, [REDACTED] had already sent the StB a secret message and had received a long-distance telephone call from Holland reminding him that his family still lived in Czechoslovakia.

USAREUR Comment

(b) (7) (C)
Although [REDACTED] story is probably incomplete, the StB obviously devoted careful preparation to his case. The case is typical of recent CIS operations in which an increasing number of ethnic Germans living in Czechoslovakia have been sent to West Germany posing as tourists or defectors. As usual, the penetration of USAREUR intelligence was a primary objective. The secondary positive intelligence assignments were also typical.

Case Summary 3-62-10

Case: [REDACTED] Date(s) of Activity: June 1962

Date Neutralized: N/A

Hostile Service: Czech Interior Ministry (MV) Target: Intelligence USAREUR

Summary

[REDACTED] a Sudeten German member of USAREUR Labor Services assigned to a medical depot at Kaiserslautern, traveled to Czechoslovakia on 21 June 1962 to attend his father's funeral. On 24 June he was summoned for alleged alien visitor registration at the Iglau (Jihlava) police station, where he was interviewed by two MV officials. They drew [REDACTED] into a courteous conversation which ended in his attempted recruitment for an operation directed against USAREUR intelligence. [REDACTED] did not commit himself and was asked to consider the proposal. He could indicate acceptance of the CIS offer merely by applying for a Czech visa at some future date.

EEI and Assignments

The MV officials questioned [REDACTED] politely concerning his USAREUR Labor Services duties and whether the medical depot supplied US or West German forces medical units. They then turned the discussion to Western espionage against Czechoslovakia and asked [REDACTED] to help them identify Western spies who travel to Czechoslovakia. They inquired whether he had had contact with USAREUR "CIC" in connection with his trip to Czechoslovakia, and remarked that he probably would be contacted following his return to West Germany or certainly before his next trip to Czechoslovakia. The MV officials encouraged [REDACTED] to accept any US intelligence proposal for activity in Czechoslovakia.

Recruitment and Modus Operandi

The MV officials had a detailed dossier on [REDACTED] including a photograph showing him and other USAREUR Labor Services personnel in uniform. The recruitment itself was based on Czechoslovakia's need for protection against Western espionage. [REDACTED] was not required to make an immediate decision and could at any time notify the MV of his acceptance by applying for another visa to Czechoslovakia. The MV would thereupon make all necessary arrangements. In Czechoslovakia [REDACTED] would inform the MV of the identity of Western agents and report any possible contact with intelligence. To develop the operation the MV would help [REDACTED] fulfill whatever mission he might be assigned. It was inferred that in return for [REDACTED] cooperation the MV would help him pay a 1500 West German mark indebtedness. Future use of mail communications was also mentioned.

USAREUR Comment

(b) (7) (C)

MV ("StB") approaches of the type made to [REDACTED] are common, the criteria being the presence of relatives in Czechoslovakia and familiarity with the Czech refugee and Sudeten German elements in West Germany. Counterintelligence operations against Western agencies have been the primary Czech Intelligence Services objective in West Germany for many years and indicate preoccupation with internal security by the Czech regime. However, had [REDACTED] accepted MV recruitment and not been able to provide counterintelligence coverage, he undoubtedly would have been exploited for military collection and spotting and assessing operations. The approach to [REDACTED] was made in a sophisticated manner, and numerous similar cases on record show the modus operandi used by the MV to be far more effective than is apparent in this particular case. The [REDACTED] case also illustrates MV exploitation of Sudeten Germans and MV knowledge of USAREUR Labor Services.

Summary

(b) (7) (C)
[REDACTED] is a Yugoslav immigrant assigned to Headquarters Company, 1st Medium Tank Battalion, 37th Armored. On 1 April 1962 while AWOL he contacted the Yugoslav Consulate in Munich to inquire about repatriation to Yugoslavia. A consulate official advised him on necessary procedures and afterwards introduced him to a Czech trade representative named [REDACTED]. [REDACTED] accepted [REDACTED] offer of a ride to the Munich railroad station, where [REDACTED] asked him to furnish military intelligence for pay. [REDACTED] accepted the offer and was given a mission and an advance payment. In early October 1962, [REDACTED] again went AWOL and contacted the Czech Trade Delegation in Frankfurt/Main. The delegation refused to pay for any information but instructed [REDACTED] to go to the Czech Military Mission in West Berlin. On 8 October 1962 [REDACTED] obtained orders and a ticket to Berlin on a US military train. However, he allegedly had not yet contacted the Czech mission when arrested by military police in West Berlin later the same day.

EEI and Assignments

[REDACTED] stated his CIS mission was to obtain information on US Army infrared lights, portable radar sets and long-range, miniaturized two-way radios. However, when arrested on 8 October 1962 [REDACTED] was in possession of information on the "Davy Crockett" rocket, the M-60 tank and alert positions.

Recruitment and Modus Operandi

(b) (7) (C)
On 1 April 1962 in Munich, [REDACTED] was introduced to the Czech representative [REDACTED] by a Yugoslav consulate official. [REDACTED] immediately assessed [REDACTED] as a disaffected US Army soldier and within a short time approached him to furnish military intelligence for pay. [REDACTED] agreed and was given a mission and 80 West German marks for which he signed a receipt. Communications arrangements are unknown. [REDACTED] first stated that he had held one further meeting with [REDACTED] at the Stuttgart railroad station, but later denied such a meeting. According to [REDACTED] latest story, he was to deliver information personally to the Czech Military Mission in West Berlin. In case of emergency he could also contact [REDACTED] again through the Yugoslav Consulate in Munich. [REDACTED] nevertheless maintained that the first attempt he made to communicate with the CIS after 1 April 1962 was in early October.

USAREUR Comment

(b) (7) (C)

The Yugoslav consulate official in Munich has been tentatively identified as [REDACTED] and [REDACTED] has been identified as [REDACTED] member of the Czech Trade Delegation in Frankfurt/Main who returned to Czechoslovakia on 18 October 1962. The Czech Military Mission in West Berlin and the Yugoslav Consulate in Munich have been used as CIS and Yugoslav Intelligence Services (YIS) bases for hostile agent operations, but the [REDACTED] case is the first apparent involvement of the Czech Trade Delegation in Frankfurt/Main in recent years. Whether or not the YIS participated in any manner in the [REDACTED] case has not definitely been established. YIS cooperation with the CIS would be a highly unusual development, and if liaison did exist it would be more likely that [REDACTED] cooperated with [REDACTED] on his own initiative. The [REDACTED] case was the second known CIS approach to USAREUR personnel during 1962. [REDACTED] has not been cooperative under interrogation and has told several widely conflicting stories. His CIS mission and communications arrangements were probably more comprehensive than indicated.

Case Summary 3-62-12

Case: [REDACTED]

Date(s) of Activity: 1957-1961

Date Neutralized: May 1962

Hostile Service: Czech Interior Ministry (MV) Target: US and West German Forces, Czech Refugees

Summary

[REDACTED] a Sudeten German, was recruited in January 1957, trained, and sent on a long-range mission to West Germany in September 1957. His original target was the penetration of Western intelligence. Later, through secret correspondence and meetings with MV handlers in Erlangen and Brussels, he received instructions to report on members of Sudeten German organizations and to collect information on US and West German forces. In 1960 [REDACTED] allegedly determined to sever relations with the MV, but nevertheless remained in contact until at least mid-1961. He was arrested for theft in 1962, and during a search of his home MV correspondence and clandestine communication equipment were discovered.

EEI and Assignments

[REDACTED] basic long-range assignment was to enroll at Erlangen University, establish himself in West German life and accept any Western intelligence recruitment offer. In June 1958 he was instructed to join the Association of Sudeten Germans and to spot and assess its members. In September 1958 he was ordered to increase his spotting and assessing work and to collect information on US and West German forces.

Recruitment and Modus Operandi

The MV informed [REDACTED] that he was of intelligence interest because of his apparent reliability, intelligence, German-language capability and relatives in West Germany. He did not want to leave Czechoslovakia, but was persuaded by the MV officials who described living conditions in West Germany in favorable terms. [REDACTED] was trained for seven months in observation, spotting and assessing, reporting, meeting procedures, document photography, codes and brevity codes, secret writing, cover addresses, letter drops, concealment devices and one-way radio communications. He was simultaneously required to memorize a personal history cover story. [REDACTED] entered West Germany legally as a student visitor and matriculated at Erlangen University. He corresponded with the MV by secret writing, but a series of letter drops he established allegedly were never used. In June 1958 [REDACTED] was contacted by an MV handler in Erlangen, and in September 1958 met another MV handler in Brussels.

Summary

[REDACTED] a Sudeten German, was coerced into "StB" recruitment in Prague during early 1956. From March 1956 until neutralization he served as a courier transmitting MV communications to Czech refugees in West Germany who were recruitment or redefection targets. In June 1957, in violation of MV security instructions, he gave his true name to a Czech refugee who knew he was in contact with Czech intelligence. The refugee reported [REDACTED] to the authorities and his name was placed on a wanted list. [REDACTED] was arrested at the Czech-West German border while enroute on another courier mission more than four years later.

EEI and Assignments

It could only be established that [REDACTED] served as a courier, delivering or mailing MV communications addressed to Czech refugees in Ingolstadt, Ludwigsburg and Munich. He admitted carrying out at least four such missions, but allegedly was inactive during the period May 1958 to September 1961.

Recruitment and Modus Operandi

[REDACTED] was obliged to accept MV recruitment as the alternative to imprisonment for unlawful association with a member of the Norwegian Embassy in Prague. He was not trained and was paid only for expenses. He traveled to West Germany and Austria legally by rail under cover of visits with relatives living in those countries. The MV communications were either mailed or delivered personally, and in the latter instances [REDACTED] obtained verbal replies.

USAREUR Comment

[REDACTED] account of his activities is incomplete, and his expressed desire to return to Czechoslovakia following his prison term is significant in this connection. Gaps in his account are his alleged inactivity from May 1958 to September 1961 and speculation that he also performed courier services for MV agents. Since he spent

Summary

[REDACTED] an Irish citizen and language instructor by occupation, applied in June 1961 at the Czech Military Mission in West Berlin for employment as a language instructor in Prague. In September 1961, he was directed to contact the Czech Embassy in East Berlin concerning his application. In October 1961, on his second trip to the Embassy, [REDACTED] met an official allegedly representing the Czech Education Ministry. This official recruited [REDACTED] for the CIS and targeted him against the West German Army Language School at Euskirchen where [REDACTED] had become employed. The official became [REDACTED] handler and in November 1961 had him travel to Prague for processing and additional training. For communications [REDACTED] was given secret writing systems, a cover address in Prague and had orders to establish dead letter drops. He also attended meetings in East Berlin. When arrested by West German authorities in May 1962, [REDACTED] claimed he had not fulfilled CIS missions.

EEI and Assignments

[REDACTED] original mission was to report on the West German Army Language School at Euskirchen. The CIS was interested in personnel and students, particularly those teaching or studying Czech. [REDACTED] was also to report on units stationed at a nearby airbase and to sketch the installation. In April 1962 he was directed to befriend Czech language instructors and students at the Euskirchen school and to obtain any information on the West German Defense Ministry. [REDACTED] was further instructed to seek girl friends in two other areas which were of particular interest to the CIS for unexplained reasons.

Recruitment and Modus Operandi

[REDACTED] originally contacted [REDACTED] of the Czech Military Mission in West Berlin and had a series of meetings with him before and after being instructed by [REDACTED] to contact the Czech Embassy in East Berlin in September 1961. In October 1961, on his second visit to the Embassy, [REDACTED] was introduced to an unidentified official allegedly representing the Czech Education Ministry in Prague. This official drove [REDACTED] to a safe house, questioned him about West German intelligence, lectured on Western espionage against Czechoslovakia

and recruited [REDACTED] for the CIS. After preparing a detailed personal history statement, [REDACTED] was given a mission, a secret writing system and a cover address in Prague. This secret writing system involved a contact paper which [REDACTED] was taught to prepare by treating ordinary writing paper with a solution consisting of "Cibasol," a German sulfa drug, and water.

(b) (7) (C)
In November 1961 the CIS arranged for [REDACTED] to travel by rail from East Berlin to Prague for further processing and training. At the Hotel Alcron in Prague he was debriefed, given additional secret writing instructions and materials, lectured on security and directed to drop his contact with [REDACTED]. He was instructed to continue working on the previously assigned missions. The CIS also stated that [REDACTED] might eventually be placed in contact with a CIS net based in Heidelberg.

Before and after the Prague trip [REDACTED] sent the CIS a series of secret messages purportedly of an innocuous nature. He allegedly made no attempt to fulfill his missions and planned to sever his relationship with the CIS. He nevertheless met his CIS handler in East Berlin again in December 1961 and April 1962. At the second meeting he gave the handler three unclassified publications pertaining to the West German Army which he took from the school library at Euskirchen. He was at this time instructed to establish two dead letter drops at highway kilometer stones near Euskirchen. [REDACTED] next meeting with the CIS was to have been held in East Berlin during October 1962. [REDACTED] has admitted receiving 1400 West German marks from the CIS.

USAREUR Comment

(b) (7) (C)
[REDACTED] has admitted he is not providing a full story of his CIS contacts and he undoubtedly furnished the CIS information on his assigned missions. The Czech Embassy in East Berlin has previously been used as a CIS base for operations in West Germany, but this was the Mission's first known involvement in hostile espionage since early 1959. [REDACTED] who obviously was responsible for [REDACTED] recruitment, was previously suspected to be a CIS official and served as Second Secretary of the Czech Military Mission in the US Sector of Berlin. Modus operandi used in the case was generally good, and it is to be noted that [REDACTED] experienced no difficulty in traveling between West Berlin and East Berlin after August 1961. No further information is available on the alleged CIS net in the Heidelberg area.

Case Summary 3-62-14

Case: [REDACTED]

Date(s) of Activity: 1961-1962

Neutralized: May 1962

Hostile Service: Czech Interior Ministry (MV) Target: US and West German Forces

Summary

[REDACTED] was discharged from the West German Air Force as a chronic AWOL in August 1961. He served his final sentence for AWOL in October 1961 and fled to Czechoslovakia to evade arrest for theft in December 1961. His request for asylum was denied by Czech authorities, and he was sentenced to one year imprisonment for illegal border crossing. After determining that [REDACTED] was not a Western intelligence agent, Czech "StB" officials interrogated him for information on West German, US and other NATO forces, and then approached him for recruitment. Although [REDACTED] allegedly did not give information to the Czechs and refused to accept recruitment, he was purportedly amnestied and returned to West Germany in 1962.

EEI and Assignments

[REDACTED] was interrogated at length on West German forces and to a lesser extent on US forces. Photographs and notes relating to West German and US forces in his possession were confiscated and used in the interrogation and the approach that followed. Questions of US forces interest concerned extent of West German and US cooperation, identity of installations jointly occupied by West German and US forces, other NATO forces participating in joint maneuvers and the identity of units in OPERATION WINTERSHIELD. Other subjects pertained to the location of US forces installations and training grounds in West Germany, particularly in the Augsburg area; the frequency, size and sites of US maneuvers; types of US tanks; and description of equipment at Grafenwoehr. [REDACTED] was also questioned about a 2nd Battle Group, 2nd Infantry, soldier whose address was in the confiscated notes and who appeared to be of recruitment interest to the Czechs. Following the interrogation, the MV officials recruited [REDACTED] to obtain photographs of West German and US forces in West Germany and to spot and assess military personnel who were in need of money.

Recruitment and Modus Operandi

[REDACTED] was treated very well in Czechoslovakia and was even offered money for expenses. The MV officials repeatedly requested but did not pressure [REDACTED] to accept paid employment to photograph West German and US forces "objects" and events such as parades. [REDACTED] was furthermore

requested to write recruitment-type letters to West German forces personnel. Allegedly, however, his refusal to cooperate "persuaded" the MV officials "not to inform him of possible communications arrangements."

USAREUR Comment

(b) (7) (C) [redacted] statements that he gave the Czechs very little information and rejected recruitment have not been accepted by West German authorities. He probably accepted recruitment and the questions asked by Czech interrogators were probably given as EEI. The Czech handling of [redacted] in many respects parallels other cases involving West German and US personnel who illegally cross into Czechoslovakia. All were exploited for military intelligence.

SUMMARY (UNCLASSIFIED) The Czech spies arrested a year ago for espionage activities in Switzerland directed against Switzerland and foreign powers was concluded this week with conviction of all three. A fourth agent apprehended with the others died before the trial began so the case is now closed. Report transmits a translated summary of case coverage from four different Swiss papers - 1 French, 2 German and 1 Italian.

Three Czech Spies Convicted in Switzerland

Following is a condensation of press reports on the case of the 3 Czech spies operating in Switzerland and their conviction. The trial was conducted behind closed doors but apparently a number of facts and some fiction leaked out and comments have appeared in several papers. The Swiss-German papers were particularly worked up over the case as they usually are where communist infiltration is involved. The French-Swiss papers have limited their coverage to straight reportings of the case, while the Italian-Swiss have all but ignored it since it happened entirely out of their area.

The three individuals convicted and sentenced are:

Otto SCHWARZENBERGER, 35 years old, sentenced to 12 years imprisonment, forfeiture of rights for 10 years and expulsion from country for duration of 15 years.

Eva SCHWARZENBERGER, wife of above, 33 years old, sentenced to 6 years imprisonment, forfeiture of rights for a period of 10 years and expulsion from country for duration of 15 years.

Vlastimil GLASER, 5 years imprisonment, 10 years forfeit of rights, expulsion for period of 15 years.

The fourth individual in the case was Pavlik BOHUSLAV, deceased.

The Zürich tabloid "Blick" headlined its front page article with "Czech Spy wormed his way into the Swiss Army". The biggest spy trial in Switzerland since

World War II has ended with the conviction of 3 Czech spies at Aarau. Although only the most general details of the case were made public, the basis for the conviction furnishes a frightening look at the military and political espionage activity that is going on in our country - frightening because the Czech spy SCHWARZENBERGER was able to worm his way into the general staff. All of the accused were found guilty of violation of law pertaining to military secrets, obtaining military information on foreign nations, and info of economic and commercial nature. This most dangerous group of spies since World War II was prevented from committing any serious breaches of security, thanks to the observation of two auxiliary service men. Otto SCHWARZENBERGER had come to Switzerland in 1959 on excellently forged personnel documents and was hired, finally even being employed by the Army General Staff. It was there through certain behavior he was noticed by the service men who reported their suspicions to their commander. After this SCHWARZENBERGER was under surveillance. A short wave transmitter which SCHWARZENBERGER, on orders from Prague, had buried in the ground in a suburb of Zürich, was discovered by chance by a bricklayer. The police were waiting for this bit of evidence and proof. The SCHWARZENBERGER couple had received their training as spies in Prague and they did practical training in East Germany before being sent to Switzerland as "Swiss citizens" on seemingly valid Swiss passports. As "destitute" Swiss from abroad, the pair was first given assistance and shelter by the community of Brütten even though Eva SCHWARZENBERGER had ten thousand Swiss francs from the Prague Spy center sewed into her clothes. Living in Zürich, they began immediately with their "work" sending information by secret writing and by radio back to Prague. This included information about our Army, politicians, emigrants, NATO States, production figures and even matters pertaining to the private lives of certain personalities. In 1959 SCHWARZENBERGER received a shortwave sender from PAVLIK (deceased). The couple used the sender 7 times to dispatch reports directly to Prague.

Naturally these dangerous East Bloc spies were not doing this work gratis. They received, while in Switzerland, through agents PAVLIK and GLASER, 27,000 Swiss francs. Their account in Prague grew during this period by 27,000 Kronen. A part of their fees they received directly from the Czech legation in Bern. The judge of the V (fifth) Division Court, Colonel REAL, stated that Eva SCHWARZENBERGER was not only an assistant, who was an accomplice of her husband. She was trained in Prague as an agent; however, she restricted herself more to the reporting of information. The collection was taken care of by her husband and the agents, Glaser and Pavlik. Otto SCHWARZENBERGER also knew how to get himself hired by the Oerlikon Machine Tool Bührle and Company as plant bookkeeper. Thus he was able to report to Prague the amount of production that was being delivered to our army. He was also able to furnish other important production figures to Prague. His training in Prague included Geography, Languages, Shortwave Set Operations, Microfilm Techniques, Invisible Secret Writing etc. He was rechristened Otto WALTENSENBERGER, worked 2 months in a mine, then was given practical training in an assignment in East Germany, then shipped to Switzerland. However, it now seems that these condemned spies are not the only ones in Switzerland. Two more Czechs living as Swiss citizens have been arrested according to rumor. (End New Reports).

Editorial question appearing in the BLICK. "Is our Defense on Holiday? The startled Swiss citizen is asking himself two questions today:

- a. How could a Czech Spy get a job on the Army Staff?
- b. How is it possible that an OAS member like George BIDAULT, could spend a months vacation in Switzerland incognito?

Up to today we have been chewing contentedly on the laurel leaves from the crown the Swiss Intelligence and Counterintelligence Service earned in WW II. As of today we feel a chill of doubt. It was great the way that two auxiliary service men were able to bag the Czech spy Schwarzenberger. It was not so great however, that the Federal Police and the Political Department had "no idea" that BIDAULT, with his wife was spending a vacation as a guest at a chateau near Fribourg where he also received the notorious SOUSTELIE. Furthermore, the Chief of Swiss Intelligence, who also happens to live in a chateau in the Fribourg area, seems to have had "no idea" about his suspect neighbors. Even though Colonel MUSY, the former Military Attache to Paris surely must know Mr. Bidault by sight.

There was once upon a time a DUBOIS Affair which ended with the Swiss Attorney General putting a bullet in his brain. The reason for Dubois' attitude of servility toward Extreme Rightist Colonel Mercier was the Francophile policies of a Certain Circle. Now however, this Circle must decide once and for all whether it should be considered francophile or not when wire pullers of the OAS Murder Gang are granted asylum and permitted to conspire against the lawful government of a neighboring country (End of Editorial)

Der Bund, Bern's principal daily, reported how Schwarzenberger with his cleverly forged papers was such a convincing "repatriated Swiss" that after his having been hired by Oerlikon Machine Tool Works as a bookkeeper he was invited to perform his "obligatory" military duties. Here he had occasion to handle material classified secret. He microfilmed his reports on his observations and delivered them to the Czech Legation in Bern in a cigarette package. The Schwarzenberger couple transmitted 54 reports to Prague and received 27,000 Swiss francs for their work. Walo von GREYERZ editor of Der Bund, lashed out in a personally signed item in the paper against "this most flagrant case of espionage ever heard of which puts fiction on this subject in the shadow. And he also criticized the Swiss authorities who were so naive as to accept this man and his credentials without a thoroughgoing check. He also protested against and denounced the activities of the Czech Legation operating and collaborating with the Czech spies working in Switzerland.

4. REPORT OF FINDINGS

(DALRIR 1-9)

On 23 January 1961, Source A-IV was interviewed at his own request at Headquarters, Field Station IV, 66th MI Group, APO 108, US Forces, and furnished substantially the following information regarding SUBJECT:

SUBJECT, a Czechoslovakian who was born somewhere in Bohemia in 1935, exact date and place of birth unknown, a former writer for moving pictures in the film colony at Prague, Czechoslovakia.

SUBJECT speaks only Czech and a limited amount of English, but no German.

SUBJECT departed Czechoslovakia as a legal emigrant on 12 January 1961, and arrived in Munich the next day, 13 January 1961. SUBJECT was en route to the United States, and remained in Munich only one week in order to complete processing at the US Consulate. After completion of HER processing, SUBJECT departed Munich on a Pan-Am jet flight on 20 January 1961, with destination Boston, Massachusetts.

During the initial stages of SUBJECT's contact with Source, SHE would discuss only basic personal data required for securing HER visa to enter the United States, and would not discuss any other aspects of HER life in Czechoslovakia. However, as soon as SUBJECT actually had HER visa in HER possession, SHE became less reluctant to talk and furnished limited information about HERSELF and Czechoslovakia.

SUBJECT said that in 1949, when SHE was only 13 years old, SHE and two other girls of approximately the same age, fled from Czechoslovakia and made their way across the border at Fuerth im Wald UQ4364, Germany. Here they were interned by the West German Border Police. After a few days internment, the three girls were sent back to Czechoslovakia by the West German Border Police, without the German Border Police ever having notified the American Occupation authorities. SUBJECT said that SHE was returned to Czechoslovakia as a runaway minor on an alleged demand of HER father, but that no such demand was actually made by HER father. SHE intimated that HER return was probably some kind of deal made between Czechoslovakian border authorities and the German Border Police, with perhaps a bribe being made.

According to SUBJECT, as a result of HER flight from Czechoslovakia SHE was required to join the Cesko Slovensky Svaz Mladeze (CSM - Czechoslovakian Youth League) before SHE was permitted to re-enter school, after being returned to Czechoslovakia. SUBJECT was eventually permitted to attend one year at the University in Prague.

(SR 380-320-10)

1. NAME OF SUBJECT OR TITLE OF INCIDENT

2. DATE SUBMITTED

2 February 1961

3. CONTROL SYMBOL OR FILE NUMBER

4. REPORT OF FINDINGS

SUBJECT went to work as a screen play writer for the films in Prague some time prior to 1956, exact date of employment not known. In April 1956, SHE allegedly took part in a student demonstration against the communists, and as a result got into trouble with the Czechoslovakian Film Workers' Union. For an unspecified period of time, SHE was unable to secure work and was reduced to existing on milk and crackers before SHE was again allowed employment. After a time, SHE was re-accepted by the film industry as a free-lance writer, but still remained in comparative disfavor.

In 1958, SUBJECT met one [REDACTED] a former Czech who fled from Czechoslovakia in 1949, emigrated to the United States, and finally became a US citizen. [REDACTED] was visiting in Czechoslovakia at the time SUBJECT met him. A romance developed between SUBJECT and [REDACTED] and they became engaged. After a short stay in Czechoslovakia, [REDACTED] returned to the United States. He is at present a mathematician on the faculty of the Massachusetts Institute of Technology in Boston.

Shortly after meeting [REDACTED] SUBJECT applied for emigration to the United States, but HER application was kept pending without action. [REDACTED] again visited HER in Czechoslovakia in the summer of 1960, then returned to the United States. Two or three days after he left Czechoslovakia, some Czech police (not specifically identified) visited SUBJECT and told HER to write to [REDACTED] and tell him that he should not attempt to return to Czechoslovakia, as he is not wanted there.

In late 1960, without any inquiry or action on SUBJECT's part, HER emigration case was re-opened by Czech officials and SHE was permitted to depart Czechoslovakia on 12 January 1961. HER travel from Czechoslovakia to West Germany was authorized by an "Exit Permit for Persons of Undetermined Nationality", which was issued to HER as soon as HER emigration was approved. With the issuance of this document, SUBJECT's Czechoslovakian citizenship was terminated. Members of SUBJECT's immediate family still reside in Czechoslovakia.

SUBJECT stated that during the time SHE was working in the film colony in Prague, SHE had considerable contact with StB men. According to SUBJECT, the StB men liked to mingle with the film people and tried to develop friendships with the film personalities. SUBJECT thought that this desire to become closely associated with the film personnel was based on the StB men's desire to appear important and to bask in the reflected glory of film personalities and the glamor of the film industry. SUBJECT said that in an apparent effort to impress the film colony personnel, the StB men frequently boasted of their accomplishments in the field of international intrigue and intelligence activities. They spoke of making frequent trips

to West Germany on espionage or subversive missions, and emphasized that such missions were extremely easy for them. A number of the StB men, who had been technical advisors in the Congo and were expelled along with other communists by Mobutu, boasted that they had managed to get everything ready for the communists to take over, but that Khrushchev had called them back because he was scared; and that Khrushchev was therefore an idiot!!

SUBJECT would not reveal the identities of any of the StB personnel and would not cite specific instances of HER association with them. SHE said that SHE does not wish to reveal any intelligence information pertaining to Czechoslovakia until SHE is settled in the United States as the wife of [REDACTED] whom SHE will marry immediately on arrival. SHE stated, however, that as soon as SHE is settled in the United States and has HER personal affairs in order, SHE will go to the FBI with information.

SUBJECT commented that SHE believes that SHE was permitted to emigrate to the United States because the Czech communists want to create a friendly impression on the new Kennedy administration in the United States.

Source stated that he reported this information because of the possibility that SUBJECT may have an intelligence mission in behalf of Czechoslovakian intelligence. Source explained that he bases this suspicion on the fact that it is entirely unusual for Czechs to be permitted to emigrate directly from Czechoslovakia to the United States, especially if they have ever been involved in any anti-communist activities, such as those claimed by SUBJECT. According to Source, an official of the US Consulate, Munich, mentioned that there are three more individuals who are expected to emigrate from Czechoslovakia to the United States in the near future under circumstances similar to those of SUBJECT's emigration.

Source requested that his identity not be revealed to any other agency or person if any inquiry should arise from the above information, as this would prove an embarrassment to Source in his position.

4. REPORT OF FINDINGS

On 10 November 1960, Source 13,076 submitted the following information concerning SUBJECT:

SUBJECT, who is between fifty and fifty-five years of age and who resides at an unknown location in West Germany at the present time, fled from the CSR about 1947 or 1948. At that time [REDACTED] resided in Innsbruck, Austria, where HE allegedly studied at the university.

Since 1959, SUBJECT has been known to make frequent trips to Vienna, Austria, and Linz, Austria. Although the source is not aware of SUBJECT's present occupation, HE is not known to conduct any type of business while making these regular trips to Vienna and Linz. It has come to the attention of Source that in HIS trips to Austria, SUBJECT always contacts Czech refugees; and because of various questions raised by SUBJECT in the presence of these refugees, HE is strongly suspected of being engaged in some type of intelligence activity on behalf of the CSR. SUBJECT continuously displays an unusual or unwarranted interest in certain Czech refugees who are known to be particularly active in anti-Communist activities against the CSR, and attempts to determine their contacts or associations. In source's opinion, it appears very unusual and unlikely that SUBJECT would be in a financial position to make regular trips to Vienna and Linz, allegedly just to visit casual friends. Because of SUBJECT's undue interest in particular Czech refugees and the fact that these trips, conducted on a regular basis, would require considerable financial resources, source strongly suspects SUBJECT of being employed by the CIS.

[redacted] Reg Nr [redacted] alleged Czech defector. was born [redacted] age [redacted] male; he has had 8 years elementary schooling and is painter by trade. From 1938 to 1945, Refugee claims to have worked as coalminer in mine "Hercules" at DOLNI LITVINOV, CSR. In Jan 1946, he joined the plant militia of the Synthetic Fuel Plant "STALINOVY ZAVODY", ZALUZI near MOST, CSR, and performed guard duties until May 1946. Subsequently, he was transferred to a fuel recording section where he registered fuel quantities until 1954. During this labor period, Refugee was drafted into the Czech Army and served as Pvt with the 9th Inf Regt at MOST and CHOMUTOV, CSR, from Jan to Dec 1947. In 1955, Refugee was transferred to the plant maintenance pool and worked as painter, painting mains, buildings, offices, etc, until his defection on 1 Sep 60. During his 14-years service with abovementioned installation, Refugee received one reprimand for repeated larceny of fuel while working as plant militia man, and the second reprimand was given to refugee in 1954 for drinking home-made alcohol on duty.

Refugee was expecting a third reprimand and subsequent discharge because he allegedly violated the plant security measures by loitering in areas. This poor labor morale and Refugee's passive political attitude

were adequate reasons for the plant management to initiate disciplinary actions. In order to avoid all difficulties on Refugee's place of employment, he preferred to defect to West BERLIN via KARL-MARK-STADT, LEIPZIG, DESSAU and MAGDEBURG. On 18 Sep 60, Refugee was arrested by the VOPD while trying to enter the West BERLIN area from POTSDAM. Upon a four-day interrogation conducted by the East German security agencies in POTSDAM and East BERLIN, Refugee was transferred to a refugee camp at BERLIN-Blankenfelde from where he managed to escape on 26 Sep 60, and reported the same night to West German police in the French Sector of BERLIN. Refugee's illegal crossing of the Czechoslovakian-East German boundary was made in area of CHUDERLIN near HORNÍ LITVÍNOV, CSR, at about 0500 hrs on 2 Sep 60.

3. (U) Report

DECLASSIFIED FROM GENERAL SCHEDULE

Refugee's information on the STB official is as follows:

(b) (7) (C)

Refugee identified the Czech national [REDACTED] FCB about 1915, as member of the State Secret Security (STB- Statni Tajna Bezpecnost) while he worked with the Synthetic Fuel Plant "STALINOVY ZAVODY" at ZALUZI from Jan 46 to his defection on 1 Sep 60. [REDACTED] was known to Refugee since his childhood when both attended the same elementary school at DOLNI LITVÍNOV, but not the same class because Refugee is younger. During Refugee's period of employment, he occasionally observed [REDACTED] who inspected various plant departments for internal security measures. [REDACTED] always wore civilian clothes on his assignments which he allegedly received from his superior STB office at MOST. This STB office maintains a branch section in the Synthetic Fuel Plant, ZALUZI, but the mission of this branch office is unknown to Refugee.

[REDACTED] resides at a settlement of HORNÍ LITVÍNOV, near MOT, CSR. Detailed address unknown. He is married. No info on wife's name nor children's names. Refugee observed the couple once in summer 1959 while taking a walk through HORNÍ LITVÍNOV. Refugee had the impression that [REDACTED] was deliberately trying to avoid contact with Refugee because Refugee had a bad record in the Synthetic Fuel Plant where both individuals were working since 1946.

[REDACTED] is of medium build, has an oval face with high forehead and sparse dark hair. Refugee could not recall further physical data. [REDACTED] was generally known as an STB official member to workers of the Synthetic Fuel Plant, ZALUZI.

4. (c) Remarks

(b) (7) (C)

Refugee [REDACTED] is allegedly [REDACTED] born [REDACTED] and was allegedly arrested on 16 Dec 52 and 8 Aug 59 under the name [REDACTED] in HAMBURG, West Germany.

[REDACTED] admitted that he was reprimanded by the plant management of the Synthetic Fuel Plant, ZALUZI, CSR, on two occasions for theft and illegal sale of gasoline, and for drinking on duty. He also stated that he first attended elementary school in 1926 when he was eight years old. Czech law provided at that time that students must enroll after their sixth birthday. If the birthday fell after the beginning of the school year then enrollment became mandatory in the next following school year. It is unusual that a student would start school at age of eight. This indicates Source gave a true date of his elementary schooling, but lied about his date of birth which from his schooling would indicate the year of birth 1919.

~~EXCLUDED FROM GENERAL
DECLASSIFICATION SCHEDULE~~

[REDACTED] on previous occasions stated he was never outside of CSR until he crossed the border at CHUDERIN, CSR, approximately 0500 hrs on 2 Sep 60. [REDACTED] stated on 24 Oct 60 that he was in KARL-MARX-STADT (former CHEMNITZ), East Germany in 1940 on vacation.

On 24 Oct 60, the interrogator examined Refugee's wristwatch and discovered it to be a "KIENZLE" made in West Germany. Refugee claimed he traded home-made alcohol for this wrist watch from an unidentified worker in the Synthetic Fuel Plant, ZALUZI, in 1950. (NOTE: The year of manufacture could be proved by checking the engraved serial number of the watch; the number was not noted).

This may provide a clue to [REDACTED] being in West Germany.)
The interrogation was conducted in Czech language.

SUMMARY OF INFORMATION

CARDED

On 6 July 1960, [REDACTED] born [REDACTED] in [REDACTED] requested that he be granted political asylum in Austria. [REDACTED] is residing with his sister, [REDACTED] at [REDACTED] at the present time.

CARDED

As a result of [REDACTED] request for asylum and subsequent questioning by the Austrian authorities, he revealed that prior to the granting of his visa by the Czech authorities, he was recruited by the State Security Office (Staatssicherheitsdienst) to perform certain missions while in Austria. He was specifically requested to mail a sealed envelope to a [REDACTED] residing at [REDACTED] and also to ask [REDACTED] how his [REDACTED] brother in Germany is making out. Examination of the contents of the letter revealed that it contained a short note of very general information which did not appear to be of any significance, and a marriage certificate (Trauschein). The letter was supposed to have been written by [REDACTED] brother, residing in Bratislava, CSR.

CARDED

CARDED

In addition to the above, [REDACTED] was given a piece of paper with the names and addresses of two persons residing in Austria noted thereon as follows: [REDACTED] born [REDACTED] in [REDACTED] residing at [REDACTED] and [REDACTED] residing at [REDACTED]

REMARKS AND ADDENDA SUBJECT claimed to have been a worker, but HE was well educated, not only in intelligence fields, but also in general knowledge. There was one mention of the fact that HE was an expert judo fighter. HE was apparently a very meticulous worker who had nearly memorized Source's file. HE explained HIS Viennese accent by telling Source that HE had been in Neustadt near Vienna during the second World War. Source believes HE also speaks some english. HE dressed quite fashionably, often wearing a dark grey worsted suit and a light grey overcoat which was tailored to show off HIS broad shoulders. HE is a quiet, considerate person who keeps himself under control at all times. HE is also a very attentive observer whose eyes move restlessly at all times, apparently taking in all details around him.

REMARKS AND ADDENDA [REDACTED] SUBJECT was given a pencil which bore the lettering "Lyra 'ORLOW' N: 7200 hart". It appeared to be a normal pencil but Source was told that it was a special type of pencil. Before the pencil is used it must be sharpened to a needle point and writing with the pencil is kept as fine as possible. The message to be transmitted must first be printed on a sheet of hard surfaced, light weight paper such as air-mail stationery. The printing is done in block letters about the size of capital letters on a typewriter. Letters are separated just slightly more than normal printing and all names given must be repeated. Special care must be used in printing G and D because "development" tends to spread the letters. After the message has been written on such a piece of light stationery, the stationery is slipped inside an envelope with a grey "silk" lining. This grey "silk" lining is in reality, a grey tissue paper lining. The message is slipped into the envelope so that the lettering faces the inside of the front of the envelope. The entire envelope is then wrapped in another sheet of light stationery and placed on a hard surface where it is carefully rubbed with a smooth, blunt instrument, such as the underside of a teaspoon. After the whole surface of the envelope has been rubbed, the message has been transferred to the lining of the envelope and the envelope can now be unwrapped and the piece of stationery on which the message was written can be withdrawn from the envelope and burned. A letter written on ordinary stationery is placed in the envelope and the envelope mailed to the cover address.

On 6 January 1960, Source A-VI provided substantially the following information relative to [REDACTED] a Czech refugee and former captain in the Czech Army, who with his wife (fnu), and her sister (fnu) (lnu) operate and/or own the "Modelhaus Textilien und Modische Neuheiten" (Ladies Dress Shop), and reside on the premises, in Zweisel UQ7131, German Federal Republic (GFR):

Approximately one year ago, [REDACTED]

[REDACTED] very suspicious circumstances surrounding the conduct and activities of the [REDACTED] household. These circumstances had to do with frequent male visitors, usually in the early morning hours, [REDACTED] sister's many visits and telephone calls to Czechoslovakia, where she had been divorced from her husband who still lives there, and noises emanating from the residence during the night hours that sounded like the humming of a dynamo which could be used to power a transmitter. The electric metering device was observed during the times these noises were heard and was noted to be completely stationary. However, as no lights were visible in the residence, a conclusion could not be arrived at. It was recalled that the [REDACTED] had received a visitor prior to the time that these peculiar noises were heard. HE had remained with them for a week and a half. There is no evidence to confirm this suspicion, but it is possible that this visitor may have been an electrical technician and had contrived a device to by-pass the electric meter.

[REDACTED] is always shabbily dressed and almost always has a cigarette (lit or unlit) hanging from the right corner of his mouth. Although considered as being very intelligent and well educated, he has a weak character. He drinks constantly but is never seen intoxicated. When normal alcoholic beverages are not available to him (usually for lack of funds), he will even purchase Ether at a Drug Store. He is considered to be very unpleasant and disagreeable and his face is set in a perpetual grimace. He speaks only German, with the "Egerlander" dialect, although having some understanding of the Czech language. Although once a wealthy person, he is now virtually in poverty. His only legal income is a small pension, however, he supplements this by many kinds of "grey-market" trading, especially in postage stamps which are collectors items. He is not politically active and is not believed to be either a communist or sympathetic to communism. He has never been married but cohabitates with [REDACTED] an ethnic German nurse born about 1912, who provides a portion of his support. He has a married sister, [REDACTED] also a resident of Karlovy Vary, who refuses to associate with him. [REDACTED] is generally recognized by the German colony in Karlovy Vary as an StB informant and has approached Source on a number of occasions during 1953 and 1954 seeking to "feel him out" on various political and controversial issues. After Source returned to Karlovy Vary from a trip to the West in 1957, he was again approached by [REDACTED] (as well as by other StB informants) who asked leading questions about the travels of Source to the West and the impressions gained during the trip. The length of [REDACTED] actual association with StB or the circumstances surrounding his recruitment are not known.

Ethnic Origin:

Other:

In 1957 she was a patient in a TB sanatorium at Neudek (nca), CSR, and was expected to die

from the condition; however, the TB was arrested and she was released from the hospital in November 1957. She was unemployed for a period of time after that and, about mid 1958, accepted employment as a receptionist and switchboard operator at a small resort hotel (location not known). In an effort to establish whether [REDACTED] is actually an StB informant, Source once directly accused her of having such a connection. At that time, she made no admission but countered the accusation with a protest and made such weak and unconvincing denials that her defense constituted a tacit admission that she was, in fact, an informant. Following the return of Source to the CSR from a trip to the West in 1957, he was in contact with [REDACTED] on several occasions, but does not know if she had received a mission from the StB to contact him or if her visits were simply the result of their acquaintanceship.

Portuguese, Hungarian and French. He is considered to be highly intelligent and it is known that he traveled extensively prior to WW II. He comes from a "good" family, his father having been a Guards Officer at the court of Wilhelm II, former emperor of Germany. [REDACTED] wife is crippled and, to a very great extent, is confined to their home, a well-furnished, five-room apartment. He is not a member of the CSR Communist Party and does not express any open political opinions, being generally considered a "political neutral". He is presently employed as the head of the personnel section of a state owned construction firm in Karlovy Vary. In 1956, Source surprised [REDACTED] when he was preparing an informant's report and then first learned that [REDACTED] is an StB informant. Since that time, [REDACTED] has discussed the matter with Source and told Source the manner in which he was recruited to work for the StB. In addition, after the return of Source from a foreign trip in 1957, [REDACTED] was one of the informants sent by the StB to learn the reactions of Source to his trip. On this occasion, [REDACTED] openly informed Source that he had been "sent" and apologized for the intrusion.

The fact that she has always had to work to support herself, she accepts as a matter of course without resentment. She does not expect anyone else to pay her way in life. She never tries to live beyond her means. Source smokes cigarettes, but does not drink alcoholic beverages because she has stomach ulcers. Source enjoys male companionship.

she still appears to lean heavily on men for a sense of security. Source stated that while she has always been a law-abiding citizen, perhaps her one indiscretion has been light-heartedness in her association with men, especially in her younger years.

General Impression: Source is a neat-appearing individual who grooms and dresses herself in a conservative manner. She is intelligent, possesses good common-sense, and is fairly well educated. She has a keen mind and the memory of a trained secretary. She appears fully capable of controlling herself emotionally.

How Recruited:

[REDACTED] an agent of the Czechoslovakian Intelligence Service (CIS), visited Source's apartment. [REDACTED] gained a hearing by saying that she was bringing a message from Source's mother in the CSR. She related a most dubious story of having met Source's mother by chance while on a trip to the CSR, and intimated that she could be instrumental in arranging a reunion between Source and her mother. [REDACTED]

Motivation:

While Source is not adverse to earning extra money, she is not primarily motivated by the desire for money. She reported the approach by the CIS agent because she suspected that this person, if not an intelligent agent, was engaged in some shady business that should be brought to the attention of legal authorities. Source does not expect any reward for doing what she considers to be her duty.

OTHER: Josef speaks Czech language without trace of dialect. Although he understands spoken German, he speaks the language poorly. He speaks in a careful and considered manner and rather slowly. He apparently is well acquainted with the city of Karlovy Vary, although probably not a native of that city because of his lack of knowledge of the German language. During the course of the operational meeting with Source, Josef was one of the principal debriefing agents. In conversation he indicated that he was the son of a miner. He appeared to be of slightly below average intelligence and to have had not more than an average education; that is, elementary and intermediate schooling. He expressed himself as being a convinced communist but readily admitted during the course of political discussions that much could be improved as far as the current situation in the CSR was concerned. He smokes about thirty cigarettes per day and appears to prefer the "Lipa" brand. During the course of the operational meeting, he was not seen to drink any alcoholic beverages, limiting himself to coffee in the presence of Source. He wore a large chromium-plated wristwatch on his left wrist. He wore no rings. His normal stride and manner of walking could not be observed since he was suffering from blisters resulting from extensive walking in borrowed shoes in the border area while attempting to make contact with Source following Source's illegal crossing of the GFR/CSR border.

him in a middle bracket socially. He wears no jewelry other than a

gray leather band which includes a leather pad beneath the body of
the watch. He is a chain-smoker but appears to be only a moderate
user of alcohol. He has a chronic cough which has been noted on the
occasion of every contact over a period of about two years. He
allegedly travels frequently to Germany from the CSR using a "special"
passport of the type issued to representatives of the Czech government
other than those on Diplomatic status. He allegedly usually represents
himself as a member of a Czech Trade Mission on his travels in
Germany, and allegedly makes frequent visits to Nurnberg 32UPV5178
and Munich 32UPU9135, Germany.

SUMMARY OF INFORMATION

[REDACTED] STB (Statni Bezpecnosti - State Security) informant, Brno (ncs), Czechoslovakia, last known residence, [REDACTED] is described as follows: about 53 years old; widower; one (1) son; height 5'3"; weight 125 pounds; blond thin hair, receding hairline over temples; light blue eyes; long thin face; pale complexion, sick looking; tiny build. In June 1958, when source was looking for an apartment, he was told by his friend [REDACTED] that an acquaintance of his, [REDACTED] had an apartment. [REDACTED] leased to source an empty wood hut, located in Prehrada, a suburb of Brno. Three (3) days after source moved into the hut, he was repairing the floor and accidentally found a microphone and a transmitter with a one meter long copper wire hidden under the floor. Shortly after source removed the microphone, [REDACTED] and two (2) other men, names unknown, came to source's apartment and asked for the microphone. [REDACTED] asked source to move into his, [REDACTED] apartment for that night, because the two (2) gentlemen wanted to hire the hut for celebrating someone's birthday. [REDACTED] admitted to source that he had extra keys to the hut and that he had put the microphone in only three (3) days before. * Evaluation Required/Evaluation Requested The story told by KZ does not sound right. As a matter of fact, I doubt that the StB was involved in his case at all. It would seem more likely that he was being considered for a positive intelligence mission, possibly one of scientific significance. There also remains the possibility that the CIS agency involved was interested mainly in [REDACTED] US Army member, who may have been under consideration as a recruiting target. Whatever the true story is, however, it would seem that KZ is not telling all he knows. It is clear that the CIS could easily have recruited him since he was subject to pressure.

On 13 March 1959, [REDACTED] born on [REDACTED] in [REDACTED] was interviewed in the Region VI Day Office, 66th CIC Group, BFAN (Bundessammellager fuer Auslaender, Nurnberg - Federal Assembly Camp for Foreigners in Nurnberg), Nurnberg, GFR, by Special Agents [REDACTED] and the undersigned, concerning the CIS (Czechoslovakian Intelligence Service) effort to recruit him, his knowledge of the whereabouts and activities of his cousin, [REDACTED] and the precise details of his conversations with the CIS concerning [REDACTED] stated substantially as follows:

[REDACTED] received his last letter from his cousin, [REDACTED] on 13 February 1959. He produced this letter, written on 4 February 1959, postmarked 7 February 1959, Berwyn, Illinois, returned to sender for insufficient postage, postmarked 10 February 1959, Chicago, Illinois. The return address was [REDACTED]

The letter indicated that [REDACTED] had found a new job, further details not given. The remainder of the letter pertained to personal matters. [REDACTED] nee [REDACTED] escaped to Austria in 1951. She met and married [REDACTED] in Austria in late 1951 or early 1952. They emigrated to the United States in 1952. [REDACTED] studied to be a librarian and [REDACTED] believes he finished his studies in December 1958.

[REDACTED] was employed while her husband was attending school. [REDACTED] did not know the location or nature of the employment. [REDACTED] and [REDACTED] have two children, a girl six years of age, and a son four years of age.

Reference the second meeting [REDACTED] had with the members of the Ministry of Interior, [REDACTED] was unable to recall the exact words used by them in questioning him about his cousin, [REDACTED]. It was either what is your cousin doing now in the United States or how is your cousin who lives in the United States. [REDACTED] denied to them having any contact with her since her escape to the West. Actually [REDACTED] did hear from his cousin in the following manner. She wrote to her mother in the CSR using the return address of [REDACTED]. Her mother was [REDACTED] mother's sister. [REDACTED] used to read her letters and add notes to letters being sent her by her mother.

Reinterrogation of [REDACTED] concerning the CIS effort to recruit him revealed no salient points were omitted in the original report.

4. REPORT OF FINDINGS

On 6 February 1959, [REDACTED] born [REDACTED] in [REDACTED] last residing in Thiersheim 33UTR9451, GFR, illegal border crosser, was interviewed concerning CIC targets, and stated substantially the following:

On 2 February 1959, SUBJECT was turned over to the BBP (Bavarian Border Police) in Schirnding 33UUR0151, GFR, by Czech border officials after being released from a 10-month prison sentence in the CSR for illegal border crossing. He was transported to the jail in Wunsiedel 33UTR8547, GFR, to await court disposition.

SUBJECT is a porcelain worker by profession, and was last employed by the Hutschenreuther Porcelain Works in Arzberg 33UTR9848, GFR. From 1953 to 1956, he studied at the Berufsschule (Professional School) in Wunsiedel, and was employed by Firma Rosenthal (The Rosenthal Company) in Selb 33UTR9562, GFR, until February 1958, when he took his last job.

On 2 April 1958, SUBJECT went to Hohenberg 33UUR0253, GFR, to see a girl, [REDACTED] identifying data unknown, whom he had recently met in Thiersheim. SUBJECT was to meet the girl in the Hohenberg castle, but when she didn't appear at the appointed time, he decided to walk to nearby Selb, where his parents resided. Due to snow and slush on the road from Hohenberg to Selb, SUBJECT decided to walk along an adjoining ridge, which appeared dry. This particular stretch of road lay directly along the GFR-CSR border, and the ridge was actually inside Czech territory. SUBJECT did not know this fact, as he had not seen any border signs due to darkness. While continuing along the ridge, SUBJECT was apprehended by a Czech border patrol, which took him into custody despite his protests that he was not aware of the border.

After being taken to a nearby border station, SUBJECT was then transported to Ostrov (nca), CSR, on the following day. In the Ostrov prison, SUBJECT was interrogated daily for two weeks, approximately 8 hours each day. Several individuals participated in the interrogation, each asking different kinds of questions. [REDACTED] born approximately 1918, was present during the whole time, and seemed to be in charge. [REDACTED] took SUBJECT's life history, family, acquaintances, and reason for crossing into the CSR. Another person, Fnu Lnu, identifying data unknown, questioned SUBJECT for long periods about prices, conditions, morale, wages, and politics in the GFR. SUBJECT was also questioned by Fnu Lnu, born approximately 1905, concerning German and US military units in the border vicinity. He also asked if SUBJECT knew [REDACTED]

anything of the US Kaserne in Bindlach 32UPA8740, GFR. SUBJECT stated that he had no contact with anything military and was unable to answer concerning these matters. He was also accused of being sent into the CSR on an intelligence mission, and it was demanded to know who had sent him and what his mission was. He was shown pictures of individuals whom he did not at all recognize and was told that these people had seen him in the CSR before. SUBJECT denied having any intelligence connections at all, and also denied having ever previously been in the CSR. Another person, Fnu Lnu, born approximately 1925, queried him concerning details of the GFR-CSR border- how it appeared, what the "new customs house" in Schirnding was for, and anything SUBJECT might know about the US "bunker" there. Again, SUBJECT stated that he did not know about such things. Similar questions were asked SUBJECT throughout the two weeks. However, at no time was he approached concerning any mission on behalf of the CSR against the West. Subsequent to this period, SUBJECT was never questioned again.

While in Ostrov, SUBJECT was in a cell with another German, [REDACTED] identifying data unknown, from Bindlach. [REDACTED] allegedly had once attempted to travel to the CSR to visit his mother, but was apprehended by the BBP and sent to jail in Bayreuth 32UPA8435, GFR, because he was in possession of pictures of a US Kaserne in Bindlach. [REDACTED] stated further that he escaped from the Bayreuth jail and illegally crossed into the CSR on 4 December 1957. [REDACTED] was transferred to an unknown destination after he and SUBJECT had been together approximately one week.

On 11 May 1958, SUBJECT was sent to the prison in Cheb 33UUR1251, CSR. On 6 June 1958, he was sentenced to 1½ years prison for illegal border crossing, but he appealed the sentence and it was later reduced to 10 months. SUBJECT spent the remainder of his prison term in Cheb, with the exception of one week early in August 1958, when he was sent to a work camp in Zirowidze, (mea), CSR. While in the Cheb prison, SUBJECT knew only three other Germans. Two were [REDACTED] and [REDACTED] identifying data unknown, who were young boys from Marktredwitz 33UTR9143, GFR, and who were returned to the GFR in May 1958. The third was [REDACTED] identifying data unknown, from Waldsassen 33UUR0743, GFR. [REDACTED] allegedly fled over the border into the CSR after shooting and wounding two US soldiers during a fight in Waldsassen. He had previously been arrested for fighting, and fled to the CSR after this incident. He received a 6-month sentence, but desired to stay in the CSR afterwards. This was refused by Czech authorities, but SUBJECT felt that [REDACTED] would be permitted to travel to East Germany (EG). [REDACTED] was still in Cheb when SUBJECT was returned to the GFR on 2 February 1959.

Handsome face, lively, energetic personality. A "ladies man."

Source met [redacted] on the train going from Karlovy Vary to Frantiskovy Lazne 33UUR1055. [redacted] sat down next to Source and began questioning as to where he was going, why he was going, where he worked, etc. Source immediately became suspicious that [redacted] worked for the StB. Subsequently Source was out with a friend when he again observed [redacted] in Frantiskovy Lazne. [redacted] was with a very pretty girl. Source mentioned the train incident to the friend. The friend then told Source that he knew him by first name only and that he had been to [redacted] residence in Karlovy Vary. During the evening, [redacted] admitted to the friend that he was actually a member of the StB and showed the friend the uniform of an StB senior lieutenant hanging in his closet. He claimed that he wore civilian clothing and worked for the Restaurace and Jidelny as a cover as it enabled him to travel a great deal.

General Appearance:	Athletic
Scars or Marks:	None visible
Other:	This person speaks native Czech without any identifiable accent or dialect and speaks the German language in a manner described as "very good" with little or no trace of Slavic accent. He is somewhat verbose, speaks rapidly and in a rhythmic manner. His voice is clear and well modulated. He leaves the impression of being of above average intelligence and education and of being a rather "cultured" person. He smokes in excess of 40 cigarettes per day without apparent brand preference. In the presence of Source he consumed only moderate amounts of beer and Vodka. He conducted himself in a pleasant and polite manner, appears to be in complete control of himself at all times and is obviously self-confident in his attitude toward others. His expressed political attitudes are completely in accord with the policies of the communist party and he indicated that he agreed with communism not only in theory but as it is practiced in the CSR. He appeared to be in charge of the operational meeting attended by Source and conducted the greater part of the interrogation and debriefing personally. He also assigned the EEI given to Source and made the payment to Source. He introduced himself as "a representative of an agency of the Ministry of Interior."

Remarks:

(b) (7) (C)

Source was previously in contact with
this person during operational meetings
from 7 to 9 October 1957 and 15 to 17

May 1958. During the last meeting as well as the current one, Source was almost continuously accompanied by this person who at various times has been seen both in civilian clothing and in a military uniform believed to be that of the Czech Border Guards. Source learned the name of [REDACTED] by a pass presented by him at a control point while escorting Source from the meeting to the CSR border. [REDACTED] who claims to like to fish, is described as being a typical Czech. He smokes fifteen to twenty cigarettes per day, apparently preferring the brand "Globus." He has consumed only beer in the presence of Source, drinking an average of three bottles per meal while in Source's company. His voice has a fairly high tone, and he speaks at a normal volume and rate. His outstanding characteristic is his manner of walking in which he has a rolling gait but at the same time bending slightly forward. He habitually has his right hand in his trousers' pocket. He squints and frowns when conversing. He has a nervous habit of keeping a hand at or near his mouth when talking and thinking. He is believed to be married.

Remarks: (b) (7) (C)

Source was previously in contact with [REDACTED] during the course of an operational meeting from 15 to 17 May 1958. During both the current and the previous meeting [REDACTED] almost continuously accompanied Source, and on both occasions was variously attired in civilian clothing and in a military uniform, probably that of the Czech Border Guards. He is married and has two children, a son and a daughter who reside with his wife in Karlovy Vary 33UUR4966, CSR. However, Source feels that [REDACTED] may be normally stationed at Marianske Lazne 33UUR3639, CSR. During the course of casual conversations with [REDACTED] he revealed to Source that he has been engaged in intelligence work for many years, and that about 1948, after the communist coup d'etat in the CSR, he had been sent to Germany as a refugee for the specific purpose of being recruited by CIC. He was allegedly successful, and allegedly worked for CIC for about two years making illegal border crossings into the CSR and reporting to CIC only information cleared or supplied by the CIS for that purpose. He informed Source that it became apparent to him about 1950 that he was suspected by CIC, and therefore he returned to the CSR. [REDACTED] speaks rapidly, is verbose and gives the impression of being a convinced communist. He walks in a peculiar manner, taking short steps and dragging his feet, acting, in the words of Source, "as though his feet were weighted." [REDACTED] has discussed competitive shooting with Source and revealed that he has won several prizes in competition.

He remains verbose and rambles somewhat in his conversation, changing topics frequently. Although previously always clean shaven, since his entry into politics, he wears a small moustache. smokes cigarettes only and smokes about forty to fifty per day. He drinks a fairly considerable amount of beer, consuming between five and seven and a half liters of beer daily, at least during his stay in Nurnberg. He is also fond of cognac and during his stay in Nurnberg; drank

several double servings per day of cognac in addition to the beer he consumed, without apparent intoxication. [REDACTED] does not wear any rings. He was wearing a wrist watch while in Nurnberg, however, it is to be noted that he claimed to have purchased the watch after his arrival with the alleged intention of presenting it to his wife. It is not known if he habitually wears a wrist watch of his own. Although now claiming not to be or ever having been a member of the Communist Party, he is known to have been a member of the party, allegedly for economic reasons, during 1949. He "Parrots" Communist ideology and may be a convinced Communist. He is of about average intelligence. During 1949, he was employed as a tailor in a nationalized clothing factory in Prague and had no commercial experience. During the period 28 October 1958 to 31 October 1958, while visiting various department stores in Nurnberg 32UPV5178, Germany, he displayed a considerable knowledge of merchandising methods and commerce in general, which could lend credence to his claim of now being employed by the Ministry of Domestic Commerce. Source considers [REDACTED] to be an opportunist who is "money hungry" and who would "do anything" for money. [REDACTED] has an effeminate hand shake which is considered unpleasant by most men. He now frequents a tavern, name unknown, located in the immediate vicinity of his home. The tavern is on the same block of Lazarska ulice, Prague, in which his home is located. He counts among his friends, one [REDACTED], a director of an electrical power trust and a police lieutenant, name unknown, both of whom he meets regularly in this tavern. [REDACTED] is known to have been an StB informant during 1949. During 1958, [REDACTED] has been corresponding with Source in what has appeared to be an attempt to place Source in contact with the Czechoslovakian Intelligence Service. During the course of the visit of [REDACTED] to Nurnberg, he discussed the willingness of Source to work for Czech Intelligence and obtained a written statement from Source indicating such willingness, which he handcarried to the CSR upon his return.

(b) (7) (C)

On 7 October 1958, Informant G-16 volunteered substantially the following information:

[redacted] born [redacted] who was expelled from Switzerland for conducting espionage activities while Third Secretary, Czechoslovakian Embassy, Berne, Switzerland, is now living in Prague, Czechoslovakia. [redacted] nee [redacted] born [redacted] is the person who recruited [redacted] a Swiss Army officer, to supply national defense information of Switzerland to [redacted] in Berne. [redacted] is a Czechoslovak national who met and recruited [redacted] while she was employed as a guide by the Cedok Tourist Agency in Prague. [redacted] lives in Prague and she is still employed by the Cedok Tourist Agency. [redacted] is not the only "guide" who is actually an intelligence agent for Czechoslovakia. The vast majority of the "guides" in Czechoslovakia, including men and women, are in reality intelligence agents seeking to obtain intelligence information for Czechoslovakia. In this respect it is certain that many tourists from the free world will be contacted by Czechoslovakian intelligence agents in Czechoslovakia.

Since it is possible that [redacted] and particularly [redacted] may attempt to contact American personnel visiting Czechoslovakia, their pictures are attached as EXHIBIT I to this report. (C-2)

arrived at the safe house in a small German-made BMW sedan accompanied by a "Starsina" (Master Sergeant). During the meeting he was dressed in civilian clothing. He talked to Source for about one hour during the meeting after asking others present at the meeting whether or not Source was doing satisfactory work. The conversation with Source concerned primarily the desirability of Source obtaining employment which would give him greater mobility. Source learned that this person has been engaged in intelligence work since about 1945, and that prior to then he had been a blacksmith. He originates in the area around Moravska Ostrava 34UC AO424, CSR. Source first met this person during an operational meeting which took place during the period 7-9 October 1957 near Bozi Dar 33UUR5287, CSR, at which time Source believed this person, because of his accent, to be a Russian.

During the course of an operational meeting of the StB at a safe house near Pisto 33UU:3932, GMR, during the period 13-17 May 1958, Source was in contact with a member of the body whose name is not known to him. He first met this person in the company of [REDACTED] or [REDACTED] and was for a time accompanied by him. Source claims he can remember few details concerning this person or his description because of a personality clash which developed almost at the first contact. This person was about 23 years of age, acted in such a peculiar manner, giggling and talking nonsensically, that Source claims to have felt an almost overwhelming desire to "punch him in the nose" every time he looked at him. This person did not play any important part in the proceedings of the meeting. He wore a uniform which appeared to be borrowed for the occasion since it fitted him very poorly.

SUMMARY OF INFORMATION

During the course of an StB operational meeting held during the period 15 through 17 May 1958 at a safe house located near Pisto 33UUR3932, CSR, Source came into contact with the following personality believed to be a member of the StB:

(b) (7) (C)

Name: [REDACTED] or [REDACTED]
 Date of Birth: About 1930
 Height: About 5'9"
 Weight: About 164 pounds
 Build: Medium
 Hair: Dark brown or black; combed straight
 back without a part; receding at the temples
 Face: Narrow
 Distinguishing Characteristics: Walks in a peculiar manner, rather stiff-legged with his back slightly bent.
 Remarks: Source was accompanied by [REDACTED] almost continuously during the course of the

operational meeting during the period 15-17 May 1958. During this period [REDACTED] was at times dressed in civilian clothing and at times wore a green uniform with three red stripes on the shoulder boards. [REDACTED] is married and has two children, a son and a daughter, who reside with his wife in Karlovy Vary 33UUR4966, CSR; however, Source feels that [REDACTED] is normally stationed at Marianske Lazne 33UUR3639, CSR. Source first met [REDACTED] during the course of a brief encounter on the CSR-German border at coordinate point 33UTR995687 on 8 March 1958. During the course of conversation, Source queried [REDACTED] concerning a badge worn on [REDACTED] right breast. [REDACTED] stated that it was an award for being a good soldier and showed Source a wallet-size document which he described as his authorization for wearing the badge. At this time Source had a glimpse of the name which appeared to be [REDACTED] or [REDACTED]. [REDACTED] also wore two badges on his left breast, but Source did not determine the significance of these. In conversation [REDACTED] revealed that he had been in intelligence work for many years and that in 1948, after the communist seizure of power in the CSR, he had been sent to Germany as a refugee with the mission of being recruited by CIC. This was allegedly successful and [REDACTED] worked for CIC for about two years making illegal border crossings into the CSR, and reporting to CIC only information cleared by or supplied by the Czech Intelligence Service. [REDACTED] indicated that about 1950 it became evident that CIC was suspicious of him. He therefore returned to the CSR, crossing the border by car or truck on the road from Selb 33UTR9561, Germany, to As 33UTR9967, CSR. His companion, not named, was arrested by CIC.

SUMMARY OF INFORMATION

(b) (7) (C)

1. [REDACTED] the CIS representative in contact with Source A-M, is about 53 years old, approximately 5'8½" tall and weighs between 180 and 200 lbs. He is stout without actually appearing fat. His face has a reddish complexion. It is cleanly shaven and gives a somewhat flabby impression. His eyes, set very deep, appear alternately blue, grey and green. His nose is of the round, knobby type. His chin is strong with a slight cleft. His hair, deeply receding at the corners, is of dark brown, almost black color, combed straight back on top where it is thinning, and grey and curly along the temples. The hair on top almost gave the impression of being dyed or at least being treated with a tinting hair pomade or lotion. It was evident that Josef's eyebrows are bushy by nature but that they were subsequently trimmed and possibly partly plucked. His hands are of average size, white and soft looking but not ugly. The fingers are fairly long, with nails trimmed rather short but well cared for. Generally speaking, [REDACTED] resembles somewhat the US movie actor Ernest Borgnine or the deceased former Soviet foreign minister and ambassador to the United States, Maxim Litvinov, in the latter's younger years.

2. At the initial meeting [REDACTED] wore a grey hat, a grey overcoat and brown leather gloves. Generally, [REDACTED] clothes were of good quality but not elegant. He speaks a very distinct and fluent German with an Austrian accent. As he told Source himself, [REDACTED] is a 'Diplom-Ingenieur' (college graduate engineer) by profession. He passed his [REDACTED] (high school graduation examinations) and spent some time studying in Germany. [REDACTED] claimed to have been well acquainted with Count Friedrich Werner von der Schulenburg, from 1934 to 1941 German ambassador in Moscow (nca), USSR, and Schulenburg's 2 nephews (unidentified) who should be approximately 40 years old at the present time. From 1939 to 1941 or 1942, [REDACTED] claimed to have been in the Dachau 32UPU84, Germany, concentration camp where he lost his teeth.

He has three children by his first marriage, all of whom are married, and five children by his second marriage, all of whom reside with him. Sevcik, who was dispatched to Vienna (nca), Austria, in an attempt to recruit Source B-IV for the CIS, has stated that he has been working for the CIS for some period of time. On one occasion he stated that he had been acting as informant for about three years and on another occasion indicated that his activity as an informant might date as long back as 1948. He meets his handling agent, name unknown, every Monday evening. (EXHIBITS I, II, III, IV, include photographs of Sevcik).

SUMMARY OF INFORMATION

(b) (7) (C)

██████████ 20 years old, porcelain worker in Hohenberg/Eger 33UUR15, Germany, was arrested by the Criminal Police in Hof 32UQA07, Germany. ██████████ is accused of having collaborated with the Czech Intelligence Service. He had repeatedly told friends in Hohenberg near the Bavarian-Czech border, that he frequently had been in the CSR and that he had delivered magazines upon request to the Czechoslovakians. He stated that he received 500 Crowns for each border crossing. ██████████ started to drink heavily, although he had rarely been employed. ██████████ activity was revealed when his bride, ██████████ 17 years old, residing in nearby Silberbach nca, Germany, told her father that ██████████ had confessed to her having fired a pistol at ██████████ customs official, on 3 July 1951 at 0300 hours in the vicinity of the road from Selb 33UTR96, Germany, to Eger. ██████████ and another customs official had stopped an illegal border-crosser that day. However the illegal border crosser was able to escape when he fired two rounds at the two customs officials. When the two officials took cover, they were suddenly fired upon from CSR territory and ██████████ was killed. The investigation of the "accident on duty" was not successful. Upon request of the German Federal Government and the Americans who demanded clarification of the case from CSR, they only received a message from Prague 33UVR64, CSR, that there were no shots fired by CSR soldiers that particular night. ██████████ so the Czechs stated, must have been killed by an illegal border crosser. Shortly after the seizure of ██████████ 27 year old ██████████ from Schirnding 33UUR05, Germany, was arrested and sent to the district jail in Wunsiedel. ██████████ is suspected to have cooperated with ██████████

a. [REDACTED] attended grammar school in PRAGUE for five years, followed by four years of secondary education in TEPLITZ and three years of vocational training at a pastry cooks school in PODMOKLY. [REDACTED] also learned the confectioner trade during a two-year schooling at the Mercantile Academy in TEPLITZ-Schoenau. d. Due to his failure in securing employment within West Germany, [REDACTED] decided to return to CSR and approximately one month after [REDACTED] arrest traveled to BAYER EISENSTEIN where he was promptly apprehended at the Czech frontier. After being held for one night at the Czech EISENSTEIN jail, [REDACTED] was taken by detectives to the Police Headquarters on Bartolomejska ulice, PRAGUE. Upon his arrival [REDACTED] was immediately blindfolded and taken to the second floor where he waited for two hours before being again blindfolded and driven to an unoccupied game warden's cabin located on a narrow dirt road adjacent to the Hotel "Renne", 30 kilometers from PRAGUE.

e. During [REDACTED] four or five days at the cabin, he was subjected to a perpetual interrogation by various men. Although [REDACTED] was not locked up, he was constantly in the company of three or four men, and on one occasion there were about 20 interrogators present. During his interrogation [REDACTED] was repeatedly informed that he did not fall within the purview of the Amnesty Act due to the fact that he had worked against the CSR on behalf of the Americans. He was queried about his activities with American Intelligence and the underlying reasons for his return to the CSR. [REDACTED] was also charged with draft evasion, for which he could anticipate a minimum sentence of six years; for illegal border crossing, a four year sentence; and for prejudicing the security of the CSR, another eight years of imprisonment besides an undeterminable sentence for having established contacts with enemy agents. [REDACTED] was well treated during his interrogations and received all of the food and drinks that he desired.

f. Under the threat of imprisonment and as retribution for his past activities, [REDACTED] verbally agreed to return to West Germany for six months as a Czech Intelligence Service agent. Upon completion of this period [REDACTED] was promised that he would be given housing and be permitted to marry upon his return to CSR.

g. Instead of receiving a specific mission, [REDACTED] was told to return to MUNICH where he would be given further instructions from an unidentified person who would contact him there.

h. [REDACTED] was then given DM 500 for which he was required to receipt and was asked if he would like to see his fiancée in TEPLITA, to which he answered in the affirmative. The interrogator then went to TEPLITA and brought [REDACTED] fiancée to the Palace Hotel, PRAGUE, where [REDACTED] stayed with her until the next morning when she was driven back to TEPLITZ. [REDACTED] then asked if he might see his sister, a resident of PRAGUE, and was promised that he could do this at a later date.

i. That evening [REDACTED] was driven to EISENSTEIN via BARTOLOMEJSKA and illegally crossed the border to West Germany following a route used by him during his activities with American Intelligence and on his re-entry to CSR. He went by train to PLATTING where he spent the night and proceeded the following day to MUNICH, arriving in early August 1956. In MUNICH he again resided at [REDACTED] house on Maistrasse and found employment in September 1956 with the American Fund for Czechoslovak Refugees, Inc.

j. About six weeks after his return from the CSR, [REDACTED] again went to the CSR using the previously mentioned route across the border. At EISENSTEIN [REDACTED] checked in at the Border Station. After the Border Station called PRAGUE requesting a car, [REDACTED] was driven to PRAGUE, arriving on a Saturday at 2300 hours.

k. The purpose of the trip was to get additional money. The officials again gave [REDACTED] DM 500 but reprimanded him for returning to the CSR and warned him "not to come too often." [REDACTED] received no further instructions and merely was told to look and listen for any opportunity to collect information about West German or Allied agents going to the CSR. If [REDACTED] had definite knowledge of a specific agent leaving for the CSR, he was to immediately go to EISENSTEIN, file his report and request to be taken to an officer of the Border Station. He was to tell the officer to call number 232360 and give the message "Robert was on the frontier." Written reports were to be filed at the following PRAGUE address: Kemmerle, PRAHA II, Ve Smeckach 27. In addition [REDACTED] was told to discreetly persuade one [REDACTED] an editor residing at [REDACTED] to return to the CSR and have him write a book on "life in exile" to be used for propaganda purposes.

l. The following morning [REDACTED] returned from PRAGUE to EISENSTEIN and proceeded to MUNICH. [REDACTED] contacted [REDACTED] and brought up the subject of returning to CSR, but dropped it, as instructed by the CSR officials, when he noticed that [REDACTED] appeared ill at ease because of the question.

m. Concerning [REDACTED] knowledge of and association with [REDACTED] born [REDACTED] at [REDACTED] Married, machine construction technician, stateless, former CSR citizen and residing at [REDACTED] stated substantially the following:

[REDACTED] acquaintance with [REDACTED] was of two and a half months' duration prior to [REDACTED] apprehension in December 1956. They met in the

Palmhof tavern at 4 Palmstrasse, a place frequented by many CSR compatriots. On one occasion [REDACTED] mentioned to [REDACTED] that he had previously worked for the British Intelligence, whereupon [REDACTED] told [REDACTED] about his prior employment with the Americans and how they had virtually "left him in the lurch". During the pursuing conversation on methods of re-entering the intelligence field, in behalf of the Allies, [REDACTED] suggested German and French agencies. [REDACTED] agreed to illegally cross the CSR border in behalf of such agencies. After [REDACTED] attempts to re-establish intelligence commitments with either the German or French agencies, [REDACTED] discreetly suggested establishing connections with the CSR. [REDACTED] appeared hesitant about such an action, but later acquiesced and agreed to return with [REDACTED] to the CSR.

n. After [REDACTED] had given written notice to the CSR officials at the previously mentioned address, [REDACTED] accompanied by [REDACTED] arrived at the border on a Saturday, and they were immediately driven to Bartolomejska ulice in PRAGUE, arriving there around 1900 or 2000 hours. They were then taken to separate rooms and did not meet again until 0400 hours when they and two officers went to a local night club for cognac. [REDACTED] was taken to a hotel on Vavelske namsti while [REDACTED] spent the rest of the night at a hotel at PRAHA-Letna.

o. At 0800 hours the following morning [REDACTED] and [REDACTED] were driven to BARTOLOMEJSKE where they were again separated. [REDACTED] played cards with the officers while [REDACTED] in a different room, was required to write a statement for the Czech Intelligence Service which he completed around 1200 hours. After eating lunch [REDACTED] and [REDACTED] met on the PRAGUE-PILSEN highway and were driven to EISENSTEIN where they crossed the border and returned to MUNICH.

p. En route to the border from PRAGUE, an older chief who was accompanying [REDACTED] informed [REDACTED] that [REDACTED] had been given a mission, but [REDACTED] was not informed as to the nature of the mission. At BARTOLOMEJSKA [REDACTED] received DM 300 and [REDACTED] allegedly received DM 200.

q. [REDACTED] returned to the CSR around the end of 1953 using the same route as previously used in illegally crossing the border at EISENSTEIN. He reported to the Border Police and was driven in a jeep to the Border Police headquarters where he was transferred to an automobile and driven to PRAGUE. At PRAGUE [REDACTED] checked in at Bartolomejske ulice and submitted addresses and pictures that he had obtained at his MUNICH office of the American Fund for CSR Refugees, of several Czechs residing in West Germany. [REDACTED] also submitted a report on one [REDACTED] a Slovak residing in West Germany who has organized a private

Refugee is one of the few (according to him) Hungarian officers who, for two and a half years, attended a military college (advanced training school for intelligence officers) in the USSR. He and twenty-one other Hungarian officers were detailed to this training course in the USSR where they pursued studies for a period of 30 months from 1949 through 1951. Some of his fellow students were officers from other satellite countries also detailed to this school.

Of these officers, refugee remembers by name several Czechs, namely Captain Antisek Gumpala who, during the war, was employed in the British Intelligence Service; Capt. Pechanek, now holding the position of group commander of a strategic intelligence department in the Czechoslovakian Defense Ministry; and Major Fiala, who is the present commander of the Czech training school for intelligence officers. Informant received the data concerning Pechanek and Fiala from the former, who was in Budapest in late 1955 as one of a group of Czech officers visiting the Army Academy.

At first, refugee and eight of his fellow officers were detailed to the training school in Leningrad, while the 13 other Hungarian officers were sent to a similar school in Kiev. After six months residence in Leningrad, he and his comrades were transferred to a similar school in Kiev. At both schools, the training schedule covered a period of five years. Officers who graduated from this school received a diploma awarding them the degree of engineer in the technical field they had selected for their studies. However, the officers from Satellite countries attended the school merely for two and a half years.

The Leningrad school was located in the university district, not far from the Neva River. (He was unable to supply specific data concerning the location of this school.) While residing in Leningrad, he shared quarters with Czechoslovakian and Albanian officers. Students were permitted to wear civilian clothes when moving about the city. At that time, officers from all satellite countries, including China, but excluding Hungary, were still granted permission to marry Russian women.

ENCLOSURE
DISSEMINATION SCHEDULE

During his sojourn in Leningrad, he never noticed that the foreign officers were spied upon, or kept under surveillance. Things were different in Kiev. The students realized at once that the "interpreter" attached to each of them was, in actual fact, a government spy.

In Kiev, informant and his colleagues were quartered in the Bitscherski district, close to the training school. In the same district were also located a training school for armored officers, and a "Sushorov School". The latter is a military academy attended by boys of 10 to 18 years of age.

The foreign officers who attended the Kiev school for only two years received a school certificate and not a diploma. The next higher officers training schools in the USSR were the Moroschilov Academy -- at which senior political officers were trained for the general staff -- and the Frunze Academy for instruction in advanced military science. Graduates of these two academies are received into the general staff of the Soviet Forces provided that they have attained the necessary military rank.

In 1950 and 1951, Wassili Wassili was employed in the Soviet general staff as the commander of all intelligence units.

Army covers ten divisions, i. e., three mechanized divisions, one armored and one artillery division, and five motorized infantry divisions. Most of the Soviet troops are stationed within the European region of the USSR down to the Caucasus. The armies garrisoned in Siberia and the Far East have a large percentage of mounted units in addition to the motorized formations.

The Soviet forces are subdivided also with regard to the specific enemy against which individual armies will be sent into combat. There are large combined-arms units which are now being established and prepared for special missions.

There has been a change also in the Soviet war strategy. The method of frontal break-through, sponsored by Stalin, has been replaced by the tactics of outflanking movements and of indirect support. The present program is based on the American employment of troops in battalion strength but adapted to the specific combat methods applied by the Soviets.

All military schools in the USSR are subordinate to the group commander for military training in the Ministry of Defense. The only exceptions are the Frunze Academy, the Voroshilov Academy and the advanced training schools for officers in Leningrad and Kiev, which are directly subordinate to the general staff.

Refugee was unable to supply exact details concerning the organization of military zones in the USSR. It is his opinion that several of the smaller national Soviet republics are lined up in a single military zone, while the large national republics, such as White Russia, Ukraine, etc., constitute an independent military zone. In accordance with this arrangement, the Soviets have organized the individual satellite countries as so many independent military zones. A Soviet general is assigned to each of these countries who is employed officially as the military advisor of the Defense Minister concerned. At the same time, he is the commander in chief of all Soviet troops stationed in the satellite country. To him are subordinated central military government headquarters which, in turn, are in charge of all town headquarters. The latter cover the military units stationed in their locality. These military units can consist of one or several divisions, as was the case in Hungary at the time of the insurrection.

The commanders of the individual military zones received their orders and instructions via the general staff directly from the military council of the Cabinet.

The military advisers stationed in the individual satellite countries received their orders and instructions via the Soviet Embassy. Moreover, there was a direct line of communication between the Soviet advisor in the Hungarian Defense Ministry and the Soviet General Staff. The latter maintained direct contact with all important headquarters in the satellite countries without having to use the line reserved for the Soviet advisor. Thus, national headquarters of civilian defense in Hungary (GIEP) were able to communicate directly with the General Staff in Moscow. The transmitter used for this purpose was in Szabadshagery (R-50 transmitter, 1 kW transmitting power, 5 - 20 MHz).

The Hungarian General Staff consisted of several group commands and of the General Staff proper. The following group commands were part of the General Staff: Personnel, Armored Units, Artillery, Combat Methods, Communications (telephone, radio, and radar) and Collection of Information. The latter included operation of jamming stations.

The Air Force was not represented in the General Staff. It was subordinated via the Defense Ministry to the Cabinet.

In May 1956, informant delivered at the Zrinyi Academy in Budapest a lecture on the experiences gained by officers of the satellite countries during their visit in the USSR. This lecture was attended also by officers of NATO countries. The latter appeared in their uniforms and were most eager to learn something about the organization of the Zrinyi Academy (among these officers were several from the United States who spoke fluent Hungarian). However, the information they received was confined to matters of little or no importance.

4. REPORT OF FINDINGS

On 15 November 1956, [REDACTED] born [REDACTED] in [REDACTED] was interrogated at the Weiden Office, Weiden 33UTR9506, Germany, and continued his statement of 14 November 1956. [REDACTED] stated substantially as follows in a written statement to the Weiden Office:

SUBJECT remained at the SSD (Staatssicherheitsdienst - State Security Service) building in Anklam 33UVV1468, DDR, for approximately one week. During this time, he was allowed to move freely throughout the city of Anklam. At the end of this time, SUBJECT was asked if he was ready to work for the SSD. SUBJECT's work for the SSD was to be as follows: He was to travel to various cities in the DDR which were selected by the SSD, and at these cities he was to visit select installations to see if he could recognize any persons who were formerly in jail with SUBJECT in Germany. The SSD assumed that prisoners in Germany were paroled from jail if they agreed to work for an intelligence organization. SUBJECT signed an oath of allegiance to work for the SSD, especially after the SSD informed SUBJECT that it was due to their interference that the charges of espionage against SUBJECT were dropped in his court trial in Neu Brandenburg (nca), DDR.

During the period of SUBJECT's association with the SSD, he learned the names of several SSD personalities, but SUBJECT refused to disclose this information.

On 26 March 1956, SUBJECT, along with a man of the SSD whom SUBJECT stated he would call [REDACTED] travelled from Anklam to Sassnitz (nca), DDR. SUBJECT was to observe the personnel of the Fishing Cooperative located in this city as he was previously instructed to do. The SSD claimed that there had been some cases of sabotage at this enterprise. SUBJECT portrayed the role of a tourist, and was billeted with the border police in the vicinity of a chalk factory in Sassnitz. SUBJECT was unable to identify any persons at the Fishing Cooperative with whom he had been in jail in Germany, and he so reported to his SSD handling agent.

On or about 10 April 1956, SUBJECT and his SSD companion traveled to Schlattkow (nca), DDR. In the vicinity of Schlattkow was a tractor station which had also allegedly been hit by German saboteurs. Following instruction of the SSD, SUBJECT applied for a job at this tractor station. However, he was turned down by the manager.

4. REPORT OF FINDINGS

During the above mentioned period, SUBJECT was not paid a salary by the SSD, but his SSD companion paid for all of SUBJECT's expenses, including drinking.

The SSD, Anklam, then sent SUBJECT, along with a member of the SSD, via Bernau (nca), DDR to West Berlin 32UUU9220, Germany. SUBJECT and his companion were at various restaurants in West Berlin, and then SUBJECT was taken to the vicinity of the Marienfelde Camp for refugees. SUBJECT had to give his DDR identification card, which contained his real name, to his companion. SUBJECT's mission at this camp was to determine the name of refugees in the camp who had been working in various agencies in the DDR such as the SSD, VoPo (Volkspolizei - Peoples' Police), or similar agencies. SUBJECT was also to determine the reasons why these people fled from the DDR. For this mission SUBJECT received 100.00 German Marks, for which he had to sign a receipt.

SUBJECT registered under his own name in the Marienfelde Camp, and remained there for two days, being interviewed by both German and Allied agencies. He was then taken to a refugee camp located at Spenerstrasse 23, in West Berlin, where he remained for a period of three days. SUBJECT, while in these camps, did not make any investigations requested by the SSD.

SUBJECT left this last camp, and traveled by elevated train to East Berlin, and then to Anklam. Upon arrival there, SUBJECT told his handling agent in the SSD that he had not succeeded in obtaining any information.

After having been in Anklam for a period of two days, SUBJECT met a Soviet citizen in the SSD office on Ellbogenstrasse. This man invited SUBJECT to a restaurant where they engaged in a political conversation. SUBJECT guessed that this man was a member of the NKVD. This man later told SUBJECT that he was an agent of the NKVD. This man told SUBJECT that he was interested in certain intelligence matters in the DDR, and asked SUBJECT if he were willing to work for him.

On the following day, SUBJECT met a second member of the NKVD. From that time on until June 1956, SUBJECT, along with the two NKVD men, traveled throughout the DDR. They were in the towns of Halle (nca), DDR; Leipzig 33UUS1891, DDR; Erfurt 32UPE4248, DDR; Gotha (nca), DDR; Wismar (nca), DDR; Dresden 33UVS1257, DDR; Ruebnitz (nca), DDR; Dammgarten (nca), DDR; and Eisenach (nca), DDR. billets with the exception of Erfurt, where they stayed at the Loebefeld Barracks. SUBJECT's mission was to associate with and drink with members of the VoPo to Determine their political attitude.. SUBJECT again worked without pay, but he had a steady expense account of 100.00 East German Marks, which was always replenished by the two agents of the NKVD. SUBJECT was requested by the two agents to obtain receipts for any expenses which SUBJECT incurred. SUBJECT did not know the names of the two NKVD men, nor did he know where their unit was stationed. While on the trip, the two NKVD agents received mail from Berlin and Wismar. Although SUBJECT was under the impression when talking with members of the VoPo that only the officers were 100% communistic, he reported to his handling agents that all the people with whom he came in contact were in order. During this trip, SUBJECT posed as a tourist from Germany.

At the end of June 1956, SUBJECT and the two NKVD agents returned to Anklam. SUBJECT was again turned over to the SSD. The SSD then informed SUBJECT that they were going to send him on a similar mission to the one he accomplished in the Marienfelde Camp in West Berlin, only this time, SUBJECT was to be sent to the refugee camps in Giessen 32UMB7704, Germany, and Munich 32UPU9135, Germany. SUBJECT was to obtain complete lists of those refugees from the DDR who were members of the VoPo, the SSD, or similar organizations, who were living in these refugee camps. SUBJECT was instructed by the SSD not to inform the NKVD about this mission.

A few days later, the two NKVD agents appeared in Anklam and told SUBJECT that they wanted him to travel to Germany and perform missions for the NKVD against CIC and MIS units in Landstuhl (nca), Germany; Schweinfurt 32UNA8844, Germany; Bad Kissingen 32UNA7761, Germany; Munich, Germany; Bayreuth 32UPA8536, Germany; Augsburg 32UPU4060, Germany; and Penzing (nca), Germany. SUBJECT was told to perform surveillances on the houses occupied by the two organizations in the towns indicated, and to take photographs of people walking into the houses. Also, he was to take down the license plate numbers of the vehicles utilized by the organizations. SUBJECT was instructed by the agents of the NKVD not to mention this mission to the SSD.

SUBJECT agreed, on separate occasions, to perform both the mission given him by the SSD, and the one given him by the NKVD. The SSD in Anklam gave SUBJECT 500.00 German Marks to accomplish their mission. The NKVD gave SUBJECT 800.00 German Marks and a 35 mm camera. There

were no definite deadlines set by either organization for the completion of their respective missions; however, each agency wanted their respective missions completed as soon as possible. The NKVD also told SUBJECT that they were interested in obtaining pictures of American soldiers. These would be in the possession of females associating with American personnel. SUBJECT was told that these photographs would be of particular interest if they carried the home address of married American personnel, or the unit designation to which the person was assigned.

The SSD furnished SUBJECT was a DDR interzonal identification card issued by the city of Anklam. The card showed SUBJECT's real name, but contained a false date and place of birth. On 2 July 1956, SUBJECT was taken by a member of the SSD, Anklam, to Eichsfeld (nca), DDR. They spent the night with the VoPo in Muehlburghausen (nca), DDR.

During the night 3-4 July 1956, SUBJECT crossed illegally into Germany near Coburg 32UPA4069, Germany. SUBJECT destroyed the identification furnished him by the SSD because he had no intention of returning to the DDR. SUBJECT hid the money and the camera in the vicinity of a small Bavarian Border Police (BBP) station near Coburg. He then surrendered to BBP officials at the station. SUBJECT was interrogated by BBP and MIP, Coburg, and related to these two agencies a fabricated story to the effect that he had escaped from the Island of Umanz (nca), DDR. SUBJECT was then taken to the Refugee Commissioner in Coburg, who furnished him with a ticket to Giessen. SUBJECT then returned to the spot where he had hidden the money and camera and recovered those items. He then proceeded to Giessen.

SUBJECT remained at the refugee camp in Giessen for a period of three days. Although penetration of the refugee camp in Giessen was a part of the EEI's assigned SUBJECT by the SSD, he denied that he accomplished any portion of the work assigned for this camp. SUBJECT stated to the Refugee Commissioner in Coburg that he did not want to go to Giessen, and wanted to return to Pfeffenhausen, but was told that he had to be processed by the Refugee Camp in Giessen.

The money SUBJECT received from the SSD and NKVD was spent in Giessen and Frankfurt/Main 32UMA7752, Germany, for drinks and entertainment. SUBJECT sold the camera in the Fisherstube Restaurant in Frankfurt/Main to a stranger for 80.00 German Marks.

On 15 July 1956, SUBJECT was arrested by the police in Frankfurt/Main for vagrancy. Everything else after this date up to the time of his crossing into CSR occurred as stated in SUBJECT's interrogations of 25 and 26 October 1956. SUBJECT denied completely that he performed any portion of the EEI's assigned to him by the SSD or NKVD. SUBJECT also denied that either of these agencies had instructed him to cross into the CSR.

SUBJECT's statements of 25 and 26 October 1956, are correct with the exception of the EEI's assigned to him by the CIS. The correct EEI's were as follows:

a. Determined how many guards were employed on guard posts at the airstrips at Fuerstenfeldbruck 33UPU6839, Germany, and Erding 32UQU1555, Germany.

b. Obtain license plate numbers of vehicles utilized by the Gehlen Organization.

4. REPORT OF FINDINGS

On 26 October, [REDACTED], born [REDACTED] in [REDACTED], was interrogated in the Weiden Office, Weiden 33UTR9506, Germany, concerning his illegal border crossing and subsequent recruitment by the StB (Statni Bezpecnost - State Security). SUBJECT stated substantially as follows in a written statement to the Weiden Office:

As previously stated in his statement of 25 October 1956, SUBJECT departed the Gastwirtschaft zur Bruecke, in Furth/Im Wald 33UUQ4364, Germany, at approximately 0030 hours, either 4 or 5 September 1956. From the inn, SUBJECT followed the direction of a sign which pointed to the German/CSR border, and the sign indicated that the border was approximately 2.4 miles away. SUBJECT travelled down this road and passed by a spot where an American patrol was standing on the left side of the road. He continued past this patrol until he came to a barrier on the German side of the border. He climbed over the barrier and walked approximately 100 yards where he came upon another barrier. At this point, he was in the CSR. He continued down the road and noticed a searchlight at the edge of the woods on the right side of the road. The search light came on at intervals.

SUBJECT walked in the direction of this searchlight. He passed a large, unlighted building on his left. When SUBJECT was in the wooded area, he crossed a ploughed strip approximately 30 feet wide. He then came to a fence. He walked parallel to the fence for some distance. He stepped on a wooden lid while walking, and stopped and lifted the lid. SUBJECT noted that a couple of steps led down into a tunnel. He closed the lid to the tunnel, and retraced his steps in a position parallel to the fence.

SUBJECT was suddenly stopped by a Czech guard who told SUBJECT to raise his hands. The guard asked SUBJECT in broken German where he wanted to go and SUBJECT replied that he wanted to go to the DDR. A second Czech soldier then appeared and gave some sort of signal with a flashlight. Apparently he signaled for another patrol for in approximately 15 minutes a group of 8-10 soldiers, with two dogs, appeared on the scene.

SUBJECT was then handcuffed and led through the tunnel, which he had previously examined, underneath the fence. The soldiers led SUBJECT in an easterly direction, and after having walked for a distance of approximately 600 yards, the group came to a road which they followed for a distance of approximately 3/4 of a mile.

The group then took SUBJECT to an old brick building on the left side of the road. He noted that there was a building on the right side of the road located on a small hill. SUBJECT was taken to the ground floor of the old, brick building and into a room where a man in Czech uniform with three small stars on his epaulets seemed to be expecting SUBJECT's arrival. SUBJECT's handcuffs were removed and the patrol left the house.

The man in uniform asked SUBJECT what language he spoke and SUBJECT replied German. SUBJECT then had to wait in the room for a period of approximately two hours until two civilians arrived.

Description of the civilian who spoke with SUBJECT: approximately 23 years old; approximately 5'4" tall; medium build, approximately 135 pounds; dark blond hair combed straight back; a round, full face; strikingly wide mouth; small ears. He wore a wedding band on the right ring finger, and wore a worn-out dark blue suit with a drab-colored trench coat. He had a pistol in his hip pocket. This man spoke fluent German with a pronounced Bavarian accent. Description of the second civilian: 5'4" to 5'5" tall, approximately 30 years old; heavy set; approximately 160 pounds; round face; beardless; very red cheeks; and wavy black hair, rather short, and combed straight back. He was wearing a grey sport jacket, brown trousers, shoes with rubber soles, and a drab-colored trench coat.

The civilian who spoke fluent German asked where SUBJECT had come from, and asked for identification papers. SUBJECT explained he had no identification papers as he had left them with [REDACTED] in Ried (nca), Germany. The two civilians then took SUBJECT to a Skoda car which was parked outside the building. There was a chauffeur sitting in the car.

They drove for approximately one hour until they came to a city, name unknown, which SUBJECT estimated to be approximately the same size as Landshut 33UTQ8981, Germany. He was taken to a military barracks in the city. The barracks had a wooden gate which was covered with sheet metal. Stationed at the gate was a guard armed with a machine pistol. The guard wore a red arm band. After the civilian who spoke fluent German spoke with the guard, the guard opened the gate. There was a large yard with chestnut trees. Military vehicles were parked on the sides of the yard. In the center of the yard was a large building.

uniform had brown epaulets which had stripes in the shape of a "T". Also, he wore black shoes with rubber soles. He wore an oval wrist-watch with a black dial on his left wrist. SUBJECT later observed this Referent wearing a bright colored sport jacket with a yellow shirt, without tie.

SUBJECT stated that when he was arrested by the Czechs he told them he was [REDACTED] born [REDACTED] in [REDACTED] who resided at [REDACTED]. The address is that of one of SUBJECT's aunts. SUBJECT gave this false information to the Czechs because he was afraid that he might be turned over to the Bavarian Border Police, and he hoped that they would not discover his real identity.

The "Referent" interrogated SUBJECT concerning his personal background and the reason for his crossing into the CSR. SUBJECT repeated his false story about his real identity, and gave his interrogator a false life history. SUBJECT stated that he wanted to go to the DDR to secure a job as a baker. SUBJECT was not questioned by the "Referent" as to why he chose to enter the CSR in order to get to the DDR. In this interrogation, as in all other interrogations, SUBJECT was not accused of being sent to the CSR by the western intelligence agencies. The only explanation SUBJECT could give for this was that in his questioning by the "Referent" SUBJECT demonstrated that he had studied Communist literature, and therefore, he was regarded as a Communist sympathizer.

The "Referent" took down SUBJECT's statements. The interrogation lasted until approximately 0300 hours, 5 or 6 September 1956. The "Referent" then took SUBJECT by car to a large prison outside of Pilsen. Here, he had to turn in his civilian clothes. He received prison garb. He received the prisoner number of 6504. SUBJECT was not photographed, nor were his fingerprints taken. The "Referent" was assigned, in this building, to cell number 20. During the first day of confinement, SUBJECT was confronted by a man in uniform who questioned SUBJECT closely concerning his trade as a baker in an attempt to determine SUBJECT's knowledge of his trade.

SUBJECT was interviewed daily, but his background was not discussed too thoroughly. Primarily, SUBJECT and his interrogator talked about Communist ideology. All statements made by SUBJECT concerning Communist ideology were taken down by his interrogator. An actual interrogation statement was not written down, nor did SUBJECT sign any statement.

When SUBJECT had been in jail for approximately 14 days, he was told by the "Referent" that two people who were interested in SUBJECT would come to see him the following day. On the following day, SUBJECT was called to room 210a where he was introduced to two civilians by his "Referent". The "Referent" then left the room.

One of the civilians introduced himself as [REDACTED] and asked SUBJECT how he liked the food. SUBJECT complained about the food, and was told by [REDACTED] that he would be given better food which would be brought to the office every day. This was done in the future.

[REDACTED] did not tell SUBJECT why he was so friendly, but SUBJECT was aware of the fact that [REDACTED] was a member of the StB who wished to recruit SUBJECT for some purpose. At three day intervals, SUBJECT was visited by [REDACTED] and other personnel of the StB.

SUBJECT refused to make any statements as to the contents of his conversations with [REDACTED] nor would he furnish descriptions of any StB personnel.

On 20 October 1956, SUBJECT signed an oath of allegiance to work for the StB. He signed this in the presence of the Chief of the StB, Pilsen. The EEI's which SUBJECT confessed, and other EEI's which SUBJECT refused to disclose, were discussed with him by personnel of the StB approximately one week before he signed the oath of allegiance.

On 18 October 1956, SUBJECT was released from jail. [REDACTED] and two other members of the StB drove SUBJECT to Prague 33UVR6048, CSR. In Prague, the StB personnel bought SUBJECT a jacket, shirt, and tie.

In the evening hours SUBJECT, along with the StB personnel, went to various bars in Prague. SUBJECT and the StB personnel returned to Pilsen at approximately 0300 hours, 19 October 1956.

SUBJECT was then billeted in a military hotel in Pilsen located not far from the Ringplatz. He remained from 19 October 1956 until 20 October 1956.

On 19 October 1956, SUBJECT was in the Hotel Continental in Pilsen. SUBJECT was given 100.00 Czech kronen as spending money by [REDACTED] and was allowed freedom of movement in Pilsen. SUBJECT was told by [REDACTED] that in the event he met a girl and ran out of money, he should call the StB Pilsen, ask for extension 222, and [REDACTED] would come and pay any bills he had incurred.

On 20 October 1956, [REDACTED] gave SUBJECT 200.00 German Marks in 20 Mark bills for which SUBJECT had to sign a receipt. SUBJECT signed the receipt with the name [REDACTED]. Three of the 20 Mark bills were old bills and the rest were new bills.

The statements made by SUBJECT on 21 October 1956, to CIC, concerning his cover name and the use of postcards is the truth. SUBJECT was also furnished with an additional cover address but refused to disclose this information.

On 20 October 1956, [REDACTED] and four other members of the StB, took SUBJECT to the German/CSR border across from Baernau 33UUR1521, Germany. They stopped at a PS barracks in a town, name unknown, located approximately 39 miles from Pilsen in the CSR. [REDACTED] changed from civilian clothes into uniform at the barracks. They then traveled to a village in the vicinity of the German/CSR border. The church of this village had an onion-shaped tower, and SUBJECT was told by [REDACTED] that he and his companions would wait for approximately 30 minutes after SUBJECT crossed the border. In the event of trouble, SUBJECT should return to the CSR in the direction of this church steeple.

SUBJECT was furnished a sketch of the border by a PS officer and this sketch indicated the road to Baernau. He was also furnished a pair of ladies black rubber boots by [REDACTED].

Before crossing, SUBJECT was told that he could cross back into the CSR near Baernau if for some reason he was unable to come to

At approximately 1745 hours, 20 October 1956, SUBJECT crossed into Germany from the CSR near Baernau. He tore up his sketch of the border area immediately after crossing. He also threw away the ladies rubber boots in the vicinity of a sports field in Baernau. SUBJECT traveled by train from Baernau to Weiden where he was arrested on 21 October 1956, as stated in his interrogation of 21 October 1956.

SUBJECT requested to be brought into contact with CIC after his arrest by the rural police, Weiden, because he wanted to be taken out of the hands of the German police. On 14 November 1956, [REDACTED] born [REDACTED], in [REDACTED] was interrogated in the Weiden Office, Weiden 33UTR9506, Germany, concerning his connection with the CIS (Czech Intelligence Service); the SSD (Staatssicherheitsdienst - State Security Service) of the DDR; and the RIS (Russian Intelligence Service) SUBJECT stated substantially as follows in a written statement to the Weiden Office:

SUBJECT's statements of 25 and 26 October 1956, are only partly true. SUBJECT stated that he wanted to tell the truth concerning his relations with the intelligence services of the CSR, DDR, and USSR. He further stated that he felt this might be more advantageous to him in any future trial, and that it might clear up certain suspicions which SUBJECT created in his statements. The reason SUBJECT lied to CIC was that he wanted to get out of the hands of the German police, and SUBJECT thought that CIC might regard him as a political refugee. Therefore, for several hours on 21 October 1956, he maintained that he was [REDACTED] a Czech national from Karlsbad 33UUR4966, CSR. He also confessed to CIC that he had contact with the CIS, and that he had been given certain EEI's in Germany. SUBJECT hoped that CIC would release him after their interrogation, and send him to the Valka Camp in Nuernberg 32UPV5179, Germany.

SUBJECT desired not to talk with German officials because he knew through his contact with the intelligence services of the CSR, DDR, and USSR, that there is the possibility of the intelligence services causing physical harm to personnel who double-cross them in foreign countries.

SUBJECT's crossing into the DDR in September 1954, took place as described in his statements of 25-26 October 1956. From September 1954 until November 1954, SUBJECT worked in the HO bakery in Luckenwalde (nca), DDR. During this period, SUBJECT had a girl friend named [REDACTED] who was employed as a telephone operator with the city of Luckenwalde.

In November 1954, the doctor of the city of Luckenwalde sent SUBJECT to Eisenach (nca), DDR, where he worked as a storekeeper in the Konsum (State-owned grocery store) until Christmas 1954. In Eisenach, SUBJECT made the acquaintance of [REDACTED] who was residing at [REDACTED] SUBJECT, however, continued corresponding with [REDACTED] found a letter from [REDACTED] and she wrote [REDACTED]

[REDACTED], SUBJECT discovered later, then reported SUBJECT to the County Chairman of the SED (Sozialistische Einheitspartei Deutschlands - Socialist Unity Party of Germany) in Luchenwalde stating that she suspected SUBJECT of being engaged in espionage. At Christmas time 1954, SUBJECT went to visit a cousin of [REDACTED] in Klein-Buetzow (nca), DDR.

On 8 January 1955, SUBJECT was arrested by the SSD of Anklam 33UUVV1468, DDR, after a discussion about politics with a member of the VP (Volkspolizei - People's Police) in which SUBJECT criticized the DDR Regime. SUBJECT was charged with having made subversive statements. He was also charged with having committed espionage by being in the room where [REDACTED] operated the switchboard during the time the results of the election came over the telephone lines. SUBJECT was taken to the SSD house located on Ellbogenstrasse in Anklam.

SUBJECT was detained in this building in a former storage room in the basement, which had been converted into a cell, until March 1955. He was then transferred to the jail on Phillip Mueller Strasse in Anklam where he remained for a few days. He was then transferred to the district prison in Neubrandenburg 33UUV8736, DDR. In Neubrandenburg, SUBJECT was tried by the DDR Court. He was confronted with the statement of [REDACTED] that he had attempted to secure state secrets through listening to telephone conversations. He was also confronted with a statement by [REDACTED] that SUBJECT had tried to secure information from her concerning construction plans in the EMW auto plant. During the course of the trial, these two charges were dropped, but SUBJECT was sentenced to three years in jail for having made statements detrimental to the DDR in his conversations with a member of the VP.

After the trial, a civilian, identity unknown to SUBJECT, and the judge at SUBJECT's trial, a man named [REDACTED] appeared at SUBJECT's cell and advised him to appeal the verdict of the court. He appealed. SUBJECT was in the jail in Neustrelitz (nca), DDR for two or three days, during which time he was again interrogated by the SSD in a friendly manner. SUBJECT was then shipped back to the jail in Neubrandenburg, where in April 1955, a new trial was held. SUBJECT's sentence was reduced to fourteen months in jail.

This concentration camp was the former labor service camp named Waase, Heide. The prisoners in this camp were working either on a state farm or were used as laborers in dam construction projects.

SUBJECT arrived at this concentration camp at the end of May 1955. In July 1955, SUBJECT was promoted to a brigadeer in command of a brigade of workers in the camp. His duties consisted of being responsible that his brigade fulfilled their quota of work. SUBJECT also had to do a certain amount of propaganda work in the camp.

In August 1955, two members of the SSD, Rostock, came to visit SUBJECT in the camp and asked him what he intended doing after his release from the camp. SUBJECT told the two men that he would like to work in a fishing cooperative or at a tractor station. These two men suggested to SUBJECT that he should work for the SSD; however, they did not tell SUBJECT what his work with the SSD would consist of. The two men told SUBJECT to think over their proposal of work for the SSD. After this visit with the SSD men, SUBJECT received better treatment in the camp. For instance, SUBJECT was allowed to purchase more items, and was allowed to move more freely throughout the camp.

At Christmas 1955, two members of the SSD visited SUBJECT and the camp, and took photographs of SUBJECT. He was also told by these two men that he would be picked up on the date of his discharge from the camp by the SSD. SUBJECT had no further contact with the SSD until March 1956.

On 18 March 1956, SUBJECT was released from the camp. Two members of the SSD picked up SUBJECT and transported him by car to the SSD house on Ellbogenstrasse, Anklam.

He had destroyed his identification papers in Offenburg. He was accepted by the French Foreign Legion, and sent to a camp of that organization in Marseille (nca), France.

SUBJECT remained at this camp for approximately three weeks, and then deserted. He then illegally crossed from France into Germany near Bergzabern (nca), France. Later, SUBJECT was arrested by the German Police in Munich 32UPU9135, Germany, for fraud, and transported by the police to Landshut where he was sentenced to seven months in jail for fraud. He was released from jail in 1950. SUBJECT, after his release, returned to his home in Pfeffenhausen.

Two days after his release from jail, a murder was committed in Niederharzkofen (nca), Germany, a small town in the vicinity of Pfeffenhausen. SUBJECT was extremely curious about the murder and went to the scene to attempt to collect details concerning the murder. SUBJECT accidentally learned that the German police suspected him of having committed the murder, and SUBJECT fled from Pfeffenhausen to Freilassing (nca), Germany. Here he was arrested by the German police, but managed to escape arrest and make his way to Laufen 33TUP4612, Germany.

SUBJECT was again arrested in Laufen and served fifteen months in prison while the murder was being investigated. At the same time he was confined for suspicion of murder, he served time for three cases of fraud, having been sentenced for same by the German courts in Landshut, Bad Reichenhall 32UUN4188, Germany, and Munich. While serving time in prison, SUBJECT confessed to the murder on several occasions, but subsequently revoked the confessions. SUBJECT only made these confessions in order not to be bothered by the Homicide Department of the German police in Munich.

On 18 June 1952, SUBJECT was released from prison in Landshut. When he was released, he was undernourished to such a degree that the State Medical Inspector of the prison in Landshut sent SUBJECT to the hospital in Harzkofen (nca), Germany. SUBJECT remained there for a short period of time, and then returned to Pfeffenhausen. SUBJECT's step-father refused to take him into the household, and, as a result of being without funds, SUBJECT committed other crimes. Subsequently the German court in Landshut sentenced SUBJECT to two and one half years in jail for being an accessory to a burglary. He served this sentence in penitentiaries in Ebrach 33UPA0824, Germany, Kaisheim (nca), Germany,

and Straubing 33UUQ2217, Germany. SUBJECT was released from prison in June 1954. SUBJECT then secured a position as a laborer working in a clay pit for the Sued-Chemie Company in Bruchberg (nca), Germany. He secured lodgings with a farmer in the vicinity, and he was required to work for this farmer after he finished his work in the clay pit.

Inasmuch as the work was too much, SUBJECT left his job in September 1954, and illegally crossed into the DDR from Germany in the vicinity of Hildburghausen 32UPA2188, DDR. SUBJECT reported to the border police station in Hildburghausen and stated that he was looking for a job in the DDR. Here he received 10.00 East German Marks, and was sent to a refugee camp in Eisenach (nca), DDR. He remained there for approximately one week.

He was then sent to work as a baker in Luchenwalde (nca), DDR, and remained there working in an HO bakery until November 1954. SUBJECT then became sick, and his doctor obtained a transfer for him to Eisenach. Here he worked as a storage worker with the Konsum (State-owned grocery cooperative) until January 1955.

In January 1955, he left this position and travelled to Klein-Buetzow (nca), DDR, where relatives of his girl friend were residing. His girl friend was [REDACTED], who was employed as a secretary in the EMW factory (an automobile firm) in Eisenach.

While he was in Klein-Buetzow, SUBJECT entered into a political discussion with a member of the VP (Volkspolizei-People's Police), and was arrested by a member of the SSD (Staatssicherheitsdienst - State Security Service) Anklam (nca), DDR, for making statements detrimental to the security of the DDR.

SUBJECT was taken to the SSD office in Anklam which is located on Ellbogenstrasse. This office was located in the villa formerly owned by the owner of the sugar factory in Anklam. SUBJECT was detained in the cellar of this building until March 1955. He was then taken to the jail located on Phillip Muellerstrasse in Anklam, where he remained for a period of several days. He was then sent to the district jail in Neubrandenburg (nca), DDR. In Neubrandenburg, SUBJECT was sentenced to three years imprisonment under article 6 of the Criminal Code of the DDR, espionage and sabotage. He was released from jail in Bergen (nca), DDR, on 18 March 1956. After being released from jail, SUBJECT received his papers in a sealed envelope and was told to report to the SSD in Anklam. However, SUBJECT tore up the envelope, bought a temporary identity card in Stralsund, and travelled throughout the DDR. In this manner, SUBJECT remained in the DDR from March until July 1956. During this period, he was supported by various women which he met in various towns. During this time, SUBJECT had no contact with the SSD; however, upon his release from prison, he was under the impression that he was supposed to report to the SSD in Anklam, as they wanted to utilize his services in some capacity.

During the night of 2-3 July 1956, SUBJECT illegally crossed from the DDR into Germany in the vicinity of Coburg 32UPA4069, Germany. He reported to the Bavarian Border Police in Coburg immediately after crossing the border. They placed him under arrest and detained him for a period of two days. He was then turned over to MIP, Coburg, where he was interviewed for a period of two to three hours.

On 4 July 1956, SUBJECT went to see the Refugee Commissioner in Coburg and requested that he be sent to Pffeffenhausen. He was told that he would have to be processed through the Refugee Camp in Giessen 32UMB9540, Germany. He was furnished a railroad ticket to Giessen. He travelled to Giessen and reported to the Refugee Camp. He then worked for a period of time for a cattle dealer named [REDACTED] in the town of Gross-Busseck (nca), Germany.

SUBJECT left this position and travelled to Frankfurt/Main 32UMA7752, Germany, where he was arrested on 15 July 1956 by the German police for vagrancy. He was sentenced by the Frankfurt/Main court to twenty-four days in jail for vagrancy.

SUBJECT was released from jail in Frankfurt/Main on 4 August 1956. With his discharge certificate from jail, he travelled via Munich to Pffeffenhausen. of SUBJECT named [REDACTED] who was residing in Rohr 32UQV1806, Germany, SUBJECT borrowed 50.00 German Marks and rented a room at the Bahnhof Restaurant in Pfeffenhausen. He remained in Pfeffenhausen for a period of time, and then travelled to Gieselshausen (nca), Germany, where he resided with an aunt, [REDACTED]. He remained in Gieselshausen for two days, and then travelled to Gammelsdorf (nca), Germany to visit his father.

On approximately 8 August 1956, SUBJECT travelled by rail from Gammelsdorf to Straubing where SUBJECT visited [REDACTED] a taxi driver for the Ostermyer Company, whom SUBJECT had met in prison in 1954.

From Straubing, SUBJECT travelled to Furth/Im Wald 33UUQ4364, Germany. On the evening of his arrival he made the acquaintance of [REDACTED] 28 years old, a resident of Ried (nca), Germany. SUBJECT lived with this woman until he illegally crossed into the CSR. SUBJECT did not recall the exact date of his illegal border crossing into the CSR near Furth/Im Wald, but believes it was either the night 3-4 or 4-5 September 1956. Immediately prior to crossing the German-CSR border into CSR, SUBJECT was a guest at the Gastwirtschaft zur Bruecke in Furth/Im Wald. He left this establishment at approximately 0030 hours.

The reason SUBJECT crossed into the CSR was that he was afraid that sooner or later the German police would arrest him for the fraud he committed in Rohr. It was SUBJECT's intention to flee into the DDR, but he thought it would be impossible to reach the DDR from Ried without being arrested. During the entire time SUBJECT remained at Ried, he had the intention of going to the CSR and asking the Czechs to guide him to the DDR.

SUBJECT denied he had any intention of offering his services to the Czech Intelligence Service. Furthermore, the SSD in the DDR had not instructed SUBJECT to go to the CSR.

As a result, as is obvious, detailed information was not obtained on certain points. SUBJECT's story of travelling throughout the DDR after his release from prison seems to be highly improbable; however, under continuous interrogation, SUBJECT maintained that this statement was true. The [REDACTED] referred to in the Agent Report is no relation to SUBJECT's mother. The fraud SUBJECT referred to in Rohr in the end of his statement was the borrowing of 50.00 German Marks from a relative without repayment.

4. REPORT OF FINDINGS

On 21 October 1956, [REDACTED] born [REDACTED] in [REDACTED] was interrogated in Weiden 33UTR9506, Germany, concerning his connection with the CIS (Czechoslovakian Intelligence Service), and he made substantially the following statement:

On 21 October 1956, at 0100 hours, SUBJECT was questioned by the Rural Police, Weiden, at the Hubertus Restaurant, because he had been spending quite a bit of money and it was suspected of being counterfeit. However, the Rural Police determined that the money was genuine. Inasmuch as he had no identification papers he was placed under arrest by the Rural Police. He then requested of the Rural Police that he be brought into contact with members of CIC or MIP, because he desired to tell them the truth about the origin of the money. Also, he had more confidence in the American officials, and was aware of the fact that they were interested in cases such as his.

For reasons which have to do with his past, he illegally crossed into CSR from Germany during the night of 4/5 September 1956, in the vicinity of Furth/Im Wald 33UUQ4364, Germany. Immediately after crossing the border he reported to a Czech PS (Pohranicni Straz - Border Guard) station and was taken by the Czechs to Pilsen 33UUR8412, CSR. SUBJECT was held there in a prison cell of Police Headquarters until 18 October 1956. During the period of his confinement in Pilsen, he was recruited by a member of the StB (Statni Bezpecnosti - State Security) for work for the CIS. SUBJECT also signed an oath of allegiance to work for the Czechs.

SUBJECT was equipped with new clothes and given 200.00 German Marks and on 20 October 1956, at approximately 1730 hours, he was guided across the German-CSR border into Germany, near Baernau 33UUR-1521, Germany. SUBJECT received the following EEI's to accomplish in Germany:

- Determined the identity of the American agency located on Elbestrasse in Frankfurt/Main 32UMA7752, Germany.
- Determine the identity of the officers serving with this agency in Frankfurt/Main and also attempt, if possible, to steal documents from this agency.
- Determine the identity of persons going in or out of the

Gehlen Organization building in Munich-Pullach (nca), Germany. He was also to determine the license plate numbers of vehicles utilized by the Gehlen Organization.

d. SUBJECT was to determine if a school for agents was located in Stuttgart 32UNV1206, Germany, and, if so, details concerning this school.

SUBJECT, utilizing the cover name [REDACTED] was to rent a furnished room in Frankfurt/Main. SUBJECT was to write a postcard in code to [REDACTED] house [REDACTED] near Pilsen, which would indicate his safe arrival in Germany, and at the same time forward his address in Frankfurt/Main, Germany.

After receiving this postcard the StB would send an individual to meet SUBJECT in Germany or a meeting would be arranged. SUBJECT was to give his contact any information and/or documents he had collected and this person would furnish SUBJECT with additional funds.

SUBJECT was instructed before his departure from CSR that he was to travel to East Berlin 32UUU9220, Germany, on 15 December 1956, where he was to meet his handling agent in the Rheinterasse Restaurant in that city. His handling agent, and the man who originally recruited SUBJECT to work for the StB, was known to SUBJECT under the name of [REDACTED]. He would, at this meeting, be furnished new EEI's.

SUBJECT never had the intention of fulfilling the EEI's assigned him by the StB. He travelled by train from Baernau to Weiden. Upon arrival in Weiden, he went to various inns, one of which is frequented by American military personnel. SUBJECT believed the inn was named the Casino, and here he made the acquaintance of a girl, name unknown. This girl asked SUBJECT to accompany her to the Hubertus Restaurant, which he did, by taxicab.

In the restaurant, SUBJECT bought drinks for everyone and spent approximately 60.00 German Marks. Due to his excitement at the time of his arrest, he gave CIC a false name and pretended to be a Czech national from Pilsen.

AGENT'S NOTES: Based upon the contents of this initial statement to the Weiden Office, SUBJECT was placed under arrest by the Bavarian Border Police for violation of paragraph 100e of the German

Criminal code, espionage. SUBJECT refused to make any statement to the German police authorities concerning his connection with the StB. SUBJECT initially stated that he was a Czech national and gave a false name. He maintained this story for approximately 2 to 4 hours of interrogation. He did, however, admit immediately that he received money from the StB and revealed his EEI's. SUBJECT had in his possession 84.05 German Marks at the time of his arrest. This amount was confiscated by the German police. The sum of 80.00 German Marks was in new 20.00 German Mark bills with the serial numbers as follows: P 284 497 01 D; P 284 497 15 D; P 284 497 90 D; and P 284 497 97 D. The rest of the money was in coins. In the Hubertus Restaurant in Weiden SUBJECT paid for his bills with the following new 20.00 German Mark bills: P 284 497 11 D; P 284 497 27 D; and P 284 497 31 D. He also allegedly paid for his train fare from Baernau to Weiden with a new 20.00 German Mark bill. The rest of the money was spent in the Casino Bar and other inns in Weiden. There is a Casino Bar in Weiden which is frequented by American military personnel and girls of questionable moral character from Weiden.

SUMMARY OF INFORMATION

On 12 June 1956, [REDACTED] born [REDACTED] in [REDACTED] single, occupation glass grinder, allegedly stateless, present address unknown, was tried by the Third Penal Senate of the Bavarian Supreme Court in Munich 32UPU93, Germany, on charges of establishing and maintaining treasonable contacts with the intelligence service of the Czechoslovakian Republic. He was acquitted for lack of evidence.

(B-2)

On 27 July 1955, after he had been returned to the German Federal Republic by Czechoslovakian authorities, SUBJECT asserted that he had not been hired by the Czech Intelligence Service but during a latter interrogation in prison he stated that after serving a prison term in Czechoslovakia for illegal border crossing, he was contacted by the Czechoslovakian State Security Service (StB - Statni Bezpecnost). Under pressure of the threat that his crossing into the German Federal Republic in 1948 would result in his being sentenced to a long prison term, he obligated himself to work for the StB and signed a statement to that effect. His handling agent, known to him only as [REDACTED] gave him various orders to be carried out in the Federal Republic, paid him 1,000 Czech Crowns and promised him an additional 10,000 Czech Crowns after completion of his missions.

(B-6)

During his trial on 12 June 1956, SUBJECT revoked the above statements and declared that he had invented the story.

[REDACTED] following information concerning [REDACTED]
born [REDACTED] in [REDACTED] single, woodworker, German
citizen, former residence: [REDACTED]

[REDACTED] was released from the prison of the Landegericht in Hof/
Saale (cna), Germany, on 5 February 1956. Criminal proceedings are
pending against him with the prosecuting attorney in Frankfurt/Main
(Staatsanwaltschaft V) under file number 22Js 7/56 for treasonable contacts
with the CSR Intelligence Service and for illegal border crossing.

On 31 March 1956, a bundle of letters was found near the border
in the vicinity of Silberbach (TR9756), Landkreis Rehau. The letters
were found in a ditch, and bore [REDACTED] address. It may be assumed that
[REDACTED] fled to the CSR because of the proceedings initiated against him,
and that he threw the letters away before he illegally crossed the border.
Among the letters was one written by [REDACTED] Kassel
(NA3485), City Hospital, Moerschberg 14 G IV, Germany. From this letter
it appears that [REDACTED] had become acquainted with [REDACTED] by means of a
newspaper advertisement. For a short time it appears that he had a love
affair with [REDACTED] which she terminated for some unknown reason. In
her letter, dated 13 July 1955, she mentioned among other things "Candy
with effect", and the last paragraph of the letter, dated 27 July 1955,
read as follows: "The letter please mail yourself, I do not forward such
a letter." The letters were forwarded to the prosecuting attorney in
Frankfurt/Main.

4. REPORT OF FINDINGS

On 15 June 1956, Anton STADLER, born 10 October 1899, in Veitsburg (nca), CSR, German national, residing in the Refugee Camp at Schalding (33UUP78), Germany, was interviewed concerning his past activities in CSR, and stated substantially the following:

a. SUBJECT was born in Veitsburg in 1899. SUBJECT attended five years of Volksschule (Primary School) in Pardubitz (33UWRC5), CSR, and then attended Realschule (Secondary School) for three (3) years in Pardubitz and four (4) years in Prague (33UVR62), CSR. The completion and passing of this test permitted SUBJECT to apply for a position as a City Official. In 1919 SUBJECT received a position in a hospital in Pardubitz working as an employee of the Defense Ministry of the Government. SUBJECT held this position until 30 June 1939, when SUBJECT took a position in the Relief Office in Koeniggraetz (33UWR56), CSR, working for the Ministry of the Social Relief Fund located in Prague. SUBJECT continued in this work until 3 July 1941, when he received a position with the Labor Office in Koeniggraetz as an official. SUBJECT was freed the same day and went to TARBOR (nca), CSR, where he was arrested by Czech partisans and imprisoned until 18 September 1945. On 19 September 1945, SUBJECT was returned to Koeniggraetz prison; and on 26 November 1946, SUBJECT was sentenced by a Czech military court to 20 years in prison. SUBJECT remained in Koeniggraetz until May 1947, and then was sent to the Karthaus Prison in Valdice (33UWR28), CSR. In the Karthaus Penitentiary, SUBJECT was sent to work in the Planning Division of the Prison. A part of SUBJECT's work was to draw up plans of the building and workshops whenever a repair or rebuilding program was in progress. SUBJECT remained at this work until 1953 when SUBJECT taught [REDACTED] a Czech national, (description not remembered), the functions of SUBJECT's work in the Planning Division. In June of 1953, SUBJECT was sent to work as a feather separator (dequiller of feathers for use in pillows, etc.) in the Feather Separating section of Karthaus Penitentiary. 4. REPORT OF FINDINGS

In March 1954, SUBJECT was sent out in the woods in the neighborhood of the Karthaus Penitentiary to work as a wood cutter.

b. In August 1954, SUBJECT came in contact with the STB (Statni Bezpecnost - State Security Police). While SUBJECT was working in the Valdice woods as a woodcutter, he was approached by a man (name unknown) wearing civilian clothes, 5'4" to 5'6" tall, slender build, dark brown hair, and no distinguishing characteristics. The above mentioned man told SUBJECT that SUBJECT could have a better job than woodcutting, but did not mention what the job was. SUBJECT at this time was friendly with a fellow prisoner, Karl Gasparik, 58 to 62 years old, 5'8" to 5'10" tall, slender build, thinning chestnut colored hair with grey streaks, and believed to be presently living in Hamburg (32UNE64), Germany. Gasparik told SUBJECT to take any job that SUBJECT was offered by the above mentioned man, who Gasparik believed to be an STB agent.

c. Three weeks after the first contact with the man believed to be an STB Agent, SUBJECT was contacted again by a Czech Colonel (name and description not remembered by SUBJECT) from the Inner Ministry at Karthaus Penitentiary, and a man (name unknown, description not remembered, however not the same man as mentioned in SUBJECT's first contact with man believed to be an STB Agent) in civilian clothes. The above mentioned man approached SUBJECT and told him that a job was ready for SUBJECT. SUBJECT was not informed as to what the job was.

d. On 9 September 1954, SUBJECT was transported from Karthaus Penitentiary to Brunn (33UXQ15), CSR, by Army Transport Truck. On the way to Brunn, the truck stopped at the Women's Prison in Pardubitz, and picked up two (2) women there. One of these women was 22 to 26 years old, 5'1" to 5'3" tall, dark brown hair, grey eyes, heavy set body and a chain smoker. The other woman was 25 to 29 years old, chestnut brown hair, blue eyes, 5'2" to 5'4" tall and a none smoker. The names of the two (2) women were not heard by SUBJECT. The two (2) women traveled with SUBJECT to Brunn. When SUBJECT and the two (2) women arrived in Brunn, they were blindfolded, taken from the truck and placed in an automobile, and transported to a building which SUBJECT later discovered from fellow prisoners in the building was an STB cover house, located at the corner of Querstrasse and Bratislavastrasse in Brunn.

e. SUBJECT was taken inside the building and his blindfold was removed by a man wearing civilian clothes (Name not known, description not remembered by SUBJECT). SUBJECT was then taken to an office where he was brought before a man in a First Lieutenant's uniform (name not known by SUBJECT),

5'6" to 5'8" tall, 50 to 54 years old, black hair, medium build, who as SUBJECT found out from other prisoners later, was the acting judge of the prisoners in the building. This First Lieutenant told SUBJECT that SUBJECT's job would be to mix with other prisoners held in the building, and report what the prisoners thought of the interrogation they were undergoing.

f. SUBJECT was then given over to two (2) men who were to be SUBJECT's handling agents. One of the men was called "Rudolf", and Second Lieutenant, 30 to 35 years old, 5'9" to 5'11" tall, black eyes, slender build, single, who lived with his mother in Brunn, and had previously been a mechanic. The second man was called "Josef", a Second Lieutenant, 28 to 32 years old, 5'4" to 5'6" tall, slender build, blue eyes, blond hair, who appeared to be of high intelligence, wore his clothes very untidily, and had no military bearing. "Josef" was second in command and took over the handling of SUBJECT when "Rudolf" was away.

g. From 10 September 1954 to 12 October 1954, SUBJECT was placed in a cell with a priest and another man named [REDACTED] 39 to 43 years old, 5'2" to 5'4" tall, slender build, chestnut brown hair, wore glasses to correct his nearsightedness, was married and had one child. The priest (name not remembered by SUBJECT) was 46 to 50 years old, 5'4" to 5'6" tall, strong muscular body, round faced, blue eyes, blond hair, Czech nationality, mother tongue Czech, but spoke fluent German. He had been a teacher in the High School in Brunn, and a member of the Czech Christian Party. At this time all the prisoners in the building were past members of political parties that the Czech Communist Government was trying to liquidate.

h. The two (2) women that had accompanied SUBJECT from Valdice to Brunn were also being used as STB informants. The two (2) women were placed in the cells of the two (2) daughters of General [REDACTED] who had been a top level member of the Social Democrat Party in CSR. SUBJECT stated that [REDACTED] had committed suicide before the Communist Police had been able to arrest him.

i. On 13 October 1954 to 16 January 1955, SUBJECT was placed in the cell of Emanuel Stern, a lawyer by profession, 70 to 74 years old, 5'2" to 5'4" tall, very thin build, abundant grey hair, and married. Stern had been fifth in command of the Social Democrat Party in Brunn. Stern and [REDACTED] had been good friends, and according to what other prisoners said, Stern and [REDACTED] had been in the employ of the English Secret Service. SUBJECT was told by "Josef" and "Rudolf" to report on what Stern said, and to make SUBJECT's report to "Josef" or "Rudolf" every day when the prisoners were sent out for exercise. SUBJECT claimed that he warned Stern not to talk

of anything that the STB might be interested in because SUBJECT feared that Stern's cell was wired for sound.

j. The security of the STB building as noticed by SUBJECT was as follows: When people other than guards and STB men were brought to the building, they were brought in blindfolded, and then the blindfold was removed once they were inside the building. When people were once imprisoned in the building they were never let outside of the building again until their imprisonment was over. At the front door of the building there was an SNB (Sbor Narodni Bezpecnost - Corps of National Security) guard. All windows of the building were barred. Outside of the building was a patrol of SNB guards that kept up a constant walking patrol. The cells that contained the prisoners were located in the basement of the building. The cell area was guarded by SNB guards. There were five (5) passageways, four (4) for men, and one (1) for women. In each passageway there were two (2) SNB guards. SUBJECT was told by [REDACTED] that the SNB guards did not stay in the building for any length of time, but came from the SNB prison called "Cejl" in Brunn, for regular guard mount rotation.

k. The STB in Brunn used civilian type "Tatraplan" automobiles in conducting their business. These autos were dark blue in color, had four (4) doors, and were equipped with civilian type radio aerials. The cars bore license plates with the letters "PS" at the top of the plate, and under these letters were five numbers. The plates had a white background with black numbers. The SNB drove military vehicles painted a dark green color, with military markings and identification numbers painted on the bumpers.

1. On 28 January 1955, SUBJECT was transferred to Karthaus Penitentiary in Valdice, and remained there until 8 February 1955, when he was transferred to Koeniggraetz to a prison there. At this prison SUBJECT was sent to work in the third story offices of the Kreis Verwaltung von Inner Ministerium (District Administration of the Inner Ministry). This office was in actuality a STB prison. The other floors of this building housed a SNB prison and offices. When SUBJECT arrived at the Koeniggraetz prison he was contacted by First Lieutenant [REDACTED] 28 to 32 years old, 5'2" to 5'4" tall, bald head, brown hair on back of head, light blue eyes, slender body build, drinks only milk, chain smokes, and wears reading lasses occasionally.

[REDACTED] told SUBJECT that SUBJECT could work as an agent for the STB in Western Germany. SUBJECT was told that he would be trained in intelligence work and used for this purpose. SUBJECT was taught how to make Mosaics, and spent most of the waking hours making pictures out of little bits of stone. This work, as [REDACTED] told SUBJECT, was to train SUBJECT's mind

to remember things quickly and clearly. SUBJECT was trained in recognizing different tones which he heard over a radio speaker apparatus; this tone exercise sounded very much like Morse Code to SUBJECT.

m. [REDACTED] told SUBJECT that SUBJECT would be sent to Prague for further training; however, [REDACTED] became ill and was replaced by [REDACTED] 26 to 30 years old, 5'6" to 5'8" tall, black hair, dark brown eyes, athletic body build of heavy proportions, married, and had hands that looked like he had earlier been a construction worker. [REDACTED] gave SUBJECT books to read, and then questioned SUBJECT about the contents in order to determine how much SUBJECT was able to accurately remember of what he had read in these books. These books were story and history books, and of no intelligence value. During the time SUBJECT was being trained for intelligence work, he was also placed in the cells of other prisoners and reported to [REDACTED] what they had to say. SUBJECT remained in Koeniggraetz penitentiary until 17 August 1955, and then was transferred to Karthaus prison in Valdice. SUBJECT remained in Karthaus until 12 September 1955, when he was released from the Karthaus Prison as a free man.

n. SUBJECT left Valdice the day of his release and went to Komotau (33UUR89), CSR, to join SUBJECT's wife, [REDACTED] nee [REDACTED] born [REDACTED] in [REDACTED] who SUBJECT had married in 1943 in Koeniggraetz. SUBJECT's wife, a Czech citizen since 26 April 1954, was residing at [REDACTED] SUBJECT at this time had made up his mind to go to West Germany to live; so on 21 November 1955, SUBJECT went to the Czech Red Cross in Prague and asked them to help him get passports for he and his wife to travel to Germany. SUBJECT left Prague and went back to Komotau to reside with his wife. Because SUBJECT felt that the Czech Red Cross was not accomplishing the task of getting his passports fast enough, SUBJECT traveled to Karthaus Prison in Valdice on 5 December 1955, to ask the Karthaus Prison Officials to help him get his passports.

o. At Karthaus Prison SUBJECT talked with fnu [REDACTED] 5'10" to 6' tall, 41 to 45 years old, heavy body build, blond hair, an SNB guard at the front door of the prison. SUBJECT asked to see the Political Supervisor, and was taken to [REDACTED] 2nd Lieutenant, SNB with STB contacts, 46 to 50 years old, 5'3" to 5'5", heavy set body build, frontal baldness extending to small patch of brown hair on the back of head, married and living in Jitschen (nca), CSR. [REDACTED] tried to talk SUBJECT out of going to Germany; however, after no success [REDACTED] told SUBJECT Koeniggraetz prison would be contacted and they would handle the situation. The same day SUBJECT was contacted by [REDACTED] in the Karthaus Prison. [REDACTED] told SUBJECT that [REDACTED]

would have a mission for SUBJECT when SUBJECT went to Germany. SUBJECT was told that if contact was not made before he left for Germany, SUBJECT would be contacted in Germany. [REDACTED] told SUBJECT to remember that SUBJECT was "standing before an open grave"; and that SUBJECT would be in physical danger if he talked about anything he had done with the STB while imprisoned in CSR.

4. REPORT OF FINDINGS

On 2 July 1956, [REDACTED] born [REDACTED] in [REDACTED] was interviewed concerning a recent conversation between him and a member of the Czech PS (Pohranicni Straz - Border Guard), and stated substantially as follows:

At 2000 hours on 30 June 1956, [REDACTED] kept his appointment with a Czech PS officer at a pre-arranged meeting place at the West German/CSR border. In answer to a previous request for information which the Czech had made, [REDACTED] told him that the CIC in SELB (33UTR-9562), Germany, is presently located in a hotel in SELB, name unknown, and that there is no CIC office in REHAU (33UTR8871), Germany. The Czech appeared satisfied with this information and requested that [REDACTED] meet him again, at the same location, at 1800 hours on 27 July 1956. [REDACTED] was requested to bring with him at this time a copy of the Egerer Zeitung, a monthly Sudeten-German newspaper, and a copy of the telephone directory for Oberfranken (Upper Franconia). The Czech stated that [REDACTED] would be given money at the next meeting, if he successfully complied with this request.

Whereas the Czech officer had appeared alone at his two previous meetings with [REDACTED] he appeared on 30 June 1956 in the company of another Czech PS officer, whose description is as follows: born approximately 1927, five feet nine inches tall, 130 pounds in weight, small brown eyes, light brown hair, thin eyebrows; he is very slight in appearance. He wore a brown uniform, brown hat, light brown shirt, dark brown tie, brown gloves and high rubber boots. He also carried a side arm and a machine pistol. Since this individual said nothing at all throughout the meeting with [REDACTED] it was impossible to determine what language he spoke. His rank was indicated by a silver stripe and one silver star on the epaulets of his jacket; a dog's head was pinned to the lapel of the jacket.

- c. Evaluation of information is as indicated in the attached reports.
- d. The reporting agent is [REDACTED] Region IV, Munich.
- e. Cases are pending in the Region IV area.

4. Sources A-IV and B-IV were instructed by the reporting agent to avoid any contact with [REDACTED] in view of his past association with the Czechoslovakian Intelligence Service - CIS.

5. It is to be noted that at the end of March 1956, during a meeting in Vienna between [REDACTED] contact of Sources A-IV and B-IV, and [REDACTED] CSR Press Attache in Vienna, [REDACTED] informed [REDACTED] that he knew his identity and was aware of his [REDACTED] involvement with [REDACTED] former source of this Region. Immediately following this conversation, [REDACTED] moved his family into the CSR Legation building in Vienna and has seldom left the building since that time. As it was determined that [REDACTED] was a handling agent for the CIS, it must be assumed that a replacement for him is currently operating in Vienna. It was assumed by Sources A-IV and B-IV that [REDACTED] might have replaced [REDACTED] however, since he has been recalled to Prague, CSR, he must be discounted. It was noted by Sources A-IV and B-IV that occasionally, when meeting [REDACTED] and [REDACTED] was accompanied by [REDACTED] Legation interpreter, who acted as a lookout during the meetings. Consequently, Sources A-IV and B-IV have been instructed by the reporting agent to determine if [REDACTED] is currently engaged in clandestine meetings outside the CSR Legation, in Vienna, since the possibility exists that he may have replaced [REDACTED] as a handling agent.

6. In view of the possibility that the CSR Consulate in Salzburg, Austria, will be used as a cover for CIS activities, possibly directed against the US Forces in Germany, [REDACTED] (CN) has been instructed to observe the activities of [REDACTED] and [REDACTED] alleged to become Vice Consuls in Salzburg on 1 July 1956.

IV, Munich. On approximately 20 July 1956, [REDACTED] will become the handling agent of Sources A-IV and B-IV.

8. Also, during the meeting with Sources A-IV and B-IV, Source A-IV informed the reporting agent that he would probably immigrate to the United States during August 1956. Source A-IV, who is the principal contact to Source C-IV, has already introduced Source C-IV to Source B-IV on two occasions. Source A-IV foresees no difficulties in transferring the control of Source C-IV to Source B-IV.

9. Your attention is invited to letter, your Headquarters, subject: Settlement Pay for Informants, file D-252100-B, dated 27 February 1956. In the event that Source A-IV elects to immigrate to the United States, this Region will request permission from your Headquarters to make a settlement payment to him of approximately 7000 Austrian Schillings (approximately \$ 269.00), the equivalent of two months salary. It is requested that this proposed settlement payment be given consideration by your Headquarters, and that your recommendations be forwarded to this Region as soon as possible. It is to be noted that a prompt settlement payment to Source A-IV, once he has been alerted for immigration from Austria, will make a very favorable impression on Source B-IV, who has declared his intention not to immigrate from Austria.

4. REPORT OF FINDINGS

On 27 June 1956, Sources A-IV and B-IV were interviewed in Vienna (33UXPO4), Austria, and stated as follows:

a. Sources A-IV and B-IV readily identified a photograph of [REDACTED] born [REDACTED] in [REDACTED] as being identical to the [REDACTED] who is currently employed as a waiter in a gasthaus located at Arndtstrasse in Vienna XII. Sources A-IV and B-IV met [REDACTED] during February 1956, at the time he was employed as a waiter in the Cafe Kokalle, Vienna IX, Porzellangasse 39. At this meeting [REDACTED] related to Sources A-IV and B-IV his reasons for suspecting one [REDACTED] of being an agent for the Czechoslovakian Intelligence Service - CIS. [REDACTED] had extracted a promise from Sources A-IV and B-IV that he would not be identified as the source of information concerning [REDACTED] allegedly because he feared reprisals against his relatives in the CSR, if it became known to the CIS that he had denounced [REDACTED]. [REDACTED] specifically stated that he had never disclosed the information about [REDACTED] to the CIC in Vienna, although he had been aware of the information before the departure of the US Forces from Austria in October 1955. His reason for not having reported the information to the CIC in Vienna was that he had once been arrested and interrogated by the CIC in Linz (nca), Austria, and later expelled into the Soviet Zone of Austria at Urfahr (nca), Austria, because the CIC did not believe that he was telling the truth. Because of this incident, [REDACTED] did not wish to become involved again with the CIC.

(F-6)

AGENT'S NOTES: According to Sources A-IV and B-IV, [REDACTED] gave a lengthy account of his past activities in West Germany and Austria for the CIS, and of his subsequent decision to report the matter voluntarily to the CIC in Linz. He claimed that after he was expelled to the Soviet Zone of Austria, the Soviet authorities refused to grant him permission to reside in the Soviet Zone and, therefore, he had gone to Vienna, where he has resided ever since.

b. Source A-IV stated that approximately one month ago he had chanced to meet [REDACTED] in the gasthaus located on Arndtstrasse in Vienna, but he had not engaged [REDACTED] in conversation. Sources A-IV and B-IV stated that they maintain no contact with [REDACTED] but have heard from various CSR refugees in Vienna that he is a diligent worker and appears to be earning a good salary as a waiter. Sources A-IV and B-IV have not heard anything which would indicate that [REDACTED] is again involved with the CIS.

d. [REDACTED] was delivered to the State Prison in WEIDEN at approximately 2030 hours, 14 May 1956. After identification procedures and charges had been preferred he was released pending trial. At 1125 hours, 14 May 1956, [REDACTED] was turned over to the BBP by the Czechs.

e. Statement: I was raised in BAERNAU and attended grammar and vocational school there. I never learned a trade. I was employed by various people after finishing school. In 1940 I was called into the Reichs work service. Soon after my discharge I was sentenced to two (2) years in prison for sexual intercourse with children. The local court in WEIDEN sentenced me to SCHONEFELD for a short time. SCHONEFELD, which is a youths' reform school, is near RAIN and TECH. After a while, I was transferred to the prison in NEUBURG a D. I served nineteen (19) months of my sentence and was then discharged and I returned to BAERNAU.

In July 1942, I was called into the Army and sent to BGER. From there I went to France with the Sixty-second (62d) Division. There I was sentenced to six (6) months by court martial for theft. I served my sentence in France. In August 1943, I received a head wound and as a result I was considered physically unfit for further military service. On 27 January 1945, I was discharged from the Army. On 17 December 1944, I married [REDACTED] in HEDEGSGRUND/UPPER SELISIA. We have three (3) children, aged six (6) eight (8) and ten (10). In 1955 we were divorced.

I receive a seventy (70) per cent disability pension (one hundred and twenty-one (121) DM, monthly) from the Army. I also receive an invalids pension of fifty-seven (57) DM monthly. My ex-wife receives seventy-eight (78) DM monthly for our children. Our oldest son is being raised by my parents in BAERNAU.

From the end of the war until 1954, I was employed in BAERNAU. I was also employed, during this time, in WEIDEN by various construction companies as a laborer.

From 1945 until 1956, I was convicted six (6) times for various crimes. In May 1955, I turned myself in for fraud to the state police in TIRSCHENREUTH. After 2 January 1956, I resumed residence with my parents in BAERNAU.

At approximately 0900 hours, 8 March 1956, I went to the woods in the "Steinberg", approximately one and a half (1½) km from BAERNAU, to gather bark. I had built a forest house for my oldest son and needed the bark to complete it. I used the same route as is used by the BBP and the CP. I walked approximately four (4) or five (5) meters east of the path for a better view of the area. I was in the eastern edge of the forest when a Czech patrol challenged me. The patrol consisted of one (1) officer and four (4) men armed with machine pistols. The officer asked me what I was doing in the area and I told him. The officer motioned to the soldiers and they siezed me. They tied my hands behind my back. One (1) of the soldiers took off his hat

and put it over my eyes as a blindfold. I hadn't seen any Czech patrols until this one challenged me. Apparently the Czechs were in the tunnel under the fence and they emerged without my seeing them.

After my arrest I was taken to PAULSERUNN, which is approximately two (2) km east of BAERNAU. There I was interrogated for about half an hour by a Czech officer. I gave only information about myself. At approximately 1400 hours I was again blindfolded, placed in a vehicle and driven to a prison. I don't know the name of the prison or the town in which it is located. I remained there for two (2) days and was again interrogated about my personal history and also about my reasons for coming to the CSR. I told them that I hadn't wanted to come to the CSR but that I had been captured by a patrol. I was then taken to the prison in PILSEN where my clothes were taken from me. On the third day in PILSEN I was again interrogated. I was asked about the kaserne in WEIDEN. I was also asked about the location of the airfield in WEIDEN. They were also interested in the billets and the duties of the CIC in WEIDEN. I was asked to draw a plan of the CIC billets. I was asked about the number of soldiers in GFR. My answer was negative to these questions. I was interrogated approximately ten (10) or twelve (12) times with the interrogator asking the same questions. After the fifth interrogation they asked if I wanted political asylum. I stated that I didn't and told them that I wanted to return to the GFR.

During my imprisonment I had to sign written statements three (3) or four (4) times. I don't know what these statements contained and they were not read to me. I was told that I wouldn't be released if I didn't sign them.

The interrogations were always conducted by a different person. On 2 May 1956, I was again interrogated. In the afternoon, a District Attorney came to see me. He said that my statements would be compared and if the comparisons were satisfactory I would be released. Through the District Attorney, I learned that I was being held in confinement pending an investigation.

On Friday, 11 May 1956, I was driven to a large prison. I don't know the name of the prison. One of the guards there told me that I was being released. My clothes were given back to me and I was escorted to the border crossing point at ROSSHAUPT by two (2) men in civilian clothes. I was turned over to the BBP Station at WAIIDHAUS at 1125 hours, 14 May 1956.

During my confinement in PILSEN, I met a Czech who said he had worked in a uranium mine. He said that he wanted to escape to GFR at the border near TACHAU. I was put in a cell with this Czech on the second day of my imprisonment.

DECLASSIFICATION SCHEDULE

During my confinement, I heard nothing of other Germans who were imprisoned there although I often heard German spoken.

Shortly before my return to the GFR, I was told by Czech prison officials to encourage Communism in the GFR. I was told to tell people that everything is plentiful and inexpensive in the CSR. Also, I was told to tell them that they would get good jobs with good pay, a complete set of new

clothes and one thousand (1000) kronen to carry them over the first days in the CSR. This money would not have to be paid back.

The Czechs also asked me the names of the BEP and CP officials in BAERNAU. These names were mentioned to me one at a time. After a name was mentioned, which I recognized, I would be closely questioned about the man. I admitted knowing most of the names mentioned but I told them that I didn't have any information relative to the performance of their duties. I was also asked if the CIC questioned people being returned to the GFR from the CSR.

f. [REDACTED] has an extraordinary memory for exact dates even as far back as thirteen (13) years. He answered questions concerning dates without hesitation.

SUMMARY OF INFORMATION

1. [REDACTED] born [REDACTED] in [REDACTED] and currently residing at [REDACTED] fled from the CSR to Austria in 1950. In January 1952 he became employed with the 533rd MIS Company, Gregor Mendelstrasse, VIENNA, in which employment he remained until the summer of 1955, when the US Forces were evacuated from Austria.
 2. On 16 December 1955, an unidentified man visited [REDACTED] apartment and gave him a letter which he alleged to be from a former close friend of [REDACTED] in the CSR. The man stated that he had just arrived from the CSR and that he would return to the CSR on the following day. He asked [REDACTED] to read the letter and to write an immediate answer, which he would personally deliver to [REDACTED] friend in the CSR. [REDACTED] read the letter and immediately determined that it was a redefection letter which promised him immunity from punishment if he returned to the CSR. [REDACTED] informed the bearer of the letter that he would prepare an answer and mail it himself at a later date; however, he never answered the letter.
 3. On 30 January 1956, an unidentified man called at [REDACTED] apartment and, not finding him at home, left a letter for [REDACTED] with the latter's landlady. According to the landlady, this man was not identical with the man who had visited [REDACTED] in December 1955. This letter informed [REDACTED] that the bearer wished to meet him at 1400 hours on 3 February 1956 in a cafe in VIENNA in order to give him a letter from his friend in the CSR.
- On 3 February 1956, [REDACTED] went to the designated cafe and met the man who had left the letter with [REDACTED] landlady. The man, later determined to be [REDACTED] CSR press official accredited to the CSR Legation in VIENNA, informed [REDACTED] that he was aware of the latter's past employment with the US Forces in Austria, and that he was currently unemployed. He offered to aid [REDACTED] financially, and told him that under the current amnesty being offered to refugees by the CSR government, he could return home without fear of punishment. [REDACTED] stated that he preferred to remain in the West and continue his law studies, either in VIENNA or Switzerland. [REDACTED] immediately offered to aid [REDACTED] financially in achieving his education, provided he would agree to perform a small service for the CIS. He asked [REDACTED] to think the offer over carefully, and to meet him again on 28 February 1956 in

5. On 28 February 1956, [REDACTED] went to the designated cafe; however, [REDACTED] did not appear. On the following day, 29 February 1956, he again went to the cafe, and was met by [REDACTED]. [REDACTED] again offered to give [REDACTED] money; however, [REDACTED] refused the offer. [REDACTED] asked [REDACTED] if he had decided to work for the CIS, and was informed by [REDACTED] that the latter needed more time to think about the offer. [REDACTED] urged him to come to a decision quickly, and stated that [REDACTED] could continue his studies at the University of Vienna and that he [REDACTED] would provide him with everything he needed in the way of money, lodgings and food. [REDACTED] stated that, in view of [REDACTED] long service with the US Forces in Austria, and his superior intelligence, he could easily supply the CIS with needed information concerning US methods of interrogating CSR refugees, names of CSR refugees formerly employed by the US Forces in Austria, and names of those refugees currently employed under cover by US intelligence agencies in VIENNA. [REDACTED] objected to this type of work, stating that the information would be difficult to obtain and would require a large sum of money. [REDACTED] offered to give [REDACTED] money and asked him to begin immediately to collect the requested information. When [REDACTED] refused, [REDACTED] reminded him that by doing this service he could return home whenever he wished, and would be given his choice of employment in the CSR. [REDACTED] again asked for more time to consider the offer, whereupon he was instructed to meet [REDACTED] in a cafe in VIENNA on 29 or 30 March 1956.
6. On 29 March 1956, [REDACTED] went to the designated cafe in VIENNA, but failed to meet [REDACTED]. On 30 March 1956, [REDACTED] again went to the cafe, and met [REDACTED]. [REDACTED] informed [REDACTED] that he had not expected him to appear because he was under the impression that [REDACTED] was already imprisoned in PRAGUE VR-6048, CSR. [REDACTED] appeared surprised and asked [REDACTED] what he meant by such a statement. [REDACTED] replied that since [REDACTED] had committed such an indiscretion during his meeting with [REDACTED] on 17 March 1956, he [REDACTED] had surmised that [REDACTED] would be recalled to PRAGUE and imprisoned. [REDACTED] was greatly surprised and professed no knowledge of [REDACTED]. [REDACTED] then informed [REDACTED] that he was aware that [REDACTED] had met [REDACTED] in VIENNA on 17 March 1956 and given [REDACTED] 500 Austrian National Schillings - ANS. plied by stating that he knew the identity of [REDACTED] and that the latter was an official of the CSR Legation in VIENNA. At this point, [REDACTED] became extremely nervous, and stated that he had to leave at once and could not meet [REDACTED] again. Instead, a man would be brought from the CSR to VIENNA especially for the purpose of controlling [REDACTED]. He begged [REDACTED] to meet this man and not to refuse to work for the CIS. He stated that no other CSR refugee in VIENNA was as well qualified as [REDACTED] to fulfill the work desired in VIENNA by the CIS. He promised [REDACTED] money and assistance and great rewards in the CSR after [REDACTED] had completed the desired work in VIENNA. He asked [REDACTED] to meet the man who would come from the CSR in a cafe in VIENNA on 15 May 1956, and described this man as being absolutely trustworthy and capable. [REDACTED] thereupon left the cafe in great haste.

7. On 15 May 1956 [REDACTED] went to the designated cafe to await the arrival of the successor to [REDACTED] however, the man did not appear. On 16 May 1956, [REDACTED] again went to the cafe, and met the successor to [REDACTED] apparently a Czech. The man, who did not identify himself, was 23 to 27 years of age, 5'8" tall, medium build, thin faced, pale complexion, blond hair combed back, grey eyes, and was dressed in a light weight brown tropical suit. He informed [REDACTED] that he had met [REDACTED] approximately 14 days earlier in the CSR, and that [REDACTED] had spoken very highly of [REDACTED]. He inquired about [REDACTED] financial situation and offered him money, which [REDACTED] refused. The man asked [REDACTED] if the latter was prepared to work for the CIS, to which [REDACTED] replied that he had been offered the opportunity of immigrating from Austria, and that he had not decided whether to take advantage of the opportunity or remain in VIENNA. The man attempted to persuade [REDACTED] to remain in VIENNA and work for the CIS, after which he could return to the CSR and choose whatever employment he desired. [REDACTED] without giving a definite answer, changed the subject and asked why [REDACTED] had not met him again. The man wanted to know how [REDACTED] learned about [REDACTED] to which [REDACTED] replied that he had learned the information from a friend who had a good contact with a member of the Austrian police. The man immediately wanted to know the name of [REDACTED] friend; however, [REDACTED] dissuaded him by stating that his friend was very pro-Western and would immediately report to the Austrian police if he should be contacted by the CIS. [REDACTED] noted that the man usually referred to [REDACTED] as [REDACTED]. Finally, upon receiving no definite answer from [REDACTED] the man asked that [REDACTED] furnish him with the names of CSR refugees who were reliable

and who might consider working for the CIS. [REDACTED] agreed to think the matter over, and was instructed to meet the man again on 22 May 1956 in VIENNA.

8. On 22 May 1956, [REDACTED] went to the designated cafe and again met [REDACTED] successor. [REDACTED] opened the conversation by stating that he had decided to immigrate to the United States, and that he would leave VIENNA on 7 June 1956. The man again tried to dissuade [REDACTED] from immigrating by promising him financial assistance and rehabilitation in the CSR. When [REDACTED] refused, the man asked for the names of CSR refugees whom [REDACTED] would recommend for employment by the CIS. [REDACTED] replied that the only person whom he would recommend was a German, whom he knew only as [REDACTED]. [REDACTED] stated that he had met [REDACTED] in 1954 when the latter had been employed by the US Forces in Austria for a period of 6 to 8 months at the office on Gregor Mendelstrasse. Near the end of 1954, [REDACTED] had gone to Germany, where he had been employed by either the Americans or the British. In late 1955, [REDACTED] had seen [REDACTED] in VIENNA, and the latter had declared that he had quit his job due to an argument with his superiors. [REDACTED] had seen [REDACTED] again during the spring of 1956 and had learned that he was currently engaged in making a living by smuggling commodities between MUNICH 32UPU93, Germany, and VIENNA. The man was very interested in [REDACTED] and asked for more information concerning his background. [REDACTED] replied that he knew only that during World War II [REDACTED] had lived in England, and that he had learned to speak English fluently. [REDACTED] stated that he expected to see [REDACTED] again in VIENNA, approximately on 1 June 1956, and offered to introduce him to the man at that time. The man immediately refused, stating that first he would have to have some previous addresses of [REDACTED] in order to conduct a proper background investigation. He asked [REDACTED] to obtain from [REDACTED] his real name, two or three previous addresses, and an address, in VIENNA or MUNICH, where he could be contacted. [REDACTED] replied that he would leave VIENNA on 7 June 1956, and that in all probability he would not have an opportunity to pass any information he might gain from [REDACTED] to the CIS. The man answered that it made no difference, since the CIS could easily contact [REDACTED] in the United States and obtain from him whatever information he might have learned from [REDACTED]. He asked for [REDACTED] intended address in the United States, and was supplied with the following: [REDACTED] in care of [REDACTED] uncle. After obtaining the address, the man informed [REDACTED] that ap-

proximately two months after the latter's arrival in CLARENDON HILLS, he would receive a picture postcard depicting a prominent building or location, probably one located in CHICAGO, Illinois, USA. The postcard would be dated and would contain the following message:

[REDACTED] I learned that you have arrived. I will come to visit you.

Signed, [REDACTED]. He further informed [REDACTED] that at 1700 hours, exactly seven days following the date written on the postcard, [REDACTED] should wait in front of the building or location depicted on the card, carrying a Czech language newspaper in his right hand so that the text could be read by a passerby. [REDACTED] would then be approached by a person who would identify himself as [REDACTED]. [REDACTED] should hand over to this man any information he was able to obtain about [REDACTED] and a report concerning the CSR refugees in the area, such as their names and addresses, their employment, and their general social and financial situations. [REDACTED] agreed to meet [REDACTED] and give him whatever information he had obtained about [REDACTED] however, he did not promise to deliver a report about the Czech refugees in the United States. The man apparently was aware in advance of where [REDACTED] intended to live in the United States, since he appeared to know that CLARENDON HILLS is located near CHICAGO.

4. REPORT OF FINDINGS

On 21 May 1956, Source A-IV was interviewed in VIENNA 33UXPO4, Austria, and disclosed the following:

a. On 15 May 1956, Source A-IV, as previously instructed by [REDACTED] CSR press official in the CSR Legation in VIENNA, went to the Cafe Goldeck, Josefstaedterstrasse, VIENNA VIII, at 1400 hours and awaited contact by a representative of the CIS. Source A-IV waited in the cafe until 1600 hours, and when he was not contacted, departed to his home.

b. At 1400 hours on 16 May 1956, Source A-IV again went to the Cafe Goldeck. At 1405 hours a young man, who appeared to be a Czech, entered the cafe and, after noticing that Source A-IV had his briefcase lying on the table in front of him, approached Source A-IV and joined him at the table. He identified himself only as [REDACTED] successor, and at first spoke only of incidental matters such as the weather, whether Source A-IV had decided to continue his studies, and whether he was having financial difficulties. Instead of answering the man's questions, Source A-IV asked about [REDACTED] and why the latter had not also come. The Czech stated that [REDACTED] naturally could not meet Source A-IV again, and that he had seen [REDACTED] about 14 days earlier in the CSR. He stated that during this meeting with [REDACTED] the latter had asked him to convey his [REDACTED] greetings to Source A-IV, that he appreciated everything Source A-IV had done for him, and that he had not been arrested in VIENNA after all. Source A-IV received the impression that the Czech was trying to quote [REDACTED] as having credited Source A-IV with the fact that he had been able to avoid being arrested in VIENNA. The Czech then attempted to avoid conversing about [REDACTED] by discussing the plight of the CSR refugees in VIENNA, but Source A-IV continued to ask questions about [REDACTED] such as whether he planned to return to VIENNA, and where he was in the CSR. The Czech then asked Source A-IV how he had been able to learn so much about [REDACTED]. Source A-IV did not answer this question. The Czech then asked Source A-IV what the refugees in VIENNA thought about the refugees who had returned to the CSR. Source A-IV replied that most refugees were of the opinion that those who had returned to the CSR would be able to obtain work only in CSR mines. The Czech stated that this was not true. He stated, for example, that just recently a CSR refugee, one [REDACTED] had returned to the CSR and had requested that he be given employment as a waiter in a hotel in the Tatra Mountains area, and that his request had been granted immediately. Source A-IV replied that he doubted this very much, since he had known [REDACTED] personally, and was aware that he had originally been sent to Austria in

1953 as an operative for the StB. The Czech appeared very surprised, and asked Source A-IV where he had known [REDACTED] and how he knew that [REDACTED] had been sent to Austria by the StB. Source A-IV answered that he had met [REDACTED] in 1953 while he (Source A-IV) was employed by the US Forces at Gregor Mendelstrasse, VIENNA, and that [REDACTED] had admitted that he had been sent to Austria by the StB. The Czech took out his notebook and made several notes. He then changed the subject, and asked Source A-IV if he had decided to work for the CIS. Source A-IV answered that he had thought about the matter and had decided that it would be best if he immigrated from Austria. The Czech stated that it would be a mistake for Source A-IV to immigrate, because he could be of great use to the CIS if he remained in VIENNA; however, if he still insisted upon immigrating, he could still work for the CIS regardless of his location. Source A-IV stated that he would have to think about the matter further, but in the event he did immigrate, he might be able to give the Czech the names of some CSR refugees in VIENNA who would be reliable contacts. The Czech appeared very happy about this and wanted to note the names immediately, but Source A-IV stated that first he would have to make certain of the names and addresses, and that he would give the information to the Czech at a later date. Source A-IV further stated that in any event, he felt certain that the Czech, because of his youth, was not authorized to meet any possible contacts without first asking permission from his superiors. The Czech appeared to be insulted, and stated that he was 26 years of age and that he was perfectly capable and had full authorization to make his own decisions on whatever case he happened to be assigned. Apparently quite miffed at the statement made by Source A-IV, the Czech stated that he had attended school in the CSR concerning his present "work", and that he was as capable as any of his colleagues or superiors. Source A-IV answered that he would be willing to meet the Czech again in 14 days, and that he would give the information to him at that time. The Czech said that he could not wait 14 days, since he had to return to the CSR on 23 May 1956, and asked Source A-IV to meet him at 1400 hours on 22 May 1956 at the Cafe 84, Mariahilferstrasse 84, VIENNA.

c. Source A-IV stated that the successor to [REDACTED] was definitely of Czech nationality, and that he apparently spoke no German. He was unable to understand the waiter in the Cafe Goldeck, and had to call on Source A-IV to explain to him the price of coffee which he had ordered. Source A-IV described the Czech as being 23 to 27 years old, 5'8" in height, medium build, thin faced, pale complexion, blond hair combed straight back, grey eyes, and dressed in a light weight brown tropical

(C-2)

On 23 May 1956, Source A-IV was again interviewed in VIENNA, and stated substantially as follows:

a. At 1350 hours on 22 May 1956, Source A-IV went to the Cafe 84, VIENNA, and took a seat at a table. At 1410 hours, the Czech whom he had previously met on 16 May 1956 entered the cafe and immediately joined Source A-IV. He began the conversation by asking Source A-IV if he had made up his mind to remain in VIENNA and work for the CIS. Source A-IV replied that he had decided to immigrate to the US, since he had no guarantee that he would receive steady employment from the Czechs in VIENNA. The Czech asked Source A-IV when he planned to immigrate to the US, and appeared quite surprised when Source A-IV replied that he was supposed to leave VIENNA on 7 June 1956. He tried to persuade Source A-IV not to immigrate by pointing out to him that if he remained in VIENNA he could continue his studies at the University of Vienna, during which time he would be well paid, and that eventually he could return to the CSR and take a job of his own choosing. Source A-IV was persistent, however, and reiterated his intention of leaving VIENNA on 7 June 1956. The Czech then asked Source A-IV to give him the names and addresses of CSR refugees who might be utilized by the CIS in VIENNA. Source A-IV replied that he had not had time to make a thorough check of the refugees whom he believed might be interested in working for the CIS, and therefore, since he could not safely vouch for the reliability of any possible sources, he preferred not to give any names at all. The Czech apparently received the impression that Source A-IV feared to give the names of any CSR refugees, as the information might be used in some way by the CIS to prevent Source A-IV from immigrating to the US. He assured Source A-IV that he had every intention of maintaining contact with him regardless of where the latter immigrated, therefore he had nothing to fear in giving names of refugees who might be utilized by the CIS. Source A-IV answered that he had no fear of the CIS, but that since he could not personally guarantee the reliability of prospective sources, he preferred not to give any names at all. The conversation continued in this manner until 1455 hours, at which time Source A-IV excused himself and said he had to leave on an errand. The Czech asked Source A-IV to remain, stating that they had

much more to discuss before departing. Source A-IV replied that he could meet the Czech later that afternoon, but presently he had to go on an errand. The Czech then requested Source A-IV to meet him at 1700 hours in the Milano Expresso, Rote Thurn Strasse, VIENNA I. Source A-IV agreed, and departed.

AGENT'S NOTE: Prior to the above meeting at 1400 hours, Source A-IV had been instructed by Sources B-IV and C-IV to leave the cafe at approximately 1500 hours, to enable Sources B-IV and C-IV to conduct a surveillance of the Czech from the time of his departure from the cafe until he again met Source A-IV. Sources B-IV and C-IV felt that by ending the meeting at 1500 hours they could better determine if the CIS made any attempt to follow Source A-IV after he left the cafe.

b. At 1710 hours, Source A-IV entered the Milano Expresso and joined the Czech, who was seated at a table. The Czech began the conversation by asking Source A-IV to give him the names and addresses of CSR refugees he could possibly utilize on behalf of the CIS. Source A-IV then stated that the only person whom he considered reliable and qualified to work for the CIS was someone he had known for about two years who was currently residing in MUNICH 32UPU93, Germany. Source A-IV stated that this person is a German citizen who had lived in LONDON, England, during World War II, who had returned to Germany after the end of the war, and who had worked for both the English and US Forces in Germany and Austria. Source A-IV stated that this person speaks fluent English, and could easily pass for an American or Englishman. The Czech became quite interested and asked for the name of the German. Source A-IV replied that he knew the German only as [REDACTED]. The Czech then wanted to know where and how Source A-IV had become acquainted with [REDACTED]. Source A-IV answered that he and [REDACTED] had been co-workers at the US office on Gregor Mendelstrasse, VIENNA, for about 6 to 8 months during 1954. After leaving VIENNA, [REDACTED] had gone to Germany and had worked there for either the Americans or English. Source A-IV explained that he had met [REDACTED] again in VIENNA during Christmas 1955, and the latter indicated that he had severed his employment due to differences with his employers. Source A-IV had again met [REDACTED] in VIENNA a few weeks ago, and the latter had indicated that he is currently engaged in small scale smuggling between Germany and Austria. The Czech was extremely interested in [REDACTED] and wanted to know the nature of the goods he is currently smuggling and his addresses in MUNICH and VIENNA. Source A-IV stated that he did not know what commodities [REDACTED] was smuggling or any address that [REDACTED]

might be using, but that he expected to see him in VIENNA around 1 June 1956 and that he would arrange a meeting between [REDACTED] and the Czech. The Czech immediately objected, stating that he did not speak German. Source A-IV answered that surely the CIS could furnish a German language interpreter, or else they could arrange for [REDACTED] to meet an agent who could speak German. The Czech stated that the use of another agent who spoke German was not practical, since Source A-IV already knew two CIS agents, the Czech and [REDACTED] and if still another agent was used, Source A-IV would then know three CIS agents. Source A-IV then stated that he would be unable to introduce [REDACTED] to the Czech at a later date, because he would be leaving VIENNA on 7 June. The Czech replied that this created no problem, since Source A-IV could meet [REDACTED] when the latter came to VIENNA around 1 June, and that Source A-IV could obtain from him his name and address, either in MUNICH or in VIENNA, where he could be contacted by the CIS. The Czech further stated that Source A-IV should obtain from [REDACTED] two or three former addresses, either in MUNICH or VIENNA, whereby the CIS could make a background investigation prior to contact. Source A-IV reminded the Czech that he would be leaving VIENNA on 7 June, and that he would have no way of passing this information to the Czech. The Czech replied that this was no problem, since he planned to remain in contact with Source A-IV even after the latter immigrated to the US. He indicated that Source A-IV could pass any information he might have learned about [REDACTED] on to a CIS representative in the US, who, in turn, would forward the information to the Czech. He then asked Source A-IV if the latter would consider working for the CIS in the US. Source A-IV stated that he would make no promises, because he first wanted to go to the US and see what possibilities he had towards earning a decent wage. The Czech stated that he would arrange for Source A-IV to be contacted in the US approximately one month after his arrival there. Source A-IV immediately protested, stating that he would need at least two months to investigate his earning possibilities in the US. The Czech then agreed to wait approximately two months after Source A-IV arrived in the US before contacting him. He asked for the address in the US where Source A-IV planned to immigrate, and received the following from Source A-IV: [REDACTED]

[REDACTED] uncle of Source A-IV. The Czech then stated that Source A-IV would be contacted in the following manner: Approximately two months after his arrival in the US, Source A-IV would receive a picture postcard depicting a prominent building, probably in CHICAGO, Illinois, on which the following will be written: [REDACTED] Ich habe erfahren dass Du gekommen bist. Czech stated that the postcard will be dated, and that exactly at 1700 hours seven (7) days after the date on the postcard Source A-IV should wait in front of the building depicted on the postcard, and carry a Czech language newspaper in his right hand, held so that a passerby could read the newspaper. A person will then approach Source A-IV, and introduce himself as [REDACTED]. At this meeting Source A-IV should turn over to [REDACTED] all the information he might have learned about [REDACTED] and a report about the CSR refugees with whom he has been in contact in the US, such as their names, addresses, their financial situations, and where they are employed. Source A-IV agreed to do as the Czech instructed; however, he reminded the Czech that he might not have the opportunity to meet [REDACTED] before he departed from VIENNA, and that he had made no promises that he would work for the CIS. The Czech again reminded Source A-IV that he was a very intelligent and capable person, that the CSR Government needed such persons as he, and that Source A-IV should not forget that he is at heart a Czech. He again reiterated that [REDACTED] had great regard for Source A-IV, and was depending upon him to assist the CIS in every way possible. However, on this occasion, he referred to [REDACTED] as [REDACTED] and when Source A-IV asked who [REDACTED] was, the Czech stated that he had meant [REDACTED].

AGENT'S NOTE: Source A-IV stated that he had not informed the Czech that CLARENDON HILLS was located in the outskirts of CHICAGO; therefore, it appeared that the Czech might have been aware of where Source A-IV planned to live in the US.

c. The Czech continued the conversation by asking Source A-IV for information concerning the following personalities:

(1) [REDACTED] Secretary of the American Fund for Czech Refugees - AFPR in VIENNA.

d. Source A-IV replied that he knew only that [REDACTED] was employed in VIENNA by the AFCE, that [REDACTED] was employed as a waiter in the Second Bezirk of VIENNA in a cafe near the Danube River which is frequented by Hungarian and Czech sailors, and that [REDACTED] is currently confined in a mental institution in VIENNA. Source A-IV stated that he had never heard of the other persons mentioned. The Czech did not take any notes, which indicated that he was already aware of the information disclosed by Source A-IV. The Czech asked Source A-IV three times about [REDACTED] and seemed surprised that the name was unknown to Source A-IV. Finally, at 1915 hours, Source A-IV informed the Czech that he had other business to attend to and had to leave. The Czech wanted to continue the conversation; however, when Source A-IV insisted that they had nothing further to discuss, the Czech agreed to end the meeting. Source A-IV paid for the coffee he had drunk and departed. He went directly to his apartment, and remained there until the following day. As far as he was able to determine, he was not followed by anyone after leaving the Milano Espresso.

1400 hours: Source A-IV entered the cafe and took a seat near the rear.

1405 hours: A man about 24 - 28 years of age, wearing a brown tropical suit and no hat, entered the cafe, looked around, and then approached Source A-IV. After speaking to Source A-IV, he took a seat and began conversing with Source A-IV.

1415 hours: A man who appeared to be about 30 - 35 years of age, 5'9" tall, medium build, black hair combed back, thin black mustache, wearing a grey suit and a light tan raincoat, entered the cafe, looked around, and then departed. He was observed by Source B-IV walking by the cafe several times until 1500 hours.

1500 hours: The man who had joined Source A-IV left the cafe and walked to Kaiserstrasse, where he boarded a streetcar just as the automatic door was closing. The man with the black mustache followed about 20 paces behind and waited until the first man had boarded the streetcar. He then retraced his steps to the Cafe Goldeck, arriving there just as Source A-IV was leaving. He followed Source A-IV until the latter boarded a streetcar on Mariahilferstrasse. He then proceeded on foot along Mariahilferstrasse, in the direction of the Ring.

1515 hours: Surveillance ended.

22 May 1956

1320 hours: Source B-IV entered the Cafe 84, Mariahilferstrasse 84, and took a seat near the entrance to the cafe. Source C-IV began walking to and fro on the opposite side of Mariahilferstrasse, across from the Cafe 84.

1335 hours: Source C-IV observed two men loitering across the street from the Cafe 84, who appeared to be watching the entrance to the cafe. One of the men, described by Source C-IV as being 28 - 32 years old, 5'6" tall, slender build, brown hair parted in the center, wearing a brown raincoat, with no hat, had previously been observed by Source C-IV eating lunch in the small restaurant located next to the CSR Legation in VIENNA, in the company of officials of the CSR Legation. The other man was also 28 - 32 years of age, black hair parted on the side, 5'8" tall, medium build, wearing a grey trench coat and grey hat. The two men remained in the area for approximately one hour. Finally,

1350 hours: Source A-IV entered the cafe and took a seat at the rear of the cafe.

1410 hours: The Czech whom Source A-IV had previously met in the Cafe Goldeck on 16 May 1956 entered the cafe and joined Source A-IV.

1455 hours: Source A-IV departed from the cafe.

1500 hours: The Czech who had been conversing with Source A-IV left the cafe, crossed the street, and spoke briefly to the two men previously observed by Source C-IV, after which the two men departed in the direction of the Ring. The Czech recrossed the street and waited approximately 5 minutes, after which he was joined by the man with the black mustache whom Source B-IV had previously observed on 16 May 1956. The Czech and the man with the black mustache then departed in the direction of the West Railroad Station.

1515 hours: Surveillance discontinued.

AGENT'S NOTE: In view of the fact that the CIS appeared to have the meeting under close surveillance, Source B-IV made no attempt to follow the Czech who had contacted Source A-IV. Also, since they were not aware that Source A-IV had been instructed by the Czech to meet him again at 1700 hours, in the Milano Expresso, they did not place this meeting under surveillance.

8. PREVIOUS HISTORY:

a. SUBJECT attended grammar school on Vorgartenstrasse in VIENNA for a period of 2 years. He then transferred to a grammar school on Laistrasse in VIENNA, which he attended for an additional 3 years. When he graduated, he registered with the Buergerschule (Preliminary High School) on Vorgartenstrasse. SUBJECT did not pass the first year, and had to repeat. He then continued for 2 more years, but withdrew in 1926 to become an apprentice in a VIENNA paint shop.

b. From 1926 until 1929, SUBJECT worked as an apprentice house painter for the Josef Sassman Firm at Lichtensteg 2, VIENNA I. Upon completion of his apprenticeship, he continued with the firm, and was employed as a journeyman until 1938. Improved in skill, he resigned, and found other employment with the Alois Preimel Firm at Wurlitzergasse 4, VIENNA, from 1938 until June 1941.

c. On 3 June 1941, SUBJECT was drafted into the German army and was sent to FRIEDRICHSHAFEN 32UNT37, Germany, where he was assigned to an anti-aircraft battalion for basic training. When this was completed, SUBJECT was shipped to BRUEHL 32UMV67, Germany, where he was assigned as a telephone operator to an anti-aircraft unit. He held this job for approximately one year, when he was reassigned to the 144th Railroad Anti-Aircraft Unit. Here, too, SUBJECT worked as a telephone and switchboard operator, with his first assignment near DUESSELDORF 32ULB47, Germany, where he remained for approximately 2 months. Then his unit was sent to WIENERNEUSTADT nca, Austria. SUBJECT remained here for approximately 6 months, after which the unit was transferred to URFahr nca, Austria. It remained here until approximately December 1943, when it was shipped to BEBRA 32UNB54, Germany. It was then stationed for a short period of time in numerous small towns in Germany; and in the early part of 1944, was shipped to IFFESHEIM near BADEN-BADEN 32UMV40, Germany, where it remained until early 1945. At that time SUBJECT was transferred to HALLE/Saale 32UQCOO, Germany, and from there to DAUBEN nca, Germany, where he remained as a telephone operator until the end of World War II.

d. SUBJECT was the youngest of 4 children. By the time he was born, his 2 older brothers and sister had died. While SUBJECT was attending high school, his father was killed in an automobile accident as a result of crossing a street in VIENNA in a drunken condition, and being struck by a taxi. He suffered severe injuries and died 4 or 5 days after the accident occurred. His mother remarried in 1935, but SUBJECT remained in the apartment previously occupied by him and his mother. SUBJECT was married on 31 July 1937 in VIENNA, where his wife remained while he was a member of the German Armed Forces.

(b) (7) (C)

e. A few days prior to the end of World War II, SUBJECT and another member of the 144th Railroad Anti-Aircraft Unit started to walk from DAUBEN towards Austria. During this long walk, they lived off the land and from food they begged from farmers. Upon arrival in LINZ, SUBJECT found that he had a very severe case of syphilis and reported to a hospital, where he was hospitalized for a number of weeks, and was operated on in an attempt to be cured. After his discharge from the hospital, he was afraid to return to VIENNA because of alleged rumors he had heard concerning the killing of former German soldiers by the Russian Army which occupied the strip between LINZ and VIENNA. He therefore decided that it would be safer for him to go to unoccupied Czechoslovakia, where he had an uncle, residing in TRIPC. SUBJECT bicycled from LINZ to TRIPC, and

upon arrival there he realized that his syphilis had not been completely cured. Therefore, he had to be hospitalized again, and after a short hospitalization, decided not to stay in Czechoslovakia but return to VIENNA to find his wife. During the summer months of 1945, SUBJECT went by train from TRIPC via GMEUNDEN nca, Austria, to VIENNA. Upon arrival, SUBJECT again realized that he was not completely cured of syphilis and immediately started new treatments with one of the leading doctors in VIENNA, who finally took some drastic measures to cure SUBJECT, which were later successful. For the remainder of 1945, SUBJECT worked as a painter for people he knew in VIENNA to support himself and his wife, whom he had located.

f. In order to gain steadier employment, SUBJECT started to work on 2 January 1946 as a painter for the Austrian Railroad. In the meantime, SUBJECT received information his uncle in the CSR sent him to the effect that he could find good employment in Czechoslovakia as a painter, and that things were much better there than in Austria. Therefore, in May 1946, SUBJECT resigned, and moved with his wife to C. VELENICE, CSR. By early June, he was able to begin working for the Czech Railroad Company. He worked as a laborer at the railroad yards in C. VELENICE, and remained as a laborer until 2 January 1949, when he was transferred to the railroad paint shop, where he was employed until he took his present trip to West Germany. A couple of years after SUBJECT's arrival in Czechoslovakia, his wife also started to work in the same railroad yard where SUBJECT was employed. SUBJECT's wife is still working at the same railroad yard, where she is a crane operator. SUBJECT's motivations for moving to Czechoslovakia were the poor living conditions in VIENNA in 1945, and the poor labor conditions which existed at that time; plus the fact that he had applied for Austrian citizenship, which was denied him. Therefore, he and his wife decided that they would move back to the country of their nationality, in the hope that they could live better there than in Austria.

g. In 1953, SUBJECT's wife asked the Czechoslovakian and Austrian governments for the appropriate papers to visit with her mother in VIENNA, which were granted to her. A few days prior to her departure, one a member of the Customs Office in C. VELENICE, came to see SUBJECT's wife and asked her to do him a favor in VIENNA. SUBJECT does not know how determined that his wife had received permission to go to VIENNA, but thinks that he, as a member of the Customs unit in a small town, was informed of this fact by his higher headquarters. then requested SUBJECT's wife to visit his aunt in VIENNA, the name and address of whom is no longer remembered by SUBJECT. CECH requested of

SUBJECT's wife to relay his family's regards, and to take a short letter from him to his aunt. Furthermore, he requested that, should the aunt ask anything concerning him or his family, she should please tell her everything and anything known to her about his family and their life in the CSR. SUBJECT's wife complied with this request when in VIENNA, and relative asked her to take some candy back with her for children. SUBJECT's wife complied, and upon her return to C. VELENICE, she and SUBJECT went to visit to deliver his relative's greetings and the small token of friendship the Austrian relatives had sent to the in Czechoslovakia. While visiting at the home, SUBJECT indicated to that he, too, had requested to go to Austria to visit with his mother, but had been refused. During the course of the evening, took SUBJECT aside and very confidentially told him that it also would be possible for SUBJECT to visit with his mother in VIENNA, and that he might be of some assistance to SUBJECT in obtaining the appropriate papers to make such a visit possible. At the time, SUBJECT did not pay too much attention to statement, since he did not think such a thing would be possible; however, he did tell that he would be very grateful if he could help him obtain the necessary documents, and that should be able to initiate any procedure in that direction, he would be more than willing to return the favor to for his help. SUBJECT described as follows: Approximately 47 to 48 years old; 175 cm tall; 75 kg; medium build; brown hair; a fairly good appearance; married; and has 2 children. previously resided and worked in C. VELENICE, but was transferred during recent years to the customs office in BUDWEIS nca, CSR, and is now allegedly residing somewhere in WITTINGAU nca, CSR.

(b) (7) (C)

h. A few weeks after the visit mentioned above, came to SUBJECT's home and asked for SUBJECT. Since SUBJECT was not home when arrived, he informed SUBJECT's wife that he would walk to the railroad station and attempt to meet SUBJECT on his way home from work. However, should he not meet SUBJECT, and should SUBJECT return home without having spoken to SUBJECT's wife should please ask him to come to the railroad station, where would be waiting for him. Upon SUBJECT's arrival at the station, informed him that it had been possible to make the proper arrangements for someone to speak to SUBJECT to arrange the visa and the documentation necessary for him to go to Austria to visit his mother. instructed SUBJECT to walk from the railroad station on the main road towards ERWEIS nca, CSR, where he would notice a black car parked. Near the car a man would be sitting at the edge of the road. SUBJECT was to go to this man and talk to him concerning the documentation

needed for his journey. did not tell SUBJECT where the stranger came from, who he was, what office he represented, or any other details, but he told SUBJECT that he could have confidence in the man, and could freely speak to him regarding his visa.

i. SUBJECT did as instructed, and approximately half a mile outside the town of C. VELENICE, SUBJECT noted a parked car, and at the edge of the woods a man in a leather coat was sitting waiting for someone. (Hereinafter, this man will be referred to as Operative "A") Operative "A" is described by SUBJECT as follows: Approximately 30 to 32 years old; 178 cm tall; 75 kg; dark-blond heavy hair; blue eyes; medium build; a full face; spoke no German to SUBJECT's knowledge. SUBJECT walked up to Operative "A", introduced himself, and told him that he was the person had sent. The stranger did not return the introduction, but stated to SUBJECT that he had heard of his problems regarding travel to Austria. Operative "A" then asked SUBJECT to walk with him into the woods for a short distance so they could not be seen by anyone from the road. They sat down and Operative "A" asked SUBJECT questions and made notes concerning SUBJECT's previous and present employment, previous residences, relatives of SUBJECT's residing in Austria and Czechoslovakia, SUBJECT's date and place of birth, and other pertinent data. Operative "A" then informed SUBJECT that he would try to make it possible for SUBJECT to visit his mother. However, he did not make any definite promises except to inform SUBJECT that he would write to him at a later date, and notify him by letter when the next meeting would take place, at the same location. When Operative "A" departed, SUBJECT allegedly did not know to whom he had spoken, from what office Operative "A" was, or how he could meet him again at a later date if he did not write as promised. A few weeks later, SUBJECT received a letter in which he was requested to meet Operative "A" at a certain time on a certain date, no longer remembered by SUBJECT. SUBJECT claims he can no longer remember how this or any other letters were signed, or if there were any type of signatures on any of the correspondence.

j. As instructed, SUBJECT met Operative "A", who kept the conversation on general topics. However, he asked SUBJECT for a passport photograph, but did not indicate what it was for, or how he expected to use it. At the time, SUBJECT had hopes that the promise made by would be kept. However, at no time was SUBJECT promised anything by Operative "A" during the second meeting, and SUBJECT was not asked for any services which he would have to render in return for the papers. According to SUBJECT,

(b) (7) (C)

he did not have to sign any receipt, document, or papers promising that he would not speak to anyone regarding his connections with Operative "A", nor was he asked at a later date to sign such a paper or document which stated that he would not speak to anyone regarding his services for the CIS, or the fact that he had received money and a passport to travel into Austria with the help of the CIS. The second meeting was a short one, since Operative "A" wanted to meet SUBJECT again to obtain a passport photograph from SUBJECT. Before the meeting ended, they made arrangements to meet again at the same place the following week. At this meeting, SUBJECT furnished two passport pictures of himself to Operative "A", who informed SUBJECT that a close associate of his would like to meet SUBJECT. Therefore, arrangements were made for another meeting a couple of weeks later at the same place and at a specific time.

k. As arranged, SUBJECT and Operative "A" met approximately a week to 10 days later. At this meeting, Operative "A" introduced SUBJECT to his associate, one , who is described by SUBJECT as follows: 28 to 30 years old; 165 cm tall; dark hair and eyes; and usually wearing a hat. He spoke some German. In SUBJECT's opinion, always traveled in the same black Skoda and, as far as he can remember, the car was registered with license number or possibly asked SUBJECT if he actually intended to travel to VIENNA, but SUBJECT told him that without proper documentation he would not want to take such a trip. then asked SUBJECT if he would be willing to go across the CSR/Austrian border and into VIENNA to visit his mother if he received some help. At this point SUBJECT replied that he would be willing to do so, and that he would be willing to travel "black" part of the way should it be possible to visit his mother. then informed SUBJECT that as far as the Czech government was concerned, he could definitely make such a visit, that would be willing to give him the assistance needed to make possible the crossing into Austria, and that as long as he had help he would not have to worry about any Czech border police or guards. also told SUBJECT that in order to make his trip a real safe one, and not have him run into any difficulty while in VIENNA, he would obtain Austrian identification papers which would make his trip safe should he be stopped anywhere inside Austria.

l. During the meeting did not have any requests to make of SUBJECT, and SUBJECT in return did not ask how he would obtain the papers for SUBJECT, or what expected in return for them. As far as SUBJECT was concerned, the only reason why obtained the documentation was as a favor so that SUBJECT could visit

his mother in VIENNA. In conclusion, informed SUBJECT that he would write and let him know when he wished to see SUBJECT again in the same manner as had his associate. The meetings would always be held on the road outside C. VELENICE.

m. A few weeks later, SUBJECT received a short note from advising him about a meeting. When they met, showed SUBJECT an Austrian identity card made out to one born in This identity card showed the picture SUBJECT had previously given to Operative "A". also informed SUBJECT that he should make preparations to go and visit his mother over the weekend, since would return again on Friday night to take SUBJECT to the CSR/Austrian border to guide SUBJECT safely through the Czech border police and guards. After showing him the identity card, took it back and departed for the day, after they had made arrangements to meet at the same place the following Friday evening, but after the hours of darkness. This was some time during the fall of 1953.

n. As prearranged, and SUBJECT met the following Friday evening. They walked together from C. VELENICE towards the Austrian/CSR border. Upon arrival near the barbed wire fence at the border, took SUBJECT's Czech identity papers away from him and gave him the Austrian identity document which he had previously shown SUBJECT. He instructed SUBJECT to carry this document in his coat pocket, and should he be asked to show any identification papers on the Austrian side of the border, he should show it. Furthermore, told SUBJECT if he were picked up by a border patrol at the time of crossing, he should say that he was a mechanic who was working for the Czech railroad and that he was making a check of the track. Should he be away from the tracks, but not yet in the town of GMUEND, he was to say that he was checking the power station on the Austrian side of the border which supplies the water for C. VELENICE. Should he be stopped anywhere after he passed the power station, he would not be in for any trouble, since he already would be in the Austrian village of GMUEND. Then and SUBJECT walked over a narrow path towards the railroad track and bridge which spans a small river, and which is the actual border. Upon arrival near the barbed wire fence, spoke a very few casual words with a border guard they met there. SUBJECT was of the opinion that the guard on duty already knew that and SUBJECT were coming, and they had no problems in passing the guards and the border obstacles at that point. walked with SUBJECT up to the bridge and then dispatched him.

o. SUBJECT crossed the railroad bridge as instructed and went down a small railroad embankment which brought him to GMUEND. He had no problems, and did not encounter any border or customs guards at any time on the Austrian or Czech sides of the border. Prior to his departure, SUBJECT made arrangements with [redacted] as to when to return in order for [redacted] to be at the railroad bridge again so that SUBJECT would not encounter any difficulties with the Czech border guard at the point of the trip back. At the time of SUBJECT's departure, his wife did not know about his trip, and she was of the opinion that he was working as a painter over the weekend. This was in accordance with instructions he had received from [redacted] at a meeting prior to his departure. Neither did SUBJECT's mother in VIENNA know how he crossed the border, and when she asked if he had received permission to travel from Czechoslovakia to Austria, he told her that he was working for the Czech railroad. At times he had to come to GMUEND with his chief, who uses him as an interpreter. While in GMUEND, he told his mother, he had asked his chief's permission to go to VIENNA to have a short visit with her, and his chief had given him permission to do so. SUBJECT made the trip from GMUEND to VIENNA by bus and train.

p. SUBJECT spent the weekend with his mother in VIENNA and, as prearranged with [redacted] returned to GMUEND on Sunday night. First he checked to see that there were no Austrian border guards around, and after making sure that everything was in order, and under cover of darkness, he went up the railroad embankment and across the bridge again, where [redacted] was waiting for him on the Czech side. [redacted] again took SUBJECT past the Czech border guards and towards C. VELENICE. [redacted] immediately began to ask SUBJECT how his trip was, and if he had encountered any difficulties along the border or during his trip. Since SUBJECT was able to inform [redacted] that everything worked out well, [redacted] indicated that he was very happy about this, and gave SUBJECT to understand that he was satisfied that SUBJECT did not encounter any problems while in Austria.

[redacted] then took SUBJECT's Austrian identity card and returned his Czech identity papers. Upon departure from SUBJECT, [redacted] still did not indicate what he wanted from SUBJECT, or why he had done SUBJECT the favor of obtaining the Austrian identity card. However, when SUBJECT wanted to thank [redacted] for his generosity and the big favor he had done for him, [redacted] told him: "Do not thank me for this; it was a pleasure for me to help you, and should I need you some day I will write to you and then you can do me a favor too."

q. SUBJECT did not hear anything from again until the spring of 1954, when SUBJECT received a letter from asking him to meet him on the road near C. VELENICE. SUBJECT felt compelled to go to this meeting with and, upon arrival, after a few preliminary general questions and answers, asked SUBJECT if he would be willing to make a short trip to Austria. This trip was to be made in the same fashion as when SUBJECT had gone across to see his mother in VIENNA during the fall of 1953. SUBJECT felt that he had to do a favor so he agreed, and made arrangements to meet the following Friday evening, at which time he expected to make the crossing. Prior to this trip to VIENNA, SUBJECT felt that he would have to explain to his wife somehow where he was going. Therefore, he gave some indications to her where he was going, what he was doing, but claims he did not tell her the details, who the man was he was working for, nor did he give her any other information.

(b) (7) (C)

r. As arranged, and SUBJECT met, and SUBJECT was informed that he was to travel to Schwarzenbergplatz in VIENNA, where he would find the monument of the Red Army. At noon on the following day, on the right side of this monument, he was supposed to meet a dark haired young man who would carry a "Wiener Kurier" (Vienna Courier) in his right hand. The gentlemen would be standing there waiting for someone, and would be looking around. He most likely would be dressed poorly in a blue coat and a beret, and would be dark complexioned. SUBJECT was to walk up to this man and ask him in the Czech language: "How do you like the monument?" The stranger was to reply in Czech: "I have already seen nicer ones." After SUBJECT had met the stranger, he was to ask him in Czech if he would please come with him to Czechoslovakia since wanted to speak to him personally. Should the stranger agree to come back with SUBJECT, they should immediately start out for GMUEND so that would meet them at the border that evening. During the trip, SUBJECT was to confine the conversation to general topics only in order not to be noticeable in Austria, since the stranger was not able to speak German or Austrian, and could only speak Italian and a very limited amount of Czech. Should SUBJECT not see the stranger at the monument at 1200 hours, he was to try once more to meet with this man at 1400 hours, using the same method of identification as previously mentioned. If the stranger did not show up at either time, SUBJECT was to return home immediately. He was not to visit his mother while in VIENNA. Prior to his departure from Czechoslovakia, gave SUBJECT 600 Austrian national schillings - ANS for any expenses he would incur during his stay in Austria. SUBJECT allegedly was not given any other means of identification to meet the stranger. SUBJECT did not receive any instructions as to what he should do should he be

apprehended with the stranger near the border, nor was he given any other emergency measures with which he should comply if caught within Austria.

s. SUBJECT went to VIENNA via the same route he had used before, and his trip was completely uneventful. Upon arrival in VIENNA, he did as instructed and went to the monument at 1200 hours. He waited for approximately half an hour but no one appeared. As told by SUBJECT returned at 1400 hours but nothing happened, and after waiting for approximately one hour, SUBJECT started his return trip to Czechoslovakia. was waiting for SUBJECT at the border at the time of his return. allegedly was unhappy to find out that SUBJECT had returned without a companion, but was satisfied with SUBJECT's successful travel. He paid SUBJECT 400 CSR Kronen for his trip, but requested that SUBJECT return to him the ANS he had left over from his journey. then informed SUBJECT that if he should need someone to make a similar trip again, he would notify SUBJECT by mail, as previously. According to SUBJECT, he still did not have any way of reaching nor did he know for which office was working.

t. A couple of weeks later, SUBJECT again received a short note from requesting a meeting. During this meeting again informed SUBJECT that he should take a few days leave as Robert needed someone to make a trip to VIENNA. The rest of the meeting between SUBJECT and was spent in general conversation, and told SUBJECT that this crossing also would take place during the evening hours as he had done prior to this one. Furthermore, they made arrangements when and where to meet the next time so that SUBJECT could make the crossing for SUBJECT was also informed again that he could not visit his mother while in VIENNA, and that he could not tell anyone about his travels for and SUBJECT met as arranged. This time SUBJECT's mission was to go to the Amalienkino, a movie house located in the 10th District of VIENNA. According to the gentleman SUBJECT was supposed to meet in front of the movie was a tall, elderly man, who walked with a bouncing step, leaning somewhat forward, with large fingers, wearing a green hat, and carrying a brown briefcase. The man was supposed to be standing in front of the movie house at 0900 hours, the day after SUBJECT made the crossing into Austria. Should he not be able to meet with SUBJECT at 0900 hours, SUBJECT was supposed to make a second attempt to meet the stranger the same day at 1400 hours. If SUBJECT should see anyone who fitted the description given to him by he was supposed to approach the

stranger and, speaking in German, ask him: "Excuse me, but can you please tell me where the Novaragasse is located?" The stranger was supposed to answer SUBJECT in German: "Sir, you are way off. The Novaragasse is located in the 2nd District, and therefore I'd better lead you there." After contact between SUBJECT and the stranger had been completed, SUBJECT was to ask him to go with SUBJECT to the CSR. Even though the stranger most likely would not at first be willing to follow SUBJECT to Czechoslovakia, SUBJECT should make all-out attempts to talk to him and definitely talk him into coming back to Czechoslovakia with him. According to it was of the utmost importance that should personally speak to this person.

u. then led SUBJECT past the border obstacles and border guards on the Czech side of the border towards the railroad bridge, and SUBJECT made the crossing to GMUEND without encountering any difficulties. He traveled to VIENNA, and attempted to make contact there as instructed by. However, the stranger did not show up at either of the two appointed meeting times. In order to show to that he actually had been at the Amalien movie house, SUBJECT placed his initials on a show-case on the right side of the building. SUBJECT returned to Czechoslovakia as instructed but without the stranger, and he had to inform again of his fruitless mission. Besides his expenses, SUBJECT received from a payment of 600 Kronen for this trip. was unhappy when SUBJECT returned alone, and first doubted SUBJECT's word that he had actually gone to VIENNA. But SUBJECT convinced by telling him that he could check on his trip by sending someone else to look for the initials he had placed on the showcase at the Amalien movie house in VIENNA. As proof that SUBJECT had been in VIENNA, did not request SUBJECT to bring anything back from VIENNA should he not make contact, nor was SUBJECT instructed to mail any postcards, telegrams, or anything of this nature to while in Austria. then indicated to SUBJECT that he would soon give him additional opportunities to make other crossings for him. Since SUBJECT expected to go on a short vacation with his wife, he informed of this fact, and then asked him how he could make contact with him upon his return from his vacation. At this point, gave SUBJECT the following address:

SUBJECT was to write a short note upon his return from leave, telling him that he had returned from his vacation. In addition, SUBJECT was to send some general regards with this message. SUBJECT did as instructed, but did not hear from for some time.

v. During the summer of 1955, SUBJECT suddenly received a letter from telling SUBJECT to meet as previously ar-

... ranged. They met at the indicated time and date. ... asked SUBJECT to make a trip for him to SALZBURG, Austria. SUBJECT agreed to make the trip as requested, and met ... again the following Friday evening. This time, ... briefed SUBJECT by showing him a picture of a man whom he was supposed to meet on Sunday morning at 0900 hours in front of the Protestant Church in SALZBURG. ... also brought a city map of SALZBURG with him and showed SUBJECT the location of the church on the map so that it would be simpler for SUBJECT to find the church. This was allegedly the first time that ... ever showed SUBJECT a picture of an individual he was to meet. During the briefing, ... further told SUBJECT that upon making contact with the man he was supposed to show him a small section of a photograph which represented a part of a church and which ... had brought with him. This was to be used between the gentleman and SUBJECT as identification. This time SUBJECT was given the mission of speaking to the stranger regarding some letter drops. ... had drawn diagrams of the letter drops on a piece of paper for SUBJECT. SUBJECT was to take this paper to SALZBURG with him and show it to the stranger, and tell the stranger that the letter drops drawn on the paper should be serviced on certain days of the week by the individual. ... gave SUBJECT definite instructions not to leave this piece of paper with the individual. SUBJECT had never seen these letter drops personally, and he does not know if they are actually in existence. Furthermore, ... gave SUBJECT some money which SUBJECT was to turn over to the stranger during their meeting. ... then took SUBJECT's Czech identity papers away from him, gave him the Austrian identification papers, and walked with him towards the border. He further told SUBJECT to return to Czechoslovakia as soon as possible after the meeting, and that he would expect him back at the border at the latest by Monday night. On this trip, for the first time, ... asked SUBJECT to mail him a postcard from SALZBURG, sending greetings. This postcard was to be mailed to ... at the address he had previously given to SUBJECT.

w. SUBJECT traveled to SALZBURG without any difficulty and arrived there on Saturday afternoon. He rented a room at a downtown gasthaus, the name of which is no longer remembered by SUBJECT. During the afternoon of that day, SUBJECT walked to the church where he was supposed to meet the stranger the following morning. He cannot remember how he spent the evening in SALZBURG. The following morning SUBJECT went to the church at 0900 hours, and noticed that the man whose picture ... had shown him also was at the church waiting for someone. After a short introduction was made, through identification of the picture, SUBJECT walked with the stranger to a nearby gasthaus to give him the briefing as outlined by

However, since there were many people in the gasthaus, and since SUBJECT felt somewhat uncomfortable in the place, the gentleman asked SUBJECT if he would be willing to go with him to his hotel room which was nearby and where they could talk to each other at their ease. SUBJECT agreed to this, and they walked to a nearby hotel and went to the room of the stranger, where SUBJECT briefed him. To make sure that the stranger had completely understood the information that SUBJECT was to turn over to him, SUBJECT made a couple of small sketches, showing the exact location of the letter drops. He also included the dates when the letter drops should be serviced. SUBJECT's sketches were made on the basis of the drawing had made for him prior to his departure from the CSR. SUBJECT then gave the stranger the money as instructed by In turn, the man gave SUBJECT a film, which SUBJECT was to turn over to SUBJECT did not know at that time what was on the film he received from the stranger in SALZBURG, and little happened otherwise between them.

x. SUBJECT left SALZBURG the same afternoon by train and traveled to GMUEND, where he arrived the next morning. After spending the rest of the day in the town of GMUEND, he made his return border crossing that evening. The trip itself was uneventful and without any unusual happenings. Upon arrival on the Czech side of the border, was waiting for SUBJECT. indicated to SUBJECT that he was proud of him for making the contact. He indicated to SUBJECT that he had done a good job, but also wanted to know if SUBJECT had noticed anything unusual during his stay in SALZBURG, and if he had anything at all to report that he considered worthwhile mentioning. Since SUBJECT answered in the negative, indicated to SUBJECT that he was very satisfied with the good job done by SUBJECT. For this trip SUBJECT also received approximately 600 Kronen from plus the expenses he had incurred, in ANS, while in Austria. had given SUBJECT approximately 500 to 800 ANS prior to his departure, but the balance had to be returned to

y. Some time during November 1955, SUBJECT again received a letter from requesting a meeting. The correspondence was somewhat different from any previous arrangement, since the letter instructed SUBJECT to come to BUDWEIS nca, CSR, where would be waiting for SUBJECT at the railroad station at a certain time and date. SUBJECT did as instructed, and upon his arrival in BUDWEIS, took him by car to a home located somewhat outside of BUDWEIS. The name of the street on which the home is located is unknown to SUBJECT, but he remembers that the building was numbered 608. SUBJECT was taken upstairs into a medium-sized attic room where

PR, Hq, Reg IV, MUNICH; subj:

file: FE-5 660; 9 Apr 56

briefed SUBJECT concerning his next trip, which was to be made to INGOLSTADT 32UPV70, Germany. He was supposed to meet the man whom he had previously met in SALZBURG. SUBJECT was supposed to go to the man's home and speak to him. According to SUBJECT, the briefing in BUDWEIS consisted of the following:

(1) gave him detailed instructions on how to go with his Austrian identity card to SALZBURG, where he was to go to the local police station and ask for an "Ausflugsschein". By showing his identity card and this "Ausflugsschein" he would then be able to cross the Austrian/German border. also told SUBJECT that this "Ausflugsschein" was only good for a distance of 30 kilometers from the Austrian/German border, but since no one ever checked identification papers after being inside of Germany, SUBJECT would not have to be afraid that anything would happen after passing the border.

(2) SUBJECT was then instructed by on letter drops and for what they were used. gave SUBJECT some indication on how a letter drop should be chosen, how it should be located, and what advantages there are by making use of letter drops.

did not tell SUBJECT why he was giving him this instruction, nor was he told that he was to establish any letter drops while in Germany.

(3) As his next instruction, showed SUBJECT how to make use of plain water and a stick of wood for secret writing. Robert sat down with SUBJECT and wrote a routine letter. He then sharpened a piece of wood to a point where it was almost like a pencil. SUBJECT was told he could use a match or a toothpick, or any stick of wood, to do the writing with plain water. This system was to be used by SUBJECT should anyone ever give him any information to transmit to or if SUBJECT wanted to make some notes which should not be read by anyone. He was then to make himself some notes between lines of a letter as shown to him by Even though SUBJECT could no longer read the writing after the water had dried, he was told by that upon his return to Czechoslovakia, Robert would be able to process the paper for SUBJECT in such a way that he again could read his notes, and would be able to remember much better on the basis of his notes what information he had received.

(4) SUBJECT was then told by that his present trip would take him to INGOLSTADT to see the stranger from SALZBURG, whose name he was now told was He was to tell the Doctor that would like to have information concerning the German Army,

including its new housing, kasernes, and any other information the Doctor could obtain. In addition, told SUBJECT that should make attempts to obtain information pertaining to the Officers School in MURNAU 33TPT68, Germany. wanted to know if this school was being turned over to the German military forces, or if it was to remain in the hands of the US Army.

z. SUBJECT allegedly spent the night in the room at BUDWEIS, and the following day took SUBJECT to the Czech/Austrian border by car. SUBJECT was taken to the same place where he had previously made his crossings and where had previously dispatched him. SUBJECT did as instructed by was able to obtain his "Ausflugsschein" in SALZBURG, and was actually able to travel to INGOLSTADT without having any difficulty crossing into West Germany. When he arrived at home, he was greeted by a woman who told him that the Doctor was not at home, that he was ill, and that the Doctor could not be contacted. Since SUBJECT did not know what to do, he left a note for the Doctor, the contents of which he cannot remember. He immediately left INGOLSTADT and returned to the Czech/Austrian border over the same route as he had come to West Germany. Upon arrival in Czechoslovakia, was very angry about SUBJECT not using his head and obtaining some information pertaining to the Doctor while he was at the Doctor's home. wanted to know where the Doctor was, what illness he had, and SUBJECT was asked many similar questions, but since he had not asked anyone for details, he was unable to give an answer to his questions. Furthermore, told SUBJECT that the next time he went on a similar trip, if the person he was to contact was not at home, he should ask when the person was to return, and if it were within a few hours, SUBJECT was to wait. If the person was out of town for a longer period of time, SUBJECT should obtain information as to where the person went, and why the person made the trip. However, as pertains to his actual travel into West Germany, seemed to be satisfied with the trip made by SUBJECT. SUBJECT then was paid approximately 500 or 600 Kronen for his trip by including all expenses.

aa. In the beginning of March 1956, SUBJECT again received a letter from telling him to be ready to make another trip to West Germany. SUBJECT was ordered to come to BUDWEIS, where would meet him again at the railroad station. Arriving in BUDWEIS on or about 15 March 1956, SUBJECT was briefed by for one day in the same room in BUDWEIS as previously. This time, SUBJECT was to make another trip to INGOLSTADT in order to contact This time SUBJECT's briefing was similar to that previously received, with the following additional EEIs:

(1) If the Doctor should give SUBJECT anything to bring back, if it should be a small film which had been developed, SUBJECT was to take and roll it up very tightly and put it in his toothpaste tube, and bring it back to Czechoslovakia.

(2) According to _____ had written a letter in which he indicated that he had a man _____ was recommending for future use. This man was supposed to meet in FREILASSING 33TUP40, Germany, with someone from the CIS on 12 April 1956. In order to hold this meeting, _____ wanted to know the following:

- (a) The name of the man.
- (b) The address of the person.
- (c) What position did the man hold.
- (d) Why did the Doctor think that this man would be willing to cooperate with the CIS.
- (e) Had the man given any information to the Doctor which could be turned over to the CIS at this time.
- (f) Did the person know that he would be cooperating in the future with the CIS.
- (g) Any other details regarding the man.

(3) _____ furthermore wanted to have information from the Doctor as pertains to atomic weapons and the medical cure which is known in Germany at present which could be used in case of an atomic attack.

(4) In addition, _____ requested information from _____ as to what was necessary to become an officer in the German military forces, and who was eligible to enter the German forces in the officers' rank. If possible, _____ was to find someone who would be willing to enter the German Army in an officer's status, and who would furnish information concerning the German forces to the Doctor.

bb. As previously, SUBJECT was taken from BUDWEIS to the border by car, and _____ dispatched him to West Germany. SUBJECT made this trip without any difficulty, and arrived in INGOLSTADT on approximately 17 March 1956. Upon arrival at the Doctor's home, no

one answered the door. SUBJECT waited approximately two hours, and then returned once more to the Doctor's home without finding anyone at home. He then rang a neighbor's doorbell, and asked if the neighbor could tell him where the Doctor and his family were, at which time he was told that _____ and his family had left INGOLSTADT for a couple of days. In order to make use of his trip, SUBJECT then left a short message with the neighbor for _____ requesting him to come to LINZ, Austria, on 25 April 1956, where they would meet in front of the main post office at noon.

cc. SUBJECT then returned via Austria to Czechoslovakia, making use of an "Ausflugsschein" to cross the German/Austrian border, as he had done on his previous trip. Upon his return to Czechoslovakia, _____ was very unhappy about the unsuccessful trip that SUBJECT had made again, and therefore did not give SUBJECT any payment for the trip. He furthermore gave SUBJECT instructions to return to BUDWEIS the following weekend in order to go back to Germany once more to meet _____. As instructed by _____ SUBJECT arrived in BUDWEIS the following Friday morning, where they met and where SUBJECT was again taken to the same house in BUDWEIS. This time, _____ gave SUBJECT additional instructions, as follows:

(1) SUBJECT was to tell _____ that from now on _____ was to make a pick-up at the letter drop in MUNICH which _____ had given to SUBJECT on the film during their meeting in SALZBURG. Starting 30 April 1956, and every two months thereafter and always on the 30th of each month, _____ was to check the drops for new instructions. SUBJECT does not know where this letter drop is located in MUNICH, but according to _____ this letter drop would be serviced for the Doctor in the future.

(2) In addition, SUBJECT was supposed to ask _____ if _____ still had connections to American military sources and, if so, would he obtain American field manuals FM-100/15, FM-200/23 or FM-23/200 for the CIS. If he were successful, _____ was to transmit them to _____ by making use of his letter drops, or by giving them directly to SUBJECT upon the next meeting.

(3) Prior to departing BUDWEIS, _____ also told SUBJECT not to return this time without having spoken to the Doctor, since _____ wanted SUBJECT definitely to speak to _____ prior to meeting with him and the stranger, whom the Doctor had recommended, in FREILASSING. _____ felt that it was of the utmost importance to obtain the name and address of this stranger prior to meeting with

him. SUBJECT and then departed by car for the Czech/Austrian border and SUBJECT was dispatched in the usual manner.

dd. SUBJECT traveled to INGOLSTADT without difficulty by making use of an "Ausflugsschein" in the same manner as he had done previously. Upon arrival in INGOLSTADT, he immediately went to the home of where he met laughter, who informed SUBJECT that her parents had gone downtown and were expected back shortly. Upon the request of daughter, SUBJECT entered the home and waited for return. After waiting for approximately 30 minutes, and his wife returned. immediately notified SUBJECT that he was happy to see him again and wanted to talk to him but had to make an additional house call, and therefore SUBJECT would have to wait for him a little longer. After waiting an additional 15 minutes or so, a member of the INGOLSTADT police came to home and asked SUBJECT for his identification papers. Due to the fact that SUBJECT only had an Austrian identity card and an "Ausflugsschein", the policeman requested him to go to the local police station to check in more detail on SUBJECT and his activities; since it was against German law to go more than 30 kilometers from the border with the papers in SUBJECT's possession.

ee. SUBJECT is able to give the following information as pertains to CIS personnel in addition to the persons already mentioned:

(1) On numerous occasions, was accompanied by an individual whom SUBJECT believes to be a member of the CIS. This person is described by SUBJECT as follows: approximately 172 cm tall, 45 to 47 years old, approximately 80 kg in weight, dark hair, and he usually wore a hat and a light overcoat. This individual spoke only limited German. He never spoke to SUBJECT as pertained to his work, but usually made some comments to SUBJECT concerning the weather or other minor matters in order to keep up some conversation. SUBJECT does not know any other details or the name of this person.

(2) Another person who accompanied to one of the meetings and who, in SUBJECT's opinion, is therefore a member of the CIS, was a person who was approximately 182 cm tall, 55 to 60 years old, weighing about 90 kg, who wore a hat, a short overcoat and high laced shoes. Due to the limited amount of time spent with this person, SUBJECT allegedly is not able to give any additional information which pertains to him, nor does he know his name or where said person came from.

ff. SUBJECT further claims that he did not make any contacts with any other persons who are members of CIS, with the exception of the ones listed previously in this report. As to meeting places, SUBJECT claims that the only meetings which took place between him and CIS were on the road outside of C. VELENICE or in the building in BUDWEIS. SUBJECT claims that he does not know what is located in the lower part of the building in BUDWEIS, and only knows the room where he used to be taken by which has been described previously in this report. According to SUBJECT, he does not know any of the other couriers used by the CIS for their intelligence work. He also claims that he does not know any persons who are in contact with the CIS, with the exception of the persons mentioned above. According to SUBJECT, he has never serviced any letter drops of any kind for CIS, nor has he ever mailed any correspondence of any kind while in Austria or Germany on behalf of CIS. With the exception of the house listed in BUDWEIS, SUBJECT claims to have no knowledge of any other safe houses or offices which are used by the CIS, with the exception of the StB office in BUDWEIS. This office is known to SUBJECT only by passing same, and he claims that he has never been inside the building. SUBJECT further claims that he has never received any additional instructions or guidance by CIS or as pertains to any photo work, secret ink, or any other intelligence work with the exceptions previously outlined in this report. SUBJECT further indicated that he has not received any instructions concerning any type of action he should take when arrested by Austrian, German or American agencies, and claims he has no code of any type set up with his CIS handling agent, should he be arrested at any time during any of his missions outside of Czechoslovakia. SUBJECT allegedly was not given by anyone a cover story which he should tell if he was apprehended.

gg. During the interrogation of SUBJECT, a detailed check of his personal belongings was made, and it was noticed that a pipe he carried in his briefcase was exceptionally clean, and had not been used for a number of days. Upon questioning, SUBJECT admitted that the tobacco pouch and pipe had been issued to him by and that he was supposed to make use of the double bottom inside the tobacco pouch for transmittal of any information he was to receive from while in INGOISTADT. Should he have received any film or written material, he was to place said item in the double bottom of the pouch, and carry the pouch in a casual manner as if he were a pipe smoker. Upon questioning, SUBJECT admitted that he had received the pipe and pouch during his last stay in BUDWEIS, and that during his present trip it was allegedly the first time such a pouch had been issued to him for transmittal of any type of information.

SUBJECT was in possession of the following currency: four 100-DM bills, numbered 44075, 68119, 36052 and 05557, respectively; two 10-DM notes; and three 100-ANS bills, numbered 71673/1612, 55919/1512 and 80589668, respectively.

hh. Shortly after SUBJECT was interviewed, he was requested to write two statements. The first statement written by SUBJECT indicated that he realized that he was not under arrest, and was with the interviewing organization as a guest of his own free will. The second statement acknowledged his activities on behalf of CIS, and indicated that he was on a trip for CIS, and that he was being paid by the CIS for the mission and has previously undertaken such missions on behalf of CIS. The original statements were given to the German police in MUNICH as evidence against SUBJECT. (F-6)

12. ACTION TAKEN AND/OR BEING TAKEN: SUBJECT was turned over to the KD2 Section of the MUNICH City Police on 27 March 1956 for prosecution under paragraphs 99 and 100 of the German Legal Code, which pertains to espionage on behalf of an Eastern intelligence agency, or being in contact with such an organization.

13. COMMENTS:

a. It is the opinion of the CIC handling agent that SUBJECT, during the preliminary interviews on 25 and 26 March 1956, did not reveal all the information as pertains to his intelligence activities on behalf of the CIS. This opinion is based on the following:

(1) During the visit SUBJECT made on 17 March 1956 to home, he left behind a postcard showing exactly where he and were to meet on 25 April 1956. At no time during the interviews did SUBJECT ever mention such a postcard.

(2) SUBJECT was asked on numerous occasions if he knew of any other cover addresses used by and the CIS. SUBJECT maintained that he did not know of any such other addresses, nor did he know of any other address which was used by the CIS with the exception of the one given by him. However, when SUBJECT visited home on 17 March 1956, he left a note behind for in which he listed an additional cover address to be used in the future by

(3) At no time during the interviews did SUBJECT indicate that he gave any EEIs to while in SALZBURG. However, it is known that SUBJECT turned over to besides the drawing of the letter drops, a piece of paper which listed numerous EEIs as to fulfill on behalf of the CIS.

(4) Only after firm and detailed interrogation, and after SUBJECT was confronted with the pipe and the double bottom in the tobacco pouch, did he admit that the pipe and the pouch were to be used by him as a means to transmit information from Germany to Czechoslovakia. SUBJECT claims that this pipe and pouch were furnished to him on his present trip for the first time; however, it can be seen that the pouch had been previously used by someone, since the top of the double bottom definitely shows signs of wear, and the possibility that the pouch had been previously used by SUBJECT should not be overlooked. SUBJECT would never have admitted that the pipe

and pouch had been issued to him on this trip if he had not been confronted with the fact that the pipe was completely clean, and had not been used for a long period of time.

(5) Due to the discrepancies listed above, and to the fact that the CIS trusted SUBJECT to such an extent that he had been dispatched on numerous occasions to Austria and Germany, it is believed that SUBJECT must also have had other EEIs and missions on behalf of the CIS which he did not divulge during the preliminary interviews.

b. SUBJECT gave the impression that he had been thoroughly indoctrinated prior to his departure for Germany.

Therefore, during his first interrogation, he did not reveal any information as pertains to his trips to Austria and Germany in order to make contact with nor did he indicate that he had missions previously to make contact with other individuals in Austria. The same is also the case as pertains to information regarding the cover house where SUBJECT was briefed in BUDWEIS. Only after a long and detailed interview did he admit that he ever was in BUDWEIS, had been briefed as outlined above, and went on other missions for the CIS.

c.

d. SUBJECT was of the opinion that he had been under surveillance on his present trip ever since he entered Germany via SALZBURG, and felt that his apprehension in INGOLSTADT was the result of this surveillance, and not because of the fact that someone had notified American intelligence of his arrival in INGOLSTADT. He was also of the opinion that had been apprehended at the same time that he had been arrested by German police authorities.

4. REPORT OF FINDINGS

On 14 February 1956, Source A-VI furnished the following information concerning [REDACTED] born [REDACTED] in [REDACTED] who has admittedly been in contact with Czech Intelligence Service (CIS) and is awaiting trial by the German authorities for espionage:

[REDACTED] German citizen, divorced, last place of residence at [REDACTED] is the illegitimate child of [REDACTED] nee [REDACTED]. His mother married [REDACTED] sometime between 1926 and 1930, and she and [REDACTED] went to JAEGERNDORF (33UXR9352), CSR, to live in [REDACTED] house. [REDACTED] attended elementary school in JAEGERNDORF until 1936, and then obtained a position as a cast-iron worker's apprentice in the Robert HOHLBAUM Iron Foundry in JAEGERNDORF. He was unable to finish his apprenticeship because the foundry stopped operating when Sudetenland united with Germany. In March 1940, he was drafted into the RAD (Reich Arbeits Dienst - German Labor Service) and worked near KOSEL (33UVR1390), DDR and in German occupied Poland. On 3 October 1940, he was called to active military service with the 84th Infantry Regiment at KOSEL. [REDACTED] remained in the German Army until 19 April 1945, when he became a prisoner of war of the Americans at HEILBRONN (32UNV1644), Germany. On 12 January 1946, he was released and went to INGOLSTADT (32UPV7804), Germany, to join his wife, [REDACTED] nee [REDACTED] whom he had married in 1943. He was employed as a guard at a US Army warehouse in INGOLSTADT until July 1946 when he was discharged for stealing clothes and sentenced to three months in jail. From this time until 1950, he was convicted and sentenced to short terms of imprisonment on several occasions for various thefts and burglaries. On 3 October 1949, he received a divorce from his wife, [REDACTED] in the Second County Court, MUNICH (32UPU9135), Germany. The two children of this marriage had died before the divorce was obtained.

On 12 August 1950, [REDACTED] crossed the border illegally from FURTH IM WALD (33UUQ4364), Germany into the CSR. He claims to have done so because he was expecting another sentence and was interested in finding out where his mother, step-brothers, and step-sisters were. He was arrested by the Czechs and put in jail at TAUS (33UUQ5079), CSR. [REDACTED] a farmer's daughter from WALDMUENCHEN, was arrested and put in the same jail a little later. A love affair developed between [REDACTED] and [REDACTED] in the jail. On 13 November 1950, he was returned to West Germany at FURTH IM WALD by the Czechs.

4. REPORT OF FINDINGS

Legal proceedings were still pending against him and he had to finish serving sentences until July 1952. After finishing his sentences, he went to live with the [REDACTED] family at [REDACTED]. [REDACTED] has been unemployed since 25 November 1955, and has received 65.40 DM every 14 days from the Labor Office; he has no other means of income or property.

In the latter part of May or beginning of June 1955, [REDACTED] met three Czechs while he was looking for mushrooms in the woods on the border near ARNSTEIN (33UUQ3474), Germany. The Czechs approached him and asked in good German what he was doing. [REDACTED] replied that he was looking for mushrooms. One Czech asked him to come to where they were standing on the Czech side of the border. He walked closer but stopped on German territory. He remained about 2 1/2 yards from the Czechs, and they carried on a conversation for about 10 minutes. The first Czech asked him if he was employed, how much he earned, and other personal questions. [REDACTED] said that he must leave to avoid being seen. The first Czech then said, "Wait a minute," and gave him a 50 DM bill. He said that it was not counterfeit and [REDACTED] should not hesitate to take it. The Czech told him if he wanted to earn more money for himself he should come to the same place at the same time on 12 October 1955. The Czech said that he would have to "check" around and determine if [REDACTED] had told him the truth before he could be employed for any particular use. [REDACTED] accepted the 50 DM, signed a receipt for the money, and agreed to meet the Czechs on 12 October 1955, if it were possible. The Czechs suggested that he buy a camera for himself, which was not to cost over 140 to 150 DM. They promised to reimburse him for the cost of the camera. [REDACTED] did not tell anyone about his meeting with the Czechs or the receipt of the money. He went to the same place several times before 12 October 1955, to look for mushrooms, but did not see or speak to any Czechs.

On 12 October 1955, at about 0800 hours, [REDACTED] left home without telling anyone where he was going in order to keep his rendezvous with the Czechs. He did not take anything along with him to this meeting. He arrived at the place where he was supposed to meet the Czechs at about 1030 or 1100 hours. The three Czechs with whom he had previously spoken arrived shortly afterwards. The one who spoke good German asked [REDACTED] what he was doing at that time, and if his son was in good health. [REDACTED] concluded from these questions that the Czechs had made inquiries concerning him in West Germany. Then the Czechs asked him if he would take a few letters

and mail them. He replied that he would do it, and was given the letters folded in a piece of paper. [REDACTED] first stated there were three or four letters and a postcard. He later stated there were either six letters, three wrapped in each part of the paper, or seven letters, three wrapped in one part of the paper and four in the other. He was instructed by the Czechs to drop them into a mailbox in a town near WALDMUENCHEN. The Czechs added that it would probably be better to mail them in CHAM (33UUQ3054), Germany. He was told not to mail the letters all at one time and not to mail all of them in the same mail-box. The envelopes were white and of normal size except one, which was a long envelope. Some of the addresses were hand-written, and some typed. Both the letters and the postcard had one 20 Pfennig and one two (2) Pfennig postage stamp on each of them. Although [REDACTED] read the addresses, he could only remember that one letter went to VOHENSTRAUSS (33UUR0800), Germany, one to ESLARN (33UUQ2095), Germany, and one to a town near REGENSBURG (33UTQ8733), Germany. He also believed that one of the letters was addressed to a town near FURTH IM WALD.

When the members of Agency A-VI showed [REDACTED] a punched piece of paper with three addresses on it, he admitted that they were the addresses of three of the letters which he was to mail for the Czechs. The piece of paper with the addresses was found in his home by members of Agency A-VI. The three addresses were as follows:

1. [REDACTED]
 2. [REDACTED]
 3. [REDACTED]

[REDACTED] also received instructions from the Czechs to obtain different kinds of newspapers with articles about the new German Army. He was also told to acquire "Soldiers Calendar 1955/1956" and also the pamphlet "German Army of Today and Tomorrow." On 20 October 1955, at 2320 hours, the newspapers were to be bundled up and thrown from the bridge at FURTH IM WALD onto the freight train that goes under the bridge to TAUS (33UUQ5079), CSR. The Czechs said that the newspapers would be taken from the train when it

arrived in TAUS. The Czechs said they wanted to know if things could be sent across the border in this manner. [REDACTED] agreed to carry out his missions and received 100 DM, for which he signed a receipt. The Czechs instructed him to say nothing about what he was to do and to meet them at the same place on 6 November 1955.

On either the 13th, 14th, or 15th of October 1955, [REDACTED] mailed the letters, but not as instructed. He mailed all of them at one time in the mail box in front of the Post Office in CHAM. On 20 October 1955, he went to the bridge at FURTH IM WALD to throw the newspapers which he had acquired on the train going to TAUS. He decided that the bridge was too high, and the newspapers might not land on the train. He took the newspapers with him and left without waiting for the train to pass. On 6 November 1955, he met the same three Czechs on the border as planned. He told them that it was impossible to send the newspapers across the border the way they had planned. They berated [REDACTED] for not dropping the newspapers as he was instructed. They told him that he must try again on either 10 or 20 December 1955. They told him to tie something heavy to the newspapers before he threw them from the bridge onto the train. They instructed him to meet them on the border near the Haselmuehle (Hasel Mill), which is near ARNSTEIN, on 5, 15, or 25 January 1956, or on the same dates in February 1956, if there was no snow on the ground. [REDACTED] received 100 DM, for which he signed a receipt.

On 20 December, at 1500 hours, [REDACTED] left on his motorcycle from WALDMUENCHEN to drive to FURTH IM WALD. He arrived in FURTH IM WALD about dusk because he had had a flat tire. He drove to the bridge over the railroad tracks, looked around for a short time, and went to the Zur Bruecke Inn, which is near the bridge. He did not leave the inn at 2300 hours to drop the newspapers on the train, although this had been his purpose in coming to FURTH IM WALD. He left the inn about 2400 hours.

He was stopped in front of the railway station by a member of Agency A-VI, who checked his identification. The member of Agency A-VI found the bundle of newspapers and took him to the headquarters of Agency A-VI, where he was interrogated on 21, 23, and 28 December 1955.

The newspapers and pages from picture magazines showed pictures of the military insignias for the German ranks of private, non-commissioned officer, officer, general, and admiral. The pictures were from the

Source B-IV does not believe that they are diplomatic couriers, because the Czech diplomat by whom they are always accompanied could easily serve as the courier himself.

5. As indicated in the report referenced in paragraph 1b, above, V-222-IV learned from a [REDACTED] a Czech immigrant from MALCKY, CSR, that she allegedly saw [REDACTED] sitting in a cafe in BRATISLAVA, CSR, while she was visiting that city in October 1955. This person may be identical to the [REDACTED] mentioned in the attached reports. [REDACTED] is mentioned in the referenced report as being a former employee of Radio Free Europe - RFE, who was allegedly kidnapped from Austria by the Soviets.

7. Source B-IV has been utilized as a sub-source by Source A-IV since November 1955, for which he has been paid approximately 500 Austrian National Schillings - ANS, monthly. Originally, in addition to Source B-IV, [REDACTED] a co-worker of Source B-IV, was also utilized as a sub-source by Source A-IV. However, since the same information can be obtained from Source B-IV, [REDACTED] was informed by Source A-IV that his services were no longer needed, since Source A-IV had severed his contacts in Germany. Source B-IV was retained as a sub-source because of his aptitude and his willingness to continue furnishing information to Source A-IV. Source B-IV is married, has two children, and has recently purchased furniture for his home, for which he is paying in monthly installments. He purchased the furniture on the basis of the 500 ANS which he receives from this Region every month. He has led [REDACTED] to believe that he also severed his contact with Source A-IV in January 1956, and has cautioned Source A-IV to keep their contact secret from [REDACTED]. On 27 March 1956, Source A-IV was interviewed in VIENNA 33UXPO4, Austria, and reported that he had received information from Source B-IV on 24 March 1956, as follows:

a. Source B-IV learned from employees of the Austrian Customs Office in GMEUND nca, Austria, near the Austrian/CSR border, that during the past several months [REDACTED] and [REDACTED] have been crossing from the CSR into Austria approximately once a month. They always enter and leave Austria at the check point in GMEUND, and are always accompanied by a member of the Czech Legation in VIENNA, or by a member of the Czech Diplomatic Corps in PRAGUE VR-6048, CSR, and always travel in an automobile bearing Czech CD license plates. The Austrian Customs officials have observed that when entering Austria, [REDACTED] and [REDACTED] carry very little luggage. However, when they leave, they have an excessive amount of luggage. The officials have been unable to control their luggage because the Czech diplomat accompanying them always declares it to be diplomatic luggage. Source B-IV obtained from the Austrian Customs office some data concerning [REDACTED] and [REDACTED] as follows:

- (1) [REDACTED] born [REDACTED] in [REDACTED] duty passport [REDACTED] employee, Czech Foreign Office.
- (2) [REDACTED] born [REDACTED] in [REDACTED] duty passport [REDACTED] employee, Czech Foreign Office.

b. When in VIENNA, [REDACTED] and [REDACTED] usually reside at the Hotel Erzherzog Rainer at Wiednerhauptstrasse 27, VIENNA IV, or at the Hotel Zentral at Taborstrasse 8a, VIENNA II.

c. On 21 March 1956, an unidentified Czech national, employed as a crewman on Austrian train number D-1201 running between BRATISLAVA XP-5635, CSR, and VIENNA, contacted an Austrian Gendarme while the train was stopped in MARCHEGG nca, Austria, and informed him that a man named [REDACTED] was aboard. On 15 March 1956, [REDACTED] had traveled to the CSR on the same train, and had been arrested by Czech border guards at the check point between Austria and the CSR. The guards had confiscated 20,100 Czech Kronen which [REDACTED] had on his person. The Austrian Gendarme immediately arrested [REDACTED] and delivered him to the Headquarters of the Security Office for Land Lower Austria in VIENNA.

4. REPORT OF FINDINGS

However, since [REDACTED] possessed a valid visa to the CSR, he was released after questioning.

d. During the questioning in VIENNA, [REDACTED] at first claimed that the Czech border guards had confiscated only 11 Czech Kronen, and produced a receipt for that amount which he claimed had been given to him by the Czech border guards. However, he later admitted that the guards had confiscated 20,100 Czech Kronen, but had given him a receipt for only 11, the amount he had declared upon entering the CSR. [REDACTED] claimed that shortly before departing from VIENNA to the CSR on 15 March 1956, an unidentified woman had given a package to [REDACTED] wife, [REDACTED], and instructed her to have [REDACTED] deliver it to a woman in MALCKY XP-5067, CSR. [REDACTED] claimed that he had not known what was in the package, and refused to disclose the name of the woman who was supposed to receive the package in MALCKY.

e. Source B-IV obtained some personal data concerning [REDACTED] and his wife, as follows:

(1) [REDACTED] born [REDACTED] in [REDACTED] citizen, married, residing at [REDACTED] employed as a provisional skilled laborer in the VIENNA General Hospital "Stadt Wien"; children: [REDACTED] born [REDACTED] born [REDACTED]

(2) [REDACTED] nee [REDACTED] born [REDACTED] in [REDACTED] near MALCKY, Austrian citizen, housewife; parents: [REDACTED] and [REDACTED]

f. According to the records of the City Police in VIENNA, [REDACTED] is identical to [REDACTED] who was arrested by US and French intelligence agencies in 1952 or 1953 for alleged participation in a Czech espionage net in URFAHR nca, Austria, but was released for lack of evidence. She emigrated from the CSR to Austria in 1939, and during the period 1945 to 1948, she made several illegal trips to the CSR to visit her parents, who allegedly reside in MALCKY.

The Austrian customs officials in GMEUND have observed that when returning from Austria, [REDACTED] and [REDACTED] have far more luggage than when traveling from the CSR. The Austrians have been unable to inspect their luggage because the accompanying Czech diplomat always declares it to be diplomatic luggage. During their trips to Austria, they usually stay for a period of two to three days at the Hotel Erzherzog Rainer at Wiednerhauptstrasse 27, VIENNA IV, or at the Hotel Zentral at Taborstrasse 8a, VIENNA II. The possibility exists that they are operating an intelligence network out of VIENNA.

1. On 21 March 1956, [REDACTED] an Austrian national, born [REDACTED] in [REDACTED] was arrested by the Austrian police in MARCHEGG nca, Austria, while returning via train from MALCKY XP-5067, CSR. He was denounced to the Austrian police by an unidentified Czech railroad employee as having been detained by the Czech border guards at the Czech/Austrian border near MARCHEGG while enroute from VIENNA to MALCKY on 15 March 1956, at which time the guards confiscated from him 20,100 Czech Kronen. During the interrogation by the police in VIENNA, he claimed that shortly before departing for the CSR on 15 March 1956, an unidentified woman in VIENNA had given a package to his wife, [REDACTED] and instructed her to have him deliver it to a woman in MALCKY. He claimed not having known the contents of the package, and that when he was detained by the Czech border guards, he declared only 11 Czech Kronen, which he had on his person. The guards then had opened the package, and discovered 20,100 Czech Kronen, which they immediately confiscated, but gave [REDACTED] a receipt for only 11 Czech Kronen, the amount he had declared. [REDACTED] refused to disclose to the Austrian police the name or address of the woman in MALCKY who was supposed to receive the package of money. Since he possessed a valid visa to the CSR, he was released by the Austrian police.
2. His wife, [REDACTED] nee [REDACTED] born [REDACTED] in [REDACTED] nca, near MALCKY, CSR, is believed to be identical to [REDACTED] who was allegedly arrested, and then later released, by the US and French intelligence agencies in Austria in 1952 or 1953 for alleged implication in a Czech espionage net in URFAHR nca, Austria. [REDACTED] and possibly his wife, are believed to be engaged in intelligence activities for the CIS in VIENNA.

SUMMARY OF INFORMATION

- (b) (7) (C)
1. [REDACTED] is an official of the CSR Press Section, Czech Legation, Penzingerstrasse 11-13, VIENNA XIV 33UXPO4, Austria. He is married and two children, one of whom resides with [REDACTED] and his wife at the Czech Legation in VIENNA, while the other resides in PRAGUE VR-6048, CSR. It has been determined that [REDACTED] is a Czechoslovakian Intelligence Service - CIS handling agent in VIENNA, and possibly an officer in the Statni Bezpecnost - StB (State Security). From July 1955 to 17 March 1956, he directed [REDACTED] in intelligence missions against the Austrian Federal Police, Czech refugees in Austria, employees of Radio Free Europe - RFE in MUNICH 32UPU93, Germany, and against the US Forces in Germany. Since 3 February 1956, he has met a Region IV sub-source in VIENNA on three occasions for the purpose of recruiting the sub-source as an agent for the CIS. [REDACTED] specified that the Region IV sub-source was needed to identify CSR refugees in VIENNA who are currently employed by US Intelligence.
 2. Prior to 17 March 1956, [REDACTED] informed the Austrian Federal Police in SALZBURG 33TUN59, Austria, of his CIS activities with [REDACTED]. During the meeting between [REDACTED] and [REDACTED] in VIENNA on 17 March 1956, [REDACTED] apparently noted that the meeting was being observed by Austrian policemen, and as a result he failed to keep an appointment with [REDACTED] on the following day. During a subsequent meeting with the Region IV sub-source in VIENNA on 30 March 1956, [REDACTED] learned that his identity, position, and association with [REDACTED] was known to the sub-source. [REDACTED] became highly nervous, stating that he would leave for PRAGUE in the near future, and made an appointment for the Region IV sub-source to meet his successor in VIENNA on 15 May 1956. [REDACTED] did not identify his successor. [REDACTED] may have been recalled to PRAGUE because of having been identified by the Region IV sub-source, and because his meeting with [REDACTED] on 17 March 1956 was compromised.

SUMMARY OF INFORMATION

1. [REDACTED] is employed as a translator-interpreter in the Cultural (Sports) Section of the Czech Legation, Penzingerstrasse 11-13, VIENNA XIV 33UXP04, Austria. He is approximately 30 years of age, allegedly single, and lives in the Czech Legation building. He was observed while discreetly watching a meeting between [REDACTED] Press official of the Czech Legation in VIENNA, and a Region IV sub-source on 3 February 1956 in VIENNA. Following the meeting, [REDACTED] joined [REDACTED] in a dark colored sedan, license number [REDACTED] (CD), and proceeded to the Czech Legation.
2. During a subsequent meeting between [REDACTED] and the Region IV sub-source on 29 February 1956, [REDACTED] again discreetly observed the meeting. After the meeting he joined [REDACTED] in the automobile mentioned above, after which they drove to the Czech Legation. The possibility exists that [REDACTED] is a member of the Czechoslovakian Intelligence Service - CIS, and that he might also be a CIS handling agent, since it has been determined that [REDACTED] is employed as a CIS handling agent in VIENNA.

SUMMARY OF INFORMATION

Through residence, employment and social contacts in the cities of PARDUBICE (33UWR5643), HERMANOV MESTEC (33UWR4833), and CHRUDIM (33UWR5733), CSR, Source A-VI identified the following personalities as being members of the StB: (F-3)

a. [redacted] or [redacted] associated with the StB office in PARDUBICE, where he now resides in Na Olsenkach, near the Husuvbor Church, the church of a Czechoslovakian religious sect, has been a member of the StB since about 1951. Although a convinced communist and a member of the Communist party since 1945, he has never become a functionary. He is a shoemaker by trade whose education included only the required five years of elementary school and three years of intermediate school. Since his entry into the service of the StB he has become arrogant and conceited and is considered to be stupid in his relationships with people in general, since he antagonizes them by his attitude. He is a Czech male born about 1920, who is about 5'6" in height and about 175 pounds in weight, with a heavy-to-stout build and having thick reddish-blond, slightly wavy hair which is combed straight back. He has a full, oval face and a pale complexion. His forehead is low, his nose is somewhat broad in proportion to the rest of his face, and he has a medium sized mouth and apparently healthy teeth. His shoulders are narrow and sloping, his ears protrude more than normal and he has a cleft visible on his chin. He smokes 25 to 30 cigarettes daily and drinks only a moderate amount of beer. He is married and lives with his wife, [redacted] and their two children. (F-3)

b. [redacted] a member of the StB office in PARDUBICE, resides in KONOPAC (cna), CSR. He is married and has no children. He has been connected with the StB since about 1950 and is regularly seen wearing an StB uniform when on duty. It is rumored that he is having difficulties at his office because of his excessive drinking since he is prone to talk too freely when under the influence of alcohol. His family, especially his father, have been long-time members of the Communist party and are all of the lower working class, his father being employed in a sand and gravel pit. [redacted] was born about 1921, is about 5'6" in height and about 135 pounds in weight, is of medium build, and has straight brown hair, which is thin in front. He has a thin face and generally narrow features. He smokes heavily and drinks to excess, making a practice of attempting to

d. [redacted] who was born about 1930 in [redacted] where his parents still reside, has been a member of the StB in PARDUBICE since the latter part of 1953. He and his family live on Stalin Square in HERMANUV MESTEC from where he travels to PARDUBICE daily by bus. (EXHIBIT II) He is a former radio mechanic by trade who is about 5'8" in height and about 135 pounds in weight, with a slender build and black straight hair which is worn parted. He has a thin face, a narrow nose and a small mouth. His complexion is sun-tanned and he is inclined to stoop forward when walking. He is generally considered to be a good-looking man and as far as is known, does not use alcoholic beverages. He is a convinced communist, and is considered intelligent and dangerous by his acquaintances. He is about 5'6" in height, about 165 pounds in weight and has a heavy build and dark brown straight hair which is worn with a part. His complexion is dark and he is described as a completely ordinary looking person who would not normally be noticed. He appears to have no special interests and is devoted to his family. (F-3)

f. [REDACTED] a convinced and politically active communist, is a member of the StB, however, his assigned station is not known. He is a resident of HERMANUV MESTEC, where he owns his own home and resides with his wife and 14 year old daughter. He is reported to have been variously assigned to the StB offices in PRAGUE (33UVR6048), as well as in CHRUDIM and PARDUBICE and to have, at an earlier date, been assigned to the Ministry of Security in PRAGUE. He is presently considered to be the most important political figure in HERMANUV MESTEC, and in addition to his normal duties, acts as a political advisor to the transport industry where he passes upon the suitability and reliability of its employees for advancement. He is about 5'6" in height and about 130 pounds in weight, with a slender build and a weak-appearing figure. He has brown, straight hair and a narrow face and pale complexion. His voice is soft but clear and he speaks quickly and makes decisions without appearing to give thought to the matter. He was originally a lathe operator in industrial plants and during World War II worked in an armament plant in PRAGUE. He smokes moderately but is not known to use alcohol. He is considered to be a fanatic on the subject of communism and to have no interests other than his daughter and his political activity. (F-3)

AGENT'S NOTES: [REDACTED] did not know the dates of birth of his parents, his brothers, or his sisters. He could not remember the exact dates as to when and where he was in prison in the CSR from 1947 to 1949, nor could he give any sort of description of these prisons. Attention is invited to the fact that, although he could not remember the name of the DDR town into which he crossed from HOF, investigation revealed this town to be TOEPEN-JUCHHOEH (ena), DDR. [REDACTED] speaks very crude and imprecise German, and is hindered by a limited vocabulary. It is to be emphasized that his descriptions of installations and personalities are in every case very rough and approximate. It was only after much verbal persuasion that he would venture a description of anything. His powers of observation are apparently very sub-normal.

4. REPORT OF FINDINGS

~~CONFIDENTIAL~~

On 23 February 1956, Sources "A" and "B" were interviewed in VIENNA 33UXPO4, Austria, and disclosed the following concerning [REDACTED]

a. They first observed [REDACTED] on 29 January 1956 while conducting a routine surveillance of the meeting between [REDACTED] and the latter's CIS handling agent in the Cafe Neubau, Westbahnstrasse 60, VIENNA VII. The CIS handling agent was later determined to be identical with [REDACTED]. On the second occasion, Sources "A" and "B" observed [REDACTED] meeting [REDACTED] a Czech refugee, in an Espresso (Coffee House) located at Hernalser Guertel 1, VIENNA I, on 3 February 1956. They later determined from [REDACTED] that [REDACTED] had attempted to recruit [REDACTED] as an operative for the CIS in either Austria or Switzerland. On a third occasion, 8 February 1956, Sources "A" and "B" observed [REDACTED] again meeting [REDACTED] in the Cafe Vessely, Kaiserstrasse 18, VIENNA VII. On this occasion they were able to follow [REDACTED] from the Cafe Vessely and observe him enter a gray sedan, license number [REDACTED] with "CD" markings. A few minutes later they observed the same automobile parked in front of the Czech Legation at Penzingerstrasse 11-13, VIENNA XIV.

(B-2)

b. On 14 February 1956, Source "A", while eating lunch in the Gasthaus Tauber, Penzingerstrasse 17, VIENNA XIV, observed [REDACTED] enter the Gasthaus and take a seat at a table directly in front of Source "C". On 17 February 1956, during a meeting with Source "C", the latter recalled having seen [REDACTED] enter the Gasthaus on 14 February 1956, and identified him to Source "A" as [REDACTED], an official of the Czech Press Section of the Czech Legation in VIENNA. Source "C" further related that [REDACTED] is married and has two children, one of whom resides with [REDACTED] and his wife at the Czech Legation, while the other resides in PRAGUE VR6048, CSR. Source "C" stated that [REDACTED] is the only employee of the Czech Legation who has a permanent visa stamped in his passport, and the only one who is permitted to keep his passport on his person at all times. The other employees of the Legation must leave their passports with the Czech Ambassador, and before departing from Austria they must first request permission from the Ambassador, and pick up their passports. Source "C" has noted that [REDACTED] never notifies the Ambassador when departing from or returning to Austria, as all other employees of the Legation are required to do. [REDACTED] travels frequently to PRAGUE and to BRATISLAVA XP5635, CSR, as well as to distant provinces in Austria. He spends only about 20 percent of his time in his office at the Legation, and never concerns himself with duties of the Press Section. [REDACTED] only close associates in the Legation are [REDACTED] Cultural Attache, and the CSR Consul, [REDACTED].

(b) (7) (C)

[REDACTED] is considered by Source "C" to be one of the few highly educated employees of the Legation. Source "C" is of the opinion that in view of his education and military bearing, [REDACTED] is a Czech army officer, but Source "C" has no proof of this. Since it is taken for granted by the Legation employees that [REDACTED] receives his orders personally while in PRAGUE, he is more or less feared, and consequently avoided by the other employees, with the exception of the Ambassador and Consul. Source "C" has also observed SUBJECT driving an automobile sometimes with or without CD license plates.

(C-3)

AGENT'S NOTES: Attention is invited to the fact that Source "A" observed [REDACTED] eating lunch in the Gasthaus Tauber, Penzingerstrasse 17, VIENNA XIV. Since early January 1956, the majority of the employees of the Czech Legation have been eating lunch in this Gasthaus, which is located near the Legation. Source "A" learned of this fact from Source "C", and consequently he often eats lunch in the Gasthaus with Source "B" in order to become familiar with the Czech Legation personalities. In this manner Sources "A" and "B" were able to determine through Source "C" that the man who acted as a lookout during the meeting between [REDACTED] and [REDACTED] in the Espresso located on Hernalser Guertel 1, VIENNA I, on 3 February 1956, is identical with [REDACTED] employed as a translator and interpreter at the Czech Legation.

SUMMARY OF INFORMATION

1. [REDACTED] is an official employee of the Press Section of the Czech Legation at Penzingerstrasse 11-13, VIENNA 33UXPO4, Austria. He is married and has two children. One resides with [REDACTED] and his wife at the Czech Legation, while the other resides in PRAGUE VR6048, CSR. [REDACTED] is well educated and appears to be highly intelligent. He is known to be the only employee of the Czech Legation who is allowed to retain his passport, with a permanent visa, on his person at all times, and the only person who is not required to notify the Czech Ambassador of his departures from Austria. He travels frequently to PRAGUE and BRATISLAVA XP5635, CSR, and to numerous provinces in Austria. He does not overly concern himself with the duties of the Press Section. Instead, he receives his orders personally while in PRAGUE, and is possibly a Czech intelligence officer. 4. REPORT OF FINDINGS

[REDACTED] born [REDACTED] in [REDACTED] presently residing in [REDACTED] at [REDACTED] was interviewed concerning his apprehension by two Czechoslovakian soldiers on [REDACTED] and furnished the following information:

[REDACTED] he saw two Czechoslovakian soldiers who had been concealed in the woods near the path along which he was walking at a point approximately 250 yards within the German border from [REDACTED]. The two soldiers approached SUBJECT and one of the soldiers pulled SUBJECT's coat and said, "Komm." SUBJECT argued with the two Czechoslovakian soldiers [REDACTED]

[REDACTED] One of the soldiers grabbed SUBJECT's arm and led SUBJECT in the direction of the border by Hoffman's Lake near [REDACTED]. The first soldier was between 5'10" and 6'0" tall, had a stocky build, blonde hair, red face, and was approximately 20 years old. This soldier wore a brown uniform with no shoulder boards. The second soldier was between 5'10" and 6'0" tall, had black, wavy hair, a slender build, and was approximately 20 years old. He wore a brown uniform with yellow shoulder boards. SUBJECT did not notice if this soldier had a star on the shoulder boards. Both soldiers carried machine pistols.

SUBJECT was lead across the German-Czechoslovakian Border and taken in the direction of a tower near the fence behind the Czechoslovakian border.

He was then taken to a house in SCHOENBACH (cna), CSR, which had formerly been a private residence. Two soldiers were standing in front of the entrance. The house was a two-story, light red, stucco building. SUBJECT was taken to the second floor of the house and into a room which was sparsely furnished. There were five or six soldiers in the room including a non-commissioned officer. The dark-haired soldier who had apprehended SUBJECT, reported to the non-commissioned officer and remained in the room for approximately 15 or 20 minutes. The blonde soldier remained in the room for approximately five or ten minutes and then departed

without saying anything. It did not appear as if the soldiers in the house expected the arrival of SUBJECT.

SUBJECT was questioned by two other soldiers, who did not speak German well, concerning his personal data. These two soldiers took no notes during this questioning and SUBJECT believes they were only practicing their German. One of the soldiers told SUBJECT that another person who could speak fluent German would arrive in SCHOENBACH at 1400 hours. One of the soldiers who questioned SUBJECT was between 5'8" and 5'10" tall, had long, dark hair, a slender build, and was between 20 and 25 years old. The other soldier was between 5'11" and 6'1" tall, had blonde hair, a slender build, and was between 20 and 25 years old. The non-commissioned officer was between 5'7" and 5'9" tall, had blonde hair, a medium build, and was between 25 and 30 years old. He wore a light green overseas cap and a brown uniform which had yellow shoulder boards with, SUBJECT believes, two stars on them. His right hand appeared to have been burned. SUBJECT questioned one of the soldiers concerning this red hand and was told that the hand had been red since birth. SUBJECT was given no explanation for his apprehension but was told he would be returned to Germany.

At approximately 1400 hours, two men entered the room wearing civilian clothes. The first man was between 5'7" and 5'9" tall, had blonde hair, a heavy build, a very red face, and was between 33 and 38 years old. The second man was between 5'8" and 5'10" tall, had a very slender build, sunken cheeks, brown hair, and was between 35 and 40 years old. The non-commissioned officer stood up when these men entered and shook hands with them. The other soldiers in the room acted as though they knew these two men. These two civilians led SUBJECT into an adjoining room and allowed none of the soldiers to enter. This room was approximately 20 feet by 20 feet and contained two writing tables placed together, a picture of Antonin ZAPOTOCKY, President of Czechoslovakia, over the two tables, three chairs, a civilian radio, a stove, and another large table at the other end of the room from the two writing tables.

The first civilian began to question SUBJECT in good German while the second civilian took notes on what was translated to him by the first. SUBJECT was questioned concerning his personal data. SUBJECT was asked for his identification papers and, although he had them with him, he answered that he did not have them. He was never personally searched.

4. REPORT OF FINDINGS

SUBJECT was then questioned concerning the attitude of the German people toward politics, the Geneva Conference, and toward the Czechoslovakians. This questioning lasted for possibly one hour. SUBJECT noticed that his interrogator was Czechoslovakian although he spoke good German. There was no noticeable dialect in the interrogator's German.

When the two civilians had terminated their questioning, SUBJECT was taken by the two civilians to a small auto, light brown in color, and built in a military style. SUBJECT had no opportunity to see if this auto had a license plate, but there were no numbers on the side of the auto. SUBJECT noticed as he was led to the auto which was parked behind the house that there was a kennel behind the house which was built to accommodate five or six dogs. SUBJECT was placed in the rear of the auto with the civilian who spoke German to his left, while the other civilian sat in front with a soldier who was driving the auto. SUBJECT was given a blanket to wrap around his legs and feet. The auto proceeded in the direction of ASCH (33UTR9967), CSR. SUBJECT was blindfolded with the muffler of the driver and does not know along which road or through what cities he was then driven. This ride lasted for approximately 35 minutes. The auto then halted and the two civilians got out while SUBJECT remained in the auto for approximately ten minutes. They then returned and led SUBJECT into a building and up a flight of stairs. The blindfold was then removed and SUBJECT found himself in a room of approximately 12 feet by 12 feet. This room contained three chairs, a washbasin, a stove, a large cabinet, a writing table, and two barred windows.

In the room, there was another civilian between 5'9" and 5'11" tall, with long blonde hair, a wide mouth, a slender build, between 30 and 35 years old. His German was not as good as that of SUBJECT's first civilian interrogator in SCHOENBACH, because the latter had more of a Czechoslovakian accent. SUBJECT was questioned by this new civilian concerning his personal data. SUBJECT was also asked if he drank alcoholic beverages and to what degree. The civilian himself took notes in longhand. SUBJECT was then asked if there were a CIC office in SELB (33UTR9562), Germany. SUBJECT answered that there was no CIC office in SELB about which he knew, although there was formerly a CIC office in the City Hall in SELB. The civilian then informed SUBJECT that there was a CIC office in SELB but that the office and the members of the CIC there did not attract much attention in SELB. SUBJECT had known that there was a CIC office on Geschwister-Schollstrasse in SELB but did not recall this fact at the time of the questioning. SUBJECT was then asked if he knew how many American troops were in HOF (32UQA0878), Germany, and SUBJECT stated that he did not know. SUBJECT was then asked if he could obtain any information in

his area and he stated that there was nothing of value there. SUBJECT then asked what information was wanted but was told only to keep his eyes and ears open and report all that he saw or heard. SUBJECT was told that he would be paid for any information he obtained. When SUBJECT said that the Czechoslovakians had no German Marks with which to pay him, he was told that they could obtain German money. SUBJECT acted as if he were willing to accept this offer because he thought that he would be released quicker if he agreed. SUBJECT was not requested to sign anything. SUBJECT's first civilian interrogator from SCHOENBACH went in and out of the room three or four times during the questioning and said a few words in Czechoslovakian to his interrogator but nothing to SUBJECT.

At approximately 1700 hours, SUBJECT looked at his watch and stated that he was hungry. At approximately 1800 hours, SUBJECT was given two small frankfurters, two dry slices of bread, and a bottle with some mustard in it. During this interval, SUBJECT was repeatedly told to keep his eyes and ears open when he returned to Germany and to report everything that he saw or heard.

When SUBJECT had finished eating, another civilian entered the room. This civilian was between 5'9" and 5'11" tall, with dark hair, a slender build, and was between 35 and 40 years old. He carried a Contax camera. SUBJECT indicated that he was cold and asked for a coat. He was given a fur-lined jacket and the civilian with the camera took two pictures of SUBJECT in this jacket. While SUBJECT was still sitting behind the table where he had eaten he was told to place his hands in his pockets while his picture was being taken. A photographer's lamp was placed on the table to the left of SUBJECT. This civilian left the room as soon as he had photographed SUBJECT. SUBJECT was not told why he had been photographed.

SUBJECT was then told that a car was waiting for him and that he would be returned to Germany. He was further asked where he would prefer to cross the border back into Germany and SUBJECT said near NEUHAUSEN

The civilian who had been questioning SUBJECT then left the room. SUBJECT was told that the civilian had to change clothes. When the civilian returned, he was wearing a brown, uniform-type, three-quarter length fur-lined coat and a fur hat with ear flaps. He also carried a machine pistol. At approximately 1920 hours, SUBJECT was led downstairs and outside by this civilian and the civilian from SCHOENBACH who did not speak German

This other civilian also carried a machine pistol. SUBJECT was not blindfolded this time but was taken into a dark-green, civilian auto. SUBJECT did not recognize the type of auto nor did he see the license number because of the darkness. A chauffeur in uniform was waiting in the auto. As SUBJECT was driven away, he noticed that they were leaving a large city which he believes was EGER (33UUR1251), CSR, because of its size. The streets of the city were poorly lighted and there were few autos and few people.

The auto proceeded out of the city at a very slow rate of speed in what SUBJECT believes was a northerly direction. At approximately 2010 hours, they halted at a railroad crossing guarded by a split-type gate which lowers from the right and left sides of the road, to allow a train to pass. They then continued driving for approximately 30 minutes on a broad, well-paved road until they reached ASCH, CSR. SUBJECT believes this city was ASCH because he had noticed some signs on the highway with ASCH written on them and he thought he recognized the Hotel Loeuvre and Ringstrasse which are located in ASCH and which SUBJECT remembers from past visits before the war. SUBJECT was driven through ASCH in the direction of SCHOENBACH. The auto did not pass through SCHOENBACH but was driven in a westerly direction toward the German border soon after leaving ASCH. They were still traveling on a broad, well-paved road until the auto was halted in front of a barrier in the road a short distance from three fences. The two civilians who were accompanying SUBJECT got out of the auto with SUBJECT and they walked up to the fence. The chauffeur remained in the auto. Both of the men were still carrying their machine pistols. One or two Czechoslovakian soldiers stood near this fence and opened a gate in each fence, through which SUBJECT and the two civilians walked. Approximately a third of a mile from the border, SUBJECT noticed a wooden tank barrier. A short distance beyond this tank barrier, they halted. The civilian who did not speak German, proceeded farther in the direction of the border while SUBJECT and the other Czechoslovakian waited by the tank barrier. SUBJECT assumed that this man went forward to see if the border was clear. Approximately 20 minutes later, the other Czechoslovakian returned and SUBJECT and the two Czechoslovakians began walking in the direction of the German border.

The two Czechoslovakians walked up to the border with SUBJECT but did not cross into German territory. When they reached the vicinity of the border, SUBJECT was told to walk to his left and he would cross the border into Germany. SUBJECT was also told at this time that as he

4. REPORT OF FINDINGS

On 11 January 1956, Sources "A" and "B" submitted information to Source "C" which they had obtained from Source "D" on 3 January 1956, as follows:

a. On 20 December 1955, one [redacted] and his wife [redacted] arrived in VIENNA 33UXPO4, Austria, from PRAGUE VR6048, CSR. [redacted] was immediately assigned as a cashier to the Czech Legation in VIENNA. [redacted] is approximately 50 years old, but he listed his age in the Legation personnel files as being 35. He is allegedly of Slovakian origin, and speaks German fluently.

b. One [redacted] assigned as the Cultural Attache to the Czech Legation, often travels around VIENNA in a black Opel Kapitah automobile, license number [redacted]. Occasionally, a CD plate is attached to the car, but usually the car is driven without it. [redacted] is often accompanied by either [redacted] or [redacted] and on most occasions is driven by [redacted], a chauffeur assigned to the Military Attache Section. [redacted] is assigned to the Legation as a clerk in the Visa Section, but position is unknown. It is rumored among Legation employees that [redacted] is an officer in the Statni Bezpecnosti - StB (State Security Force), and that he is being assisted in StB matters by [redacted] and [redacted].

c. On 1 January 1956, three Austrian charwomen employed by the Legation were dismissed. Their names are as follows:

4. REPORT OF FINDINGS

On 23 December 1955, Source "A" reported that on 22 December 1955 he had received information from Sources "B" and "C", who had obtained it from Source "D" on 18 December 1955. The information is as follows:

a. During November 1955, two unidentified men arrived from PRAGUE VR-6048, CSR, and reported to the Czech Legation at Penzingerstrasse, VIENNA 33UXPO4, Austria. They were immediately escorted to the third floor of the building, on which is located the Czech Military Attache Section. Shortly thereafter, three large wooden crates arrived at the building and were immediately delivered to the third floor. Source "D" questioned some of the employees of the Legation, and learned that the crates contained a radio transmitter and receiver, and that the two men had come to install the equipment. Source "D" observed that the two men remained in the building for two days, after which they allegedly returned to PRAGUE. Since that time the entire third floor has been hermetically sealed, and as a result no one can enter or depart without the permission of the duty officer on the floor. Also, new security regulations have been instituted for all personnel in the Legation. No employee is allowed to enter another office other than his own, without first obtaining the permission of his or her superior.

b. Since October 1955, no personnel of the Statni Bezpecnosti - StB (State Security Force) arriving from PRAGUE have reported to the Legation. Prior to October 1955, StB personnel often reported to the Legation, where they were furnished quarters during their stay in VIENNA. Source "D" has heard from other employees in the Legation that the StB maintains a private dwelling located somewhere in the Fourth District of VIENNA. However, Source "D" asserted that it was entirely possible that some StB personnel have reported to the Legation since October 1955, but, if so, they represented themselves as being members or employees of one of the various sections within the Legation.

c. On 8 December 1955, a new female secretary, [REDACTED] arrived from PRAGUE and was assigned as a secretary in the Military Attache Section. On 16 December 1955, Source "D" checked the personnel roster at the Legation, but [REDACTED] was not listed. Source "D" has observed [REDACTED] being driven around VIENNA in one of the Legation vehicles by the Legation chauffeur, [REDACTED]. Source "D" has also observed [REDACTED] entering and leaving from the Legation building in the company of Lieutenant [REDACTED] and Lieutenant [REDACTED], members of the Military Attache Section, and with [REDACTED], Czech

Cultural Attache. Also, Source "D" has noticed that [REDACTED] does not come to the office regularly, which has aroused suspicion among the Legation employees, who think that she was sent from PRAGUE on some special mission.

d. Source "D" has occasionally taken dictation from [REDACTED] Czech Consul and Chief of the Personnel Section, but it has always been in the nature of official letters to Austrian government officials. [REDACTED] frequently travels in VIENNA and other parts of Austria, and is often absent from his office for periods of three to four days. When he returns, he usually enters his office, locks the door, and remains there most of the day. As far as Source "D" has been able to determine, [REDACTED] does not concern himself with consular affairs, or any duties normally required of one assigned as Chief of the Personnel Section. On numerous occasions, Source "D" has observed [REDACTED] driving around VIENNA in the company of [REDACTED] a clerk in the Czech Visa Section, and one [REDACTED]. The latter has been assigned to the Legation for approximately two years. However, neither Source "D" nor any of the Legation employees with whom Source "D" conversed were able to determine the nature of [REDACTED] assignment, or what his actual duties are.

e. [REDACTED] a secretary employed in the Czech Domestic Relations Section, has told Source "D" and other employees of the Legation that she intends to quit her job on 1 January 1956. [REDACTED] gave no reason, other than that she would remain in VIENNA as a private citizen with her husband, [REDACTED] currently employed as the Chief of the Czech Danube Shipping Agency, Handelskai 77, VIENNA II. Source "D" believes as very strange [REDACTED] intention to quit her job, since Source "D" is aware that [REDACTED] holds a confidential position. Allegedly [REDACTED] kept the StB authorities in PRAGUE informed about the political attitudes and activities of the Legation members, and their personal attitude and social behavior.

[REDACTED] arrived on 8 December 1955 from PRAGUE VR-6048, CSR, and was assigned as a secretary in the Czech Military Attache Section, Czech Legation, Penzingerstrasse, VIENNA 33UXPO4, Austria. She is approximately 25 to 30 years old, 5'5" tall, with a slender build, blonde hair cut short with bangs, uses excessive makeup, and dresses expensively. She often wears a short leopard-skin jacket. She appears to be very nervous when walking alone on the street, because she continually stops and looks backwards. She does not maintain regular hours at the Legation, and often remains away the entire day. She has been observed driving around VIENNA in one of the Legation vehicles, driven by the Legation chauffeur, [REDACTED]. She has also been observed spending "off duty" hours with Lieutenant [REDACTED] and Lieutenant [REDACTED], members of the Czech Military Attache Section in VIENNA, and with the Czech Cultural Attache in VIENNA, [REDACTED].

[REDACTED] Cultural Attache at the Czech Legation in VIENNA 33UXPO4, Austria, is approximately 35 to 40 years old, 5'9" tall, with a medium build, brown hair, round face, and is an expensive dresser. He is married and has one child, and resides with his family at Biraghigasse 26, VIENNA XIII. He drives a blue Plymouth sedan, license number W-623. He is a career officer in the Czech Army, but this fact is not generally known among the employees of the Legation. He shows little concern about his duties as Cultural Attache, and allegedly makes trips throughout Austria, some of which last for four or five days. He is usually away from the office at least three days of each week. It is believed that his position as Cultural Attache is only a cover, and that his actual duties are concerned with the CIS.

When he returns, he usually locks himself in his office and remains there most of the day. He seldom concerns himself with consular affairs, or any duties normally required of one assigned as Chief of the Legation Personnel Section. (He came to VIENNA from PRAGUE during the early summer of 1955, and replaced the former Consul, [REDACTED] who had been occupied with CIS activities in Austria. It is believed that [REDACTED] is continuing the same intelligence activities previously performed by [REDACTED].

SUBJECT claims to have no other friends or associates, stating that although she has many acquaintances at BfAN and BfAZ these are only casual relationships. SUBJECT claims not to have been in contact with any of her relatives or former friends in the CSR since her departure in November 1951.

8. PREVIOUS HISTORY:

- a. Education: SUBJECT stated that she attended the required five (5) years of elementary school in PRAGUE II from 1927 until 1932. In 1932 SUBJECT entered the Jiraskova Realgymnasium (intermediate school) which she attended until her graduation in the spring of 1940. SUBJECT claims not to have attended any other school during the period from 1940 through 1945, since attendance in the higher schools was strictly controlled during the war and the period of German occupation. In 1945, SUBJECT enrolled in the medical faculty of the University of Prague where she studied until 1948 when she was allegedly expelled from the school for political reasons. SUBJECT stated that the basis of her expulsion was her refusal to join any of the communist-sponsored organizations and because of anti-regime comments made by her which were reported to school authorities.
- b. Employment: SUBJECT was never employed prior to 1940. During the period from 1940 to 1945, SUBJECT was employed in a clerical capacity in the glove factory operated by her mother in PRAGUE as well as serving as a medical assistant in a civil defense aid station in PRAGUE. From 1945 to 1948, SUBJECT was again unemployed while a student at the University of Prague. During the period from 1948 to 1950, SUBJECT served as a medical assistant and surgical nurse for her husband in SCHOENLINDE and HABARTOV.

SUBJECT: [REDACTED] FILE: VI-D-345362; dtd 9 December 1955

(c) (7) (D) (b)
Following her flight to Germany, SUBJECT was employed by the firm of [REDACTED] a leather goods factory, at Aufsetzplatz 69, PFORZHEIM from October 1952 to April 1953. SUBJECT was then unemployed until August 1953 when she found employment with the RAU factory at Karlsreutherstrasse 12 in PFORZHEIM. Since her discharge from prison in July 1955, SUBJECT has had only occasional part-time employment in a canning factory at ZIRNDORF.

- c. Adult Years: Following her graduation from the Realgymnasium in PRAGUE during 1940, SUBJECT was technically employed by her mother in a clerical capacity in the DOUBKOVA Glove factory, however SUBJECT states that the employment was not, in fact, much more than a registration for the record to avoid being ordered into factory work by the German authorities. SUBJECT stated that she did actually work several hours a week in the office of the plant but had no regular duties. During the same period, SUBJECT was also required to serve as a medical assistant in a civil defense first aid station. According to SUBJECT, she desired, during this period, to attend a university to continue her education but was unable to do so because of the regulations established by the German occupation forces and the strict control of the schools at that time, preference being given to those of German ancestry and those who had taken German citizenship following the occupation.

(b) (7) (C) (b) (7) (C)
SUBJECT alleges that her father, [REDACTED] an estate owner, was shot and killed by Soviet forces on 27 May 1945 following the occupation of ZBONIN. [REDACTED] was allegedly killed after being denounced by partisans for having refused to give them shelter during the war period. SUBJECT alleges that her father provided the partisans with food, clothing and money and assisted them in other ways but that this help was not taken into account and his failure to provide physical shelter was regarded by the communist partisan group as treasonous to their cause.

SUBJECT, during this period, was residing at the home of her mother, [REDACTED] nee [REDACTED] at [REDACTED]. SUBJECT stated that following her marriage, she continued to reside at the home of her mother until about June 1948 when she and her husband moved to SCHOENLINDE.

In 1945, after the close of World War II, SUBJECT attended the University of Prague where she studied medicine. She claims to have been a member of no university or youth organization other than the University Tennis Club and a riding club, both of which she joined during 1945 and in which she retained her membership until her marriage in 1946.

(b) (7) (C)

SUBJECT claims not to have been politically active but states that she was a member of and supported the Czechoslovakian Catholic Party from the time of its formation in 1945 until the overthrow of the regime and the seizure of power by the communists during 1948. SUBJECT alleges that she continued her studies at the University of Prague until the late spring of 1948 when she claims to have been dismissed from the school for refusal to join any of the communist sponsored organizations and because of her allegedly expressed anti-communist sympathies and statements.

(b) (7) (C)

On 31 December 1946, while still a student, SUBJECT married [REDACTED] a Doctor of Medicine who was born [REDACTED] whom she had known for a number of years. [REDACTED] had been, at that time, a lifelong resident of PRAGUE and had attended both elementary and intermediate school in PRAGUE II. [REDACTED] was graduated from the University of Prague in August 1945, had served his internship in PRAGUE, and was taking post-graduate surgical studies at the time of his marriage. SUBJECT stated that [REDACTED] had never been active in politics and had no political affiliations.

(b) (7) (C)

Following her dismissal from the University, SUBJECT claims to have remained at home, making no effort to find employment, until the latter part of June 1948, when her husband, having finished his surgical internship, obtained a position as a physician in SCHOENLINDE. SUBJECT and her husband resided in [REDACTED] until January 1949 when her husband was appointed city physician of HABARTOV by the Ministry of Health and ordered to move to that city. During her stay in SCHOENLINDE, SUBJECT's only employment was as office and medical assistant to her husband. On the basis of the experience gained in this working, SUBJECT took state examinations and was licensed as a surgical nurse.

After SUBJECT's husband assumed his duties as city physician in HABARTOV, SUBJECT continued to assist [REDACTED] both in the office and in surgery. According to SUBJECT, her stay in HABARTOV was uneventful until May 1949 when she first came to the attention of the StB (Statni Bezpecnost - State Security). This occurred during a confirmation service at the local Catholic church when she allegedly attracted attention to herself by expressing approval of an anti-communist sermon. SUBJECT claims to have been informed that police inquiries had been made about her within a few days following this incident. About two weeks later, SUBJECT was approached by an unidentified man who claimed to be from Germany, and in contact with western agencies, who stated that he needed help and asked her to meet him in the Cafe Otava in KARLSBAD on the following day. SUBJECT stated that, remembering the police inquiries of the previous weeks, she feared that this was an StB test, and after conferring with her husband, reported the incident to the local police almost immediately.

SUBJECT was allegedly told to remain at home, mention the incident to no-one and to be ready at any time to make a trip to KARLSBAD if it should be required. After about three (3) days she was allegedly informed that the matter had been settled and that she was to completely forget the incident.

(b) (7) (C)
SUBJECT claims that during the period she and her husband lived in HABARTOV, they had developed a friendship with [REDACTED] a Roman Catholic priest who was the pastor of the local church. The friendship had developed both through social and professional contacts since [REDACTED] in addition to attending the spiritual needs of patients, was himself a patient of [REDACTED]. SUBJECT and her husband had exchanged visits with [REDACTED] on a number of occasions and SUBJECT stated that she frequently was in the home of [REDACTED] for the purpose of borrowing from his rather extensive personal library. On 17 September 1949, SUBJECT was allegedly visited in her home in HABARTOV by two men who identified themselves as members of the StB and ordered her to accompany them. She was taken to the StB headquarters in KARLSBAD where she was confined overnight without interrogation. SUBJECT alleges that her interrogations began the following morning and that she was repeatedly interrogated for varying periods of time for the next 16 days. According to SUBJECT, in spite of the repeated interrogations, she was, on the whole, well treated, adequately fed and was not confined in a cell. She claims that during her stay she was quartered in a room a few doors from where she was being interrogated. The main topics of interrogation were the relationships of her husband and herself with [REDACTED] who was supposedly suspected of having connections with the western nations, of aiding persons who were attempting to flee the CSR illegally and of other anti-regime activities. Much of the interrogation allegedly hinged around an evening when she and her husband had been visiting [REDACTED] and he had received three (3) male visitors, all unidentified, two (2) of whom were allegedly from PRAGUE. SUBJECT, however, claimed not to know these men, their connection to [REDACTED] nor the purpose of the visit. At the end of the interrogations, SUBJECT was allegedly threatened with a minimum of two (2) to three (3) years imprisonment and then told that it would be possible to avoid the sentence by working for the StB. SUBJECT stated that she was given a short period of time during which to consider the proposal and she then agreed to work for the StB as an agent. She signed an agreement to do work as an agent, and not to reveal either the details of her arrest and interrogation or her agreement to work. SUBJECT was assigned the cover name [REDACTED]. SUBJECT alleges that she was told at this time that she would be well paid for her work, that she would be

SUBJECT claims that there were only three (3) instructors, all StB personnel, at this short school near FALKINOV. These instructors were known to her as [REDACTED] and [REDACTED]. SUBJECT alleges that [REDACTED] was one of the two (2) StB agents that had arrested her at her home in HABARTOV during September 1949. According to SUBJECT, [REDACTED] was responsible primarily for weapons training, [REDACTED] for the photographic training and [REDACTED] for map reading and sketching, while the general orientation and political instruction was divided among them. (b) (7) (C)

After having apparently completed this ten (10) day course, during the period of which SUBJECT was at home each night, SUBJECT claims that she was informed that she would be sent to a thorough course of instruction in the near future and was ordered to build up a cover story to explain her absence from home over a long period of time. The suggested cover story was that she had developed tuberculosis and that she was going to a rest home to attempt to effect a cure. SUBJECT alleges that her husband was fully aware of her connection with the StB from the beginning and while not in favor of it, he was unable to prevent it because of a fear of imprisonment for both of them.

During the three (3) week interval between schools, SUBJECT was allegedly required to spend one (1) week working for the StB in a hotel in PRAGUE. During this week, SUBJECT, together with a group of other women, manned a wire tap room in the Hotel Alcron where they monitored telephone calls and conversations held in the rooms of guests, most of whom were foreigners. SUBJECT was then permitted to return to her home for a one (1) week period. In early November 1949, she travelled by air from KARLSBAD to BRATISLAVA (33TXP5635), CSR, from where she was taken by car to a villa outside the city, which was utilized by the StB as an espionage training school. At the time of her arrival there were two (2) other women present as well as about 25 men, all of whom were there as students. According to SUBJECT, the first week of the course was devoted to general orientation of the grounds, the city of BRATISLAVA, the school and its rules and to physical examinations, as well as periods of political indoctrination. During the following three (3) weeks, the principal topics of instruction were map reading, sketching, and for SUBJECT, a review and intensive course in the German language. During this period other students were allegedly receiving instruction in other languages depending upon their eventual assignments.

Following this initial period of instruction, SUBJECT alleges that she was taught a system of symbols having prearranged

meanings which were to be utilized in the preparation of reports. These symbols were to be used only for mail contacts and were to be drawn on the envelope using a special pencil, which appeared to be a colorless wax and was supposed to have a developable additive. SUBJECT claims not to have been given any instruction in the development of this special additive and claims not to know its composition. The symbols were to be drawn quite small and were to be covered by the postage stamps affixed to the envelope, the wax carrier of the pencil preventing the message from being obliterated by the glue of the stamps or the moisture used to wet the stamps. When later being briefed for her mission into Germany, SUBJECT was allegedly given a cover address to be used in sending mailed communications. This address was in the name of [REDACTED] at [REDACTED]. Mail reports were to be sent only on the occasions when SUBJECT was out of contact with her handling agent. During briefings SUBJECT was further instructed that reports dealing with maneuvers of American troops were to be placed in green envelopes, changes in troop locations would be indicated by the use of blue envelopes and reports of contacts with members of the Labor Service units were to be indicated by the use of postcards. Prearranged phrases were also prepared for use in the event that SUBJECT thought she was under observation. Apparently innocent letters which contained the phrase "I often go for a walk but it occasionally rains," would indicate that contact should be broken, while the use of the phrase "I often go for a walk and the weather is nice" would indicate that contact could be re-made.

SUBJECT stated that she was given an intensive course in small arms firing as well as being taught the use of knives in close quarters and being given brief instruction in the throwing of knives. SUBJECT also claims to have been taught the deaf-mute alphabet as a part of the training at this school, as well as a system of hand recognition signals for contact with other agents. At the same time, SUBJECT was taught courses in the geography and politics of Germany, details of the border area in those places where she was to cross to the CSR in the event of an emergency and methods of cutting barbed wire and crossing obstacles.

Courses were also taught in the establishment of dead-letter drops, methods of sealing packages and envelopes so that it could be detected if they had been opened by an unauthorized person, methods of personal description and many hours devoted to the principles of communist theory. Instruction was also given in the recognition of insignia of rank, uniforms and various articles of military equipment.

SUBJECT stated that her principal course of instruction was again photography, especially the taking of surreptitious photographs and the taking of photographs under unusual conditions. The course included the making of photographs through obstacles and around corners with the use of mirrors, photography during inclement weather and from moving vehicles and the use of a number of miniature cameras including one (1) allegedly mounted inside a woman's purse. Further, instruction was also given in the development and printing of the film and other related work. SUBJECT stated that she was required to do a great deal of practical work in this field and that this part of her training alone consumed about ten (10) weeks time. SUBJECT was also given a course in the methods of writing reports which were to accompany film forwarded through couriers.

(b) (7) (C)
According to SUBJECT, she and the other two (2) women in attendance at this school, whom she knew only under their assigned cover names of [REDACTED] and [REDACTED] were separated from the other students for a two (2) week period for special instruction in methods of obtaining information from male acquaintances. SUBJECT stated that over the preceding weeks of the course it had been gradually made quite clear to her and the other women at the school that their primary targets would be male members of western military forces and their Labor Service organizations and that they were to resort to any means to obtain the desired information. The instruction was designed to make the students aware of the varying habits, characteristics and desires of men of different nationalities and to make themselves as desirable as possible to men as well as enable them to win the trust and confidence of their contacts as quickly as possible. A further purpose was to place their male contacts in compromising positions in order to have a hold on them and force them to impart information through blackmail should all other means fail. For the purpose of this course, SUBJECT and her two (2) companions were allegedly turned over to three (3) men, supposedly officers of the Soviet air-force with whom they co-habitated for the next two (2) weeks, with all other instruction being excluded during this period. Following this two (2) week period, SUBJECT and the other women were allegedly re-visited by the same officers on several week-ends and, on two (2) occasions, for four (4) day periods.

A portion of the course concerned briefings on the methods of interrogation utilized by American and German authorities and how best to resist interrogation. SUBJECT was allegedly advised to relate as much of the truth as possible during interrogation, however to withhold revealing any connection with the StB except that incident to arrest and interrogation by that agency which would be of assistance in establishing a grounds for recognition as a political refugee. SUBJECT alleges that during these briefings, she and other students witnessed a portion of the interrogation of two (2) alleged agents of the western nations by StB personnel in

BRATISLAVA. The interrogations were alleged observed from a neighboring room through special panels. These interrogations were allegedly to serve as examples of the treatment the students themselves would receive in the event they betrayed the trust being placed in them. SUBJECT stated that during these briefings she also received an orientation on the use of the "Lie-Detector" by American agencies, but that she was never shown a machine or pictures of it, stating that her impression of the equipment was that it was similar to an electro-cardiograph, with which she was familiar because of her hospital experiences.

During the month of February 1950, training at the school was allegedly suspended for a three (3) week period, during which SUBJECT claims to have visited her husband in HABARTOV. Following the completion of the course in May 1950, SUBJECT was allegedly permitted to return to her home where she remained until October 1951 without being given any intelligence assignments. During this period she was allegedly required to report to the StB headquarters in KARLSBAD at intervals of six (6) weeks, where she was tested on her ability to retain the material that had been taught to her at the schools and required to perform various exercises in connection with this instruction, mainly the taking of photographs under all sorts of handicaps. SUBJECT stated that during May 1951 she was ordered by the StB to obtain a divorce from her husband in preparation for her forthcoming mission. The divorce decree was granted by the SOKOLOV (cna), CSR, district court on 30 June 1951. SUBJECT stated that in spite of the divorce she continued to reside with her husband until her departure for Germany on an StB mission during October 1951.

(b) (7) (C)

SUBJECT alleges that at the time of her arrest and interrogation by the StB she became acquainted with [REDACTED] who is supposed to be the chief of Section 13 of the StB in KARLSBAD. Following her release SUBJECT claims to have become intimate with [REDACTED] and to have maintained intimate relationships with him until she departed from the CSR for Germany. SUBJECT expressed a belief that this relationship with [REDACTED] may be, in part, the reason that she was not dispatched on a mission immediately after the completion of her training.

Allegedly on orders of the StB, SUBJECT developed an intimate relationship with [REDACTED] a patient of her husband who had been known to have expressed his desire to leave the CSR, and persuaded him to help her leave the CSR and travel to Germany. According to SUBJECT, [REDACTED] was and is unaware of the actual role which he played in assisting SUBJECT. At the time she left the CSR, SUBJECT claims to have decided not to follow through with her mission in Germany and claims to have placed all of the material which

had been provided by the StB, including 1500 German Marks in a railway station and to have informed the StB by mail where the material could be found. SUBJECT claims to have promised in her letter not to betray the organization even though she had no desire to work for them and would not carry out her assignments. According to SUBJECT, of all the materials given to her by the StB, she retained only a diamond ring, which according to plan, was turned over to [REDACTED] to finance the travels of the couple to Germany.

(S) (U) (b) (7) (C)
On 22 October 1951, SUBJECT, accompanied by [REDACTED] departed from the CSR, crossing the CSR/DDR border at KLINGENTHAL (33UUR2081), DDR, in accordance with arrangements previously made by her handling agent. After arrival in the DDR, SUBJECT and [REDACTED] proceeded from KLINGENTHAL to ERFURT (32UPB4249), DDR, by train. They remained in ERFURT, where they allegedly visited [REDACTED] mother, for a period of five (5) days before proceeding to HEILINGENSTADT (32UNB7993), DDR, where they illegally crossed the border into Germany on 30 October 1951. The crossing of the German/DDR border was made with the assistance of a local resident who was bribed with a pair of shoes and a payment of 100 East German Marks for guiding them to a border crossing point.

(S) (U) (b) (7) (C)
SUBJECT stated that after arrival in Germany, she and [REDACTED] resided in hotels for a few days prior to reporting to the local police at WITTSENHAUSEN about 11 November 1951. SUBJECT stated that the local police turned the couple over to a CIC office in WITTSENHAUSEN, in whose custody they remained overnight, allegedly without interrogation, before being sent to a refugee camp at MANNHEIM where they remained for several days. SUBJECT then lived for a few days with relatives of [REDACTED] at [REDACTED] before moving, with [REDACTED] to [REDACTED] where they remained until the end of January 1952. From about 28 January 1952 to mid-July 1952 SUBJECT was a resident of a German refugee camp at MALMSHEIM. About 15 July 1952, SUBJECT was transferred to a German refugee camp at VAHINGEN where she remained until about 29 October when she moved to [REDACTED]. SUBJECT continued to reside at this address until she reported to BfAN on 2 March 1954. During the entire period of her stay in Germany from the time of her arrival until she reported to BfAN on 2 March 1954, SUBJECT maintained an intimate relationship with [REDACTED] living with him as his acknowledged mistress.

(S) (U) (b) (7) (C)
SUBJECT was unemployed from the time of her arrival in Germany until she moved to PFORZHEIM, when at the end of October 1952 she obtained a position with the firm of [REDACTED] a

leather goods manufacturer in PFORZHEIM. SUBJECT was employed as an unskilled worker in this factory until April 1953 and was then employed until August 1953 when she found employment as an unskilled worker in the RAU factory in PFORZHEIM.

SUBJECT claims never to have been arrested by the police in Czechoslovakia or to have been convicted of any crime before her arrival in Germany or to have had any contact with any governmental agency other than the StB contacts described above. SUBJECT stated that in the summer of 1952 she was arrested and convicted on charges of embezzlement and was sentenced to two (2) weeks imprisonment by a local court in PHILIPPSBURG, (32UMV6054), Germany. SUBJECT further stated that the sentence was never executed and that she was never confined until her later arrest at the German border.

Following her arrival at BfAN, SUBJECT underwent normal processing through the camp and interrogation by the various agencies represented there. SUBJECT stated that she had come to BfAN following the termination of her relationship with [REDACTED] in order to become properly documented for residence in Germany, to exploit the possibility of emigration to another country and in order to marry [REDACTED] a resident of BfAN whom she had met during November 1953. During her stay at BfAN, SUBJECT maintained intimate relationships with [REDACTED] and admitted to having had several casual affairs with other residents of the camp.

SUBJECT alleges that after the completion of her processing at BfAN she was repeatedly approached by a [REDACTED] a representative of an American Air Force unit, who attempted to persuade her to travel to the CSR on behalf of American Forces. SUBJECT alleges that she finally agreed to work for [REDACTED] to go to the CSR and to collect information concerning air fields. SUBJECT admitted that she was never actually dispatched to the CSR by [REDACTED] that he had never given her any positive orders and that she had never received any payment from him. SUBJECT claims that her processing in connection with her employment by [REDACTED] had gone no further than questioning concerning her life history and the taking of photographs in a private Photo shop for delivery to [REDACTED]

During the same period of time, and immediately following the taking of the photographs, SUBJECT claims to have been contacted by a man using the cover name [REDACTED] who addressed her by her StB assigned cover name [REDACTED] and who allegedly asked her what her connections were with [REDACTED]. She claims to have told [REDACTED] that she was being recruited and he is alleged to

have told her to accept any mission assigned. Some time later, SUBJECT claims to have been recontacted by [REDACTED] and ordered to return to the CSR immediately for further briefing in view of the long delay and her failure to preform the missions assigned to her in Germany, threatening reprisals if she failed to do so. SUBJECT claims to have attempted to contact [REDACTED] however was unsuccessful since [REDACTED] was then supposed to be in Holland. SUBJECT stated that she then did what she believed [REDACTED] would have advised her to do and attempted to return to the CSR, however, admittedly without the advice, consent or direction of any American agency or individual.

In the meantime, SUBJECT had developed a friendship with [REDACTED] who, not knowing of her previous connections with either the StB or [REDACTED] allegedly attempted to recruit her for intelligence work on behalf of Czechoslovakia. SUBJECT alleges that, after having been told by [REDACTED] that she was always to co-operate with German authorities, she reported the incident to them as part of her own cover for her trip to the CSR.

(b) (7) (C)
On 12 May 1954, SUBJECT was apprehended by German authorities while attempting to cross the German/CSR border near EISENSTEIN. SUBJECT admitted that during the ensuing interrogations, she stated that she was attempting to cross the border while on a mission for [REDACTED] doing so only in effort to obtain her release. After being interrogated she finally admitted that she was not actually employed by any such agency and had not received any order to travel to the CSR from any American organization, maintaining however, that she had only done what she personally had believed would have been instructed. During later interrogations, according to SUBJECT, she stated that knowing of the activities of [REDACTED] and following his attempts to recruit her for intelligence work, she implicated him and stated that she was at the border at his request in order to contact his handling agent, a proposition that he had allegedly made to her previously.

SUBJECT was held in pre-trial confinement in CHAM (33UUQ3054), FURTH IN WALD (33UUQ4364), NURNBERG and MUNICH (32UFU9135), Germany from 12 May 1954 until 11 July 1955 when she was tried in the Bavarian Supreme Court in MUNICH on charges of having treasonable connections. The court allegedly took into consideration her defense of having been forced into intelligence work and being threatened with reprisals if she should fail to return to the CSR, and sentenced her to nine (9) months imprisonment, with allowance for the period served while in investigative prison. Having served approximately 14 months in pre-trial prison, SUBJECT was released immediately after her trial.

(b) (7) (C)
During the course of her trial, SUBJECT allegedly learned from the German prosecutor that her former husband, [REDACTED] had died during February 1955 while an inmate of a mental hospital.

On 13 July 1955, SUBJECT claims to have been accosted in MUNICH by two (2) agents of the StB who addressed her by her cover name. She allegedly was told that she would be required to work for the StB, was again threatened with reprisals if she should fail to do so and finally told that she would be re-contacted upon her return to BfAN. SUBJECT, before leaving MUNICH, allegedly reported this contact to CIC in that city and following her return to NURNBERG, on 15 July 1955, reported the contact to German Police. Following her report to the German Police, SUBJECT was quartered in the Hotel Busch in NURNBERG at the expense of the German government, having expressed fear of returning to BfAN and the desire to have no further contact with the CIS (Czech Intelligence Service). SUBJECT stated that on 18 July 1955, on a street corner in NURNBERG, she was approached again by [REDACTED] her contact of the previous year, who told her that she would be re-contacted at either BfAN or BfAZ after her arrival and reregistration at one of those camps. SUBJECT claims to have reported this contact to the German police on the following day, stating that she believed this to be an accidental contact.

On 28 July 1955, when departing the Hotel Busch, in the company of officials of the BfAN, SUBJECT claims that she was photographed by an unidentified man who was sitting in a car parked nearby and that the officials of the BfAN witnessed the incident which was immediately reported to German police.

(b) (7) (C)
SUBJECT alleges that on 17 August 1955, [REDACTED] a resident of BfAZ, told SUBJECT that she, [REDACTED] was a trained agent of the StB. SUBJECT, after hearing the entire story, reported the incident to German Police at ZIRNDORF, who arrested [REDACTED] on charges of suspicion of espionage.

SUBJECT claims that she was not contacted again by representatives of CIS until about 20 September 1955 when an unidentified man came to BfAZ, approached her in front of the main camp building and showed her a letter, in Czech, which was allegedly from the StB and threatened her with reprisals because of her denunciation of [REDACTED]. SUBJECT stated that the man had not entered the camp through the gate but rather through an opening in the fence.

SUBJECT was again allegedly accidentally contacted by [REDACTED] while visiting BfAN on 20 October 1955. [REDACTED] is claimed to have given SUBJECT instructions to meet him at the same place on the following evening between 1700 and 1800 hours.

On the following day, during the time of the meeting, SUBJECT was under the control of Radio Free Europe and was unable to keep the appointment.

Upon being dispatched into Germany during 1951, SUBJECT allegedly had the mission of obtaining information concerning the strength, organization and activities of American Labor Service units and details concerning the type of installations which they were guarding. SUBJECT was to be active among units composed of former Czech and Polish nationals. Further missions included reports concerning Czech nationals residing at BfAN, the preparation of reports concerning the processing and interrogation undergone while processing at BfAN with descriptions of the interrogators and their techniques, the making of photographs and drawings of the Palace of Justice in NURNBERG with locations and descriptions of the organizations located within it, and, if possible, the making of photographs during US Army and LSC maneuvers. Additionally, SUBJECT was to prepare internal sketches of the I. G. Farben building in FRANKFURT and to become acquainted with someone working in that building in order to obtain information concerning the various offices within it. A final mission was, if approached by any western agency with an offer of work within the CSR, to accept the employment, however, to make no approaches of her own volition.

SUBJECT alleges that during her various contacts with [REDACTED] he told her of a letter drop that was being serviced in a church in MUNICH, however, SUBJECT claimed not to be able to remember any further details of the location of the drop or its servicing.

(b) (7) (C)

SUBJECT claims that a [REDACTED] wife of a [REDACTED] the editor of a Czech language newspaper in MUNICH and leader of a Czech refugee organization, is engaged in espionage activity in association with [REDACTED] [REDACTED] is allegedly a former resident of PRAGUE who was sentenced to 20 years imprisonment within the CSR and who was released and sent to Germany by the CIS.

(b) (7) (C)

SUBJECT claims to have no correspondence or other contact with any of her relatives or former friends or associates in the CSR since her arrival in Germany in November 1951. Since her arrival at BfAZ, SUBJECT has developed an intimate relationship with [REDACTED] and stated that she is considering marrying him if it will not impede her emigration.

on espionage charges and receiving sentences of three (3) weeks, three (3) months and one (1) week respectively on these counts. These terms were served while SUBJECT was under detention awaiting trial on the major count. According to SUBJECT, the border crossing count was a result of her attempted border crossing at the time she was apprehended on 12 May 1954. She claims that the theft and embezzlement charges were the result of her inability to pay, because of her imprisonment, for items of clothing that she had purchased prior to her imprisonment.

SUBJECT admitted that she had told many conflicting stories in the past, some of them figments of her imagination and others being partly true. She stated that she had related portions of the true story to an American agency at an earlier time and claimed to have never reported the details of the eight (8) months espionage story to any German agency, saying that she had limited her reports to German authorities to that relating only to the first, the 10 day school. SUBJECT steadfastly maintained that her story, admittedly fantastic in places, was the complete truth. When asked if she would be willing to undergo a polygraph examination, SUBJECT unhesitatingly replied that she would and signed a statement indicating her willingness.

SUMMARY OF INFORMATION

1. [REDACTED] was born in about 1918, and resided in 1949 in BRNO XQ-1851, CSR. He is about 5'3" tall, muscular build, and has black curly hair.
2. [REDACTED] was the chairman of the Czech Communist Party Personnel Committee with the StB in 1949. He gave the impression of being a very fanatical Communist, and spoke out often against those who were not actively supporting the regime. He believed that by 1954 there would not be any more opposition to the People's Regime, and that then the CSR would be a paradise. In his work he undertook only the hardest and most difficult cases, and he was very coarse and sadistic in the execution of his duties. He allegedly stated that in the event of an uprising against the regime, all the Communists would fight until death.
3. [REDACTED] grew up in a very poor environment, and probably enjoyed his position because of the money he received. It is very likely that he was removed from office along with [REDACTED] in 1951.

 2. [REDACTED] was the manager of the StB office in BRNO, and dressed as befitting a high official. He very seldom became involved in investigations, except when he was able to win the confidence of a woman by means of flattery. On one occasion, he told Source "A" that unless Source "A" informed him about certain matters he could not leave there alive, since he already knew too much concerning the StB.
 3. [REDACTED] was very proud of his success in investigations, and considered himself a career man. It is very likely that [REDACTED] was removed from office in connection with the [REDACTED] affair.

1. [REDACTED] was born in 1910, and worked in 1949 in the StB office in BRNO XQ-1851, Czechoslovakia. He was captured by the Germans as a partisan during World War II and was severely beaten while in prison. As a result, his face has had plastic surgery.

3. Because of his political past and his activities during the war, [REDACTED] had considerable influence with the Communists. It was probably on ideological grounds that he joined the StB organization. However, he picked most of his friends on a social basis, rather than for political or financial reasons.

The following information was submitted by G2 as a DA Intelligence Report, file: R-4701-55, Report Number: R-4789-55, Source: 430th, dated, 11 July 1955, Subject: UNKNOWN, CIS- WHO'S WHO.

*Full Name: Unknown

Present Position: Czechoslovak Intelligence (II Staff Section) operative.

Date of Birth: circa 1905-08

Nationality and Origin: German- possibly in Volksdeutsche

Languages: Excellent German and Czech

Past Career: Probably had been a German Air Force Officer

Character: Physical description: 175 cm Tall, 82kgs in weight, slightly obese build but muscular, light brown hair parted on the left of center, full oval shaped face, almost perfectly straight nose.

Personal characteristics: heavy smoker of cigarettes, rather well dressed, well kept appearance.

COMMENTS: On 10 Sept 53, [REDACTED] CIS control officer, drove NU to the home of [REDACTED] who then resided in BULHARY, CSR, and ordered P. to guide NU to Austria. P and NU were instructed to part at Floridsdorf- Vienna, so as not to arrive in Vienna together. [REDACTED] drove the two to the CSR-Austrian border from where P led NU into Austria illegally near Mikulov, CSR. They boarded a bus at ~~Floridsdorf~~ Drasenhofen, Lower Austria from which NU disembarked at Floridsdorf where he hailed a taxi for Vienna. P learned that the stranger had a CIS mission in West Germany, and that he had been in the CSR for conferences with the CIS on several occasions. To facilitate his travels, NU had contributed to the construction of a special motor for a Volkswagen which he kept stored in Salzburg. This racing device enabled NU to attain terrific rates of speed. It was the opinion of P that NU was in some sort of an aircraft technician or pilot prior to his activities for the CIS. (B-3)

On 22 March 1954, Source "A" was requested to give his reason for believing that the Czech Intelligence personalities with whom he was dealing were connected with the StB rather than Department II (Offensive) or Department V (Defensive) of the Czech Army General Staff. Source "A" stated that he knew absolutely nothing about Czech Army Intelligence but that he was well acquainted with the ZOB, having been employed therein. He advised that since he is familiar with the Modus Operandi of the StB, he is convinced that he was employed by the StB and that the personalities mentioned herein are associated with the StB and not Czech Army Intelligence. Source "A" advised that the StB directed him to pose as a refugee in Germany and eventually ingratiate himself with CIC whereupon he would be issued further instructions by the StB.

Her duties consist of gaining the confidence of various PS personnel, mostly officers, that are newly assigned to the ASCH area. After attempting to get the PS individuals' confidence by any means available to her, she must report to the PS the individual's personality traits and his political reliability. French Hold Czech For Spying on U.S.

A Czechoslovakian immigrant, Joseph Kubal, is being held by French authorities for photographing American military installations in France on behalf of a foreign power, it was announced yesterday.

Officials said that he had taken pictures of American activities at La Rochelle, Bordeaux, Nantes and St. Nazaire. He said that he mailed his films to a postoffice address and received his instructions by mail.

Kubal, who came to France in 1948, began his work for "a foreign intelligence agency" in 1951 at the request of a Czech girl, whom he saw frequently at a restaurant. After she had furnished him with a special camera for the work, he never saw her again, he asserted.

Kubal was caught when a concierge discovered a metal box containing films hidden in a hole in a wall, and notified police. Spokesmen of the Ministry of War said that the films have little military value.

French Probing Czech as a Spy

PARIS, Nov. 3 (S&S)—French police are investigating activities of a 30-year-old Czech who is being held in Paris' La Sante prison on charges of violating French security and giving information about national defense to a foreign power.

According to French police, Josef Kubal, a Czech national, made frequent trips through France, particularly along the Atlantic coast, where U.S. bases are located. After he was being trailed several days, police searched his room.

They found several undeveloped photographs and films which had been taken with expensive camera equipment which permitted detailed enlargements of photos of military establishments. The pictures were of U.S. installations at La Rochelle, Bordeaux and ports in other areas, police said.

CASE SUMMARY

(b) (7) (C)

In October 1951, [REDACTED] a German national, reported to the CID Resident Agent in BAD TONLZ 33TPT99, Germany, that he had been contacted by a Czech Intelligence Agent. [REDACTED] allegedly was offered employment through the agent with a Czech Intelligence Agency. Proper liaison existed between the CID and the CIC, resulting in [REDACTED] being turned over to CIC for exploitation. [REDACTED] revealed that he had been approached by [REDACTED] in a Gasthaus. After a brief conversation, the latter asked [REDACTED] if he would accept an offer to gather intelligence information for the Czechs. The main interest was in the United States Army units in the area. [REDACTED] was promised good payment if the information proved satisfactory. After several meetings had occurred between [REDACTED] and [REDACTED] during which time the latter had given some information on local troop units and movements, [REDACTED] received a payment of three (3) dollars from SUBJECT. Because of the small payment received, [REDACTED] turned on SUBJECT and became an informer to the local United States Forces. With the help of [REDACTED] identity was established and the following information was obtained by means of surveillance, mail coverage, and exploitation of available leads:

(b) (7) (C)

[REDACTED] a Czechoslovakian national, presently without citizenship (Stateless), born [REDACTED] in [REDACTED] is married, and the father of two (2) children. As a child, he lived with his parents in MUNICH, where he attended school for ten (10) years. In 1932 (before Hitler came to power in Germany), [REDACTED] became a member of the Hitler Youth, but was expelled from this organization because he was a Czechoslovakian. Between 1939 and 1947, he was convicted seven (7) times on charges of fraud, larceny and embezzlement. When not in jail, he was mostly employed by the "TODT" organization. (A/N: This organization was in charge of construction of fortifications and major highways in Germany under the control of the German government). After World War II, [REDACTED] established residence in a small town near MUNICH, where he worked occasionally as an architect. From this work he derived a small income. During the latter part of April 1951, [REDACTED] received a letter from one [REDACTED] Sobeslaw, Czechoslovakia, (A/N: [REDACTED] at that time was unknown to [REDACTED] asking if he was willing to supply information. If so, he should contact [REDACTED] by mail for further arrangements. After an exchange of considerable correspondence and after a border pass was mailed to him, SUBJECT, in September 1951, made his first trip to Czechoslovakia. There he contacted his handling agent and received some training in the methods he was to utilize to collect information, and at that time he was also paid a small sum of money. [REDACTED] main EEI was to obtain information concerning air installations and troop movements in the MUNICH area. After two (2) trips to Czechoslovakia, during which time he delivered some information of value, he was told to recruit a secretary and/or a janitor in a Military Installation in the MUNICH area for the purpose of obtaining official classified military correspondence. Further, he was taught a code to use, and received instructions in the use of secret writing in future

correspondence with his Czech handling agent. After this, [REDACTED] made most of his contacts with the Czech agent by mail, but also went to Czechoslovakia on numerous occasions. The surveillance of SUBJECT revealed that he was spending much of his time at home doing an unusual amount of writing. At that time, through an arrest and search warrant obtained from the United States Court, Area 5, a search was made by agents of CIC. Drawings and a letter in secret writing were discovered, the contents of which revealed information on air bases and local troop movements. [REDACTED] further revealed, during the interrogation and in a signed statement, that he had recruited others to work for the Czechoslovakians and that he had received a total pay of 800 dollars. He pleaded guilty before the United States Court, Area 5, and was sentenced to ten (10) years imprisonment.

CASE SUMMARY

(b) (7) (C)

[redacted] a German national, born [redacted] in [redacted] is the son of a German customs official. His greatest wish, and also his family's, was that he would become an officer in the German Army like his older brother. He became a member of the Hitler Youth in 1937 and was very active until 1943. [redacted] had numerous part time jobs after he finished school, but at no time did he have an income sufficient to support himself. He met his present wife during the latter part of 1948. Since she had a well paying position she partially supported him both before and after their marriage which occurred in September 1950.

[redacted] was brought to the attention of CIC during an investigation of another suspected Czechoslovakian agent. When the aforementioned agent was interrogated after his arrest, he gave the name of [redacted] as a character reference. This interrogation likewise revealed that [redacted] had been working for the Czechoslovakian Intelligence Service (CIS) with the arrested for almost two (2) years, had been on missions together and had the same Czech handling agent. In the hopes of getting a lighter sentence, the suspected Czech agent was even willing to testify in court against his given character reference, [redacted]

(b) (7) (C)

On the basis of the above information, a search and arrest warrant was obtained in February 1952 for the arrest of [redacted]. The search revealed numerous documents of intelligence value. Confronted with this evidence, [redacted] pleaded guilty in United States Court, Area 5, of espionage. He was sentenced to a fifteen (15) year term of imprisonment to be served in the United States War Crimes Prison, LANDSBURG 32UPU42, Germany.

(b) (7) (C)

Interrogation of [redacted] also revealed that during the summer of 1950, [redacted] was recruited through correspondence with the CIS to collect information. During the same year, he made his first trip to Czechoslovakia where he received initial instructions and SEIs. His first mission was to collect American newspapers in Germany, placing special emphasis on copies of the "Army Times", a publication of the US Armed forces in Germany. Later he was given the mission of gathering detailed information on US Air Force Bases, to photograph plans and installations, and to report on the conditions of air base runways. He gathered this information in numerous ways. For instance, in order to obtain information on one Air Base near MUNICH, he applied for the job as a laborer, was hired and worked on the base for two (2) months. He transmitted the information collected by him through secret mail drops or by delivering it personally to Czechoslovakia. [redacted] made twelve (12) such trips to Czechoslovakia. [redacted] also gave the CIS the names of persons whom he recommended for intelligence work. His friend, who gave the lead that brought about [redacted] arrest, has been recommended by [redacted]

In 1937, [REDACTED] left Germany with a close friend (a homosexual) for Japan, and returned to Germany in early 1939. During the latter part of that same year, [REDACTED] and his friend again returned to TOKYO, Japan. In 1943, [REDACTED] returned to LEIPZIG, Germany, where he lived until 1951.

(b) (7) (C)

In May 1948, [REDACTED] was summoned to appear before the Soviet Intelligence Officer in LEIPZIG, where he was interrogated and accused of being an American spy in contact with homosexuals. During this interrogation, [REDACTED] was brutally beaten and forced to write a statement to the effect that he would become an informant for the Russians. 1. [REDACTED] Czech national, first came to the attention of U.S. counter-intelligence authorities on 23 Nov 48, on which date he registered with the Refugee Screening Section of CIC VIENNA as a newly-arrived refugee from the CSR. (B-2) His story was that he had been compromised by a friend who was arrested after [REDACTED] had helped him to cross the Czech-Austrian border illegally. [REDACTED] accepted and was guided across the Czech border in the area of RETZ, Land Lower Austria, by [REDACTED] After arriving in VIENNA, [REDACTED] registered as a political refugee with CIC, which agency gave him assistance in reaching the U.S. Zone of Austria. He arrived at DP Camp WEGSCHIED, Land Upper Austria, on 28 Nov 48. One month later, his urge for adventure being satisfied, [REDACTED] decided to return to ZNOJMO. While attempting to cross the U.S. - Soviet demarcation line at ENNS atop a railroad car, [REDACTED] was intercepted by a U.S. military guard and turned over to the custody of CIC ENNS, which agency placed him in confinement as a security suspect. [redacted] was arrested by the StB. During the investigation of the case it was allegedly established that [redacted] had become a member of the group only because of his relationship with [redacted] and that he knew only one other member of the movement. Because of this, and intervention by his father who was a fervent Communist, [redacted] was not prosecuted with the rest of the members of the underground group. However, he was forced to accept an offer to resume the role of an StB informant. (C-4)

6. In order to cover [redacted] job as one of his informants, [redacted] arranged employment for [redacted] with the "ASO" firm in a position for which [redacted] was only partly qualified. One of [redacted] first missions with the StB was to attempt the penetration of an alleged partisan concentration in the JAROMERICE area. He produced no results. During spring 49, [redacted] caused the arrest of one [redacted] and one [redacted] who made the mistake of confiding to [redacted] their intention to flee the CSR. (C-2)

7. In Nov 49, [redacted] accomplished a mission to VIENNA for [redacted]. His task consisted of contacting an individual whose name he allegedly could not remember but who drove a green Skoda-tudor car with VIENNA license plates. He delivered a letter from [redacted] to this man and in return was handed a small parcel which he carried to [redacted] in ZNOJMO. In Feb 50, [redacted] was sent to Austria on a dual assignment. Firstly, he was to deliver pistols (4 or 5) and a large supply of ammunition to the chairman of the Communist Party at RETZ, Land Lower Austria, who in turn was to turn them over to an unknown CIS resident agent. Secondly, he was to go to VIENNA and attempt to locate a former Czech Army Major named [redacted] reportedly a friend of one Architect [redacted] from CESKE BUDEJOVICE. [redacted] was to pose before [redacted] as a political refugee and then attempt to gain employment in whatever business the latter might be associated with. Although he successfully completed the first phase of his assignment, [redacted] did not find [redacted]. (C-3)

8. In Jun 50, [redacted] went to Austria on another mission for [redacted]. On this occasion he delivered to Communist Party headquarters in ALDAU, Land Lower Austria, a small parcel containing pistols, and also a guitar. The guitar was partly wrapped and was very heavy. [redacted] was under the impression that the guitar, which came from BRNO, may have been a camouflage for some kind of "infernal" mechanism. He delivered these goods and then made a short pleasure trip to VIENNA. (C-3)

9. On 29 Jul 50, [redacted] arrived in VIENNA on a fourth mission for [redacted]. He was to contact one [redacted] a former German customs guard (World War II) who resided at [redacted]. [redacted] had reportedly hidden a treasure of gold and jewelry in ZNOJMO. [redacted] was supposed to determine the location of these valuables by approaching [redacted] and pretending that he would bring the treasure horde to [redacted] if the latter would tell him where it could be found. Another StB agent had previously been assigned this same mission but had failed. [redacted] further carried two letters from [redacted] for delivery to [redacted] who lived at [redacted] where [redacted] sometimes stayed. (C-3)

10. Upon arriving in VIENNA, [redacted] decided to contact CIC. He claimed that he had intended doing so for a long time but had delayed because he feared arrest and confinement. (C-3) Asked for the names of other CIS personnel known to him, [redacted] furnished the following: (C-2)

a. [redacted] alias [redacted] Connected with StB, ZNOJMO. Valuable operative between the CSR and Austria. (Note: [redacted] is subject of USFA R-1395-52, and is mentioned in USFA R-1673-52.)

b. [redacted] Connected with StB, ZNOJMO. Operative between the CSR and VIENNA. When in VIENNA resides at [redacted]. (Note: Also in R-1395-52.)

11. [REDACTED] claimed that he contacted CIC because of distaste for his present activities. He offered his assistance in the apprehension of other StB agents operating in Austria. (C-3) CIC stated in their evaluation of [REDACTED] that he appeared to be an adventurous, easy-going, and somewhat dishonest youth who became involved with the CIS. Although his Communist family background possibly contributed to his release from arrest by the StB, he did not appear to be a convinced Communist. The account he gave of himself may be considered possibly true, being partly confirmed by other sources. CIC added that when [REDACTED] reported to them on 1 Aug 50 his intentions were probably honest but because of his weak character or the influence of some unknown person, he changed his mind and did not cooperate with CIC as promised. (B-3) (Note: The comment provided by [REDACTED] as related in the following paragraph indicates why [REDACTED] did not continue reporting to CIC.)

c. After his arrest in Aug 50, [REDACTED] was taken to BRNO for interrogation, allegedly upon suspicion of connections with CIC VIENNA. [REDACTED] finally admitted that he had contacted CIC and for this reason was sentenced to serve two years in a labor camp.

1. [redacted] aka [redacted] first came to the notice of CIC in VIENNA IN Aug 47 when he applied for employment with that agency. He approached the CIC installation at VIENNA IX, Rooseveltplatz 2, on three occasions, and had the effrontery to request that he be given the names of CIC contacts in the CSR, that he be issued a false identity document, and that he be provided with U. S. dollars. [redacted] immediately fell under the suspicion of CIC. On 21 Oct 47, he was arrested when he entered the CIC installation for the third time. A search disclosed that [redacted] was in possession of a camera and six photographic plates. The latter were developed and found to consist of two photographs (one an interior shot) of the above-mentioned CIC installation and two photographs of a U. S. Army-occupied hotel. Two plates were unexposed. When questioned about these pictures, [redacted] explained that his camera had gone off accidentally. As CIC was unable at that time to connect him with any Communist intelligence service, he was released. (B-2)

2. During the ensuing period, CIC came to learn that [redacted] was linked with the CIS (Czech Intelligence Service) specifically StB (Statni Bezpecnost, or State Security), BRNO. His visits to CIC were apparently attempts at penetration. The files of the Austrian State Police Foreigner's Office in VIENNA reflected that [redacted] had been permanently expelled from Austria on 26 Oct 46 after being arrested for blackmarket activities. Nevertheless, he managed to stay on in VIENNA and in May 49, his expulsion order was cancelled. Numerous censorship intercepts revealed that [redacted] had initiated several communications from BRNO to VIENNA concerning smuggling activities and meetings on the Austro-Czech border. The addressee in many instances was [redacted] One Volksdeutscher who was born [redacted] at [redacted] and who lived with [redacted] was also involved. (B-2)

3. Investigation by CIC disclosed that [redacted] fled to the CSR after participating in the ill-fated Socialist uprising in VIENNA during 1934. In 1939, he was drafted into the German Army, eventually attaining the rank of Sergeant. In 1944 [redacted] deserted and lived illegally in BRNO until the end of hostilities. From 1946 to 1947 he was employed by the "Re-emigration Mission", transporting Czechs from VIENNA to the CSR and Austrians from the CSR to VIENNA. It was at this time that he became affiliated with the StB and also began his smuggling activities. Although his smuggling role was known to Czech police, no action was taken against him. Since 1947, [redacted] has had no apparent employment. Nevertheless, he has maintained an apartment in VIENNA as well as living quarters in BRNO. [redacted] visited the CSR about once every two or three months, crossing the border illegally. The value of his individual smuggling transactions sometimes approximated 75,000 Austrian Schillings per trip between Austrian and the CSR. One of [redacted] closest associates in VIENNA was [redacted] a confessed CIS Agent who became known to CIC in 1943. [redacted] once stated to a CIC source that [redacted] was working for StB, BRNO. (B-3)

4. On 14 Sep 50, [redacted] was arrested and confined by CIC, VIENNA, for interrogation as an StB agent. He stated that he was a Volksdeutscher born [redacted] in [redacted] and that he was residing at [redacted] After completing nine years of formal education [redacted] became an apprentice motor mechanic. In 1927, he moved with his mother to VIENNA. In Feb 34, he participated in the unsuccessful Socialist uprising in VIENNA and fled to BRNO where he remained until 1939. Following five years of German Army service, [redacted] became a partner in the SIP motor transportation firm in BRNO, and became engaged in transporting Austrian repatriates to VIENNA and Czech repatriates to the CSR. In Dec 47, he moved to his present address in VIENNA and took a job as a driver for a Viennese transportation firm. Since Jun 50, when he won 32,000 schilling in the Austrian National soccer pool, he has been unemployed. [redacted] has applied for Austrian Citizenship. (D-3)

5. [redacted] confirmed that he had deserted the German Army in 1944. He added that he was taken prisoner by the Soviets in BRNO on 24 May 45 and sent to the USSR. In Dec 45, he was released by the Soviets, returned to [redacted] and placed in an internment camp there. He was freed by the Czechs in Feb 46. (D-3)
[redacted] was 5'6" tall, weighed 140 pounds, had grey eyes, brown hair, stocky build. He had an Austrian police record of two convictions-- one for smuggling sugar in 1945 and the other for illegal border crossing from the CSR to RETZ, Land Lower Austria in 1943. (B-2)

6. Interrogated at great length, [REDACTED] denied being employed by the StB. Questioned about the photographs of 21 Oct 47, he first stated that he did not intentionally photograph the CIC building; that he had actually taken pictures of two girl friends who were standing in front of the building. (D-5) It was pointed out to [REDACTED] that the picture showed no standing women at all. (B-2) He then alleged that he merely had been out on the street with his camera and that he took the pictures as practice for his own personal experience. (D-5)

7. [REDACTED] former StB personality and once [REDACTED] control agent, however, when interviewed by CIC in 1943, stated that he had met [REDACTED] for the first time in 1946 through a former StB colleague named [REDACTED]. [REDACTED] had been working for one [REDACTED] a Czech police official who was arrested for participating in the attempted coup against Czech Ministers. [REDACTED] and [REDACTED] then assumed control of [REDACTED]. Later, [REDACTED] took over as [REDACTED] control agent, and therefore had access to [REDACTED] file. Further [REDACTED] was mentioned as an StB agent by other CIS personalities, among them [REDACTED] and [REDACTED]. (C-3)

8. Asked about the statements made by [REDACTED] stated that he had first met the man in 1948 through an acquaintance whose name he had forgotten. He added that he had not been aware of [REDACTED] connections with the StB, although he had never trusted him. [REDACTED] admitted knowing [REDACTED] having met him in 1935 at which time he was falsely arrested by [REDACTED]. In 1946, while [REDACTED] was interned in FMO, his second wife, nee [REDACTED] from whom he was divorced later that same year, contacted [REDACTED] and through his intervention [REDACTED] was released. Afterwards, [REDACTED] and [REDACTED] continued their friendly relations. [REDACTED] denied knowing [REDACTED]. (D-5)

9. [REDACTED] unwittingly substantiated some of the information furnished CIC in his disfavor by [REDACTED] as well as by other former CIS agents. Nevertheless, he would not confess to having had StB affiliations. He admitted that his regular crossings and smuggling activities between the CSR and Austria could not have been performed without the patronage of the CIS. [REDACTED] was released from confinement on 23 Sep 51. It is believed that he was re-employed by the CIS, and that he is presently an operative of that service. (B-2)

There, during a drinking party, [REDACTED] confided to informant that the reason for his presence was to investigate the reliability and trustworthiness of StB agents [REDACTED] and [REDACTED] all of whom were or else became known to US counter intelligence authorities in Austria as Czech Intelligence Service agents. Further, [REDACTED] had been surveilling the chief of the StB office in BRNO which was in control of the five agents. 1. [REDACTED] a mysterious figure linked with the CIS (Czech Intelligence Service), first came to the notice of this office on 15 October 1948 when he was reported by [REDACTED] Lt. Colonel, de-fected former Chief of the Training Section of the Third Military District in BRNO, CSR, as a recent graduate of an "StB (Statni Bezpecnost, or State Security) Sabotage and Espionage School" in BRNO. [REDACTED] was not heard of again until approximately May 1950 at which time he was reported to be a prominent member of the StB residing at BRNO-JUNEROV. (C-3)

2. In mid 1950, an informant of CIC, VIENNA, was "visiting" at the Soviet Officers' Club in VIENNA. There, he was introduced to [REDACTED] Impressed by informant's knowledge of the Russian language and by his many Soviet acquaintances, [REDACTED] entered into conversation with him. Informant described [REDACTED] as about 32 years of age, six feet tall, slim build, blond hair, high forehead, and well dressed. [REDACTED] had a large amount of Austrian currency and treated many persons to drinks. (C-9)

a. After imbibing a quantity of hard liquor, [REDACTED] engaged informant in a discussion on espionage. [REDACTED] stated that he was acquainted with CIS activities in VIENNA. Although he did not admit that he too worked for the CIS, [REDACTED] left that impression by confiding that both British Field Security and CIC had attempted to arrest him. However, since he frequented only the Soviet Sector of VIENNA, he managed to evade all Western security authorities.

b. According to [REDACTED], the following were CIS agents who traveled regularly between the CSR and VIENNA:

- (1) [REDACTED] Austrian.
- (2) [REDACTED] Czech Volksdeutscher. *see next page*
- (3) [REDACTED] Czech Volksdeutscher. . . .
- (4) [REDACTED] Czech.
- (5) [REDACTED] Czech. . . .

c. [REDACTED] stated [REDACTED] often visited the Czech National House at VIENNA XV, Turnergasse. The five above mentioned CIS agents usually crossed back and forth over the Austro-Czech border near MIKULOV, CSR, using local border crossing permits issued by the Czechs. For travel inside the CSR, they were often allowed the use of two Skoda sedans, one black with license number [REDACTED] and the other beige, license number [REDACTED]

d. [REDACTED] did not give a detailed picture of the organization which guided the activities of the above named CIS agents. He disclosed only that the responsible CIS office in BRNO, CSR, was commanded by a former British Royal Air Force major (name and description undisclosed) whom he [REDACTED] had been given the mission of surveilling inasmuch as the former major had acted too independently. [REDACTED] added that he was further investigating the five above named CIS agents with the target of determining their reliability and devotion to the cause for which they operated.

1839

3. Although [REDACTED] has remained a target of interest to this office since he was first reported upon since mid 1950. It is possible that he may be one of the CIS control agents who sometimes visit VIENNA and that his true name may not be [REDACTED] (B-3)

5. Some of the above personalities are possibly among those of interest in the counter intelligence picture in Austria at the present time as it is believed that have been re-approached by the CIS to resume operations for that service. The Czechs are apparently attempting to secure all types of information in Austria and are recruiting very large numbers of operatives for this purpose. The threat to the security of USFA through such saturation tactics is considerable.

(b) (7) (C) [redacted] Austrian, born of Czech parents, former Austrian police official and former member of the Austrian Communist Party, began working for the Czech Military Intelligence in 46 after being recruited by an officer of the Czech Legation in VIENNA. [redacted] sent his reports to [redacted]. In summer 47, [redacted] was further recruited as an agent of the StB, [redacted] by one [redacted]. Thus [redacted] was able to make duplicate copies of his reports on Austrian law enforcement agencies, Czech refugees, CIO, etc., and send one copy each to [redacted] and to [redacted]. In May 48, [redacted] made an attempt to penetrate CIO, VIENNA. As a result he was arrested on 8 Aug 48 and kept in confinement until 15 Oct 48. Although he confessed part of his CIO activities, [redacted] did not reveal the full extent of his espionage role in favor of the Czechs as reported by another source. In early 49 he was once again in contact with the CIO.

REPORT NO. R-1861-52

PAGE NO. 1

1. [REDACTED] first came to the notice of U.S. Counter Intelligence in May 48 when he applied for employment with CIC, VIENNA. H was not hired.

[REDACTED] Later, it was learned that [REDACTED] was in contact with the StB (Statni Bezpecnost, or State Security) [REDACTED] through [REDACTED] and that [REDACTED] had suggested to [REDACTED] that the latter by securing employment with CIC would thereby be able to supply first-hand information on CIC activities and personnel. (C-3)

2. On 16 Jul 48, [REDACTED] was called to the offices of CIC, VIENNA, and debriefed regarding his life history. [REDACTED] related that he was born [REDACTED] in [REDACTED]. His mother and father were Czech citizens. [REDACTED] lived with his parents and son at [REDACTED]. He and his wife are separated. A former Austrian police official, [REDACTED] was last employed in Jul 47. After attending some ten years of formal schooling, he was employed by various business firms until Mar 42 when he was called up for military service. In summer 43, he deserted the German Army while in the CSR and joined a Partisan band. In Jul 47, he left the police force in VIENNA, allegedly at his own request. (C-3)

3. In 45, assertedly in order to obtain the job with the Austrian police, [REDACTED] joined the Austrian Communist Party which at that time controlled the law enforcement situation in VIENNA. He stated that he was never a "real" Communist. He speaks both German and Czech. Among his papers were Austrian passport No. [REDACTED] and membership card No. [REDACTED] of the Czech National Committee. [REDACTED] is 172 cm tall, weighed 65 kilos, had an oval shaped face, grey-blue eyes, dark brown curly hair, false left eye. (C-2)

4. CIC explained to [REDACTED] that the debriefing was necessary since he had applied for employment with CIC and because he had once been a Communist Party member. In this connection, he was asked whether he had any knowledge of or relationship with the Russian or Czech Intelligence Services and if either of these organizations had ever attempted to use him to obtain information through the Austrian police. [REDACTED] denied connections with Eastern espionage. (B-2) (C-5)
He was told that there was little possibility that he would be hired by CIC inasmuch as no vacancies existed. (B-2)

5. In the meantime, additional adverse information was received on [REDACTED] activities. While the principal source was [REDACTED] some derogatory data were reported by other sources as well. In early Aug 48, it was learned that [REDACTED] was to visit StB, BRNO, in connection with a plan evolved by the StB whereby that agency hoped that [REDACTED] could make positive identification of Czech employees of CIC by examining the gallery of StB photographs of recent escapees and suspected personalities. Although [REDACTED] had reported on Czech employees of CIC to the StB, he knew very few names and most of these were aliases. It was further established that once [REDACTED] had accomplished a successful penetration of CIC, he planned to move to the CSR and work for the Czech police there. (C-3)

6. On 8 Aug 48, [REDACTED] was arrested by CIC at his home. After making a preliminary confession in which he admitted being an agent of the CIS, [REDACTED] was confined at the Rossauerlaende police prison. A search of [REDACTED] apartment resulted in the discovery of the following: (B-2)

- See next page
- Letter from one [REDACTED], a CIS control agent with office in PRAGUE.
 - List of 23 EFL, pertaining to the Austrian Interior Ministry, police, gendarmerie, etc., and to CIC.
 - Minutes of a Communist meeting, in [REDACTED] own handwriting.
 - Address book containing, among others, the name of [REDACTED]
 - List of expenses connected with Austrian exit visa application.
 - Part of a draft report dated Jul 48 on items of intelligence interest for the CIS, in [REDACTED] handwriting.

7. During interrogation, [redacted] revealed the following information:

a. In 46 he was approached at his home in VIENNA by a Czech army lieutenant in full uniform. After declaring that he was from the Czech Legation in VIENNA, the Czech officer successfully recruited [redacted] as an informant for the CIS.

[redacted] was instructed to submit reports through the regular mail to [redacted]. His initial targets were to gather information on (1) the general situation regarding the Czech minority in VIENNA (2) the political situation in Austria (3) the Austrian police (4) U.S. Forces (5) transportation facilities in Austria. [redacted] assembled his reports from details he gathered through acquaintances in the VIENNA Police Department and from daily newspapers. (C-3)

b. In spring 47, [redacted] visited PRAGUE, CSR, and there met [redacted] whom he described as about 56 years old, with grey hair, good teeth, small and husky. [redacted] believed [redacted] to be a leading personality of Czech political intelligence. Allegedly, it was [redacted] who dictated the 23 EEI which were mentioned in par 6 above, concerning mainly Austrian law enforcement agencies. After returning to Austria, [redacted] continued sending information to the [redacted] address. He estimated that he submitted about five messages each year. In summer 47, [redacted] met a second CIS personality named [redacted], alias [redacted] who represented StB, BMO. [redacted] began to direct [redacted] intelligence gathering activities and gave him the target of penetrating CIC. Whenever [redacted] visited VIENNA, [redacted] would give him reports, some oral, some written. (C-3)

c. In his capacity as a police official attached to the VIENNA Landesgericht, [redacted] became acquainted with a CIC special agent who was in constant liaison with the Landesgericht. By seeking a position with CIC and approaching the above mentioned special agent at CIC headquarters in VIENNA, [redacted] was able to enter the CIC building and supply [redacted] with first-hand information regarding the physical lay-out of that installation. In Feb 48, [redacted] told [redacted] to begin collecting data regarding Czech political refugees and the methods by which such refugees were processed by Western agencies.

d. [redacted] allegedly had one unwitting informant in the person of [redacted] criminal officer of the Austrian State Police. Evidently, [redacted] never told [redacted] about resigning his police employment. Therefore, when [redacted] asked [redacted] specific questions concerning the police, [redacted] did not hesitate to give complete answers. (C-3)

e. In early Jun 48, [redacted] submitted two copies of one report to the CIS. One was given to [redacted] and the other was sent to the PRAGUE address of [redacted]. Contrary to [redacted] statement to CIC that he paid 300 Austrian schilling to [redacted] for this report, [redacted] claimed that he received no compensation whatsoever. For this reason when he was visited by [redacted] in Jul 48, [redacted] quarreled with [redacted] because he believed he was receiving insufficient money for his work. [redacted] stated to CIC that for his services from Jan to Jul 48, he got only 300 Austrian schilling and a second-hand suit from the CIS. [redacted] argument was that the reports submitted by [redacted] were of little value and that StB was aware that [redacted] had been sending duplicate copies to PRAGUE in an attempt to collect twice for each report. (C-3)

f. In late Jul 48, [redacted] sent another report to PRAGUE. A few days later he received a letter from [redacted] advising him that, with the exception of the Jul report, due to incorrect addressing, no correspondence written since Apr 48 had arrived in PRAGUE. [redacted] invited [redacted] to visit PRAGUE and advised him to address all future mail to [redacted].

In his letter, [redacted] inclosed 300 Austrian schilling and 1,000 Czech crowns. [redacted] answered [redacted] communication, stating that he would arrive in PRAGUE on or about 13 Sep 48. (C-3)

g. [redacted] met [redacted] for that last time on 6 Aug 48. [redacted] called [redacted] by telephone and a meeting was arranged at the "Stumbastal" Restaurant, VIENNA IV, near the Stadtpark. They talked for only a few minutes. [redacted]

did not submit information to [REDACTED]. He asked [REDACTED] for money but [REDACTED] refused to give him any since [REDACTED] had not prepared a report for StB, BRNO. The two agreed to meet again the next day. However, although [REDACTED] went to the meeting place, [REDACTED] did not appear. (C-3)

8. At the time of his arrest on 8 Aug 48 [REDACTED] was prepared to depart for the CSR and planned to leave VIENNA on 5 Sep 48. He told his CIC interrogators that he "would obtain a permanent position with the Czech police and would be able to stay in that country". Although reinterrogated several times, [REDACTED] refused to reveal information in addition to that presented above. He was released from confinement on 15 Oct 48. [REDACTED] continues to reside in VIENNA where he remains a target of security interest to U.S. counter-intelligence. As of early 49, [REDACTED] was reportedly again in contact with the CIS. (B-2)

BAKU, 22 October 1952

To the Chief of the American CIC in WASHINGTON.

I most politely beg of you to come to see me one time or to send for me, for the purpose of sharing in important statements concerning agents of the GSR, with whom I became acquainted in AMERICO and who also asked me to (TH: do so) regarding this.

I became acquainted with these agents at the house of correction in AMERICO and was initiated in various matters, which I do not care to mention here. I wanted to turn over these things to the CIC in WASHINGTON, as I was to be released from my incarceration on 16 October 1952, but was brought to the remand jail in BAKU allegedly for a theft which I did not commit.

It also concerns two men from the GSR who are residing at Camp Valha, WASHINGTON. I also bid you not to falsely understand me, it should not namely be taken to mean that I would like to have my punishment removed because of it.

I also beg of you to undertake this matter as soon as possible. I am of course certain that these two men are already established in the employment. I am presently in custody at the remand jail.

Reference is made to Agent's Report, Region VI, NURNBERG (UTM) PV5178 (M50/040), Subject: [REDACTED] Re: Possible Czech Agent, File: VI-21022, dated 3 September 1952, in which it was revealed that SUBJECT and [REDACTED] visited [REDACTED] in December 1951, at Camp Valka, NURNBERG.

[REDACTED] born [REDACTED] in [REDACTED] residing in Camp Valka, NURNBERG, [REDACTED] was interviewed by Source "A" concerning his knowledge of SUBJECT. [REDACTED] stated in substance the following: He became acquainted with SUBJECT in April 1951. At that time [REDACTED] and SUBJECT both resided in [REDACTED] SUBJECT only used his room several days monthly. [REDACTED] and SUBJECT were assigned together to pick up the food for the barracks and thus became acquainted. [REDACTED] explained that at that time, the meals for the residents of Camp Valka were cooked in one of several community kitchens, and that the duty of picking up the meals was rotated among the inhabitants of each barracks. SUBJECT did not seem to be acquainted with Camp Valka, for he did not know which kitchen served [REDACTED] although he was a resident. SUBJECT explained to [REDACTED] that he traveled constantly and maintained a room in Camp Valka only to avoid having to pay for a hotel room when in NURNBERG. Sometime in May 1951, SUBJECT again came to Camp Valka for a short visit and found that someone had taken over his bed, so he used [REDACTED] At that time [REDACTED] had a second residence in NURNBERG, and did not stay in Camp Valka at night. SUBJECT remained at Camp Valka for about three nights. Following this visit, SUBJECT used [REDACTED] bed on each of his monthly trips to Camp Valka. SUBJECT asserted that he was traveling on behalf of the ZAORALEK Record Player Company of MUNICH (M49/Y85), which commenced production in Germany during 1951. SUBJECT allegedly applied for a visa while in MUNICH to travel to other countries in Europe. SUBJECT declared that he traveled in Holland, Belgium, Denmark and France. He also showed [REDACTED] photographs of Austria and Switzerland and implied that he frequently visited these countries. SUBJECT made frequent trips (LEAD) to BERLIN (N53/Z75), and on one occasion telephoned [REDACTED] from that city. [REDACTED] also received a letter from SUBJECT mailed in BERLIN. SUBJECT stated that he was well acquainted with SALZBURG (N48/392), and VIENNA (049/X49), Austria. His travels, SUBJECT asserted, were usually by commercial airlines. In January 1952, SUBJECT requested [REDACTED] to obtain 150,000 Crowns for him at usual exchange rates. (b) (7) (C) [redacted] declared that SUBJECT was closely associated with a man named (LEAD) [redacted] a former resident of Camp Valka, who also worked for the ZAORALEK firm in MUNICH. [redacted] present address is unknown to [redacted]. For some time [redacted] cohabitated with a girl, who aided him to smuggle large amounts of money out of the CSR. The money was deposited in a bank in Holland where the girl had relatives. Later [redacted] and the girl separated and [redacted] lost control of the money. The girl then dealt with a Jew in Holland who swindled her out of the money. A short time later the girl was accused of illegal money dealing by the Dutch authorities. She fled to France and then to Tangiers. [redacted] was unable to remember the name of the girl. (F-3)

Another associate of SUBJECT, also an alleged employee of the ZAORALEK (LEAD) firm, was a lawyer named [redacted]. At one time [redacted] had a love affair with [redacted] a Camp Valka resident. [redacted] was acquainted with a business man from Holland who made trips to PRAGUE (051/L78). This man made three trips to Camp Valka to see [redacted] and each time brought her money. [redacted] emigrated to Canada in the autumn of 1950. About the same time [redacted] left Camp Valka and moved to MUNICH. Later [redacted] became an inde- (LEAD) pendent businessman and founded the export firm VIKING in MUNICH. He (LEAD) moved to LINDAU (L48/C48), where he presently resides. (F-3)

In 1951, SUBJECT became closely associated with [redacted] an engineer, who escaped from the uranium mines in JACHYMOV (N51/K60), CSR. [redacted] and [redacted] were acquainted in the CSR. [redacted] later joined (LEAD) a friend in SALZBURG, and at present resides in INNSBRUCK (N48/D75), Austria. (F-3)

He did not give [redacted] a residence address, but stated that he could be reached through [redacted] or telephone number FRANKFURT 67208. (F-3)

(b) (7) (C) [redacted] said that SUBJECT talked only of his business, trips, scenery, and things in general. However, one exception was in May 1952, when SUBJECT hinted that he was engaged in "intelligence work" and stated, "You would laugh your pants off, if you learned for whom I'm working." (F-3)

In April 1952, SUBJECT had a discussion with [redacted] and asked for the names of one or two reliable persons who could take something into the CSR and bring something out. [redacted] suggested [redacted] SUBJECT told

██████████, in ██████████ presence, that the package going into the CSR would be small, about 2" x 2 1/2" x 4", and the article coming out would be a roll of paper which could be contained in a briefcase. So far as ██████████ knew, ██████████ refused the offer because SUBJECT was unwilling to pay the 1000 DM which ██████████ demanded. ██████████ stated that he had recommended ██████████ because he was a well known black marketeer and smuggler. (F-3)

AGENT'S NOTE: It is to be noted that ██████████ was released from an Allied Intelligence agency in January or February 1952, for being a security risk.

██████████ stated that to the best of his knowledge, SUBJECT was last in Camp Valka in the middle of August 1952, when he had been seen by one of ██████████ friends. (F-3)

On 5 September 1952, ██████████ again contacted CIC and stated that SUBJECT came to Camp Valka about three months ago; ie, May or June 1952, seeking a ██████████ who allegedly resided in Barracks I C 15 or 16. ██████████ had just arrived from BERLIN a few days before. SUBJECT explained that ██████████ owed him money. (F-3)

(b) (7) (C)

On 5 September 1952, a report from Agency "A", undated, subject: ██████████ was obtained from the Regional Registry, Region VI. The report indicated substantially the following: In the summer of 1950, ██████████ lived in Camp Valka with his mistress, ██████████, who allegedly is married to a Dutchman who lives at ██████████. ██████████ allegedly owned an American car. ██████████ always had ample funds, and (LEAD) was on good terms with ██████████ who resides at present in LINDAU where he has an export office, the VIKING firm. He was previously employed for a long period of time with ZAORALEK's, former businessmen of BRNO, CSR, who produce Electric Record Players in MUNICH. The address of the ZAORALEK firm is:

CYROPHON

MUNICH, Adelheidstrasse 28

██████████ resided with and was on good terms with ██████████ who represents the CYROPHON firm and travels throughout Germany, also making trips to Italy, Belgium, Holland, and formerly to Denmark. At the same time he is allegedly engaged in smuggling. ██████████ has connections with some firm in INNSBRUCK, where Engineer ██████████ is employed. ██████████ never lacked money, was engaged in trade with forged passports, and procured international driving licenses. (B-3)

(b) (7) (C)

A letterhead of the VIKING firm was included in report, mentioned in above paragraph, which indicated that ██████████ was the proprietor and gave the address as LINDAU/Bodensee, Hoyerbergstrasse 41. (B-2)

4. REPORT OF FINDINGS

On [REDACTED] born [REDACTED] in [REDACTED] a former Private in the Czechoslovak PS (Pohranicni Straz -- Border Guard) who defected and illegally crossed the Czech-German border [REDACTED] in the vicinity [REDACTED] was interviewed by Agent A concerning his knowledge of personalities in the DOZ (Dustojnik Obraneho Zpravodajstva -- Officers of Defensive Intelligence).

a. SUBJECT stated that Porucik (Lieutenant) [REDACTED] a member of a PS Battalion (unit designation unknown) in KUNZVART (KUSCHWARDA) (UTM)33UVQ0618, CSR, a part of a PS Brigade (unit designation unknown) stationed in VOLARY (WALLERN) (UTM)33UVQ1918, CSR, was known to be a DOZ member, since he arrested eight (8) members of [REDACTED] PS unit (cover name, [REDACTED] who allegedly had connections with people in Bavaria, Germany. These arrests occurred prior to [REDACTED] because on that date the [REDACTED] of the PS Company at HORNÍ SILNICE (cna), CSR, received four (4) new replacements. [REDACTED] was described as approximately 30 years of age (date and place of birth unknown); about 5'5" tall; slender build; dark brown hair, sprinkled with gray; light green eyes, and no distinguishing characteristics. SUBJECT stated that [REDACTED] marital status was not known to him. [REDACTED] usually wore civilian clothes and had his office in KUNZVART, where he was visited by armed civilians whom SUBJECT believed to be members of the StB. SUBJECT reached this conclusion from remarks made by other members of the PS, that StB members often visited [REDACTED] and later crossed the Czech-German border. [REDACTED] visitors usually drove up to his office in two (2) Czech civilian vehicles, a Skoda Tudor and a Tatra. SUBJECT could not recall the numbers on the license plates but stated that the Skoda Tudor vehicle had a "B" on the plate, denoting Bezpecnost (Security) and that the vehicle was from PRAGUE (UTM)33UVR6048, CSR. SUBJECT then recalled that the StB in CHEB (UTM)33UUR1251, CSR, used green Skoda Tudor vehicles with "CKV" on the license plates, denoting CECHE-KARLOVY VARY (UTM)33UUR4966, CSR, which indicated that the vehicle was from the Bohemian town of KARLOVY VARY. SUBJECT could not give any information relative to [REDACTED] duties, but stated that [REDACTED] was the head man of the StB office in KUNZVART.

b. SUBJECT stated that [REDACTED] assistant was Podporucik (Junior Lieutenant) [REDACTED] who is approximately 28 years of age; 5'5" tall; medium build; black hair; brown eyes, and no distinguishing characteristics. [REDACTED] is married, had one (1) child, lives in KUNZVART, and runs the StB office in the absence of [REDACTED]. SUBJECT believes that [REDACTED] usually makes the necessary arrangements with the PS a week or so in advance to clear the border area of guards in order to facilitate the crossing of Czech spies into Germany. SUBJECT stated that it was the talk of his PS company that both [REDACTED] and [REDACTED] made frequent crossings into Germany for espionage purposes, since border guards would always be cleared out of the area where [REDACTED] and/or [REDACTED] were to cross. Exact locations of these crossings could not be given by SUBJECT, except that they were made at different places in the KUNZVART area. SUBJECT further believed that both [REDACTED] and [REDACTED] used others for espionage purposes, but could give no names. During the evening of

4. REPORT OF FINDINGS

On [REDACTED] born [REDACTED] in [REDACTED] a former Private in the Czechoslovak PS (Pohranicni Straz -- Border Guard) who defected and illegally crossed the Czech-German border [REDACTED] was interviewed by Agent A concerning his knowledge of personalities in the StB (Statni Bezpecnosti -- State Security). SUBJECT stated that he could discuss only two (2) individuals who were known to him to be StB members.

a. [REDACTED] approximately 26 to 28 years of age (date and place of birth unknown); about 5'3" or 5'4" tall; strong build, with wide shoulders; dark brown hair, and no distinguishing characteristics. During the war [REDACTED] was a member of a local partisan group which fought against the German occupation forces, but upon cessation of hostilities, [REDACTED] became a member of the StB. [REDACTED] is considered to be a staunch Communist because he allegedly threatened his own father with dire consequences for reportedly making anti-Communist remarks. [REDACTED] wife is also considered to be a strong Communist, since she always wears an emblem of the KSC (Komunisticka Strana Ceskoslovenska -- Communist Party of Czechoslovakia). [REDACTED] works in and around BRATISLAVA, although the exact nature of his duties was unknown to SUBJECT.

b. [REDACTED] is approximately 30 years of age (date and place of birth unknown), and is of either Moravian or Bohemian descent. He is about 5'9" tall, has a slender build, dark blond hair and no distinguishing characteristics. The color of [REDACTED] eyes was unknown to SUBJECT. [REDACTED] is supposed to have living quarters both in DUBRAVA and BRATISLAVA. His marital status was unknown to SUBJECT. [REDACTED] is employed in BRATISLAVA (exact duties unknown) although he comes from DUBRAVKA, where his mother and sister still reside. SUBJECT stated that [REDACTED] joined the StB immediately after the end of World War II and is quite friendly with Vrchni Strazmister (Master Sergeant) [REDACTED] of the SNB (Sbor Narodni Bezpecnosti -- Corps of National Security), with whom he has gone on several hunting trips and to whom he has admitted his connection with the StB.

Now he was turned down again in KLAGENFURT. The papers were not in

Summary of Information

SUBJECT: [REDACTED]

(b) (7) (C)
Personalalia: Graduate of the Commercial Academy in Moravska Ostrava. Military service from 1933 to 1934, with rank of Lieutenant in the Reserve. From 1934 to 1939 was employed with various commercial firms in Prague, the last of which was Thonet-Mundus, a furniture company. He was arrested by the Gestapo on 19 March 1939 for contacts abroad with Czech exiles. In Buchenwald from date of arrest until his liberation by the Third US Army on 11 April 1945. On 2 October 1945 was employed as an investigator for the U.S. War Crimes Branch in Wiesbaden. He was then attached to the Czechoslovak War Crimes Mission under General Ecer. He was recalled to Prague in August 1947. In September 1947 his appointment to the Czechoslovak Restitution Mission in the U.S. Zone of Germany was cancelled at the request of the Ministry of the Interior. From that time until the coup he was unemployed. After the coup he joined an underground organization and arranged the escape of several anti-Communist Czechs, among them [REDACTED] and [REDACTED]. He himself was forced to flee when the group was betrayed by one of its members.

(b) (7) (C)
[REDACTED] anti-Communist record while imprisoned by the Gestapo at Buchenwald has been attested to by [REDACTED] Chairman of the Council for Free Czechoslovakia, who states that [REDACTED] hid him when he was marked for execution by the Nazis. [REDACTED] further states that he spent almost six years with him at Buchenwald, where [REDACTED] due to his knowledge of languages and his skill and office experience, was employed in the administrative office of the camp. Through his position he was able to offer assistance to many of the prisoners and is known to have particularly assisted anti-Communists.

(b) (7) (C)
After his escape to Germany following the Communist coup in Czechoslovakia, he was employed by CIC in screening the numerous Czech refugees who were crossing into the U.S. Zone of Germany. He was employed in this capacity until early 1949. During his stay in Germany he was located at the IRO Camp at Murnau. To our knowledge he has been in Strasbourg, France, since July 1949 where he lives with one [REDACTED] [REDACTED] had, it appears, known [REDACTED] in Buchenwald.

(b) (7) (C)
During his stay in Germany he was the subject of numerous reports alleging that he was actually employed by the Czech I.S. Several refugees are known to have denounced him to the American authorities in Germany. Individuals, however, who had known him previously, attested to his loyalty and refused to believe that he would be capable of such duplicity. We are in the process of attempting to ascertain whether he has not possibly been confused with one [REDACTED] also an occupant of the Murnau Camp. Nothing further is known concerning [REDACTED] at this time.

1. The following information concerning [redacted] and [redacted] self-confessed CIS operatives, was contained in two recent 430th CIC Detachment agent reports.

a. [redacted] former resident of VIENNA, has reported to both the 66th CIC Sub-Detachment in MUNICH and the 430th CIC Sub-Detachment in VIENNA that he was recruited by the CIS on 23 August 1950 and was assigned targets in Trieste. Subsequently, he made several trips to Czechoslovakia from Austria and supplied allegedly false information to the CIS. What [redacted] requirements were and whether or not he actually travelled to TRIESTE is not known. He was last heard of on 24 March 1952 when he was in MUNICH. A physical description of [redacted] is not available at this time.

b. [redacted] former resident of VIENNA, reported to the 430th CIC Sub-Detachment in VIENNA on 15 December 1951 with a long story concerning his arrest and confinement in Czechoslovakia, and recruitment by the CIS. According to WURNECHE, his CIS requirements pertained to targets in VIENNA, one of which was the penetration of CIC. [redacted] was to have reported to CIC in VIENNA on 18 December 1951 but he did not appear. Subsequent investigation indicated that he may have departed for Italy. [redacted] was born [redacted] in [redacted] is an Austrian national, Roman Catholic, single, 5'9" tall, weighs 160 pounds, has brown hair, grey eyes, and has a three centimeter long scar on upper left leg. A photograph is enclosed.

2. It has become evident that the CIS has recruited several operatives for work in Italy, with particular emphasis on military targets.

1. SUBJECT is a visa applicant. Intelligence Division has requested that [REDACTED] and [REDACTED] who reside at [REDACTED] be interviewed for any derogatory information concerning SUBJECT.

2. A check of Central Registry files revealed that SUBJECT was reported by one [REDACTED] as having admitted having an assumed position within the Cominform organization. SUBJECT is a cameraman who was scheduled to leave Czechoslovakia for the United States. In view of the fact that there was a critical shortage of cameramen within Czechoslovakia and as the Czechoslovakian government has not, to source's knowledge, granted visas to cameramen for travel in western countries, source was convinced that the Czechoslovakian government approved SUBJECT's exit only because SUBJECT will remain active in Hollywood for the Cominform.

SUMMARY OF INFORMATION

1. On 8 January 1952, [REDACTED], born [REDACTED] at [REDACTED] presently residing at [REDACTED] reported the following: On 6 January 1952, [REDACTED] was visited by [REDACTED] a former school associate. [REDACTED] attended school with [REDACTED] during the years of 1934 and 1935; however, at this time [REDACTED] was using the first name [REDACTED] instead of [REDACTED]. [REDACTED] contacted [REDACTED] on 6 January 1952 and requested that he [REDACTED] attempt to recruit three (3) or four (4) former German Army officers in the PASSAU area for counter espionage duty under the alleged protection of the German Federal Government and the US Occupation Forces. [REDACTED] informed [REDACTED] that he would be made controlling agent in the PASSAU area, and that he would receive his instructions and operating funds through couriers at a later date. [REDACTED] procured [REDACTED] personal background data and instructed [REDACTED] to forward three (3) passport photographs as soon as possible (LEAD) to his [REDACTED] home at [REDACTED] c/o [REDACTED]. [REDACTED] stated that the photographs were for the files of his organization and for use in issuance of a false kennkarte. The latter statement, according to [REDACTED] would not be feasible as he [REDACTED] is known by the majority of the citizens in PASSAU through his employment with the City Construction Office, PASSAU, and for this reason would be unable to use a false kennkarte. (F-6)

2. On 14 January 1952, the records of the Registry, Reg V, 66th CIC Det, REGENSBURG (M50/U15), Germany, were checked and revealed no record of [REDACTED] (B-2)

1. Attached Summary of Information, subject and file as above, dated 2 April 1952, is forwarded for your information.

2. Attempts were made to obtain information concerning the four persons mentioned in attached SOI from the German Border Police. It was their belief that this information was strictly within their jurisdiction. This Region was referred to the German District Attorney for the information wanted. The American District Attorney in REGensburg (M50/U15) was contacted in an effort to obtain the information through his office. No information has been received from the District Attorney's office to date. It is now contemplated by this Region to go directly to the Ministry of Justice in MUNICH and obtain permission to interrogate the four people concerning their relationship with [redacted] and [redacted] suspected Czech Intelligence agents.

XII-1114.8; X-3881

On 28 February 1952, [REDACTED] born [REDACTED] in [REDACTED] presently serving five (5) years for espionage, was interviewed at War Criminal Prison No. 1 in LANDSBERG (M49/Y34). (A-1) It was alleged that [REDACTED] as he was sent to prison, had mentioned that SUBJECT was more deeply involved in espionage than he and had never been bothered; while he [REDACTED], a relatively minor figure, had been sentenced to several years.

[REDACTED] stated that he has no direct knowledge nor any proof that SUBJECT is engaged in espionage, but merely suspects that this might be so because SUBJECT is a Czech and has made numerous trips to Czechoslovakia and to the Soviet Zone of Germany. For this reason, [REDACTED] believes that SUBJECT has given his [REDACTED] name to agents in Czechoslovakia as a likely prospect for recruitment into intelligence work for the Czechs. Furthermore, SUBJECT was destitute shortly after the war, but in 1949 he appeared to be quite wealthy and even built himself a new house. Late in 1950, SUBJECT bought a new Mercedes automobile. [REDACTED] stated that SUBJECT and his wife own a small radio shop in BREMERHAVEN, but suspects that he could not have become so wealthy from the profits of this business alone. In conclusion, [REDACTED] declared that, except for the above mentioned suspicions, SUBJECT was in no way connected with the activities for which he [REDACTED] was sentenced. Although his wife and SUBJECT's wife are old friends, [REDACTED] and SUBJECT are only very casually acquainted. (E-6)

[REDACTED] claimed that he has never heard of the names, [REDACTED] or [REDACTED]. The name of [REDACTED] seemed familiar to [REDACTED] but he could not remember where he had heard it before. (E-6)

On 3 March 1952, the files of Regional Registry, Region XII, 66th CIC Detachment, AUGSBURG, Germany, were checked and no record was revealed concerning SUBJECT. (E-2)

On 23 December 1951, [REDACTED] was interviewed and the following information was determined: He [REDACTED] was born on [REDACTED] in [REDACTED]. From June 1949 until the time of his departure he was employed in a coal mine at KRAIHOF, Czechoslovakia. He left this area with [REDACTED] his girl friend, and his son in the latter part of October 1951. He went to GIESBES (nca) by ERFURT (Soviet Zone) to [REDACTED] where he left his two and one-half year old son with his mother who resides at that address. He remained there for three days, then proceeded with [REDACTED] toward the home of his brother, [REDACTED] at [REDACTED].

On 1 November 1951, at WITZENHAUSEN (L52/C40), he and his girl friend were interviewed by an American intelligence organization. He then proceeded with his girl friend to the home of his brother. He obtained employment in KIRRLACH (L50/R67) at the "Zum Kopf" inn. He and his girl friend are currently residing in KIRRLACH at [REDACTED]. [REDACTED] had in his possession a Flue. Ausweis (Reg. Bez. [REDACTED]) issued in BRUCHSAL on 21 December 1951, and a pink identification card which he stated had been given to him by the above mentioned intelligence organization. [REDACTED] was processed through the FRIEDLAND (L52/C51) Fluechtlingslager, exact date unknown, according to written information furnished by the [REDACTED] through the Resident Officer. (b) (7) (C) (F-6)

Interview of [REDACTED] on 23 December 1951 revealed that she was born on [REDACTED] in [REDACTED]. She related essentially the same information as [REDACTED]. She possessed a Czechoslovakian identification book and a similar pink card received from the aforementioned intelligence organization. Information furnished by [REDACTED] and contained on her pink card indicated that she had fled Czechoslovakia because of espionage activities against Czechoslovakia. (b) (7) (C)

Photographic negatives of the identification book in possession of [REDACTED] are attached as an exhibit.

Adolf HEUSINGER

1. Former Major General and Chief of Operations in the General Staff, Adolf HEUSINGER, was born on 4 April 1897 in HOLZMINDEN, Lower Saxony, as the son of a high school teacher. He attended elementary and high school in HOLZMINDEN. After graduation from high school in February 1915 he volunteered as officer candidate in the German army. He was commissioned a 2nd Lt in 1916 and retained after the collapse of 1918 in the newly formed skeleton army of the Weimar Republic.

2. In 1922 he was detailed to attend the War College, and after completion was assigned permanently as a Captain to the General Staff. In 1937 HEUSINGER was detailed to the operations section of the General Staff and continued to function in same continuously until 20 July 1944. He was in charge of this section during the last years of the war. In 1943 he was promoted to the rank of Generalleutnant (Major General).

3. By nature and conviction HEUSINGER was an opponent of the war policies propagated by Hitler. As a soldier, however, he considered it his duty to live up to his oath of allegiance and perform his duties as prescribed by his superiors. This loyalty is again exemplified by his passive attitude towards the Hitler plot of 20 July 1944. Although HEUSINGER knew from his work in the General Staff that the war was being lost primarily due to Hitler's inability as military leader, and continuation would mean useless sacrifices, he could not be persuaded to participate in the plot and was hard pressed by his conscience to protect his colleagues involved in the plot by remaining silent. He was nevertheless arrested after the 20 July as an automatic suspect but released again after two months. After 1945 HEUSINGER found refuge in MUNICH, where he devoted himself to literary tasks. His permanent residence is still listed as [REDACTED] and is occupied by his family.

(b) (7) (C)

4. Late in 1950 HEUSINGER, together with former [REDACTED] was appointed military advisor to the Federal Chancellory and as such brought in contact with the then newly established BLANK Office. His choice for that appointment was based on the following personality characterization on which most of his former colleagues agree: "Typical staff officer of the old school (Reichswehr). Today regarded as a walking military dictionary; man of blind obedience, fascinated by the strong personality of Dr. ADENAUER and completely under his influence."

5. Due to his former position as chief of operations section of the General Staff, HEUSINGER was able to establish immediate working

contact with such other military protagonists as former Brigadier General GENLEN and his intelligence organization, and former Colonel [REDACTED] also a military advisor to the Federal Chancellor and considered Dr. ADENAUER's personal military intelligence evaluator. Whereas in the beginning HEUSINGER's activities as military advisor to the Federal Chancellory were sporadic and part-time only, they have in the recent past become more and more detailed and steady. He is now devoting his full time to his job in BONN, while his colleague, [REDACTED] is acting as liaison representative to the Western Powers' military staffs in PARIS.

SUMMARY OF INFORMATION

1. On 25 October 1951, Sources A and B reported that they suspected the FURTH IM WALD (N50/U79), Germany railroad station of being both a letter drop and a meeting place for Czech agents operating in the US Zone of Germany. This station is the only legal rail crossing point between Germany and CSR in Southern Bavaria (between SELB (M51/-P18) and EISENSTEIN (N50/U97), Germany). A Czech passenger train arrives daily at 0900 hours and two (2) to three (3) Czech freight trains arrive at irregular hours each day. Twelve (12) Czech railroad employees are assigned to the station, in three (3) groups, each group working a full 24 hour shift. A portion of the station is set aside for use by the Czech Government and the Czech employees are restricted to this area; however, the security measures are very lax, a condition which encourages covert activities. Sources A and B stated that of the twelve (12) Czech employees working in the station, the following five (5) are suspected of activities inimical to the best interest of both the American Occupation Forces and the West German Federal Government: (1) [REDACTED] born [REDACTED] (2) [REDACTED] born [REDACTED] (3) Josef SKUHRAVY, born 12 March 1892; (4) [REDACTED] born [REDACTED] (5) [REDACTED] born [REDACTED]

Sources A and B stated that [REDACTED] born [REDACTED] in [REDACTED] and [REDACTED] born [REDACTED] in [REDACTED] are known to be pro-communist West German railroad employees assigned to the FURTH IM WALD station. These three (3) individuals have been seen visiting the Czech portion of the station and have been overheard conversing with the various Czech employees in the Czech language. Sources A and B view these visits with a great deal of suspicion as the three (3), who under normal conditions have infrequent contacts with the Czech rail employees in the pursuit of their duties, have been on several occasions seen visiting the Czech office. The three (3) German employees are supposed to contact the Czech office for the purpose of picking up waybills and like material; however, they have been seen to pass packages and letters to the Czech employees. According to Sources A and B the Czech trains prior to departing for the CSR from FURTH IM WALD are merely spot checked by German rail police. The Czech employees riding these trains are rarely checked by the German Rail Police and consequently transmission of information to the CSR could be easily accomplished.

Czech Agent Gets 82 Months

By HOWARD KENNEDY, Staff Correspondent

FRANKFURT, Sept. 13 (S&S)—The HICOG chief attorney's office recommended yesterday that West German industrial firms be prosecuted and punished for knowingly shipping prohibited war-potential goods to Soviet-orbit countries.

The recommendation came shortly after Frankfurt HICOG Court sentenced Czech industrial superagent Gustav Davidovic to prison terms aggregating six years and 10 months.

Davidovic Tuesday pleaded guilty to nine counts of illegally rerouting

\$318,000 worth of restricted machinery and equipment out of Germany to Communist-dominated Czechoslovakia, and to two counts of illegal entry and residence in the U.S. Zone.

The 47-year-old Czech agent, whose confession of guilt and refusal to stand open trial came as a surprise Tuesday will serve his 82-month sentence in the German prison at Butzbach.

It was investigation of the Davidovic case which exposed the Snow-

ing complicity of German manufacturers in flouting Allied embargoes, according to Thomas C. Lancian, assistant HICOG attorney, who prosecuted the Czech agent.

Lancian said his investigations showed that the German firms invariably knew their transactions with Davidovic violated Allied restrictions designed to prevent war-potential materials from reaching Iron Curtain countries.

"I am recommending that every possible step be taken to prosecute and punish these German firms," Lancian declared.

The assistant prosecutor revealed

that some of the firms who illegally did business with Davidovic since the outbreak of the war in Korea have been recipients of U.S. Marshall Plan funds to aid them in getting back on their feet in the postwar period.

Nine Charges

He said he would recommend not only the criminal prosecution of the involved firms, but also the withdrawal of ECA funds which may have been allocated to them, and the shutting off of their export-import business with the U.S.

Before sentencing Davidovic to nine months in prison for each of the nine illegal rerouting charges,

HICOG Judge De Witt White delivered caustic comments on the pleas of defense counsel Dr. Werner Stock that there were extenuating and mitigating circumstances.

Stock declared Davidovic endured four years of confinement in Nazi concentration camps during the last war, and that his first wife and child were put to death in the Auschwitz gas chambers.

"It is hard for the court to believe," White commented, "that any intelligent man like Davidovic would continue to work for another dictator's government after the experience he had with the Nazi regime."

He was in India and Burma until 1938 when he returned to Germany and started studying to be an electrical engineer at the Deutsche Akkumulatorenbau (German Storage Battery Construction Co.) in HERDECKE. He later worked for the same firm in DORTMUND and in WARTHENAU (053/886). From September 1939 to August 1940, SUBJECT served his duty year with the RAD by serving with the German Merchant Marine. During this time his health became seriously impaired as a result of malaria which he had contracted while in the Far East. He was declared physically unfit for military service. In 1940 he started working for an electrical firm in POSEN where he remained in a leading position until the capitulation. In 1941 SUBJECT joined the NSDAP and in the same year he married [REDACTED]

[REDACTED] born [REDACTED] in [REDACTED] they were divorced in BREMEN on 1 December 1945. After the war SUBJECT was interned for a short time by the British in Westphalia for his political activities during the war. He worked on the partial dismantling of the Deutsche Akkumulatorenbau plant in HERDECKE in 1945 and 1946; on 20 December 1945 he married his present wife in DORTMUND, and in the spring of 1946 he came to BREMEN to live.

From 31 May 1946 to 22 July 1946 he worked as an engineer for the firm KMD in HAMBURG (L54/855); from 22 July to 26 August 1946 he worked as a laborer at the Kraftwerk Unterweser (power plant) in FARGE; from 1 September 1946 to 14 February 1947 he worked for the US Army as a guard at the BLUMENTHAL Quartermaster warehouse; from 14 April 1947 to 31 May 1947 he worked as a driller's helper for the firm TURBA, an oil company in TRUPFELSMOOR (L54/R71); from 3 June 1947 to 16 September 1947 he worked for various American units in BREMEN/Nord as a driver and a guard (watchman) until he was discharged due to a reduction in personnel; from 20 October to 25 October 1947 he worked as a laborer with the JUNGZIK Construction Company of BREMEN; from 3 November 1947 to 4 March 1949 he worked as a clerk with the Hamburg-Mannheimer Life Insurance Company; on 23 February 1949 he applied for a license to operate as an insurance agent. On 23 March 1949 he registered as a tradesman and on 1 July 1949 he started working for the Karlsruher Life Insurance Company as the company's agent in BLUMENTHAL. He worked in this capacity until 1 April 1950 after which he was registered as unemployed until 26 September 1950. 9. REFERENCE TO PREVIOUS REPORTS:

SUBJECT was the source of Agent Report, Subject and File Number as above, dated 8 March 1951.

10. REASON FOR INVESTIGATION:

SUBJECT was contacted by mail by representatives of CSR intelligence in an attempt to recruit him for alleged espionage activities. Reference is made to Part 4, Section I, Paragraph 118, Orientation and Guidance Report, Headquarters, 66th CIC Detachment, EUCOM, dated 9 July 1948, as currently amended, wherein the activity of CSR intelligence agents is listed as a target of this organization.

11. RESULTS OF INVESTIGATION:

- a. On 9 March 1951, SUBJECT was tried in BLUMENTHAL on two (2) different counts of fraud; he was tried with two (2) other persons, [REDACTED] and [REDACTED] (see Paragraphs 7d and 7e above) both of whom were acquitted; SUBJECT was convicted and sentenced to six (6) months imprisonment. Information received from the State's Attorney's Office in BOSTON was to the effect that through his lawyer SUBJECT had appealed the sentence, but that the appeal would probably be denied and in all probability SUBJECT would start his sentence between 1 and 15 June 1951.

SOURCE: [REDACTED]

(F-2)

- b. A contact of this office was instructed to call on SUBJECT and attempt to make friends with him thereby determining his personal habits and learning something about his family life; this was accomplished on [REDACTED]. Evidently SUBJECT thought Source was a member of the CSR intelligence service as he readily revealed that he had sent a card to [REDACTED] in TEPLICE, CSR, about three (3) weeks before and that he had been expecting a visit from a representative of [REDACTED]. SUBJECT revealed that he had originally had contact with CSR intelligence as early as 1945, but he did not elaborate on this. He remarked that he had several American acquaintances and he had a lot of German friends who worked in the nearby POL Storage Depot in PAROE. Source reported that SUBJECT impressed him as being a pathological liar of below average intelligence and that he was only attempting to make a good impression, thereby hoping to be "hired". Source was of the opinion that SUBJECT would do almost anything if it meant his earning money and that he would operate without scruples and for both sides. Source left SUBJECT, saying that he would return in a "few weeks".

- c. On 18 April 1951, technical coverage on SUBJECT revealed that on 17 April 1951 a letter was posted to SUBJECT from FURTH (WALD) (N50/U79). The letter, with the return address [REDACTED] read as follows:

"Dear [REDACTED]

I received your letter with your agreement. I shall handle the matter personally. As we need to discuss details as to the type of work, payment, contacts, etc., it is necessary that we meet personally. Here is my suggestion:

You come to the CSB-Bavarian border where I shall await you and we can take care of our business. I shall describe the route you should follow to the town where we shall meet. Go to SCHIRNDING in Bavaria along the route NUERNBERG-MARKTREDWITZ-ARZBERG. From SCHIRNDING take a bus to HOHENBERG. Get out of the bus at the last stop in HOHENBERG and walk in the direction of SOMMERHAU. I shall wait for you on the asphalt street past HOHENBERG on 23 April 1951 between 1900 and 1930 hours. Please take the bus that arrives in HOHENBERG at about 1900 hours. If you agree and you will be there on 23 April 1951, please send me a card with greetings, signed only with your first name

Heartiest greetings,
[REDACTED]

The envelope was addressed to [REDACTED]

- d. SUBJECT had agreed to notify this office if he was contacted by [REDACTED] either through a representative or by mail. When SUBJECT had apparently made no effort to notify this office within a reasonable lapse of time after he should have received the second letter from [REDACTED] Source was instructed to call on SUBJECT again on [REDACTED] in order to determine if he had kept the appointment near HOHENBERG (N49/U75). (A-1) SUBJECT told Source he had expected to have heard something positive from [REDACTED] by that time, but so far this was not the case. SUBJECT remarked that he had read in the newspaper of a Czech espionage net in FLENSBURG (L55/C29) being uncovered recently and he thought [REDACTED] was probably "laying low" for the time being.

- e. On 27 April 1951, an Agent from this office called on SUBJECT to inquire if he had received any word from [REDACTED] either through the mail or by a visit. SUBJECT stated that he had mailed a greeting card to [REDACTED] on or about 8 March 1951, with the following message: "Dear [REDACTED] Heartiest greetings on your birthday, from [REDACTED] and wife" [REDACTED] Herzliche Glueckwunsche an Dein Geburtstag, von [REDACTED] und Frau". He wrote no return address on the card. (F-6) He denied having been contacted in any way and stated he doubted if he would be contacted as the time lapse had been too long; he considered it a closed matter and tried to change the subject. He mentioned nothing of the second letter from [REDACTED] and failed to mention being visited twice by Source. He restated his promise to notify this office immediately if he was contacted further in any way.

- f. Source reported the following information regarding SUBJECT, which information he had received on 4 May, 8 May, and 17 May 1951, from [REDACTED] a friend of his and SUBJECT's: SUBJECT is against the present West-German Government; he made the statement recently that it is immaterial to him what type of work he does so long as he is satisfied with it and it pays well. He was denazified in BREMEN and apparently had some difficulty during the process; for some unknown reason he blames this on the Americans. Frequent visitors to SUBJECT's home are [REDACTED] and his wife, and [REDACTED] (see Paragraphs 7f and 7g). SUBJECT and his wife planned to make a trip to BERLIN (W53/275) with [REDACTED] and his wife, leaving about 14 May 1951, but at the last minute the trip was postponed for unexplained reasons. [REDACTED] allegedly has relatives in West BERLIN and intended to visit them; SUBJECT and his wife intended to visit relatives of SUBJECT's wife in BERLIN/WEISSENSEE (W53/285); names and addresses of the persons to be visited in BERLIN have not been established as yet. SUBJECT currently sells radios and bicycles under the firm name of [REDACTED] the business being in his wife's name. They obtain the bicycles from a wholesaler, [REDACTED] and sell them on a commission basis. In 1949 and 1950 SUBJECT sold electrical appliances for the firm [REDACTED] SUBJECT has several

- g. On 5 May 1951, files of Auskunftel W. SCHIMMELPFENG, BREMEN, credit investigators, were checked regarding SUBJECT and revealed the following information which was obtained by them from the Hamburg-Mannheimer Insurance Company:

[REDACTED] worked for us until February 1950. During this time it was determined, however, that he did not handle his affairs properly. At present we have claims of approximately 2,000 DM against him, but the files are in our claims section in HAMBURG. Further details in this matter are not known. It is important to warn other firms about [REDACTED] so that they do not become involved in the same way. Because of the above mentioned case, [REDACTED] can in no way be recommended by our firm. [REDACTED] makes a crafty and changeable impression and he seems somewhat flighty. When he worked for us he earned good money and it was not necessary for him to act in the manner in which he did."

SOURCE: [REDACTED]

(B-3)

- h. On 9 May 1951, [REDACTED] BREMEN representative of the Karlsruher Life Insurance Company, was contacted and he produced a similar report on SUBJECT as mentioned in Paragraph 11g above. He explained that the information was furnished to his firm by the Verein Deutscher Lebensversicherungen (Association of German Life Insurance Companies), an insurance investigation company with headquarters in FRANKFURT (L51/M67). [REDACTED] revealed that SUBJECT was employed by his firm from July 1949 to April 1950 during which time he was the company's representative in BREMEN/Nord. SUBJECT impressed Source as being cunning and crafty, and the type of person who would always plot to gain personal advantage; SUBJECT embezzled 300 DM from the firm, and there is currently court action being taken against him. SUBJECT made several false statements to Source, regarding his education and activities during the war.

12. ACTION TAKEN AND/OR BEING TAKEN:

- a. Contact with SUBJECT will be maintained through Sources of this office in order to observe his current activities.
- b. Technical coverage will be maintained on SUBJECT.

13. COMMENTS:

- a. Initially, investigation was aimed at "neutralization" of SUBJECT. However, it is felt that such neutralization at this time could only be accomplished by a direct interrogation of SUBJECT. Such an interrogation would reveal that this office has knowledge of the second letter from [REDACTED] who is in a position to closely observe SUBJECT's activities. As SUBJECT is expected to start his prison term within the next two (2) or three (3) weeks, it is felt that he may be more willing to volunteer information if contacted in jail, possibly believing it may help him to be released sooner.
- b. According to SUBJECT's original story, he mailed a letter to a tradesman's newspaper in WURZBURG (L30/N53) and was subsequently the recipient of the letter from [REDACTED] offering him a job; the letter he wrote was signed [REDACTED] (a carbon copy of the letter was furnished by SUBJECT) and he enclosed a self-addressed envelope with his address as [REDACTED]. When SUBJECT turned the original letter over to this office the envelope in which it allegedly came was addressed to [REDACTED]. According to SUBJECT's story, he signed the greeting card to [REDACTED] with [REDACTED] and wife", but wrote no return address. However, the second letter to SUBJECT was addressed to [REDACTED] and instructed SUBJECT to write, using his first name [REDACTED] (SUBJECT's name is [REDACTED]). SUBJECT's wife, [REDACTED] is listed as being the owner of the firm operated by SUBJECT, and on SUBJECT's door there is a nameplate reading [REDACTED]. It is the belief that there has either been more correspondence between SUBJECT and [REDACTED] than is known to this office or [REDACTED] has sent someone to BLUMENFELT to investigate SUBJECT.

3. SUBJECT was interrogated by Region IV in August 1950 and February 1951, and on each occasion SUBJECT denied any connection with espionage activities. He readily agreed to appear at this headquarters in order to undergo a polygraph test, but on 14 March 1951 when Region IV agent went to get SUBJECT, it was found that he had disappeared with his wife and child, after telling his landlady that he was emigrating to Canada. A check with the Canadian Displaced Persons Commission in MUNICH indicated that SUBJECT had never registered with that organization and could not have gone to Canada.

4. It is requested that SUBJECT's name be placed on your watch list, and if he appears in your area this headquarters should be notified by the most expeditious means.

Suspicion of Espionage by Foreign Agents of Czechoslovakia

The bookkeeper, residence in ULLENDORF, Kreis-BREMENACH/Riss, employed at the Safe Factory-UBERCKEN in SCHUSSENRIED, received in answer to an inquiry for a position as bookkeeper, at the end of January, 1951 a letter with the letterhead:

CZECH INTELLIGENCE
COVER ADDRESS.

In this letter was reported that there was a good position open for her, and knowledge of her address was requested.

sent a postcard at the beginning of February 1951, to the above-mentioned foreign address. On the 13th of March 1951, an unknown man appeared, presumably from a MUNICH Information Office, announced himself to the Mayor of ULLENDORF and at the firm RES. LE in ULLENDORF (a former place of employment of) and looked up in her place of business on the same day. He questioned her on her personal circumstances and stated, in closing, that she would hear from him.

On returning from work in the evening, she found the second letter from dated 25 February 1951. In it, she was told to pick up information in FREIBURG and vicinity. In addition, she also received the enclosed letter sent from MUNICH.

The return of this letter is requested after evaluation. Attempts of the Land Police and the Surete to learn particulars through were unsuccessful. Since apparently works through a MUNICH middleman, this incident is brought to your attention.

4. [REDACTED] German National, was interviewed at the 1st CIC Office, BAD TOLE (M48/TS1) on 29 September 1950. [REDACTED] stated substantially as follows:

- a. On Sunday, 24 September 1950, at approximately 1515 hours, one [REDACTED] (phonetic) came to [REDACTED] residence. [REDACTED] wanted to have a private talk with [REDACTED] about his parents who still reside in the CSR. [REDACTED] desired that their conversation not be held in [REDACTED] residence so they proceeded to an isolated spot along the railroad tracks. [REDACTED] stated that [REDACTED] parents were in danger and needed their son's help. [REDACTED] had a message from [REDACTED] parents. [REDACTED] produced a postal card which had the upper right hand corner, a horizontal piece of the bottom of the card, and a vertical piece of the left side of the card cut off. with translations. [REDACTED] allegedly received the postal card from some gentlemen on the Czech-German border. The postal card had been mutilated by these gentlemen so that the card could be used as a means of identification by putting the missing pieces together with the section which [REDACTED] now gave to [REDACTED]

- b. [REDACTED] requested that [REDACTED] meet him in MUNICH on Saturday, 30 September 1950. [REDACTED] was to wait for [REDACTED] on the corner of Bahnhof Platz and Schutzengasse in front of "Herties" Department Store at 0745 hours. [REDACTED] stated that he owned a motorcycle and that they would go by motorcycle to LANDSHUT (M49/020), STRAUBING (M49/054), ZWIESEL (M50/008) and then to a pre-arranged spot on the Czech-German border. In case of inclement weather they would take the train. [REDACTED] stated that he would personally lead the way across the border to the CSR for the rendezvous with the gentlemen from the Ministry.
- c. The gentlemen from the Ministry desired to give [REDACTED] instructions as to what they wanted. [REDACTED] was also to have the chance to visit his parents while he was in the CSR. [REDACTED] would act as the guide on the return trip to Germany on Monday morning, 2 October 1950. [REDACTED] reassured [REDACTED] that he would not leave the CSR empty handed but would be rewarded with several hundred Deutsche Marks. [REDACTED] stated that the Czechoslovakian Government needed people to furnish them with information. The Ministry needed a man in the BAD TOSLE region of Bavaria and would make ample rewards for all information they received. This information could be forwarded to letter drops. The gentlemen from the Ministry would give [REDACTED] the addresses of these letter drops. If [REDACTED] cooperated, his parents would also fare much better in the CSR.
- d. [REDACTED] told [REDACTED] that he could not go on Saturday, 30 September 1950, because he had to work. [REDACTED] became very excited stating that [REDACTED] had to go as everything was all ready arranged. The gentlemen from the Ministry would be waiting and if [REDACTED] did not go, his parents would suffer the consequences. [REDACTED] argued that it was too risky to go, that no one could guarantee his safety. [REDACTED] claimed that it was not risky, that he had made the trip many times and that once [REDACTED] made the trip he would see how easy it was and would not hesitate to make a second trip. [REDACTED] stated that he had been working in this manner for a long time because he needed to earn extra money to support his wife and three (3) children.
- e. [REDACTED] told [REDACTED] that he did not work in the 1st Division Motor Pool any longer but had an office job. [REDACTED] claimed that this was even a

better job for obtaining information, that the Ministry was looking for people of this type. [REDACTED] told [REDACTED] that in order for him to get off from work on Saturday, [REDACTED] was to rub soap in one of his eyes. This would cause an irritation. [REDACTED] could then state that he was going to the doctor. [REDACTED] was to tell his friends that he was leaving for the week-end to attend a wedding in MUMLDORF (n.c.a.). [REDACTED] requested that [REDACTED] not tell anyone about the purpose of [REDACTED] visit.

f. [REDACTED] stated that [REDACTED] took a very friendly attitude during the entire conversation and continually urged that [REDACTED] accept the proposition or else his [REDACTED] parents might be harmed. [REDACTED] instructed [REDACTED] not to take any baggage with him only a shaving kit and an extra shirt. [REDACTED] would be supplied with all other personal needs by the gentlemen from the Ministry.

g. [REDACTED] questioned [REDACTED] as to where he was employed. [REDACTED] replied that he worked for "Firma Burth" in MUNICH.

5. On Tuesday, 3 October 1950, [REDACTED] was again interviewed at the 1st CIC Office, BAD TOELZ. [REDACTED] reported that he had met [REDACTED] in front of "Herties" Department Store in MUNICH on Saturday, 30 September 1950. [REDACTED] told [REDACTED] that he could not accompany him to the CSR. [REDACTED] stated that he had not been granted his leave by the 1st Military Police Company as had been scheduled in that there was too much work to finish. [REDACTED] was to receive his vacation about the middle of October 1950. [REDACTED] stated that he would be willing to accompany [REDACTED] to the CSR while he was on leave as this would not cause any suspicion. [REDACTED] stated that he would write a letter to the CSR and try and arrange for a new meeting date with the gentlemen from the Ministry. [REDACTED] asked [REDACTED] to be prepared to depart for the CSR on Sunday, 15 October 1950. [REDACTED] was to come to MUNICH the night before and remain in MUNICH overnight. [REDACTED] and [REDACTED] would then take an early train from MUNICH to PASSAU (W49/421) thence to PLATTING (W49/073) and ZWIESEL. [REDACTED] was to bring his bicycle along. [REDACTED] and [REDACTED] would proceed on bicycle from ZWIESEL to a place near HAYRISON HIRSHSTEIN (W50/097) where the road runs approximately sixty (60) feet from the Czech-German border, where they would cross. [REDACTED] stated that the gentlemen from the Ministry would take [REDACTED] to see his parents. [REDACTED] would wait for [REDACTED] return and escort him back across the border to Germany. [REDACTED] promised to write a postal card to [REDACTED] to let him know if the gentlemen from the Ministry agreed with this postponed meeting date.

6. On 4 December 1950 discreet records checks of the German agencies in MUNICH were made to determine if [REDACTED] was employed by the Firma "Burth", Solzstrasse 17, MUNICH. These checks indicated that [REDACTED] was not

employed by this firm. Two persons with the family name [REDACTED] were employed, one [REDACTED] and one [REDACTED]. Personal descriptions and photographs of [REDACTED] and [REDACTED] were obtained from the German Police Præsidium. (See EXHIBITS "B" and "C")

7. [REDACTED] was again interviewed at the 1st CIC Office, BAD TOBIS on 28 December 1950. He stated that he had not received any further visits from [REDACTED] nor had he received the promised postal card which was to establish the meeting date in October 1950 with the gentlemen from the Ministry. [REDACTED] had received word from his sister, [REDACTED] who resides in the Russian Zone of Germany, that his parents were all right. [REDACTED] stated that he personally had not received any further correspondence from his parents.

[REDACTED] was shown five (5) photographs among which were the pictures of [REDACTED] and [REDACTED] (EXHIBITS "B" and "C"). [REDACTED] stated that he did not recognize any of the five persons.

8. On 4 January 1951 [REDACTED] reported that he had received two (2) postal cards from his sister, [REDACTED] who resides in RUMSTORF (W49/V12). The postal cards were addressed to [REDACTED] and were from [REDACTED] parents. One postal card is dated 4 September 1950 (see EXHIBIT "B") and the other 22 September 1950. The postal card written on 4 September 1950 is written in German from the father and in Czech from the mother. The postal card is entirely personal with one exception, this being: "Write to [REDACTED] and tell him that if he gets a letter or postal card which requests him to visit some men that in no case should he travel even one step and he should not listen to anything they say". [REDACTED] stated that his sister had not told him of this and had only sent the postal cards after he wrote to her and asked her to send him all of the postal cards she receives from their parents. [REDACTED] maintains that his mother want to forewarn him of the pending visit to recruit him for intelligence work.

9. UNDEVELOPED LEADS AND FUTURE ACTION:

Identification of [REDACTED] and surveillance of his activities. No direct investigation is contemplated by this Region, however, should [REDACTED] come to the attention of this Region during the normal course of investigation, report of same will be forwarded. [REDACTED] agreed to notify this Region of any further contacts made by SUBJECT or any other person from Czech intelligence.

10. AGENT'S NOTES:

a. Background Information:

[REDACTED] stated that he was not willing to accompany [REDACTED] to the GNR or to appear in a trial as a witness in the prosecution of [REDACTED]. There-

fore, reference paragraph 5, above, [REDACTED] told [REDACTED] that he could not accompany him to the CSR at this time but would have to postpone it for awhile. Attempt was made to surveil [REDACTED] during this meeting with [REDACTED] on 30 September 1950. [REDACTED] came to the appointed meeting place approximately two (2) hours late. The surveillance was dropped about an hour before the arrival of [REDACTED] to avoid compromise. It was felt at that time that [REDACTED] would continue to contact [REDACTED] and that another discreet surveillance could be conducted at a more opportune time. However, as indicated in the above findings, [REDACTED] did not contact [REDACTED] after 30 September 1950.

b. Clarifying Comments:

[REDACTED] did not clarify the persons he meant by saying the "gentlemen from the Ministry", however, it must be assumed that he meant the Ministry of Interior.

(b) (7) (C) Agent's Opinion:

- (b) (7) (C)
(1) It is the opinion of this Agent that [REDACTED] is utilized by Czech intelligence as a recruiting agent only. [REDACTED] did not desire to take reports from [REDACTED] but insisted that [REDACTED] deliver them personally, that he merely dealt with assisting people in crossing the border.
- (2) Reference paragraphs 6 and 7, above, [REDACTED] did not identify [REDACTED] nor [REDACTED]. The personal description of these two is not identical with that of SUBJECT. It must therefore be assumed that either [REDACTED] is not employed at the firm "Hurtz" or the name [REDACTED] is an alias.

Dear Son:

Today we received your postal card, dated 2 September 1950, and thank you for it. So you were on a trip for four (4) weeks. We would be interested in knowing where you were. We are pleased to hear that you are well and that you are getting along all right. *****mutilated section***** Uncle left a week ago and sends his greetings to you. Mother also, during the cold rainy spell, had pains in her leg. We send greetings to your girl friend. We do not know anything new about Pecky (?). We might go to Patosky (?) next Sunday. Be well and write us a few lines soon. We send you hearty greetings and love you,

your parents.

Dear Darling:

You wrote very nicely to us. I am well again. Yes dear son, if we two shall meet again it will be up to the stars (idiomatic expression). There is want here and it is slowly leading toward the end of life. Every person meets with something when he is seventy-one (71) years old. I am not surprised. With me it is my feet. I walk the streets every day but it does not last long, about one hour *****mutilated section*****.

SUBJECT: Roster of Czech Agents

TO: See Distribution

1. Transmitted herewith for your information and retention is a partial list of the Czech agents identified as such in the files of Central Registry. The list is intended to serve as a ready reference. Further details concerning any of the persons named will be supplied upon application to this headquarters.

2. The terms "Confessed", "Known", and "Suspected", have been used broadly. The first two descriptions have been applied to those Czech agents who have been convicted and jailed for espionage activities, or expelled from Germany, or who have continually been reported upon by reliable sources. The term "Suspected" applies to most of those low level agents who have not been prosecuted due to lack of evidence.

3. It is probable that many of the persons named in the inclosure were at one time suspected of Czech espionage activities, but that subsequent disclosures have cleared them of such suspicion. It is requested that regions having information to this effect report same to this headquarters in order that the files may be amended accordingly.

4. The periodic publication of additions to the attached list is planned.

VII-2531; XI-509, Region VII, 1 February 1951, subj: SUDETEN GERMAN COMMUNIST ACTIVITIES.

4. Reference is made to paragraph 6 a and b, AR, Region XI, subject and file as above, dated 30 August 1950. Investigation of leads mentioned in this paragraph revealed the following:

a. There are two persons residing in HOF by the name of [REDACTED]

He became an early sympathizer of the NSDAP and a member of the party in 1931. To date LOCHNER is still inclined towards the national-socialist ideology and has never been known to conceal his feelings. X-2-VII stated that LOCHNER's political attitude is described as being far to the right and is absolutely opposed to Communism. (B-2)

b. A check of local German official records revealed that there are 38 families or firms in HOF by the name of STEINHAUSER. Investigation of the families and/or firms revealed no derogatory information. (B-2) Inasmuch as this lead is pretty slim further investigation is not deemed feasible.

1. There appears to be considerable confusion, not only in CIC but in HICOG as well, regarding the procedure to be followed in effecting expulsion from the US Zone of Undesirables. The recent case of [redacted] confessed Czech espionage agent, who was expelled from the Zone on 23 November 1950, has provided a series of documents showing a clear channel from the CIC region to the HICOG Board on Expulsion. Copies of those documents are inclosed herewith for your information, and as a handy reference should cases similar to that of [redacted] arise in your region.

2. It is felt by this headquarters that expulsion of known agents is an effective means of neutralization, if other courses of action fail.

3. The statement in [redacted] confession that he "surrendered" himself to German police is misleading and would cause one to believe that [redacted] had no intention of committing espionage. As a matter of fact, [redacted] was instructed by his Czech superiors to report himself to German police as an illegal border crosser, and proceed through normal channels to a Czech refugee camp.

I, [REDACTED] illegally crossed the border from Austria into Germany on 20 September 1950, and surrendered myself to the German Border Police at LACKENHAEUSER. On 28 June 1950, I joined the Offensive Department of the State Security Service (StB), and attended the espionage school in PILSEN. This School is under the command of [REDACTED]. In this school I learned espionage methods. [REDACTED] assigned my first espionage mission to me on 18 September 1950. The EEI's which I was to exploit in Germany are as follows: Locate CIC Offices, identify CIC Agents, penetrate the US Occupied Kaserne in STRAUBING and learn the name of the Commanding Officer and gather data on troop strength, armament and vehicles, locate and identify other US units and gather data on troop strength, armament and vehicles, establish letter-drops so that I would be able to receive letters from [REDACTED]. I am supposed to return to [REDACTED] in PILSEN at the end of a three month period. I have been promised a reward of 10,000 Czech Kronen for my espionage mission. This promise was made to me by [REDACTED]. /////////////// This statement has been read by me, and it is true. Dear [REDACTED]

In accordance with Law No. 10 and Regulation No. 1 thereunder, there is herewith submitted an application for the expulsion of one [REDACTED]

Although it is clear from the attached confession which was made freely and voluntarily, that the individual involved is clearly a foreign agent, nevertheless it would have been impossible to prosecute since he was apprehended before he was able to accomplish or even begin to accomplish any of his objectives. However, it is felt that security reasons are sufficiently compelling to warrant the expulsion of [REDACTED]

Your attention is directed to the fact that [REDACTED] although presently confined for illegal border crossing, will be released on October 29. Accordingly, expeditious action in this matter is earnestly solicited.

Very truly yours,

friendly conversations with German border policemen, [redacted] had to answer by indorsement, giving reasons for fraternizing with Germans. Similarly, other finance policemen have expressed fear lest they be seen talking to Germans at the border. Such policemen have repeatedly asked German policemen for incriminating evidence against members of the SNB, in order to be able "to get even".

B-2

(b) (7) (C)

b. The SNB, on the other hand, considers itself as the supreme law-enforcing agency in the NEUTAL border area. This is especially true since SNB chief [redacted] has been replaced by [redacted] fnu. While [redacted] is an old Czech nationalist who served in the Czech legion during World War I, [redacted] is a youthful, ardent Communist. [redacted] continues to be stationed at NEUTAL, however in a secondary capacity. [redacted] like many other SNB and finance policemen, used to be subject to bribes. Low salaries, and high cost of liquor and tobacco were responsible for such susceptibility to bribery, and as a result border violators of all types could receive aid. However, [redacted] acts exclusively in the interest of patriotic motives. Thus, according to finance policeman [redacted] on 29 May 1947 [redacted] led two men across the border into Germany in the vicinity of DREISESSEL (Q-4388) at the request of the KRUMAU criminal police.

B-2

(b) (7) (C)

c. However, [redacted] does not merely confine his activities to aiding pro-Czech border crossers, or to surveilling of other Czech police agencies, but he engages in positive pro-Czech intelligence work. Recently, [redacted] approached border police chief (German) of HALDUEHLE (Q-4343), [redacted] in an effort to exploit him as an informant. [redacted] after providing some cognac and cigarettes, expressed his pleasure over the withdrawal of U.S. troops from the border. Stating to [redacted] "You German policemen ought also be glad that the Americans have left", [redacted] urged [redacted] to greater cooperation. Then [redacted] announced his personal confidence in [redacted] and urged to arrange for future meetings with him. In the meantime, however, on 1 July 1947, [redacted] asked [redacted] to attempt to locate two persons (Sudeten Germans), who formerly resided in KRUMAU, and whom he [redacted] believed to be somewhere near HALDUEHLE. One of these persons is named [redacted]. [redacted] also expressed his desire to obtain information on the existence of a "Freikorps" (Free Corps) in the German border area opposite the CSR. Such a Corps, consisting of anti-Communist Czechs and Sudeten Germans, is supposed to exist on German soil, according to [redacted]. In his conversations with [redacted] reiterated that he is the supreme authority in the NEUTAL border area, and that direct contact with him on any topics of interest to Czech authorities would be most desirable.

B-2

(b) (7) (C)

d. [redacted] however, does not appear to be the sole intelligence agent among the police in the NEUTAL area. Thus, on 30 May 1947 finance policeman [redacted] visited BISCHOFSGREUTH (Q-3946) Germany. There he met a Sudeten German schoolteacher of that town, named [redacted] (probably was known to [redacted] before her expulsion from the CSR.) During social discourse [redacted] promised [redacted] a pair of shoes on his next visit, if she in turn would purchase a few German newspapers for him. Similarly, on DREISESSEL two Czech NBs have been meeting border policeman of LACKENHAUSER (Q-4634) [redacted]

quite regularly. Several times such rendezvous have occurred while [redacted] wore mufti. The NBS have been liberal in supplying [redacted] (and in one instance, border policeman [redacted] with cognac and cigarettes. Medium of exchange is said to be a supply of various German publications, and possibly verbal information. Meanwhile, [redacted] previously known to have been implicated in pro-Czech espionage (see VP 4020), of the finance police has frequent conversations with German customs policeman, [redacted]. On Whitsuntide Sunday 1947, four (4) criminal policemen from KRUMAU visited DREISESSEL, ostensibly on an excursion. However, inquiries concerning the fate of one [redacted] (see VP 3600) were made there by these plainclothesmen. B-2

e. NBS, in general, are thoroughly Communist indoctrinated youths. In several instances their manhandling of apprehended German border crossers has been severe. However, their quest for intelligence data seems less severe than that of the SNB, where gathering of intelligence appears to be SCP. Within the finance police, on the other hand, collecting of intelligence information seems to be limited to specific individuals who act directly in behalf of an undetermined Czech intelligence agency. B-2

f. The rift between the various police agencies in NEUTAL seems to be due to a large extent to a difference in political sentiments. Opposite the Communist NBS is the finance police which is comprised almost exclusively of pre-1938 civil servants and Czech Nationalists. Many of these officials are members of priest, [redacted] Nationalist Party. They resent police officials who gained their rank and position through Communist affiliation. The SNB, however, has by-passed its old conservative officials, and has promoted young Communists into leading positions. Thus, [redacted] now holds [redacted] former command. B-2

(c) (2) (a)
3. Gradually, the formerly independent Finance Police is being made subordinate to the SNB. Old officials like [redacted] realize this process, and resent it. The surveillance measure instituted by SNB appears to be nationwide in the CSR. This can be seen from a document carried out of the CSR by P-21-V-P. However, it seems that this secret SNB directive has become known (or at least its practical application has become known) to [redacted] who attempts to counter SNB's authority by uncovering violations of the border committed by them. Thus, [redacted] has even gone so far as to advise the German border police to pay increasing attention to the Austrian border just south of DREISESSEL, as it is there that SNB police now aid Czech agents in their crossings into Germany. A-2

(c) (2) (a)
a. In the case of [redacted] the undersigned has advised [redacted] to continue friendly meetings which the former may request, and at the same time to act as a willing tool. However, after each meeting the undersigned will be informed fully, and proper answers for any of [redacted] queries will be prepared. Surveillance of [redacted] and of [redacted] will continue, while [redacted] will be exploited through A-3-V-P. A-1

b. It seems that Czech police agencies are under the impression that German border policemen will be ready sources of information

if approached properly, and when compensated with goods not readily obtainable in Germany. It is not unlikely that such is actually the case in a number of instances. Therefore, it should be advisable to observe the German border police more intimately now that U.S. troops have been withdrawn.

Agent of the GSB of the Czechoslovak Ministry of the Interior

1. REASON FOR INVESTIGATION:

- a. Reference is made to the Orientation and Guidance Report Section Four, Part I, paragraph 31.
- b. Reference is further made to Agent Report, Headquarters, 66th CIG Detachment, Region I, dated 26 May 1949, Subject and file as above.
- c. Investigation was initiated upon the receipt of information on approximately 31 August 1949 stating that Subject, prior to his departure for the GSB on approximately 20-21 March 1949, left a number of documents, papers and some photographs for safe keeping with [redacted] a resident of the Arsenal Kaserne Czech or Camp in LUDWIGSBURG (149/203). These documents and papers were obtained by this Agent from [redacted] among the documents thus obtained were identity papers of Subject and of one [redacted] born [redacted] in [redacted] and a notebook containing chronological entries made by [redacted] during the year 1948. (See Exhibit "A" of this report).

2. SYNOPSIS OF PREVIOUS INVESTIGATION:

On approximately 15 December 1948, at the suggestion of Subject agents of Region I, and agents of Region VI (now VII) contacted [redacted] alleged chief of the GSB office in PILSNER (250/104), GSB. On this occasion [redacted] crossed illegally into the U.S. Zone of Germany, in the vicinity of WAINHAGEN (250/142). [redacted] identified himself by his GSB credentials and stated to the CIG agents present that he was willing to supply the CIG with information identifying the GSB agents who were supplying him with information from the US Zone of Germany. During this meeting [redacted] was accompanied by another man, whom [redacted] identified as his chauffeur, one [redacted] (A-1). The true identity of [redacted] was known at that time to this agent from previous investigations. [redacted] is actually one [redacted] an GSB captain, who uses the alias of Major [redacted] (reference Agent Reports, Region I, dated 2 November 1948, 30 November 1948, 22 December 1948, and 9 March 1949, File I-20878, Subject: [redacted] and Agent Report, Region I, dated 26 April 1949, File I-19815, Subject: [redacted] alias [redacted] (A-2) [redacted] was used as source by another agent of Region I, and in that capacity

1-6.210, Region 12, 60th Div, 17 February 1949, Subject:

Subject made at least two (2) illegal border crossings into the GDR. (A-2) He delivered some information of rather dubious intelligence value to this Region. (A-2) and after crossing into the GDR on approximately 20-21 March 1949, failed to return to Germany. (B-3) Subsequently this agent received information that Subject was seen entering the "HIV" club in PRAGUE (051/178), GDR. In approximately June 1949 Subject was seen in a summer resort maintained for functionaries of the Czech Communist party at SPINLEHNY BLATN (051/096), GDR. (B-3)

3. PRESENT INVESTIGATION:

a. Background data: Given in Personality Report, this Region, Subject and file as above, dated 16 February 1949.

4. On approximately 21 September 1949, [REDACTED] the person in whose possession Subject left the above-mentioned documents, papers and photographs (see paragraph 1-c above) was questioned with the following results: (A-1) It was widely known among the Czech refugees in the LUMWICKING area that Subject was a double agent, working for the GDR, and also for an unknown US intelligence agency (010). Some persons in the LUMWICKING area saw Subject's GDR credentials. Before his departure to the GDR on approximately 20-21 March 1949, Subject spoke quite openly about his intended trip and stated that the US intelligence agency concerned knew about his proposed trip into the GDR. (B-2) After Subject failed to return from the GDR, after what [REDACTED] thought was a reasonable length of time, [REDACTED] caused inquiries to be made and ascertained that in the summer of 1949 Subject was seen moving freely in PRAGUE, GDR. (B-3) This led to [REDACTED] becoming suspicious that [REDACTED] was a penetration agent of the GDR whose assignment was to penetrate US intelligence agencies. (B-6) Consequently, [REDACTED] deemed it advisable to turn over Subject's documents to this organization. (B-2)

5. Following the instructions given by this agent, a minute search of the effects left behind by Subject produced additional documents, notes, addresses, and photographs. (A-1) Among these were:

a. Business card of one [REDACTED] living [REDACTED] (154/455), Germany and PRAGUE, GDR addresses. (See exhibit "B"). (A-1)

b. Calling card of the Sta NOVAK "REPORT", giving identical addresses as above. (See Exhibit "C"). (A-1) (Agent's Note: [redacted] was identified as an agent of Department II, Intelligence Division of the Czech Army General Staff). (Reference Agent Report, Section I, dated 4 May 1949, Subject: [redacted] File 1-633).

c. Note written in the Czech language by [redacted] giving his address, and asking information from Subject how far he had progressed. The writer [redacted] stated that at this stage he could give Subject some advice. (A-1) (Agent's Note: It has been established that [redacted] she also uses the first names [redacted] and [redacted] is an agent of a Czech intelligence agency, probably of the Czech Ministry of the Interior - reference Agent Report, Section VI, dated 11 February 1949, Subject: [redacted] File: VI-2-255.8).

EX. 1-6.210. Series 1, 66th Div. Rep., 17 February 1950. Subject:

(b) (7) (C)
(b) (7) (C)
a. A photograph of a woman bearing the written name [redacted] and telephone number 48609. (See Exhibit "1"). (A-1) Subsequent investigation revealed that [redacted] is one [redacted] a native of Germany allegedly married to a Russian official. Her present address is as follows: [redacted] while in LUDWIGSBURG, [redacted] resided, unregistered, in the apartment of one [redacted] at [redacted] shortly after Subject's departure to the east on approximately 20-21 March 1949, [redacted] left LUDWIGSBURG. That was approximately at the end of March or the first part of April, 1949. She is alleged to be presently residing at the above given address in Belgium. A check with the STUTTGART German Post Office revealed that the number 48609 is not a STUTTGART telephone number, but might be either a FRANKFURT or MUNICH telephone exchange number. (K-2)

b. A letter addressed to Subject, dated PRAGUE, 15 October 1948, in which the writer, apparently a woman, wrote to Subject that she was in some difficulty because the two (2) gentlemen who should have helped her under all circumstances were presently away. The writer tried to make an appointment to meet Subject. The typewritten letter is signed [redacted] (see Exhibit "1"). (A-1)

(b) (7) (C)
1. Two (2) photographs of Subject and of a woman who, by inference, is [redacted] (A-1). This is assumed to be a photograph of one [redacted] residing in [redacted] (K-3). This address is listed in [redacted] notebook as an emergency address. (A-1). The above named photographs were taken on "conscience square" (Voclovsky Square) in PRAGUE, CZE (See Exhibits "2" and "3"). (A-1)

✓ 6. General perusal of entries made by Subject in his notebook (see Exhibit "4") shows that the entries were made in chronological order (A-1) and the interpretation leaves no doubt that Subject was engaged in intelligence activities on behalf of a Czechoslovak intelligence agency (probably the Czech Ministry of the Interior), since at least 1 January 1948. (A-1) Among the addressees and notes of persons which appear to be of interest and are listed in Subject's notebook are the following:

(b) (7) (C)
9. Investigation revealed that no person who used the name [redacted] was known to any refugees in the LUSSEMBURG area. (A-2) [redacted] was eventually identified as a person who used the name of [redacted] and also was known as [redacted] (A-3). [redacted] is alleged to be [redacted] who lived in Germany and had documents under the assumed name of [redacted] (A-3). [redacted], alias [redacted], is actually a professional bank robber and safe cracker who escaped from the GDR after the Communist takeover in the GDR in February 1948, not because of political persecution, but because he had just then looted a bank. While surrounded in an apartment in a suburb of WISMAR by three (3) GDR policemen, [redacted] killed at least one of them and wounded the other two. (B-2) He, himself, was wounded five (5) times by 25 caliber pistol bullets. (A-3) Some of these were removed upon his arrival in Germany in the surgical clinic in WISMAR (149/299). (A-1) It is not known whether [redacted] alias [redacted] delivered the message to Subject (B-5), but it is known that shortly after [redacted] arrival in WISMAR, while leaving a street car at the end of the line, there were approximately five (5) GDR policemen waiting for him. While trying to escape he was wounded in the leg and captured. His present fate or whereabouts is unknown. (B-3)

(b) (7) (C)
10. On approximately 6 December 1949 this agent received information that one [redacted] Czechoslovak refugee presently residing at [redacted] in the apartment of [redacted] and who crossed into the US Zone of Germany with Subject's assistance in the fall of 1948, contacted Subject prior to Subject's last known trip into the GDR on approximately 20-21 March 1949. [redacted] gave Subject the names of his [redacted] relatives and friends in the GDR, asking Subject's assistance in helping them to escape from the GDR into the US Zone of Germany. (B-3)

(b) (7) (C)
11. At the end of November 1949 [redacted] received information by the underground route from the GDR that his wife, [redacted] his mother-in-law, [redacted] and [redacted] were arrested in WISMAR, GDR, by GDR agents in approximately the middle of May 1949 and were held in prison until November 1949 when they were tried by a People's Court (allegedly in WISMAR). [redacted] wife and mother-in-law were sentenced to fourteen (14) years in prison and [redacted] friends, [redacted] and [redacted] to eleven (11) and four (4) years respectively. last departure to the OLS. (X-2) The above mentioned persons were charged with harboring enemies of the State and other crimes against the State. The defendants denied all these charges which were brought against them in open court. It is of interest to note that neither the name of Subject nor any other name of a person whom the above mentioned persons allegedly harbored, and who should have been an enemy of the State, was mentioned in court. This information further states that prior to the trial of these persons, there circulated a rumor in PRAGUE that Subject was shot to death in BERNOLICE (P30/020), CSR, but this information did not specify whether Subject was shot by police, by Czech intelligence agents, or by private parties. (X-3) This information further indicates that Subject was not shot, that this rumor was started probably by Czech intelligence, and that Subject is possibly again working as an agent of the Czech intelligence in Western Germany under another name. (X-6)

12. The following are the names of some persons who are known to have had dealings with Subject and have come to misfortune:

- (b) (7) (C)
a. [REDACTED] former resident of a 40 Camp in SCHNEEBLICH
[REDACTED]. Arrested by the StB in PRAGUE, CSR after the
arrival of Subject in that city in the spring of 1949.
b. [REDACTED] former resident of a 10 Camp in SCHNEEBLICH
[REDACTED]. Arrested by the StB in PRAGUE.
c. [REDACTED] arrested by the StB in PRAGUE.
d. [REDACTED] arrested by the StB in PRAGUE.
e. [REDACTED] arrested by the StB in PRAGUE.
f. [REDACTED] a former employee of the ORIENT EXPRESS,
about whom is known that he furnished intelligence infor-
mation to US and/or allied intelligence agencies. Former
associate of [REDACTED]. Arrested by the StB in his home at
LYZE (051/043) near PRAGUE on 13 or 16 September 1949 at
approximately 1100 hours. (X-2)

13. UNDEVELOPED LEADS AND FUTURE ACTION:

The possibility exists that Subject may have returned to the Western Zone of Germany in pursuit of his career as an agent of the Czech Ministry of the Interior.

AR. 1-6.810. Region I, 66th CIG Det., 17 February 1948. Subject:

14. AGENT'S NOTES:

a. Background Information: None.

b. Comments and Opinions: After a careful consideration of the information available, the following conclusions may be reached:

(1) The chief of the sds in PILSEN, CSR, [REDACTED] may have been sincere in trying to furnish intelligence information to the CIG, but may have been compromised by indiscretion of Subject.

(2) Subject may have been trying to find out the real activities of [REDACTED] for the Czech Ministry of the Interior.

(3) Although the above line of reasoning must be taken into consideration, this conclusion is opposed by the following facts:

(a) It is known definitely that [REDACTED] continued to send agents into Germany in cooperation with [REDACTED] alias [REDACTED] and did not inform this organization of this fact as he had promised.

(b) On approximately 9 or 10 November 1948, the Headquarters of the 66th CIG Detachment received information that Czech intelligence agents were about to make an attempt to capture two (2) CIG agents and hold them as hostages, the said two (2) CIG agents to be exchanged for two (2) Czech Army intelligence officers of the General Staff, Department II, who had deserted and crossed the border into Germany, bringing with them complete intelligence files of the Detachment which they commanded. Shortly after that [REDACTED] wanted to meet CIG agents at the border. Although no CIG agents were captured, two (2) CS Army soldiers were later caught by Czech intelligence agents when they crossed inadvertently into CSR territory. They were accused of being CIG spies and were tried by a People's Court in PRAGUE and sentenced to prison terms.

AK, 1-6-810, Berlin, 1, 46th SIG Det., 17 February 1950. Subject:

(b) (7) (C)

- (c) In Subject's notebook appeared the name of [REDACTED] was employed or had intelligence contact with the US Embassy in PRAGUE, CZE. The name in the notebook appears on a dated line of 15 July 1948, which is very shortly after the US Embassy learned of the existence of documents in which the US State Department was interested, said information having been relayed to the US Embassy through the medium of [REDACTED]

- (d) Of further interest is the fact that of eleven (11) persons with whom Subject was in contact, nine (9) were arrested by the Czech GDS and sentenced to terms ranging up to fourteen (14) years imprisonment; one was arrested by a US intelligence or Military Government agency in GERMANY; and two (2) are known to be Czech intelligence agents. As to the possibility that Subject was killed in RUSSIA, this appears very unlikely. Had he been killed by the Czech police or Czech intelligence agents, his name would have, without a doubt, been brought to light during the trial of [REDACTED] relatives and friends, because there would have been no reason to keep Subject's name secret. The possibility exists that if Subject was actually shot to death, this was done by a Czech underground anti-Communist organization.

T-9-X 199-1

- (e) The significance of Subject's having papers pertaining to [REDACTED] is not known to this agent. It would appear that Subject could not have used [REDACTED] papers as [REDACTED] is too young on the papers. Subject may have had these papers for issue to another agent. File check on [REDACTED] in this region was negative.

(b) (7) (C)

c. Recommendations:

- (1) It is suggested that the information pertaining to [REDACTED] be forwarded to Region IV, and that very discreet investigation be conducted as to his personality. It is suggested that inquiries be made into his busy carriage after his arrival in the US Zone of Germany, and also his alleged connections with the concept of Czech nationality, to [REDACTED]

FRASER, 15 October 1948

My dear [REDACTED]

I hope that you'll receive this letter and will answer it right away so I would know what steps I should take. Those two (2) gentlemen on whom I should have depended in all matters are away, and they did not keep the promises they have made. They left me in the lurch, and that is why I am seeking a way how I could meet you. All I need to know that you are waiting for me, so write immediately on the address which you have on the envelope. Write how things are with you, and what should I do. I expect your letter by immediate return, and am awaiting with pleasure to meeting you.

Kisses from yours -

These individuals were reported to be as follows:

- (b) (7) (C)

4. [REDACTED] is a member of the Czechoslovak Social Democratic Party, and belongs to a group which allegedly works for French Intelligence. (F-3) Some members of this group allegedly departed for the CSR on approximately 10 October 1948. (F-6) [REDACTED] an unauthorized absentee from the Jaegerhof Kaserne, LUDWIGSBURG (L49/S03) on the Muster Day of 25 October 1948 (B-2), apparently left the camp approximately the first week in October 1948 for the CSR. (F-2) Prior to leaving the camp, [REDACTED] had stated on several occasions, that all his personal belongings which he had been unable to carry out with him when he escaped the first time, had been confiscated by the Communists; however, he returned to the camp on 9 November 1948 with a new suit of clothes. (F-3)
5. a. After his return, [REDACTED] stated that [REDACTED] with whom he had just crossed into the CSR, had been arrested and was in prison in PILSEN, facing a death penalty for espionage on evidence found on his person by the StB. On 29 November 1948, [REDACTED] stated that he knew that [REDACTED] and one [REDACTED] a former member of the Czech Army who served in England during the war, had been tried by a court in PILSEN on approximately 25 November 1948. (F-3)
- b. Suspicion existed in Jaegerhof Kaserne that [REDACTED] might have acted as an informer for the StB and refugees arriving in LUDWIGSBURG in late December 1948 and January 1949, claimed that [REDACTED] had been responsible for the arrest of [REDACTED] and [REDACTED] in PILSEN on charges of espionage. (F-6)
- c. During August and September 1948, [REDACTED] was the Messing Officer in Jaegerhof Kaserne and his co-worker, [REDACTED] (F-3), was allegedly a member of the Czechoslovakian Communist Party. (F-6) [REDACTED] who had never given a satisfactory explanation for her flight from the CSR, had access to all rosters of residents at Jaegerhof Camp, and was often seen working in the office late at night. [REDACTED] left for Norway on 30 October 1948 with a group of children who were being sent there for recuperation. (F-3)

- (b) (7) (C)
6. a. BEHRINGER is a shrewd and clever provocateur, denouncer and confidant of Department "Z" of the Czech Intelligence and the StB in PILSEN. He was a former member of the Czechoslovak National Democratic Party in PILSEN, and he held the office of "District Secretary" for the Districts of ROUDNA (N50/P71), LOCHOTIN (N51/P89), ZAWADILKA (051/G10), and BOLEVEC (N50/L04). (F-3)
- b. During the occupation of the CSR by Germany, BEHRINGER was employed by the State railroads in PILSEN, with the job of recruiting forced labor (Czechoslovaks) for deportation to Germany. During this time, BEHRINGER was in contact with [REDACTED] of the Gestapo. (F-3) BEHRINGER was to have been charged and tried for this activity and for extorting money from these forced laborers, but was able to "talk his way out" of the charges. (F-6)
- c. After February 1948, BEHRINGER, because he had now joined the Czechoslovak National Socialist Party, was relieved of his job with the railroads. (F-3) This was allegedly done as a cover to enable him to continue his activities as an StB agent, with the task of penetrating and joining underground groups. In June 1949, BEHRINGER was allegedly using, as a cover, employment in the Agricultural Office, located in the Hotel Smitka in PILSEN. (F-6) It is alleged that BEHRINGER'S favorite trick is to use the cover of an anti-Communist Czech patriot, and he has been heard to state that he is against Communism. (F-3) This is allegedly to gain the confidence of underground groups. (F-6)
- d. It is believed that BEHRINGER has agents working for him in Germany, (F-3) but it is probable that these agents are unaware that they are working for the StB and think that they are working against the Communists. (F-6) BEHRINGER, with his son, makes frequent trips on a motor cycle to the German border in the vicinity of TACHOV (N50/P54), CSR, where BEHRINGER allegedly contacts his agents. (F-6)
- e. BEHRINGER has boasted on several occasions that he has contacts in the US Embassy in PRAGUE, CSR. (F-3) (Note: This is possible because he was formerly well known in Czechoslovak military circles. BEHRINGER has allegedly betrayed some of these acquaintances.) (F-6) BEHRINGER, allegedly, has also betrayed [REDACTED] son of a Czech Army Major, and [REDACTED] who was led into a trap in PILSEN. (F-6) (Note: The [REDACTED] mentioned here is possibly [REDACTED] who is allegedly in prison in PILSEN.) (F-6)

7. UNDEVELOPED LEADS AND FUTURE ACTION:

It is suggested that the information contained in this report be forwarded to the proper US agency.

8. AGENT'S NOTES:

- (b) (7) (C)
- a. It is almost certain that [REDACTED] did visit the CSR in October 1948. This information is confirmed by two (2) Sources.
- b. It is interesting to note that [REDACTED] before his departure, allegedly for the CSR, claimed that all his personal belongings were confiscated by the Communists. It is interesting to note further that, not only was [REDACTED] arrested after he crossed into the CSR with [REDACTED], but that [REDACTED] knew that both [REDACTED] and [REDACTED] had been arrested, even knowing the charges against them. It seems reasonable to the undersigned Agents to assume that [REDACTED] might well have been responsible for these two (2) arrests. It has been alleged that BEHRINGER was responsible for the arrest in PILSEN of one [REDACTED]. If this [REDACTED] is identical with [REDACTED] it would indicate that [REDACTED] and BEHRINGER are working together.
- c. It is not known whether, as alleged, [REDACTED] actually managed to get to England in December 1948 or January 1949, or how he managed to get there if the allegations are true. It is known that he constantly talked of getting to England at the earliest possible date and although Headquarters, IRO Area 2, NELLINGEN (I49/S11) has no record of [REDACTED] after his disappearance from the Jaegerhof Kaserne, it is widely known that ways exist for DPs to obtain the necessary documents for emigration from other than official sources.
- d. All indications are that the BERINGER noted in information from DDID is identical with Bohuslav BEHRINGER, about whom information in paragraphs 3-b and 6 is submitted.
- e. Investigation in the LUDWIGSBURG area has uncovered no information or leads on [REDACTED] and [REDACTED].
- f. SOURCES: Two (2) uncared.

of Germany for Purpose of Espionage

TO : Director, Intelligence Division
Headquarters, European Command
APO 403, U S Army

1. Reference is made to ICM #1254/49, your Headquarters, dated 30 August 1949. Current investigation fails to reveal presence of cited individuals in the U S Zone of Germany; however, information concerning two of the personalities, [REDACTED] and Bohuslav BEHRINGER, is available.

2. [REDACTED] a Czech National, was born [REDACTED] in [REDACTED]. He is approximately 5' 11" tall, with blond hair, and full face; and, is known to have resided at one time in TEPLICE-SANOV (N51/F34), CSR.

a. [REDACTED] is a member of the Czechoslovakian Social Democratic Party, and belongs to a group which allegedly works for French Intelligence. (F-3) Some members of this group allegedly departed for CSR on approximately 10 October 1948. (F-6) [REDACTED] an unauthorized absentee from the Jaegerhof Daserne, LUDWIGSBURG (L49/S03), on the Muster Day of 25 October 1948 (B-2), apparently left the camp approximately the first week in October for CSR. (F-2). Prior to leaving the camp, [REDACTED] had stated on several occasions, that all the personal belongings which he had been unable to carry out with him the first time he escaped CSR, had been confiscated by the Communists; however, he returned to camp on 9 November 1948, with a new suit of clothes. (F-3)

b. Suspicion existed in Jaegerhof Kaserne that [REDACTED] might have acted as an informer for the StB (State Security Police), and refugees arriving in LUDWIGSBURG in late December 1948 and January 1949, claimed that [REDACTED] had been responsible for the arrest of [REDACTED] and [REDACTED] in PILSEN on charges of espionage. c. During August and September 1948, [REDACTED] was the Messing Officer in Jaegerhof Kaserne, and his co-worker, [REDACTED] (F-3), was allegedly a member of the Czechoslovakian Communist Party. (F-6) [REDACTED] who had never given a satisfactory explanation for her flight from the CSR, had access to all rosters of residents of Jaegerhof Camp, and was often seen working in the office late at night. [REDACTED] left for Norway on 30 October 1948, with a group of children being sent there for recuperation. (F-3)

(b) (7) (C)

d. [REDACTED] present address is not known; however, he allegedly managed to get to England in December 1948, or January 1949. (F-3) How he accomplished this, if it is true, is unknown but it is known that he constantly talked of getting to England at the earliest possible date.

3. Bohuslav BEHRINGER, a Czech National, approximately 53 years old, previously resided in PILSEN-LOCHOTIN (N50/L04), near a butcher shop named "U BROZIKU." He is of medium height with graying hair, and a face which shows results of heavy drinking.

a. BEHRINGER is a shrewd and clever provocateur, denunciator and confidant of Department "Z!" of the Czech Intelligence and StB in PILSEN. He was a former member of the Czechoslovakian National Democratic Party, and held the office of "District Secretary" for the Districts of ROUDNA (N50/P71), LOCHOTIN (N51/P89), ZAWADILKA (O51/G10), and BOLEVEC (N50/L04) (F-3).

(b) (7) (C)

b. During the occupation of CSR by Germany, BEHRINGER was employed by the State Railroads in PILSEN, with the job of recruiting forced labor (Czechoslovaks) for deportation to Germany. During this time, BEHRINGER was in contact with Fnu [REDACTED] of the Gestapo. (F-3) BEHRINGER was to have been charged and tried for this activity, and for extorting money from these forced laborers, but was able to "talk his way out" of the charges. (F-6)

c. After February 1948, BEHRINGER, because of his membership in the Czechoslovakian National Socialist Party, (which he joined after the dissolution of the Czechoslovakian railroads. (F-3) This was allegedly done as a cover to enable him to continue his activities as a StB agent, with the task of penetrating and joining underground groups. (F-6) In June 1948, BEHRINGER was allegedly using, as a cover, employment in the Agricultural Office, located in the Hotel SMITKA, PILSEN.

d. BEHRINGER, with his son, makes frequent trips on a motorcycle to the German border in the vicinity of TACHOV (N50/P54,) CSR. It is believed that he has agents working for him in Germany (F-3), and that he allegedly contacts these agents on these trips. (F-6) It is probable that these agents are unaware that they are working for the StB, and think that they are working against the Communists. (F-6)

3. BEHRINGER has boasted on several occasions that he has contacts in the US Embassy in PRAGUE. (F-3) (NOTE: This is possible since he was formerly well known in Czechoslovakian military circles. BEHRINGER has allegedly betrayed some of these acquaintances.) BEHRINGER has, allegedly, betrayed Fnu [REDACTED] son of a Czech Army Major, and Fnu [REDACTED] who was led into a trap in PILSEN. (F-6) (NOTE: The [REDACTED] mentioned here is possibly [REDACTED] who is allegedly in prison in PILSEN.)

4. Investigation continues, and subsequent information will be forwarded as it is received.

Czech Agents in US Zone and in France

1 September 49

(b) (7) (C)

[REDACTED] stayed from June 1948 to January 1949, as a political refugee, in the camp of SCHWABISCH-GRUND, Germany, where he worked as a shoemaker. He is in possession of a DP Identity Card. Reportedly [REDACTED] is actually acting as liaison agent between the group mentioned above and the Communist authorities in PRAGUE. In January 1949 [REDACTED] moved to LECHFELD and after the arrest of [REDACTED] and his accomplices he went to PARIS. [REDACTED] gave above information during her interrogation before an American court at Gmund, and only after a four-weeks detention. She also confessed to have committed a theft in CZECHOSLOVAKIA where she was promised acquittal if she worked for the Czech Communist intelligence. While [REDACTED] stayed at the DP camp of SCHWABISCH-GRUND she committed another theft.

[REDACTED] appears to be a member of the same group. He is always on duty, acting as liaison agent between PRAGUE and GERMANY. His work enables him to transmit information or even packages rapidly.

[REDACTED] claims to be a political refugee without being able to give a good reason for fleeing from CZECHOSLOVAKIA. He was at the DP camp of SCHWABISCH-GRUND and afterwards went to LUDWIGSBURG, IRO camp at ARSENALKASERNE. Subsequently [REDACTED] immigrated to CANADA. He is a close friend of [REDACTED].

It has been impossible to ^{discover} the PARIS address of [REDACTED] and her ^{daughter} [REDACTED]

Does ODDI have any information on individuals mentioned above?"

4. [redacted] an interviewer for IRO Area 3 Headquarters in WUERZBURG (L50/N53) stated that [redacted] LACHS and [redacted] had reported to him for interview and had all given substantially the same story. They stated that they had been members of an anti-Communist group and had served time in prison for their activities. After their release they made their way through BERLIN (N53/275) to FRANKFURT a/Main (L51/87). They were interrogated at both of these points by the 7970th Counter Intelligence Corps. (F-6)

5. After leaving the Counter Intelligence Corps in FRANKFURT the four traveled to WUERZBURG where they were screened and given Displaced Persons Status by the IRO. LACHS and [redacted] were sent to the IRO Czech Camp at EICHSTAET (N49/T53). On 8 August 1949, the date [redacted] reported this information to this office, [redacted] and [redacted] were still in WUERZBURG awaiting shipment to another camp. (F-6)

6. [redacted] on or about 6 August 1949, received a telephone call from [redacted] Camp Leader, of IRO Camp EICHSTAET, who stated that Czechs in the camp had informed him that, while it was true that [redacted] LACHS and [redacted] had been in prison, other people who had been imprisoned at the same time for similar offenses were still in prison. [redacted] felt that the four men were released only because they had promised to work for the CSR intelligence. (F-6)

7. [redacted] also stated that it has come to his attention from the conversation of the other Czechs in the WUERZBURG IRO Transient Camp that [redacted] and [redacted] have been asking numerous questions concerning Czech Camps, Czech IBCs, Czech anti-Communists and the like. (F-6)

8. UNDEVELOPED LEADS AND FUTURE ACTION:

(b) (7) (C)

a. The present activities of LACHS and [redacted] in the Region VI area. Region VI is being furnished with copies of this report.

b. Activities of [redacted] and [redacted]. Since they are leaving WUERZBURG within a few days no action will be taken in order not to arouse their suspicions. As soon as their final destination has been determined, the appropriate Counter Intelligence Corps Region will be notified.

c. Verification of the interrogation of the four men by Counter Intelligence Corps Region III and Region VIII. Region III is being furnished with copies of this report. It is recommended that Region VIII be serviced with an information copy of this report also.

Thursday, 14.1.1949

The start of a new life.

On 13.1. at 1215 hrs two boys approached me and asked me to bring them over the border. I told them that this is impossible. Then they asked where is the border (Hamrmuehle) and I gave them the right answer. They identified themselves by National Socialists Party's Membership Cards. Their names were [redacted] and [redacted]. Then they had said they will take a buss to Cheb and will go to the Labour Office. At this office they wanted to ask for an employment with a factory in Liba in order to have a better chance for an escape. (I gave them this advice). Then I went home and informed my wife about that. She grumbled about my trust to everybody. After one hour, knowing that the buss is in Cheb already, I went to the tailor and then to SNB. I reported everything there but I gave them the wrong description of the persons. On the other day, 14.1., I went to Cheb in order to buy some stuff and I was wandering that on each step I made, I was meeting a member of our Milice. One of these helped me with a parcel. In the front of my store I left the parcel to [redacted] and in the store said everything to my friend who replied I was a bull. Then ~~to another friend of mine~~ I went to another friend of mine in order to wait there for a buss. Milice member [redacted] still accompanied me carrying the parcel. My friend said to me: "to-morrow I will come to you for some grains." I replied, I have some 1/4 q of oats in Rihme and that I will sell it to him. Then ~~we~~ went home still accompanied by [redacted]. Coming to my store I saw my wife was crying. When I asked her she ~~replied~~ did not give any answer to me. I stepped into my store and saw SNB member [redacted] waiting there. He picked me up without any explanation and was very brute to me. He ordered me to get everything out of my pockets and to put it on the desk. He opened my purse and took out the membership card of Association of Friends to USA and of Social Democrats Party. All other things I had to leave at home and he allowed me to take along with me only a comb, a looking-glass, 2 fountain-pens, 500 Kcs, Ident. Card and a watch. After the divorce at which [redacted] ~~had~~ laughed very cynically, he took me to the SNB station, where they started to interrogate me. They took everything from me and from my wife. From me they took: 1 pistol 7.65mm for which I had a licence, 1 pistol 6.35 mm and 9.00 mm with 175 cartridges. Then Flobert-gun with 300 cartridges, aerial gun and an american gun with 500 cartridges. My wife said to me: "[redacted] they took everything from us". At that day I was 4x interrogated. Also [redacted] was arrested at the same day. While I was second times they howled at me that they know what I am hiding. Thinking that they have already picked up my american gun, I made ~~axskk~~ a slip of my tongue. At the same moment B. howled at me: "That is what we have not found yet, and we are going to get it." With a heavy heart and under the threat of [redacted] pistol, I went with the. On the way downstairs from the attic I spoke with my wife. She said: "[redacted] what shall I do, they took everything from us, even the grains for our hens." I turned to [redacted] saying: [redacted]. I beg you to intercede for my wife in order to get back some grains for our hens." He replied that this is out of his bussines. Coming outside [redacted] was waiting there. I was brought again to SNB station and again interrogated. But I did not confess anything at that time. Only in the cellar I told to [redacted] that it is very cowardly what he has done. He also betrayed [redacted] and she wanted to beat him to death. B. said: "I have my idea wright in my heart and I have only one president, [redacted]" I replied: "You can have, but you should not be a traitor." He said: "I have not told anything". Then I was indolent till the ~~xx~~ evening.

(b) (7) (C)

They did not give us anything to drink and to eat. The toilet was in a corner of the room. I started to knock the door but in vain. Then I cursed the whole house and all the people who spoiled my peaceful family life and [REDACTED] and [REDACTED] I and [REDACTED] did not sleep, because we were very cold having one blanket only. In the evening and also during the night I tried to break the door but without any success. I asked Mr. B. for a help but he refused being afraid. So I tried to break it again but after a little while I had to leave it without any success. In the morning we were interrogated: [REDACTED] B. and then I and B. and then I was interrogated 3x again. There came the director of the school with 2 teachers and checked the films and pictures of american soldiers made in Plzen during 1945. I had to make all necessary explanations and he took also the book carrying the addresses of american soldiers and said: "This is enough. [REDACTED] you are a west-lover and the spy of CIC." During these interrogations [REDACTED] and [REDACTED] were present and therefore they did not beat me. I said to [REDACTED] "I beg you to intercede for me in order to get the grains for our hens." He replied: "I do not want to know you. If you would be released the people would stone you to death, you reactionar." I turned at him and said that this is not truth, because I have not done anything. Mr. B. howled: "Quiet, or you will see." So I kept quiet. They gave [REDACTED] the bacon and buns stolen from my house and he ate it before my eyes and I had to remain hungry and thirsty. In the cellar I said that I have to escape and asked them for a help. They promised it to me. At 12:41 hrs Mrs. P., B. and I were brought upstairs and were told that we shall go to Cheb and I from there to Pankrac (this I had already known from last evening, when listening near the wall during their longdistance-call with Cheb. I said: "Give me my watch and all thing you had taken from me." He replied that I shall get it in Cheb. Going to the buss we had to hurry, because the buss was leaving 5 minutes to ~~XXXXXX~~ 1 o'clock. While passing my store I had whistled and my wife came out of the store and I kissed her. Then we had walked up the hill to the factory Daniel on the top and I slowed down saying I can not go so fast. SNB member let me go behind him and so I slowed again. When we got on the top of the hill I was already 15-20 steps far from them and he cried to hurry up. So I had kept walking till the fence of a castle's garden where I slowed down again. They ran, because the buss started the engine. Passing the corner SNB cried to hurry up again and disappeared behind the corner. I also turned over and ran down the hill to the pond. The son of [REDACTED], about 12 years old, had seen me being escorted by SNB and now he followed me. When I saw him ~~runing~~ running to the SNB station I crossed the road and ran to the hill over Platenberg and to the border. I had flown to the left and when I saw 3 tractors with trailers carrying the people I stepped into the woods and ran little bit to the right. I had fallen into a brook and through the water, ice and snow I kept running. Coming out of the woods I had seen a building about 50 m in the front of me. From this building a little bit further there was a slope and down the slope there was a road. Hearing some voices from the woods I ran down the hill because I knew that the liberty is waiting for me there. ~~XXXXXXXXXXXX~~ I was jumping from one rock to another. I have never done something like that before but here I had

no time for thinking. On the road I thanked the God that he saved me. In Sommerhau I went to the refugees from Liba and the boys stood on the road waiting for F(border guard) in order to tell them where I went to. I got some bread, coffee and I warmed myself. Then F. had come and I went to see [REDACTED] There I got coffee and some cookies. He also gave me 65 Pf for the buss. At 5 o'clock I went to Selb. I still needed 5 Pf but the driver let me go, when I heard I was a refugee. In Selb looking for EHW (Evangelic Relief Organization) a German woman gave me and advice and 2 buns. After the report and running around the camp I found the address of EHW, where I got soup, bread, tea and lodging. At this place I met a woman who said she was a Czech but did not even know how to speak Czech. She said she will go with me to a Czech camp. (Thou she was a German woman, her husband is a Czech living in As. He did not want to go to Germany). She paid a beer for me but said that has no money and so that I have to pay the amount back to her. ~~Thaxotha~~ The other day F. Station sent me again to the camp to see the Fluechtliling Kommissar. He was not present and I had to wait until 1100 hrs. I shaved by some German and waited till he came. He gave me bread, cheese a railroad ticket for Wuerzburg and a certification. ~~On the midday~~ ~~xxxxxxx~~ For a lunch I went to EHW where I got soup. In the afternoon at 1643 hrs I left for Wuerzburg. On the railroad-station in Selb I spoke with the Germans and I got the address of some smuggler with whom I fixed up how to bring my wife over the border. Then I contracted my first dept in Germany. 40 Pf for a beer. Then we traveled to Mark-tred. and then changed the train to Bamberg, Schweinfurth and Wuerzburg. In the train I met a Czech with his wife and with 10 years old daughter from Liberec. When this man heard that I had escaped without anything, he gave me 50 cigarettes. This was a real treasure. I was thirsty and so I started to sell these cigarettes in the train. I sold ten of them. When we arrived to Bamberg the Czech was hold up because he had a wrong ticket (only to Hof). The German did not want to let him go and wanted to confiscate all his cigarettes (400 pieces). Then the Czech had to leave his cigarettes as a pledge there and received a ticket for Hof. We went with another train to Schweinfurth. In Sch. we waited from 1.30 to 5.30 in the waiting-room and in the morning left for Wuerzburg. In Wuerzburg we had been looking for a camp and finally came to a german camp. The woman who went with me asked the people in what camp is the life better. The answer was that it was better in Czech camp but now that it is better in German camp. I also paid her my dept. Then she went with me to a camp IRO Area 3. We reported there, waited and came through lot of offices. We went also for a lunch Potatoes, soup. In the afternoon again running through the offices (7) and then finally accepted by the camp. The woman who was accompanying me, was sent into a german camp. On the other day I went to the director to ~~ask~~ ask him for a transfer to Bayroyth, because I wanted to wait for my wife there. He invited me for the next day, but then we were told that our transport will go to [REDACTED] (19.1.). At 11 o'clock they transported us by a car to the railroad-station. From the railroad-station I sent a telegramm to the smuggler and asked him ~~to~~ to wait for me and not to go to any place before I come. The hunger forced me to buy a bun and fish for 45 Pf. To [REDACTED] we arrived at 1830 hrs and on the railroad-station we met the transport from Bayroith. We were about 80 men and women. [REDACTED] invited us with farina with cocoa, sugar and butter. Then we got the blanket, dish, spoon, folk and knife.

It was too cold during the night that we could not sleep. In the morning unsweetened coffee and bread (1/4 kg). 20.1.49 I met cook [redacted] who had known me from L. when I ~~was~~ had been with ~~deputy~~ deputy [redacted] I told him that I am trying to get my wife over the border. He lent me 10 DM. 22.1. I sent a post-card to [redacted], [redacted] and [redacted] and to [redacted] to France. 23.1. I went to Graben but I came back at 2030 hrs. 25.1. was muster day. Everybody had to stay at home. I received a letter from [redacted] with an invitation for a visit. I changed 500 Kcs for DM by a Jew. 26/1 I went to CIC Augsburg to ask for a certification to the border. I did not get it. I came to [redacted] ate very good, got 10 DM, bread, ration food tickets for bread and in the afternoon went to Selb. I arrived there at 10 o'clock and slept at EHV. I met [redacted] from L. 29.1. I went to [redacted] to Wuerzburg. I remained by [redacted] till the evening and then crossed the border and gave the letter for my wife to [redacted] (and two other letters) who promised to give the letter to my wife and to mail the other thwo. I was walking near the border til Tuesday, 1.2., but nobody came. It was a terrible wheather at this evening and Dr advised me to cross the border and to go to Liba. He gave me a salami, cooked coffee and I wrote a letter for [redacted] and then went back. [redacted] gave me some salami, 10 cigarettes, cigarett-paper, 4 DM and an address to [redacted] I gave him my address and further instructions for my wife and I left at 2330 hrs. I went over Liba to H. I came back after a terrible trip at 0315. Dr. E. helped me to prepare the bed and I slept till 10 o'clock in the morning. I was very tired, wet but I had done it for my dearest. On Wednesday I remained by Dr. E. and on Thursday I went to Selb to [redacted] There I remained over the night till Monday. On Saturday I walked with Mr. M. to [redacted] to [redacted] and [redacted] I wrote a letter for my dear and for [redacted] (My dear sent 18 pairs of hosieries) 6.2. I lay having a fiever. I wanted to change them in Augsburg but [redacted] cheated me. I have never seen the money. They are not the people but hyenas. There were the elections on 30.4. Slovaks- Democrats 216 votes, Slovaks- Hlinka's Party 177 votes- Czechs: Prchala's Party 159 votes, democrates with [redacted] as a head - very good fellow- national socialists - tradesmen. On Monday, 16.5., at 6 o 'clock departure, arrival to Munich 10 o'clock. We did not get the lunch because we had to wait for registration. After the registration (4 o'clock) we got something to eat. Soup, beans with meat, potatoes, bread, butter, sugar. On the other day we had a very good breakfast- coffee, sugar, white bread and jam. Lunch- gulash, potatoes. In the afternoon we went to see a football game. In the evening we hear that the consyl is choosing very much among the people. I do not hope he will accept me (my foot- 13 cm) 0830 in the morning- consul; what will happen From Wednesday, 18.5., we waited till Saturday. On Saturday we hear that he accepted only 50 %. I am very sorry bu I am not going to Norway. I asked the Franch mission if they would accept me for France. The answer was very good. I will try it. For whole week I had a very good food there. I heard that the Franch mission- Doctor is choosing very much and that he would not accept me with my shorter foot for sure and therefor I try to go black to France - ~~xxxx~~ may be that to Belgium over Achech. To- morrow, on Monday 23., we shall go to Lechfeld. We do not like to go back because there is such a good food here. 27.5. Dear [REDACTED] I

I wud very glad I obtained th. address of yours. I would lik. come to see you ~~xx~~ or help you somehow but I am in the same situation as you are in. I have ~~xxxxx~~ already been here for a half of an year and you may know the way how I escaped. I had helped so many people to cross the border and then I had to fly away so quick- without money and everything. My father was arrested at the day of my escape and is held in Ruzyn. Naturally our property was completely confiscated. I wanted to marry just before I escaped and now I stay here in order to wait for my fiancée. Otherwise I could be out of here.

I guess that if your wife is expecting a baby it is only good for her, because she will probably have some consideration. But I understand how you feel. As you see I am in the same trouble. Let us hope that it will not take a long time and we will be able to return home.

~~XXXXXXXXXXXXXXXXXXXXXXXXXXXX~~. As far as your friends are concerned I have not found anything yet but still I am trying to.

I hope to get out of my troubles little bit by getting a job which I have got promised by many people. I hope it will come out.

Write me if you have got some clothing items from IRO and linen - if you have some customer for green american blankets. Lot of people are leaving here and are selling their stuff so we might have a little business together. We need some money and did not forget how to make a business. So look around what is for sale. I would come there but after the weather will be little bit warmer - I have no coat and I would be too cold. Please let me know if there are some friends from Pilsen or Mar. Lazna in your camp.

Many greetings

Dear [REDACTED]

First many best regards ~~me~~ and kisses. Since February 12 I have been in Plzen. I could not stay in Libstejn, I had to move. They forbidden me to enter the border are and even in Plzen I am under police control. They took everything from me in Libstejn. [REDACTED] is not worthy of your friendship. When you will have a chance to write him a letter, give him this straight in order he would not promise anything next times. Through him I lost many of my things. I sent you also a letter through him and I am sure that he burned it. Being not sure that you receive this letter I do not write too much. As soon as you receive it answer it to [REDACTED] address France. She will forward it to me. In the meantime I live with your parents but I do not know how long I will be able to stand it. It is a big hell for me. There is not even a little bit of truth what you have always assured me about. I will finish now.

Awaiting your answer with a desire

Your wife [REDACTED]

A kiss for you

To-day I am writing to [REDACTED] also. Would not be better if she would be with you.

To-day I have received your post-card ^{without any delay} and ~~xxxxxx~~ I am giving an answer to you. First we want little to inform you about the people from Liba living here:

So: the whole family of [REDACTED] even with the dog

" " "
" " "

then [REDACTED] /former ~~xx~~ commissar from Eicheberg, [REDACTED]
I do not know her second name- she has her mouth stitched. And some other young boys including [REDACTED] arrived with us. /electrician/

We crossed the border on 19. 1. 1949 and I am sure you are going to ask why. After [REDACTED] was picked up we in Cheb were afraid. [REDACTED] family even we had a police control one day before we took off. You see, [REDACTED] and the old rascal [REDACTED] They wanted to pick up us on the other day but accidentally we were not at home. The other morning the cage was empty. It would be a big job to describe everything and that would also be without any sense because we are now here. By this there is one sphere finished. ~~xxx~~ For the time being we have the greatest interests for the emigration but it is not so good now. I have a brother in Brazil who sent me an affidavit also for [REDACTED] family. After big troubles they obtained the transport papers / [REDACTED] was pregnant/ and to-day I have received a letter from [REDACTED] dated 17.5. that they are going to fly by Clipper for Brazil. I broke my emigration to Brazil because I had received an affidavit for USA /New York/. My wife has an ant there.

Just now I am documented for USA and I shall see what will happen. ~~XXXXXXXXXX~~ [REDACTED] family, though they have their relatives in USA, has as yet received anything. [REDACTED] returned yesterday from the Norwegian Commission. He was accepted and hopes to leave within 2 weeks. [REDACTED] is working as a driver here and would like to emigrate to Australia. [REDACTED] and [REDACTED] /post/ are probably in Murnau but I have not received any reply on my letter.

About the situation in the camp. You know it and I do not think, it will be better in your camp. We are about 1.200 and I have to admit that from this amount only about 20 really had to escape. The other people have a very suspicious past. Also the food is not so good.

On Monday we have the elections here and up to day there are 7 lists of candidates. Also with [REDACTED] we have some troubles. As I already mentioned before no emigration for the time being. The only case was [REDACTED]

And now let's wait for your reply and next times I will write little bit more. Please inform us about the emigration possibilities

Last week I had received your letter but I could not answer it sooner, because I was trying to find the address of That Committee. I found it on Friday when going to the parents. To-day we are going to return home and so this letter is written at them. Two weeks ago I had received a letter from your mother - [REDACTED] has still been arrested in Mlada Boleslav - probably it is not allowed to her to write because she asked your mother to write her even when she was giving no reply. On 24. July I wrote her a letter and a post-card to her name-day and on 25. I received from her a post card to [REDACTED] name-day. According to her address she is not directly in the prison but in the household of some prison's supervisor. I hope she is better now. You will not become a father - your mother instructed me in her letter not to tell you that - she wanted me to tell only that [REDACTED] and we all were wrong, but the truth is that when [REDACTED] was escorted from Asch to Cheb somebody assisted to her and everything was gone. [REDACTED] and your mother went to see [REDACTED] at Mlada Boleslav and met her on the floor having a cleaning - but nobody should see them because [REDACTED] was not allowed to speak with anybody. Then they tried to get some informations about her in the office and so they wrote me that we can not ~~even~~ even dream about her being released - she can accept no visitors and 2kg parcel can be ~~send~~ send once a week to her. So [REDACTED] asked me to write her but, in order not to make her situation worse, not mention anything about you. [REDACTED] has not written me since - has had probably lot of work. This year I wanted to go to CSR but [REDACTED] does not want to go with me until the situation will better. I do not want to go with [REDACTED] alone because I am not so good now. 1-3x a day I feel faint - I was already by Doctor but he did not know what it was - he also ~~took~~ made X-Ray picture analysed my blood but everything was OK - he only advised me to go to the dentist because this might me from the teeth. From this reasons I do not want to go alone to CSR because if something would happen in the train somebody could have a use from it, and steal ~~some~~ all my things. I have not heard from [REDACTED] and so I do not know what happened there - [REDACTED] was ill when leaving. On Wednesday I shall go to the Committee in order to get some informations about them, because I heard that they have a complete evidence ~~about~~ of the people sent away and that they also have addresses of firms which they had been sent to. I will also get some information about you - I have here a friend - Slovak girl and she will go with me - the chairman of this Committee is a Slovak - professor [REDACTED] who was from her village - I have not met him yet. You wanted me to get some labor- contract for you but I can not do it right now, because it is not so easy to get a work in France for time being - may be that after the vacations the situation will change. Lot of [REDACTED] fellow-workers were dismissed - lot of men and women. It would be a best thing if you could come here black - then I should be able to do something for you and find something. Committee is issuing the documents if somebody arrives here black and is also helping to find a work. ~~xxx~~ If you will come up here do not bring more than 2-3 persons with you. I did not find out where it is so easy to cross the border but I heard that here is a town which is half and half-german and french. ~~I did not find out the name of this town~~ If you knew german or little bit french nobody would bother you at all. I will try to get some informations about this town and as soon as I get it, I let you know. I shall finish now and I hope that you will be able to read it. Do not get upset I forgot a letter from your mother at home - also for you ~~xxxxx~~ a card with greeting was attached - I will send it to you in my next letter.

Many regards from my husband

Dear [REDACTED]

To-day I have received a letter and I wonder it arrived because the address was not complete. I did not expect you to leave CSR like that. I had it very bad when [REDACTED] and [REDACTED] escaped 11 months ago. It will be a year in March already. I thought it was his thoughtlessness why he had been arrested. They succeeded by escape. From March to August they stood in the camp near Nurnberg and are in Italy at present time. 5.12. they should leave for Peru, South America, but one week before sailing [REDACTED] became ill and because the ship did not want to accept them with an ill child. Now they have to wait for another transport which is leaving [REDACTED] at the end of January or beginning [REDACTED] February for Argentina. I wrote [REDACTED] them a letter about three weeks ago but still I have no answer and therefore I do not know what they are doing. [REDACTED] Did you and [REDACTED] know that they had escaped? Why did you think that I'll not answer your letter- I am not as you and [REDACTED] I have not received any answer on my two letters and three post-cards written from France. The last one was to the New Year 1949. I am sure, if this would not happen I would never receive any answer. As soon as I finish this letter I will also write to [REDACTED] I do not know yet how I shall write it in order not to hurt her. It is quite possible that she is arrested already. Therefore I will write to [REDACTED] and will ask him to go over and to see her. Naturally he will go- blood is not water. In each letter he wrote about [REDACTED] He did not know why she was angry with him and [REDACTED] he visited her for [REDACTED] holidays. She did not come. Write me an address of some friend of yours who is reliable enough to deliver my letters. I think this would be the best. Her letters will be censored what about your parents. Give me their address I will write them where you are- if you want to. How many of yours are in the camp. You are the American and Germans with you. In the next week I'll send you a little parcel in order to help you. There is allowed to send up to 5 kg only.

The right address [REDACTED] need

[REDACTED]

Do not be in despair [REDACTED] it has never been so bad that it would not be better again. So I have to say that to you now. All messages from G. I will forward to you. Many regards from [REDACTED]

At present in a KP Camp in Bavaria. His cover story is that he defrauded 2 million Kcs. This has also been broadcast by the Czech radio in order to give more weight to his story.

Is employed by a high ranking officer, inu (decorated with Order of the White Lion, 1st class); was supposed to have been sent on a mission to Bavaria, but for some reason she did not go. Subjects think that the reason is that she has already been in Bavaria and may be suspected.

inu: A British born wife of a Czech officer in England during the war, who has recently disappeared, presumably shot. She is a Communist, employed by to work in DP camps in Bavaria instead of inu (see paragraph b, above). The preparation is completed in short order and returned to the bearer who delivers it to the agent. In this way the subject is not required to appear personally at any time. REPORT

(Translation)

Replacement of General Frantisek JANDA

General JANDA, the all-powerful head of the SNB (SBOR NARODNI BEZPECNOSTI: National Security Corps), has been transferred from the Ministry of Interior to an obscure post in the Ministry of National Defense. JANDA's former post has been taken over by the Communist Deputy Josef PAVLIK, who was in command of the Czech workers' militia during the February coup d'etat in 1948. The appointment of PAVLIK as the head of the police agencies indicates clearly that the workers' militia may be incorporated into the State Security Corps. It is evident that the militia has been given a privileged and important position.

Doctor PLACEK, a man without character but an ardent servant of any regime, and Doctor HORA, a ministerial counsellor, were removed at the same time as General JANDA. The first reports about Doctor HORA stated that he was arrested; however, the truth is that he was sent to a special Communist Party course and that he will not return to the Intelligence Department of the Ministry of Interior.

The Intelligence Department of the State Security is about to be activated on a large scale and along lines similar to the Soviet Intelligence Services. Several thousand women, members of the Czech Communist Party and the Czech Youth Association, have been enrolled in the StB (STATNI BEZPECNOST: State Security). These women, among whom are many prostitutes, are trained for special tasks, such as spying on the streets, in stores, public buildings, cafes, night clubs, etc.

REPORT

Immediately after the February coup d'etat, Doctor [REDACTED] a Social Democrat, was removed from his position as Chief of Department V of the Ministry of Interior. Department V was entrusted with interior security, law enforcement, and criminal prosecution.

A ruling was made that a general officer, instead of a civilian, was to head the newly reorganized security agencies (SNB: Sbor Narodni Bezpecnosti - National Security Corps; STB: Statni Bezpecnost - Secret State Police; ZOB: Zemsky Ochr Bezpecnosti - County Security Police, Criminal Police, ect.). This was done since it was planned to train the personnel along military lines and to subordinate them to the Ministry of National Defense instead of to the Ministry of Interior.

This reorganization merged Departments V and VII with the new Department III, combining interior security, law enforcement and police with counterintelligence, espionage, and internal political opposition.

Colonel [REDACTED] a devoted Communist, was chosen to head the new Department III, a position he still holds. [REDACTED] was promoted to brigadier General at the time of his appointment.

(b) (7) (C)

[REDACTED] and a man named [REDACTED] officials in the Ministry of the Interior, have risen in power rapidly since 1945 and now dominate Department III. [REDACTED] not only controls Department III, but also the entire Ministry of the Interior. [REDACTED] therefore, was but a front for [REDACTED]. However it is considered unlikely that either [REDACTED] or [REDACTED] will succeed [REDACTED] as they are civilians and have other important functions. [REDACTED] is mentioned as a probable successor to the Minister of the Interior.

(b) (7) (C)

Since 1945, Lieutenant Colonel [REDACTED] a reliable Communist, has risen to power in the SNB as Chief of Political and Education Officers. He is the Chairman of the ROH (Revolution Otkrova Hnutí - Revolutionary Union Movement) within the SNB. As Chief political and education officer, he possesses tremendous power to appoint and promote SNB officers and men and to purge those SNB officers who are not reliable enough for the Communists.

1. Reference Orientation and Guidance Report, dated 9 July 1948, Section Four, Part I, Paragraph 31, Page 14.

2. Current investigation disclosed that close collaboration between Soviet and Czech Military Missions in BADEN-BADEN (K49/R31) has been effected recently, for the purpose of collecting information and intelligence data. In recent weeks an increased flow of visitors, mostly Czech emigrants and Sudeten German refugees, have been observed passing through these agencies. These visitors usually arrive from the British or American Zone; some suspected of intelligence activities in these zones. The following persons have been identified as important couriers for the Czech intelligence nets:

- a. Full Name: Emil NEDELKO
Approximate Age: 50 Years
Nationality: Czech
Description: Height 170 cm, hair brown, oval face, clean shaven, well dressed
Miscellaneous: Arrived at Czech Military Mission at BADEN-BADEN on 16 November 1948, for conference with Soviet officers. Left BADEN-BADEN on 18 November 1948 ostensibly for British or American Zone
- b. Full Name: [REDACTED] (b) (7) (C)
Approximate Age: 30 to 32 Years
Nationality: Czech emigrant
Description: Reddish hair, round fleshy face, slender build, approximately 165 cm tall.
Miscellaneous: Acts as courier for British Zone

3. Some of the recent visitors passing through the Czech Military Mission at BADEN-BADEN have been instructed to proceed to Czechoslovakia. The Czech informant nets presently active in Western Zones are relying heavily on Sudeten German refugees.

SOURCE: P-3104-IV-X

EVALUATION: C-2

4. AGENT'S NOTES AND COMMENTS:

a. Source has been instructed to obtain more information on SUBJECT to include the following:

10 Aug 48. C-4. Member of CSR Legation in VIENNA. As an officer in the Czech Army occupied minor positions in intelligence before the war. When the Germans in 1938 he was one of the few intelligence officers not arrested by the Gestapo. He later worked as a price-controller for the Germans. Not a Communist then. Was nominated Chief of Police by [redacted] Secretary of KSC in BRNO; and later, again through [redacted] influence, was transferred to the Ministry of Interior. End of 1946 a reorganization of the Security Dept took place. Since the other parties strongly opposed [redacted] the government asked for his removal. [redacted] after consulting the KSC, promised to remove him; and to avoid trouble sent [redacted] to the Legation in VIENNA. [redacted] objected to the transfer, saying that he would be killed by Americans and British there.

[redacted] colleagues consider him to be unreliable and sadistic. [redacted] rates himself as one of the best intelligence men in CSR and summarily dismisses his colleagues as unfit. He enjoys playing one faction against another so that he can be used as an intermediary in the disputes. His personal life is highly questionable. In spite of his known sadistic tendencies, he is constantly in fear of his own life and his methods of safeguarding his person are highly exaggerated. Above all he fears US and British I-services.

31 Aug 48. B-2. 1st Secretary of CSR Legation in VIENNA and present acting chief of the Legation. 26 Aug 48 refused to grant entry of [redacted] to the Legation even though [redacted] was chief of Passport Section 13 Sept 48. B-6. Member of KSC Action Committee in the CSR Legation in VIENNA. Formerly connected with the Repatriation Commission in the Legation. Through his high connections in the Ministry of Interior he replaced [redacted] as secretary to the Ambassador following [redacted] recall to CSR. As Secretary to the Ambassador is in possession of 3 types of codes used by the Legation; one for top secret material, one for secret material and one for general use. Is known to be very active in I-activities in VIENNA and keeps [redacted] informed on the activities of Legation personnel. Reportedly not too intelligent but is very ambitious and often deals in large scale black market activities.

26 Oct 48. B-3. Commander of CSR Legation in VIENNA. [redacted] who is attempting to get [redacted] replaced, states that he was commander of a Werkschutz unit at an arms factory in STRAKONICE under the Nazis. His wife is German and his brother-in-law was an agent for the Gestapo in VIENNA.

1. In compliance with verbal request of your headquarters, 15 November 1948, your attention is invited to the attached material submitted as a basis for a press release concerning the case of [redacted] alias [redacted]

2. The following is a brief resume of subject's case:

[redacted] was brought to ECIC on or about 2 May 1948, for exploitation as a possible espionage agent. After telling repeated stories, subject admitted being an intelligence agent of the Czechs. His "story" as told to interrogators at ECIC, is reflected in their interrogation report dated 13 July 1948. The leads contained in the interrogation report were sent to the field for development. Replies received from all regions other than sub-region WIESBADEN, failed to disclose information of any significance. On date of 22 October 1948, sub-region WIESBADEN submitted an exhaustive report covering the leads in their area. This report indicated that while subject's story might have been based upon a skeleton of truth, the information was basically either false, of no significance, or was deliberate mis-information. A copy of the WIESBADEN report was forwarded to ECIC with the suggestion that it be used as a point of departure in a re-interrogation of the subject with the hope that he might be "broken" and the truth obtained. On date of 16 November 1948, a verbal report was received from the interrogator at ECIC to the effect that subject had in effect repudiated the information contained in the interrogation of 13 July 1948. No additional significant information has been obtained from subject and the interrogator was pessimistic concerning the possibilities of obtaining the true story. The case of [redacted] is still pending, and its final disposition undetermined.

3. For your information.

(b) (7) (C)
Arrest and interrogation of a self-confessed Czechoslovakian intelligence agent was announced today by United States Army intelligence officers.

[REDACTED] alias [REDACTED] entered the United States Zone of Germany from Czechoslovakia last February, when he said he had been assigned by Czechoslovakian intelligence officers to cover areas of Bavaria and Hesse. [REDACTED] during his interrogation, has given information on Czechoslovakian intelligence schools and methods as well as personalities working in both Czechoslovakia and the United States Zone.

The confessed agent said he was sent to the US Zone to collect information concerning the identities, locations and activities of permanent Czechoslovakian refugees. He was informed by Czechoslovakian officers that he was not to avoid arrest and that his confinement in jail would legalize his stay in the US Zone. [REDACTED] was to contact the alleged head of a Czechoslovakian intelligence net operating in Land Hesse. Code names and designations had been assigned, and lists of Czechoslovakian intelligence personnel operating in the United States Occupation Zone were supplied to [REDACTED]

(b) (7) (C)
The admitted agent entered intelligence work in April 1947 and attended an intelligence school in DOKSY in July and August of that year. In the four-week course, [REDACTED] was instructed in intelligence, inter-communication, anti-interrogation techniques, and political education which amounted to a history of the Communist Party.

Students were taught how to collect information after making contacts with other agents in an intelligence net. This information was never to be recorded unless there was danger of its being forgotten. Letter and

number systems were used to convey written information. Oral information was passed to the head of the net who conveyed it to Czechoslovakian authorities over the border.

The head of the entire Czechoslovakian net for the US Zone is in MUNICH, according to [REDACTED]. He believes that the head may be a Czechoslovakian Army officer. [REDACTED] said that a net similar to the one in Germany exists in Austria also.

In the inter-communication course, the students were instructed in various methods to establish contact with other agents in the intelligence net. They were provided with passwords or identification words and told whom to contact and where. Contacts, according to the alleged agent, could be established in SELB, MUNICH, REGENSBURG, WIESBADEN, NUERNBERG and MARKTREDWITZ. Other contact points were not known to [REDACTED].

Anti-interrogation techniques were given to the students to use in the event of capture. These techniques are designed to delay and mislead counter intelligence investigators. [REDACTED] described a very complete course on this subject. Students were told how to stick to certain truthful skeletons upon which a fictitious story could be built. They were cautioned that in describing localities and individuals the actual person must exist but false descriptions could be given. They were carefully instructed on how to write a fictitious or misleading story. Students were supplied with false biographical stories. Various stratagems to be used during interrogations were shown to the students, such as giving similar names when they did not want to remember a particular name, to prevaricate and go into details, to arouse sympathy in the

interrogators by relating moving episodes from their lives, faking exhaustion or threatening to commit suicide, to pretend illness and forgetfulness, and to adjust themselves to the mentality of the interrogator.

The political indoctrination course consisted primarily of the growth of the Communist Party. It was repeatedly emphasized to the students that should an agent stop working or betray anything concerning his training and knowledge, he would be found and liquidated.

(b) (7) (C)
[REDACTED] said he remembered very little of the communist ideology which was taught under this subject.

(b) (7) (C)
The suspect, 28 years old, was born in Russia and moved with his family to NYMBURK, Czechoslovakia, at an early age. Until 1939 he worked as a clerk and in 1940 joined German forces and served in Czechoslovakia and Italy. [REDACTED] returned to Czechoslovakia in 1945 and joined the Communist Party. He was made a company sergeant major in the Czechoslovakian Army in 1946 but later resigned because of an embezzlement charge. The agent admitted that he had been recruited for intelligence work in lieu of punishment for his crime.

(b) (7) (C)
After his arrival in the US Zone, [REDACTED] gave a United States Constabulary interrogating team a detailed report of political, economic and military interest on Czechoslovakia. He was later picked up by United States intelligence and submitted to lengthy interrogations during which he confessed his espionage activities.

(b) (7) (C)
Detention and interrogation of [REDACTED] continue. Disposition of his case is expected in the near future.

1. Czech Intelligence Activities in the USA

Source states that Czechoslovakia had no agents in the United States prior to March 1948. [REDACTED]

[REDACTED] was selected for this purpose. His mission is to follow the activities of all the Czechs and Slovaks in the United States and to maintain files on them. He was ordered to become acquainted with Czechs and Slovaks in the country, especially the recent refugees, and to gain their confidence.

Due to a serious shortage of funds, [REDACTED] has no staff, although it is thought probable that he employs some of the Czechs in the United States to assist him. Source believes that Czechs born in America as well as those born in Europe are being approached.

2. Annexation of Slovakia by USSR

In 1945, at the time when Ruthenia was annexed by the USSR, the Slovakian Communists wanted to make Slovakia a part of the USSR also. [REDACTED]

3. SNB Arms

Source states that the SNB is well armed with weapons manufactured in the ZBRJ VVA plant in Brno and near BANSKA BYSTRICA. Source has no further information.

SUMMARY OF INFORMATION

1. This report is predicated upon information received from Czech refugees, Czech illegal border crossers (prior to Soviet coup in February 1948), and C-18-VI, regarding intelligence personnel in the service of the STB (Statni Bezpecnosti - Secret Police).

2. During the recent influx of Czech refugees across the border into the US Zone of Germany, several gave information regarding Czech STB agents. A list of these Czech STB agents is attached as EXHIBIT "A". This embodies all information known to this office regarding these personalities.

3. There is a possibility that some of these agents may have since been transferred south of the area covered by the SELB (M51/P18) Field Office, due to Czech Intelligence modus operandi of re-assigning their personnel at certain unknown periods of service in an area, in which event CIC Region V may be able to develop further information on their activities.

4. Although some of the information contained in the attached exhibit has been gathered in the past few months, it is believed the individuals named are still active.

5. Evaluations are as stated in individual items. It is recommended that this report be forwarded and that Region V be serviced with copies.

b. A trial informant reported that a man by the name of [REDACTED] (in English [REDACTED] is an MVD agent (see paragraph 2 a above). He goes by many names but is known by most people as [REDACTED]. His real name is [REDACTED]. He is twenty-nine (29) years of age, intelligent, speaks, reads and writes perfect English, French, and speaks Spanish, Russian, Czech, Polish and other Slavic languages. [REDACTED] sends all of the names of the members of the PRACHALA Movement to the CSR. [REDACTED] is also endeavoring to collect the names of the new Czech refugees to be forwarded back to the CSR. [REDACTED] has been in the employ of the USA and Russia. He worked as an MVD agent in Paris, France with one [REDACTED] (female). [REDACTED] also worked for a Russian

espionage ring in VIENNA, Austria, which forwarded the information back to the CSR. [REDACTED] allegedly acquired his knowledge of English while he was in NEW YORK, USA. He has been seen in MUNICH (M49/Y85), PASSAU (N49/Q21) and REGENSBURG (N50/U15) areas.

[REDACTED] is working for the Ministry of interior, CSR. She was a film actress, has a very good memory, is intelligent and is very good looking. She resides in PARIS, France, Rue de Seine, Hotel SEINE. According to the latest information, she is to come to Germany. She has been provided with a special camera for espionage work. Her instructions are to contact an American Intelligence Unit and try to get employment with them. She endeavored to get employment at the American Consulate in PARIS, but met with failure. At present she is obtaining most of her espionage information from the French Police. She is supposed to cross the border illegally from France into the American Zone of Germany, and pretend to be a new Czech refugee. Without failure she is to get into the American Zone and contact an American Intelligence Unit.

c. [REDACTED] reported that [REDACTED] and [REDACTED] are known to the PRACHALA Movement as Czech agents. [REDACTED] was with the Czech Brigade in England during the last war. He is a young fellow who through fortune came into the possession of a large textile firm shortly after the war. The Communist faction in the CSR threatened to take this firm unless [REDACTED] did espionage work. [REDACTED] receives his orders directly from the Ministry of Interior, CSR. [REDACTED] has a legitimate Czech passport and travels in Germany, France and Belgium as an export agent for this firm.

[REDACTED] and [REDACTED] have been working together for some time. During their last trip to Belgium, they pretended to be enemies and argued in public, then each sought sympathy from members of the PRACHALA Movement. This enmity was used as a cover to obtain the names of the members of the PRACHALA Movement, in which they succeeded. [REDACTED] spent seven (7) years in the United States prior to the last war. He is in possession of an American identification card of some sort that contains his picture and thumb-print. Inasmuch as he speaks perfect English and has this identification card, he contacts many American soldiers who believe him to be an American and talk quite freely. [REDACTED] bragged about how easy it was to obtain information through this method. He also was able to get the names of people residing in the CSR who are sympathetic with the PRACHALA Movement and Western Powers. About fourteen (14) days ago, [REDACTED] received word from [REDACTED] from PRAG, CSR, that he intends to return to Belgium soon.

3. Inasmuch as this information has been received from three (3) different sources who are not known to one another, there can be no doubt about [REDACTED] and [REDACTED] being Czech espionage agents.

a. Suggest that this information be forwarded to CIG NURNBERG (M50/040) for their information.

MEMORANDUM FOR THE OFFICER IN CHARGE

SUBJECT: [REDACTED]

RE: Czechoslovakian Activities

1. Reason for Investigation:

Investigation made in compliance with paragraph 2e of MOIC, Sub Region Frankfurt, dated 31 March 1948, subject as above, and Orientation and Guidance Report #7, part 1, paragraph 154.

2. Results of Investigation:

a. [REDACTED] Czechoslovakian Council General referred to in paragraph 2a of above mentioned MOIC is definitely in sympathy with the present Czechoslovakian Government. On one occasion he was approached by a former Czechoslovakian official who refused to return to Czechoslovakia and who desired to go to Belgium. The passport of this former official had expired so he approached [REDACTED] believing him to be a close friend and requested that [REDACTED] merely stamp his visa; instead [REDACTED] reported him to the Czechoslovakian Ministry of Interior.

[REDACTED] is also, according to [REDACTED] believed to employ Germans, whose primary mission is espionage for the Czechoslovakian Government. C-2

b. [REDACTED] stated that the SNB (State Security Police) was responsible for border control and for that reason most of the former members had been removed. They have been replaced by more 'trusted' persons. The SNB is controlled by the Ministry of Interior, as are all of the other branches of the police, with the exception of possibly an intelligence net operating solely under the Communist Party. C-3

c. [REDACTED] is in possession of a copy of the new Czechoslovakian Constitution of which Article 42, (1) states, "I promise that I shall be faithful to the Czechoslovakian Republic, and its popular democratic institutions, I shall keep its laws and fulfill my obligations to the best of my knowledge and conscience to the prosperity of the people and the state." (2) "Refusal of this promise or the promise with reservations results in immediate loss of mandate." All persons employed by the Czechoslovakian Government on any level must take this oath. C-1

d. Czechoslovakian refugees in the Camps in the US Zone of Germany are forming into small Anti-Communist groups, according to their Religious and Political affiliations. This is regarded by the more informed refugees as being dangerous, therefore there is some talk among Czechoslovakian refugees that one central group will be formed. It is hoped by these refugees that the U.S. will grant recognition to this group either officially or unofficially. The person who is to lead this group is to be [redacted] former Czechoslovakian Ambassador to the United States at Washington. C-3

(b) (7) (C)
e. [redacted] a member of the Czechoslovakian Mission of Restitution Control Branch MUNICH, supposedly an anti-communist, received permission from U.S. authorities to bring his wife and sons to the US Zone of Germany. He made application to the Czechoslovakian Ministry of Interior for passport for his family. The passport was issued and a few days later a (SMB) policeman called on his wife and stated that he had been instructed to pick up the passport. [redacted] was told that he was not worthy of the consideration, and further that his personal property was to be turned over to the State. C-2

(b) (7) (C)
f. [redacted] US Army civilian and member of Restitution Control OMCS, Karlsruhe, stated that [redacted] had joined the mission in April 1946 at ROECHT, Austria. [redacted] remained with the mission until December 1946 at which time he became chief of the mission. [redacted] has always appeared to be an anti-communist; he has entered into heated arguments with pro-communist elements of the other missions. [redacted] is firmly convinced that he will be ordered to return to Czechoslovakia in the near future. On 19 April 1948 he sent his wife with [redacted] to the British Consul in FRANKFURT to procure a British Visa. [redacted] does not intend to return to Czechoslovakia, even if so ordered. While at the British Consulate in FRANKFURT [redacted] was told that [redacted] was being watched by agents of the Czechoslovakian Government. A-2

3. Agent's notes, comments and recommendations:

(b) (7) (C)
a. It is recommended that Sub Region FRANKFURT contact the British Consulate and determine the truth of this statement.

b. That an effort be made to determine who is employed by [redacted] the Czechoslovakian Council General.

MEMORANDUM FOR THE OFFICER IN CHARGE

SUBJECT: Czechoslovakian Activities

Re: Czech Agents

1. Reference is made to Top Secret Orientation and Guidance Report No. 7, dated 28 February 1948, Headquarters, 970th Counter Intelligence Corps, EUCOM, Section Five, Part-1 Paragraph 154 c.

2. Information has come to this office that a representative of the CSR Radio is living at the Park Hotel at FRANKFURT (L56/M67), one [redacted] description as yet unknown. His assignment here is to report on the political situation in the US Zone of Germany. [redacted] a Czech refugee, overheard one of the daily telephone conversations which [redacted] holds with the CSR Radio station. The conversation concerned itself with the conduct and outcome of the election here in Germany. [redacted] commented on the courageous manner in which the KPD managed to hold its own against the combined forces of the Capitalistic parties. He stated that the KPD was being discriminated against by the German police and was hindered in every possible way in their election campaign. As an example, he made reference to the burning of a KPD sign near the Hauptwache and also the removal by the police, of many of their posters on the Hauptwache itself. (The Hauptwache is a very busy intersection in FRANKFURT).

a. [redacted] and his wife, refugees from CRS, reported that the Communist Student Leader of PRAGUE, CRS, is living in the Czech Refugee Camp at DIEBURG. [redacted] and he gave the following particulars about this man: Name: [redacted] Age: 24-26 years old, Height: 1.70, Weight: 65-70 Kilo, Hair: Black, and a long face.

3. Agent's Notes, Comments and Recommendations:

a. [REDACTED] ex-chief of the Czech Liaison Section, AGC, Headquarters MUNICH, APO 757, presently Czech Consul General, [REDACTED] is said to be an opportunist, who is playing both sides until a complete break occurs between the Soviets and the Western Allies. It is said that [REDACTED] reports directly to the Ministry of Interior in PRAGUE, which controls and directs the Czech intelligence activities.

g. [REDACTED] chief of the Czech Restitution Mission in KARLSRUHE (L50/B44), is an overt anti-Communist, who expresses his feelings vehemently. He is married to a British national. Source claims that [REDACTED] might be willing to help the Western Powers.

f. [REDACTED] who was the Czech Consul General in MUNICH, was recalled about 8 March 1948 just before the crisis. According to source he was tried for dealing with the Germans in 1935, then cleared. Because of differences of opinion existing between [REDACTED] and [REDACTED] diplomatic passport was taken away from him. e. [REDACTED] employee in the B Section (Chiffre) at the Ministry of Foreign Affairs, has been arrested and accused of espionage activities for the Western Powers. He should not be confused with a [REDACTED] who was attached to the Czech Consulate in HAMBURG (L54/S55).

Alleged Agents of the CIS

SUMMARY OF INFORMATION:

The following information was submitted to this office by an informant who recently arrived in Austria from Czechoslovakia:

Subjects, who are both employed in the Sales Department of Tatra Automobile Corporation of Kopřivnice, CSR, are currently making a trip around the world, ostensibly to advertise and demonstrate the Tatra automobile. However, Source, who met Subjects personally while in Military Training near Brno in December 1946, states that both [REDACTED] and [REDACTED] were at that time members of the Czech Intelligence Service and were already planning a trip around the world in an intelligence capacity. On 28 February 1948, Source heard over Radio Prague that these men were already in Africa, and would soon depart for Australia. From there they plan to visit South America, Canada and the USA. Source further states that these two men are still Agents of the CIS and are using the automobile demonstration scheme only as a cover for collecting intelligence information.

Descriptions of Subjects are as follows:

(b) (7) (C)

2. Summary

a. Personal History

(1) Subject was born [REDACTED] in [REDACTED] near [REDACTED]. He attended ~~Volkschule~~ in NEUMARK near TAUS from 1931 till 1936, and attended secondary school in PILSEN from 1936 to 1938. From 1939 until 1942, he attended secondary school in KARLSBAD. (C-1)

(2) Subject attended the Wehrmacht vehicle drivers' school in 1942 in VIENNA. On completion of this training course, he was sent to Holland, where he remained until June 1943. He returned to KARLSBAD where he attended school again until November 1943. Subject served in the German Labor Service from November 1943 until February 1944, and served in the army from February until July 1944, when he was discharged for epilepsy. (C-1)

(3) [REDACTED] lived in FALKENAU (N51/P58) until 10 November 1945, when he left Czechoslovakia and came to MARKTREDWITZ. He lived there until his arrest by Constabulary troops on 9 November 1946. (A-1)

b. Illegal Activities

(1) Subject first crossed the border illegally, allegedly on a lark, at about noon, 25 August 1946. He crossed near MUHLBACH, (M51/P27), Czechoslovakia, and was arrested shortly afterward by the SNB (Police) of that town because he could not produce Czechoslovak identification. (D-2).

(2) When searched by the police, [REDACTED] had in his possession a copy of "Identification and Pass Guide", issued by Headquarters, Third US Army, a restricted pamphlet with samples of identity documents in use in the US Zone. When this was found on him, he was immediately suspected of espionage, and was turned over to the OBZ (Military Intelligence) detachment of the 33rd Infantry Regiment at EGER (N51/P37) (D-2)

(3) After being interrogated by various persons, and being repeatedly accused of being an American agent, he was finally interrogated by [REDACTED] the chief of the OBZ Detachment in EGER. [REDACTED] questioned him extensively on a list of eighteen points which he had on a list before him. To the best of [REDACTED] knowledge, the points were as follows:

- (b) (7) (C)
- (a) CIC ✓
 - (b) CID ✓

 - (q) Attitude to Czechoslovakia of occupation power.
 - (r) German Railway Police.

(b) (7) (C)

(4) [REDACTED] claims that he obtained the Pass Guide from an American soldier who had deserted his unit in September 1945, and had spent a good deal of time around that section of the border. He claims not to have known the American's name, but claims that he was arrested by [REDACTED] then PSO in MUNSIEDEL, in June 1946. (D-3)

(5) Subject was held six days in a cell at the EGER army barracks, after which he was moved to KARLSBAD. There, he believes that the KARLSBAD detachment refused to accept him, but sent the case on to higher headquarters. At any rate, he was immediately sent back to EGER, and was transported the next day to TABOR (050/M01), which he claims is the national headquarters of the OBZ. (D-2)

(6) [REDACTED] was interrogated there by a [REDACTED] who offered him the opportunity to work for the OBZ in the U.S. Zone of Germany. (D-2) He agreed, and was given the following mission:

- (a) Czech political emigration to the U.S. Zone.
- (b) Their connections with other countries.
- (c) Financial support.
- (d) Connections in Czechoslovakia; have they agents there?
- (e) Have they troops?
- (f) Relationship to other Slavic emigrants in Germany or Austria.
- (g) Important persons, centers, headquarters; especially MUNICH, NUREMBERG, and REGENSBURG.
- (h) Connections with other zones of Germany, especially the French Zone.

(Statement of mission evaluated D-5)

(7) Subject was then issued a Soviet made 7.65 caliber automatic pistol and shoulder holster, and was entered on the rolls as an agent of the OBZ, at 2100 crowns monthly salary. He claims that he was never sworn into the Czechoslovak army, nor did he take an oath of any sort. (D-2).

c. First mission.

(1) [REDACTED] returned to EGER, stayed there one night, and crossed the border back to Germany on September 26. He had been given his German identification papers and 1,000 marks as expense money. After staying a few days at his home in MARKTREDWITZ, [REDACTED] traveled by rail to REGENSBURG. He stayed three or four days at the home of his uncle, [REDACTED] in LANCENFELING (M49/U34), near REGENSBURG. (D-2)

(2) [REDACTED] spent his days there in REGENSBURG, and learned the following in the performance of his mission:

- (a) There is no organization of Czech emigrees in REGENSBURG.
- (b) There is a Polish guard company consisting of 70 Poles and 50 Czechs. All are armed with American carbines. (D-2).

(3) Subject then traveled to MUNICH, where he was to find the same type of information by investigating the following leads:

(a) [REDACTED] reportedly living at [REDACTED] formerly of PILSEN, reportedly agitating against the present Czech Government.

(b) [REDACTED] reportedly living at [REDACTED] also supposed to be agitating against the present Czech government.

(c) [REDACTED] reportedly an informant for MUNICH CIC.
(d) Two Czechs, names unknown, reportedly informants of
FUERSTENFELDERBUCK (M49/Y56) CIC.

(4) Subject claims that he was in the FREISING MG office on a pretext, and when the opportunity presented itself, he stole a copy of the official telephone book, which was lying on the desk. He claims to have left town immediately afterward, before he had much time to work on the above assignments. (D-2)

(5) While on the train returning to MARKTREDWITZ, [REDACTED] overheard conversations which led him to believe that the persons were engaged in illegal border activities. Two Czechs from EGER, [REDACTED] and [REDACTED] were discussing the transporting of wine into the U.S. Zone and returning to Czechoslovakia with cigarettes. [REDACTED] is a wine dealer in EGER. Subject does not know whether they are engaged in intelligence activities. In addition, he overheard a [REDACTED] of WEIDEN (M50/P12) speak of traveling back and forth across the border. (D-2)

(6) [REDACTED] stayed in MARKTREDWITZ for two days, and returned to EGER to make his report to [REDACTED]. [REDACTED] was apparently satisfied with it, and gave Subject 2,000 marks further expense money. He was sent back allegedly to investigate a report that a new Czech government was set up at FISCHENBACH near BAMBERG. (D-5) n. b. No one in Sub-Region BAMBERG has ever heard of such a town. In addition, [REDACTED] gave him ten dollars (\$10) in scrip and told him to see how many cigarettes he could buy with it. (D-3)

d. Second mission

(1) Subject remained in EGER two days, and returned to Bavaria on 7 October 1946. Subject claims that at this time he decided to get out of the OBZ if he could, and to report the matter to CIC. (D-5) He claims to have traveled to SCHWABACH (M50/T38) and looked for a soldier he knew in 53rd Constabulary who worked with CIC. He claims not to have known the man's name, but that he was always called "Slim". He says that he was stopped by the German guard at the 53rd Constabulary office, and could not contact "Slim". (D-4)

(2) Subject states that on Sunday night, 26 October, he broke into the garage of the MARKTREDWITZ UNRRA office and stole a small Opel sedan. He drove this vehicle to SCHIRNDING (M51/K2174), and drove from there toward the Czech border on the road to MUEHLBACH (M51/K2575). Just before he reached the border, the engine broke down, and he was unable to proceed further. He continued by foot to MUEHLBACH, stayed overnight at the border police station, where he claims to be well known, and continued in the morning to EGER, where he reported to [REDACTED] (D-2).

e. Third Mission.

(b) (7) (C)

(1) Upon his return to Bavaria, [REDACTED] immediately (29 October) contacted Special Agent [REDACTED] of SELB (M51/P18) Field Office. He told [REDACTED] a story about having been in Czechoslovakia from 25 August until early October, concealing completely his first mission, and claimed no further desire to continue to work for Czech intelligence. (A-1)

(2)

[REDACTED]

On 6 November, at 0145 hours, Subject broke into the UNRRA garage for the second time, and stole a Mercedes sedan. He was this time successful in crossing the border, and turned the vehicle over to Senior Lieutenant [REDACTED] of the EGER OBZ detachment.

(3) [REDACTED] returned to Bavaria, and was in the MARKTREDWITZ railroad station on 8 November when it was raided by Constabulary. f. Information pertaining to Czechoslovak intelligence organizations.

(1) The OBZ generally has detachments at all Czech army headquarters down to and including regimental level. They are given cover names, such as VOJENSKY UTVAR 9999 (Military unit 9999). Although they are referred to always by these designations, and the personnel are, as far as [REDACTED] knows, completely military, the OBZ is responsible to the Interior Ministry, and not to the War Ministry. (D-2)

(2) The EGER OBZ detachment is attached to the 33rd Infantry Regiment, and its office is located in the 33rd Regiment barracks. Its cover name is VOJENSKY UTVAR 4515 (Military unit 4515). Its jurisdiction covers EGER county as far east as KÖNIGSBERG (N51/P48). (D-2)

(3) There are similar detachments (and Infantry Regiments) at ASCH (N51/P19), FALKENAU, GRASLITZ (N51/K40), and NEUDEK (N51/K50). (D-2)

(4) The next higher echelon of command, which has jurisdiction over the detachments mentioned in the preceding paragraphs, is located at KARLSBAD (N51/P69). (D-2)

(5) Beyond KARLSBAD, the chain of command runs to PILSEN, which is a divisional headquarters. There is an office at MARIEBAD (N50/P56) which is on the same echelon as KARLSBAD. (D-3)

(6) The national headquarters of the OBZ is at TABOR, and has the cover name Vojensky Utvar 2114. Subject saw a large number of Soviet personnel at TABOR, but never at any other echelon of the OBZ.

(7) The EGER OBZ detachment is staffed by four (4) persons. They are as follows:

(a) [REDACTED] about 5'7" tall, Captain, nearly always wears civilian clothes, in his early thirties, plump, brown eyes, brown hair, somewhat bald, well tanned face, speaks fluent German, understands English slightly. (D-1)

(b) [REDACTED] Senior Lieutenant, about 28 years, 5'8" or 9" tall, powerfully built, blond hair combed straight back, gray eyes, light complexion, speaks English, German and Russian fluently; was Junior Lieutenant until 1 September 1946, when he was promoted to Lieutenant; he was promoted on 1 November 1946 to Senior Lieutenant. (D-2)

(c) [REDACTED] Sergeant, guards prisoners

(d) [REDACTED] corporal, chauffeur. (D-2)

g. Police organization.

(1) Outside the normal police organization, the SNB, there exists in Czechoslovakia the STB, STATNI BEZPECNOST (National Security Service) which is also responsible directly to the Interior Ministry.

(2) The STB is divided into four (4) main branches:

- (a) Criminal police.
- (b) The CIZINECKA, which controls Transients and foreigners.
- (c) The ZOB, ZPRAVODJSKA OBRANA, an industrial intelligence organization (similar to FIAT)
- (d) IZS, INFORMACNI a ZPRAVODAJSKA SLUZBA, an organization about which [REDACTED] is not well informed. (D-2)

3. Agent's notes

(b) (7) (C)
a. Although [REDACTED] is obviously not a high level espionage agent, his primitive resourcefulness and daring make him potentially a grave security menace to the United States Forces. However, it is not believed that an espionage trial is necessary since he is already charged with civil offenses under which he will, according to Military Government, receive a sentence of at least ten years imprisonment. This office is being kept informed about the status of the case.

b. In this agent's opinion, Subject's statements as to his mission in the U.S. Occupation Zone are somewhat incomplete, if not out and out lies. It seems obvious that he was instructed to state that he was only interested in anti-Prague Czech activities since the Czechs probably believe that American authorities consider this form of espionage not as serious as that directed against the U.S. occupation itself. It is probable that on his second and third missions he was directed to directly contact CIC, gain their confidence, and act as a "double agent".

c. One aspect of this case may have importance other than of Counter Intelligence interest. According to his statement, and partially confirmed by known facts, [REDACTED] stole two automobiles in the U.S. Zone of Germany acting under orders of an officer of the Czechoslovak government, and succeeded in transporting one of them illegally across the border. Upon receipt of the automobile, and in full knowledge that it was the property of UNRRA, and licensed for the U.S. Zone, the Czech officer utilized the vehicle for official business, and it was not returned until demanded by an American Military Government Officer. It is this Agent's opinion that this is a matter about which the appropriate Czechoslovak liaison authorities should be informed.

Re: CZECHOSLOVAK INTELLIGENCE ACTIVITIES

The following information was received on
December 9, 1963, from [redacted] of [redacted]
[redacted] New York City:

[redacted] advised that, in the course of his
work he often travels to East European countries. [redacted]

[redacted] He had occasion to attend the film forum at Brno,
Czechoslovakia, from November 4 to 17, 1963.

While at the bar in the International Hotel at
Brno, one evening during the film forum, [redacted] and
his American colleague, [redacted] named [redacted]
were approached by an unidentified girl. This girl intro-
duced herself only by the first name [redacted] She spoke
fluent English and German in the presence of the guests,
and claimed to be able to speak five languages. In the
course of further conversation, [redacted] claimed to have
been in jail at one time; to have previously worked for
a travel agency; to be able to exchange U.S. currency
into Czechoslovak crowns, upon request, at the rate of
Kc 32 to the dollar; and to have been retained by the
hotel for the entertainment of foreign guests.

b7C

b7D

On a later occasion, when [redacted] and
[redacted] (the latter from the [redacted])
were entertained by a few men from the
Czechoslovak film industry at a "wine cellar" near Braclev,
[redacted] was surprised to find the girl known as [redacted]
at the affair. [redacted] gained the impression that she
was attempting to overhear the conversation of the American
guests.

Shortly before leaving Czechoslovakia, [redacted]
received information confidentially from [redacted]
[redacted] upon whom he feels he can rely. [redacted]
indicated to him that he had been advised by [redacted]
